Independent Auditors' Report

To the Trustee The Fourth Wall Restaurants, LLC 401(k) Plan New York, New York

We were engaged to audit the financial statements and supplemental schedule of The Fourth Wall Restaurants, LLC 401(k) Plan (the "Plan") as of December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Great-West Life & Annuity Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian of the Plan holds the investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

1. Description of the Plan

The following description of The Fourth Wall Restaurants, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Fourth Wall Restaurants, LLC (the "Company") covering all eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees of the Company are eligible to participate in the Plan after attaining 21 years of age and having been employed with the Company for at least six months.

Contributions

Under the Plan, an employee may make pretax contributions of up to 100% of base compensation, and the Company makes matching contributions up to 50% of the employee's contribution up to 3% of compensation. All contributions are subject to the maximum amount deductible for federal income tax purposes. The participant's annual contribution is limited to the maximum contribution allowable under Section 402(g) of the Internal Revenue Code (the "Code").

Any participant who is eligible to make participant deferral contributions and who has attained the age of 50 before year-end, may elect to make catch-up contributions in accordance with and subject to certain limitations.

A discretionary matching contribution may be contributed at the option of the Employer. The Employer did not make a discretionary matching contribution for the year ended December 31, 2010.

Participants Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's match and (b) plan earnings. Investment of each participant's account is participant directed and participants may change their investment options at their discretion.

At December 31, 2010, there were twenty pooled separate accounts and one common collective trust as investment options for participants.

Vesting

Participants are 100% vested in all salary reductions credited to their accounts and any earnings thereon. Vesting by each participant in employer matching contributions is based on years of continuous service as follows:

Notes to Financial Statements

Years of service	Vesting percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Payment of Benefits

Participants reaching age $59\frac{1}{2}$, the normal retirement age, may elect to receive their benefits payable in a single sum or installment payments. Upon the death or disability of a participant, a benefit in the amount of the participant's account will become payable to the beneficiary.

Forfeitures

Forfeitures resulting from the nonvested portions of participants' accounts who terminate prior to being fully vested may be used to reduce the employer's contribution. In 2010, there were no forfeitures used to reduce the Company's contributions. In 2010 and 2009, forfeitures of \$189 and \$0, respectively, were used to reduce the Company's contributions. At December 31, 2010 and 2009, there were no remaining forfeitures.

Participant Loans

Participant loans are carried at unpaid principal plus accrued interest. In September 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-25, "Reporting Loans to Participants by Defined Contribution Pension Plans." ASU 2010-25 updates Accounting Standards Codification Topic 962 - Defined Contribution Pension Plans. ASU 2010-25 requires defined contribution plans to report loans to employee as notes receivable rather than plan Investments subject to fair value reporting. ASU 2010-25 is effective for plan years beginning after December 15, 2010 and permits early adoption. The Plan adopted ASU 2010-25 effective for the year ended December 31, 2010 and, accordingly, includes employee loan balances as part of receivables on the statements of net assets available for benefits. ERISA rules require the Plan to report participant loans as Plan investments; accordingly these loans are included in Form 5500, Part IV, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as well as Form 5500, Part I, Line C8 - Participant Loans.

The Plan includes provisions that entitle a participant to request a loan not to exceed the lesser of 50% of the total value of the participant's vested account balance or \$50,000. The maximum term for repayment is five years, unless it is for the purpose of purchasing a primary residence. The fixed interest rate is based on a reasonable interest rate. The minimum permitted loan is \$1,000. The loans are re-paid through payroll deductions. Interest rates on loans outstanding on December 31, 2010 ranged from 4.25% to 6.00%.

Administrative Expenses

Expenses of the Plan may be paid by the Plan or the Company.

Notes to Financial Statements

2. Significant Accounting Policies Basis of Accounting

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments in pooled separate accounts are stated at fair value, based upon observable quoted inputs. While the underlying asset values of pooled separate accounts are based upon quoted prices, the net asset values are not publicly quoted. Shares of CCT's are valued at net unit value as determined by the trustee at year end except when holding fully benefit-responsive investment contracts. Participant loans are valued at their outstanding balances, which approximate fair value.

The Plan holds shares of CCT's that have investments in fully benefit-responsive investment contracts. For purposes of the Statement of Net Assets Available for Benefits, these CCT's are stated at fair value. As provided in the FSP, an investment contract is generally required to be reported at fair value, rather than contract value, to the extent it is fully benefit-responsive. The fair value of such investment contracts held by the CCT's are determined using the market price of the underlying securities and the value of the investment contract (see Note 5).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Disclosures about Fair Value Measurements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010·06, "Fair Value Measurements and Disclosures (ASC Topic 820) - Improving Disclosures about Fair Value Measurements." The standard added new requirements for disclosures about transfers into and out of Levels 1 and 2 and clarified existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. The portion of this standard related to these items was effective for the Plan in 2010 and its adoption did not have a significant impact on the financial statements. In addition, the standard added requirements for separate disclosures about the activity relating to Level 3 fair value measurements effective for the Plan on January 1, 2011. See Note 6 for the required disclosures.

