Independent Auditor's Report

July 26, 2011

To the Plan Administrator of the
Barton & Loguidice, P.C. Profit Sharing & 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Barton & Loguidice, P.C. Profit Sharing & 401(k) Plan as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental Schedule H, Line 4i – Schedule of Assets Held (At End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 6, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of the Plan

The following description of Barton & Loguidice, P.C. (the "Firm") Profit Sharing & 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution profit sharing plan under Section 401(a) of the Internal Revenue Code and has a Section 401(k) salary deferral arrangement. The Plan covers all employees who are twenty-one years of age or older. All assets acquired under the Plan are the result of employer or participant contributions thereto, and all income and other additions thereto are administered, distributed, forfeited or otherwise governed by the provisions of the Plan and the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Firm's annual profit sharing contribution to the Plan is discretionary, as determined by the Board of Directors. There were no discretionary profit sharing contributions made to the Plan for the years ended December 31, 2010 and 2009. Additionally, the Firm may contribute for each participant a discretionary matching contribution equal to a percentage of the participant's elective contributions. The Firm's discretionary matching contributions were $200,260 and $195,083 for the years ended December 31, 2010 and 2009, respectively. Participants are allowed to make elective salary deferrals up to the maximum amount allowed by the Internal Revenue Code (the "Code"). The Plan allows rollover contributions.

Vesting - Participants are immediately vested in their elective salary deferral contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. A participant is 100% vested after six years of credited service for any discretionary profit sharing and matching contribution.

Forfeited non-vested accounts totaled $25,868 and $19,090 at December 31, 2010 and 2009, respectively. These accounts will be used to reduce future employer contributions.

Participant accounts - Each participant's account is credited with the participant's elective salary deferral contribution and an allocation of the Firm's contribution, the Plan earnings and forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account balance. Under the Plan, participants are allowed to borrow funds against the participant's interest in the Plan at interest rates and repayment terms specified by the plan document.

Notes receivable from participants - Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Note terms range from one to five years. The notes are secured by the balance in the participant's account. Interest rates range from 5.25% to 10.25%. Principal and interest is paid ratably through payroll deductions. Any notes that are in default as defined by the plan document are reported as deemed distributions.

Investment options - Upon enrollment in the Plan, a participant may direct contributions to the Plan in any of forty-seven investment options. Participants may change their investment options daily.

Payment of benefits - On termination of service, a participant or beneficiary may receive a cash or lump-sum amount equal to the vested value of his or her account or installment payments over any period that does not exceed the life expectancy of the beneficiary. Benefits are recorded when paid.

Plan termination - Although the Firm has not expressed any intent to do so, the Firm has the right, under the Plan agreement, to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants will become 100% vested in their account balances.

Note 2 - Summary of accounting policies

Method of accounting - The Plan maintains its accounting records and financial statements on the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Risks and uncertainties - The participants invest the Plan's assets in any combination of investment options. Investment options are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Valuation of investments - Investments are stated at fair market value (see Note 5). All fair market values have been determined by Fidelity Management Trust Company, the Trustee of the Plan (see Note 4). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

The Fidelity Advisor Stable Value Portfolio is stated according to the Financial Accounting Standards Board Staff Position (FSP), *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pensions Plans* (FSP), which states that contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FSP, the accompanying statements of net assets available for benefits present the fair value of the

investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The accompanying statements of changes in net assets available for benefits is prepared on a contract value basis. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. If an event occurs that may impair the ability of the contract issuer to perform in accordance with the contract terms, fair value may be less than contract value. The average yield utilized was 2.37% and 2.70% and the crediting interest rate to the fund was 1.48% and 1.35% for the years ended December 31, 2010 and 2009, respectively.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Management individually reviews all notes receivable balances that exceed forty-five days from the date of the most recent payment and, based on the assessment of credit worthiness, estimates the portion, if any, of the balance that will not be collected. Currently, there is no valuation allowance recorded; however, management will record an allowance, if and when potentially uncollectible participant notes receivable becomes material. If a participant defaults on a note receivable, and distribution from the participant account has been made during the plan year because the participant has left the Plan, the defaulted note receivable will be reported as benefits paid to participants on the statement of changes in net assets available for benefits and deducted from the receivable balance.

Deemed distributions - Deemed distributions represent the amount of unpaid principal on participant loans for participants who are actively participating in the Plan and have not continued to make payments on the outstanding loans as required under the participant loan program. There were no deemed distributions for the years ended December 31, 2010 and 2009.

Administrative costs - Costs of managing the investments and of maintaining participant accounts are paid directly out of the Plan assets or paid by the Firm. Other administrative costs, including legal and accounting costs, are paid by the Firm.

Economic dependency and concentration of credit risk - Approximately 77% and 80% of the Plan's investments were invested with Fidelity Investments at December 31, 2010 and 2009, respectively. Accordingly, the Plan is dependent upon the financial condition of Fidelity.

