Independent Auditor's Report

To the Plan Administrator and 401(k) Plan Trustees
First Federal Savings Bank
Salary Savings 401(k) Plan
Ottawa, Illinois

We were engaged to audit the statements of net assets available for benefits of First Federal Savings Bank Salary Savings 401(k) Plan (the "Plan") as of December 31, 2010 and 2009 and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR Section 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Emjay Corporation, the trustee of the Plan, and Nationwide Life Insurance Company of America, former plan custodian, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee and custodian hold/held the Plan's investment assets and execute/executed investment transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the trustee and custodian regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the trustee and custodian as of December 31, 2010 and 2009 and for the year ended December 31, 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of First Federal Savings Bank (Employer) who have reached age 21 and have completed one year of service with 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Funding policy:

The Plan allows each participant to enter into a salary reduction agreement for each plan year. Participants may contribute up to the maximum percentages allowable, not to exceed limits defined in certain sections of the Internal Revenue Code. The Plan allows the Employer to make a discretionary matching contribution based on a percentage of the participant's salary reduction contribution. For the year ended December 31, 2010, the Employer matched 25% of each participant's salary reduction contribution up to 4% for a maximum amount equal to 1% of the participant's eligible compensation. The Plan also has a required Employer fixed safe harbor nonelective contribution equal to 4% of each participant's eligible compensation.

Participant accounts:

Each participant's account is credited with the participant's contributions, the Employer's discretionary matching contributions, an allocation of the Employer's fixed safe harbor nonelective contribution, Plan earnings and forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account. The Plan allows each participant to choose their own investment mix for salary deferrals and Employer contributions based on various risk levels. If a participant does not designate any investment options, all contributions to their account will be deposited 50% into the Oakmark Equity & Income Fund and 50% into the T. Rowe Price Capital Appreciation Fund.

Vesting:

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Employer contributions and earnings thereon are based on years of continuous service. A participant is 100% vested after six years of credited service.

Forfeitures:

Forfeitures of terminated participants' nonvested employer portion of their accounts are reallocated to all eligible participants. Unallocated forfeitures included in net assets available for benefits were $5,253 and $4,402 as of December 31, 2010 and 2009, respectively.

Payment of benefits:

Upon the date of normal retirement, early retirement, death, total and permanent disability or termination of service, a participant may receive a lump-sum amount equal to the value of the vested portion of their account or monthly installments for a fixed period of time.

Note 1. Plan Description (Continued)

Notes receivable from participants:

The Plan allows eligible participants to borrow funds from the Plan. Under the terms of this provision, borrowings are subject to certain limitations, including a minimum borrowing of $1,000, a maximum borrowing of the lesser of $50,000 or 50% or the participant's vested account balance, and a maximum term of five years or a reasonable period of time for loans used to acquire a principal residence.

Note 2. Summary of Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the exdividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invested in deposit administration contracts (Fixed Income Fund) with Nationwide Life Insurance Company of America (Nationwide) who maintained the Plan's deposits in an unallocated fund, to which it added interest at the contract rates which ranged from 3.62% to 4.91% as of December 31, 2009. The fund was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Deposits into this contract were guaranteed the contract minimum rate of return. The contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan. Withdrawals were permitted at any time without penalty and the contract was determined to be fully benefit-responsive.

Note 2. Summary of Accounting Policies (Continued)

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest.

Payment of benefits:

Benefits are recorded when paid.

Recent pronouncements:

In January 2010, FASB issued an amendment, ASU 2010-06, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*, which requires new disclosures and reasons for transfers of financial assets and liabilities between levels 1 and 2 and also clarifies that fair value measurement disclosures, including discussion of input and valuation techniques, are required for each class of financial assets and liabilities. This part of the amendment was effective and has been adopted for the Plan's year ended December 31, 2010. The amendment further clarifies expanded disclosure requirements related to reconciliation of level 3 measurements, which will be effective for the Plan's year ending December 31, 2011.

In September 2010, FASB issued an amendment, ASU 2010-25, *Plan Accounting-Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment requires retrospective application to all periods presented and was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect that retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $251,735 and $189,977 from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 or 2009 as a result of the adoption.

In May 2011, the FASB issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent events:

The Plan Administrator has evaluated subsequent events through August 11, 2011, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by the Plan Trustee and Custodians

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and former plan custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee and custodian that information provided to the Plan Administrator by the trustee and custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Note 4. Investments and Fair Value Measurements

FASB ASC No. 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2010 and 2009.

Mutual Funds: Valued based on quoted market prices in the active markets on which they are traded.

Fixed Income Fund: Investments in Fixed Income Fund were reported at fair value based on a formula specified in the Plan's Group Annuity contract which took into account the Fixed Income Fund's currently credited interest rate.

Common Collective Trust Fund: The unit value of these investments is determined dy the sponsoring Trust by dividing the fund's net asset value (NAV) by its units outstanding. The NAV is based on the underlying assets which are priced daily in active markets and are unadjusted quoted prices. There are no unfunded commitments related to those trusts as of December 31, 2010 and 2009 and amounts can be redeemed daily without restrictions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Investments and Fair Value Measurements (Continued)

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value as of December 31, 2010 and 2009. Those investments that represent 5% or more of the Plan's net assets are presented separately:

Note 4. Investments and Fair Value Measurements (Continued)

Level 3 gains and losses: The table below sets forth a summary of changes in fair value of the Plan's level 3 investments for the year ended December 31, 2010:

	Fixed Income Fund
Balance, beginning of year	$ 4,477,997
Change in adjustment from fair value to contract value for fully benefit-responsive investment contracts	(139,954)
Interest credited	152,007
Purchases, sales, issuances and settlements (net)	(4,490,050)
Balance, end of year	$ -

Note 5. Risks and Uncertainties

The investments of the Plan are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with such investments and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risks in the near term could materially affect investment balances and the amounts reported in the financial statements.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 7. Income Tax Status

The Plan is a defined contribution prototype plan and trust sponsored by Emjay Corporation. The prototype plan has received a letter from the Internal Revenue Service as to its qualified status. The Plan has been amended since receiving the determination letter. The Plan Administrator believes the Plan is designed and currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision of liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S federal, state or local tax authorities for years before 2007.