In May 2011, FASB issued ASU No. 2011-04, Amendments to Achieve Measurement and Disclosure Requirements in US GAAP and International Standards (Topic 820) - Fair Value Measurement, which is effective for annual periods beginning after December 15, 2011. The new guidance relates to fair value measurements, related disclosures and consistent meaning of the term "fair value" in US GAAP and International Financial Reporting Standards. The amendment clarifies how to apply the existing fair value measurements and disclosures. For fair value measurements classified within Level 3, an disclose quantitative information about the unobservable inputs. A reporting entity is also required to disclose additional information like valuation processes, a narrative description of the sensitivity of the fair value measurements to changes in unobservable inputs and the interrelationships between those unobservable inputs.

Notes to Financial Statements

Risk and Uncertainties

The Plan provides for various investment options including any combination of pooled separate accounts and a common collective trust. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participants' individual account balances.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein. Actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Reclassifications

Certain items in the 2009 financial statements have been reclassified to conform to the 2010 financial statement presentation.

Subsequent Events

The Plan has evaluated subsequent events through August 23, 2011, the date on which these financial statements were available to be issued.

3. Information Certified by the Plan's Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Life & Annuity Insurance Company, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

December 31,	2010	2009
Statements of net assets available for benefits:		
Pooled separate accounts	\$1,556,833	\$1,296,962
Common collective trust	358,633	294,908
Notes receivable - participant loans	21,470	22,246

Notes to Financial Statements

Year ended December 31, 2010	
Statement of changes in net assets available for	
benefits:	
Interest and dividends	\$ 8,934
Net appreciation in fair value of investments	146,483

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

4. Investments

The fair value of individual investments that represent 5% or more of the Plan's net assets at December 31, 2010 and 2009 is as follows:

December 31,	2010	2009
Description		
American Funds Capital World G/I R3	\$426,715	\$388,021
First GWL&A Key Guaranteed Portfolio Fund	358,633	294,908
American Funds Growth Fund of Amer R3	317,257	243,390
Columbia Mid Cap Value A	107,789	103,284
American Funds Fundamental Inv R3	103,982	94,574
RidgeWorth International Equity Index I	*	96,003
American Funds Bond Fund of Amer R3	*	95,296

^{*} Represents less than 5% of net assets available for benefits in the respective year.

5. Common Collective Trust

The Plan entered into a benefit-responsive investment contract with Great West Life & Annuity Insurance Company ("GWL&A"). The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by GWL&A. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. As described in FASB ASC 962, "Defined Contribution Pension Plans" investment contracts held by defined contribution plan are required to be reported at fair value. Accordingly, contract value, which represents net contributions plus interest at the contract rate, approximates fair value. The contracts are fully benefit responsive. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendment to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Sponsor or other Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any prohibited transaction exemption under ERISA. The Plan Administrator does

Notes to Financial Statements

not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

6. Fair Value Measurements

The Plan follows the provisions of FASB ASC 820 "Fair Value Measurements and Disclosures" which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010.

Pooled Separate Accounts

Pooled separate accounts are valued at estimated fair value as determined by GWL&A based on its valuation of the underlying securities as of the last day of the Plan year. However, the net asset values are not publicly quoted.

Common Collective Trust

These investments are recorded at the net asset value (NAV) reported by the fund managers as a practical expedient to estimating fair value, as these investments do not have readily determinable fair market values. Due to the nature of the investments held by the collective funds, changes in market condition and economic environment may significantly impact the net asset value of the collective funds and, consequently, the fair value of the fund's interest in the funds. The fair value of these investments has been measured using the net asset values per share

Notes to Financial Statements

of the plan's ownership interest in the collective funds on an equivalent measure, where it is not probable that the fund will sell a collective fund at a price other than NAV. There are no collective funds with redemption restrictions or unfunded commitments as of December 31, 2010. The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2010 and 2009.