Subsequent events - Management has evaluated subsequent events through July 26, 2011, the date which the financial statements were available for issue. There have been no subsequent events that would require disclosure or adjustment to the financial statements.

Reclassification - Certain amounts in the 2009 financial statements have been reclassified to conform to the 2010 presentation.

Note 3 - Tax status of the Plan

The Internal Revenue Service has determined and informed the Firm that the Plan and related trust are designed in accordance with applicable sections of the Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan trustees believe that the Plan is designed and is currently being operated in compliance with the

applicable requirements of the Code. Accordingly, the Plan has been accounted for as a tax-exempt plan.

The Plan is a tax-exempt plan. The Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses if such amounts arise. The Plan did not incur any penalties and interest for the years ended December 31, 2010 or 2009. The Plan is no longer subject to regulatory examinations by tax authorities for the closed years before 2007.

Note 4 - Life insurance

At the option of individual participants, the Trustees of the Plan are authorized to use a portion of the participant's 401(k) contributions to purchase whole life insurance policies. These policies are owned by the participants and death benefits are payable to the individual participant's account in the Plan. The cash surrender value of these policies at December 31, 2010 and 2009, was $44,558 and $44,013, respectively. Accordingly, the aggregate value of the participants and beneficiary statements was $11,974,524 and $9,887,052 at December 31, 2010 and 2009, respectively. See Note 8.

Note 5 - Related-party transactions

Certain plan investments are funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Investment fees paid by the Plan for investment management services were included in the net appreciation in fair value of investments on the accompanying statements of changes in net assets available for benefits. The Plan also contracts with Fidelity Management Trust Company to provide recordkeeping and third-party administrative services. These services qualify as party-in-interest transactions. Fees paid to this service provider amounted to $1,229 and $625 for the years ended December 31, 2010 and 2009, respectively, and are included in administrative fees in the accompanying statements of changes in net assets available for benefits.

Note 6 - Investments

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's *Rules and Regulations for Reporting and Disclosure under ERISA*. Accordingly, Fidelity Management Trust Company, Trustee of the Plan, has certified that the trusted investments and investment income included in the accompanying financial statements and supplemental schedule are complete and accurate. Furthermore, the Plan's independent accountants did not perform auditing procedures with respect to this information, except to compare such information to the related information included in the financial statements and supplemental schedule.

The Plan's investments, including gains and losses on investments bought and sold, as well as held, during the year is as follows:

	Year ended December 31,	
	2010	2009
Investment income:		
Net appreciation in fair value of investments	$ 1,431,378	$ 1,889,007
Interest and dividend income	143,767	136,350
Total investment income	$ 1,575,145	$ 2,025,357

Individual investments held that are 5% or more of the Plan's net assets ($596,498 for 2010 and $492,152 for 2009) are separately identified above.

Note 7 - Fair value measurements

FASB has published authoritative guidance on fair value measurements which, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the authoritative guidance are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered Investment Companies (i.e. mutual funds) - Valued at the closing price reported on the active market on which the individual security is traded (Level 1).

Common Collective Trusts - Priced on a daily basis using a blend of the contract's rate of return and liquidity component's daily mil-rate (Level 2).

Money Market Funds – Managed portfolios which consist of U.S. Government obligations valued at the closing price reported on the active market on which the individual security is traded (Level 2).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	December 31, 2010

Note 8 - Reconciliation of the financial statements to Form 5500

Cash surrender value of life insurance policies is not recorded in the financial statements as they are allocated insurance contracts. These amounts are recorded in Form 5500 as plan assets.

As explained in Note 2, Fidelity Management Trust Company ("Fidelity"), the Trustee of the Plan, has determined that one of the Plan's investments, the Fidelity Advisor Stable Value Portfolio, is a fully benefit-responsive investment contract and, accordingly, should be reported at contract value; however, Fidelity has prepared Form 5500 using fair value for this investment. Accordingly, there is a reconciling item between the reporting in Form 5500 and the financial statements for this investment.

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31,	
	2010	2009
Net assets available for benefits per the financial statements	$ 11,929,966	$ 9,843,039
Plus - Cash surrender value of life insurance owned by participants (Schedule H, Part I, Line 1c(15))	44,558	44,013
Less - Adjustment from contract value to fair value for full benefit-responsive stable value fund (Schedule H, Part I, Line 1c(9))	9,296	(818)
Net assets available for benefits per Form 5500 (Schedule H, Part I, Line 1l)	$ 11,983,820	$ 9,886,234

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to Form 5500:

	Year ended December 31,	
	2010	2009
Net change per the financial statements	$ 2,086,927	$ 2,613,466
Other income (Schedule H, Part II, Line 2c) - Change in cash surrender value of life insurance owned by participants	545	641
Net change in adjustment from contract value to fair value for the Fidelity Stable Value Portfolio Fund	10,114	27,735
Net change per Form 5500 (Schedule H, Part II, Line 2k)	$ 2,097,586	$ 2,641,842