December 31, 2010

	Level 1	Level 2	Level 3	Total

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2010 and 2009:

	Commo	n Collective Trust
Fair value at January 1, 2009		\$216,493
Interest credited		9,453
Issuances, repayments and settlements, net		68,962
Fair value at December 31, 2009		294,908
Interest credited		7,848
Issuances, repayments and settlements, net		55,877
Fair value at December 31, 2010		\$358,633

Notes to Financial Statements

7. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 31, 2008, stating that the Plan was qualified under Section 401(a) of the Code and, therefore, the related trust was exempt from taxation. The Plan has been amended and restated since receiving this determination letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal, state and/or local taxing authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. Party-In-Interest Transactions

Certain Plan investments are shares of a common collective trust managed by GWL&A. GWL&A is the custodian of the Plan and therefore, these transactions qualify as party-in-interest. Participant loans also qualify as party-in-interest transactions.

10. Contributions

The Plan did not pass the Actual Deferral Percentage ("ADP") test for the plan year ended December 31, 2010. Excess contributions of \$15,542 and \$15,056 at December 31, 2010 and 2009, respectively, were reimbursed to its participants during 2011 and were accounted for as an excess contributions payable.

Total contributions for the year totaled \$269,086, of which \$44,617 was the total employer contribution and \$224,275 was the total employee contribution. During 2009, it was discovered that the Company had been improperly applying the definition of compensation, defined in the plan document, when calculating employee deferrals. The Company had excluded tips and bonuses when determining total compensation, although the plan document stated that tips and bonuses were to be included. The Company amended the plan document, during 2010 to state that tips that bonuses will not be included. This amendment had a retroactive effect; therefore, no correction for year 2010 was necessary. The Company made a correction during 2010 to adjust for the miscalculation of the employee deferral and the related employer match, based on the

Notes to Financial Statements

deferral during years 2007, 2008 and 2009. As a result, included in contributions is the amount related to this correction, which is \$85,353. Of this amount, \$18,905 was the total employer contribution and \$66,448 was the total employee contribution.

11. Reconciliation of Financial Statements to Form 5500

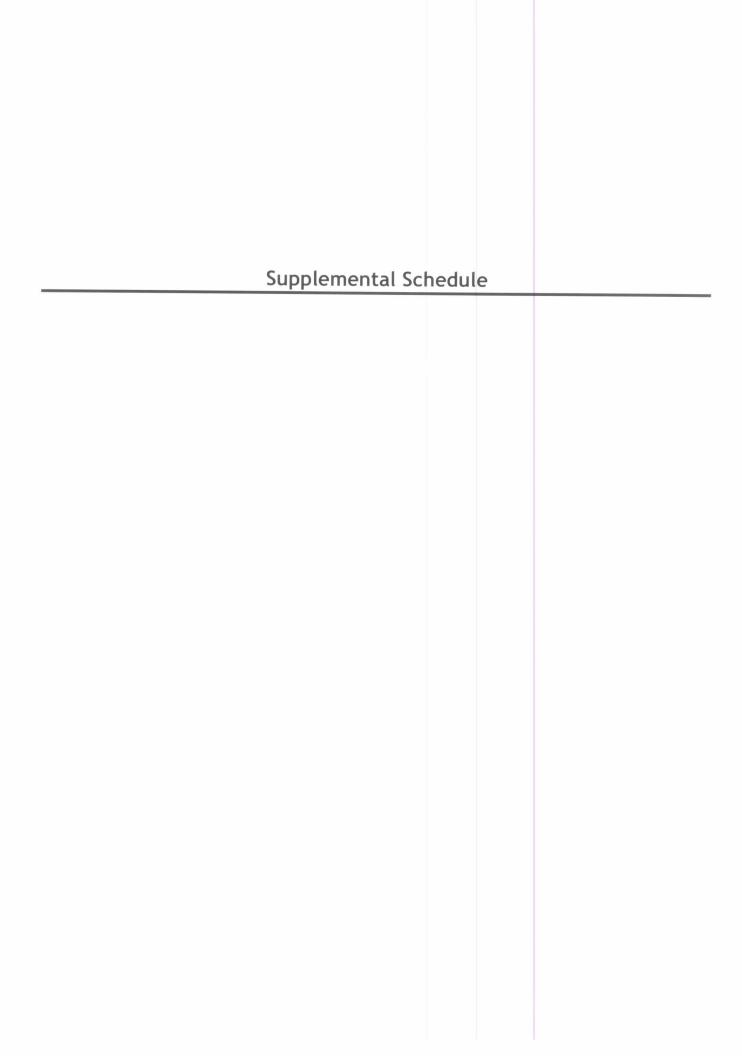

The accompanying financial statements have been prepared under the accrual basis of accounting which differs from the modified cash basis of accounting used to prepare the Plan's Form 5500. The differences principally represent the timing of the accounting recognition of transactions and other miscellaneous adjustments. Accordingly, reconciliations are presented below for the year ended December 31, 2010 and 2009.
