**NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 DESCRIPTION OF PLAN**

The following description of the Keihin Carolina System Technology, Inc. ("Company") 401(k) and Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General Information

The Plan, effective April 1, 1999, is a defined contribution plan established by the Company to provide retirement income for participants and their beneficiaries. Substantially all employees of Keihin Carolina System Technology, Inc. (Company and Plan Sponsor) are eligible to participate in the plan if they are over the age of 18. A participant will be eligible for matching contributions and discretionary employer contributions after one year of eligible service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Employees may make voluntary pre-tax contributions up to 100% of their gross earnings through periodic payroll deductions up to an annually adjusted Internal Revenue Service dollar limit. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. A participant may change the rate of pre-tax contributions at any time. The Company makes safe harbor matching contributions of 100% of participant contributions that do not exceed 3% of compensation plus 50% of participant contributions up to an additional 3% of compensation. The Company may make an annual discretionary contribution to all eligible employees. Allocations of the Company's discretionary contribution are based on the participants' compensation. Participants may designate that their contributions and the Company's contributions be deposited in any of the investment accounts. The Plan currently offers mutual funds and a common/collective trust fund as investment options for participants. Participants may elect daily to make changes to their investment designation. All amounts in participant accounts are participant-directed. Participants may also contribute amounts representing distributions from other qualified retirement plans.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participants may change their investment options daily via the internet or telephone.

Vesting and Forfeited Accounts

Participants are immediately 100% vested in their salary reduction, rollover and the Company's "safe-harbor" contributions and the related earnings. Participants become vested in the Company's other contributions based on length of service. A participant is 100% vested in the Company's other contributions after five years of credited service. Any forfeitures of terminated participants' nonvested accounts shall be applied to reduce employer contributions. The balance of forfeited nonvested accounts at November 1, 2010 and March 31, 2010 was approximately \$31,400 (transferred into new plan) and \$26,800, respectively. During the period ended November 1, 2010 and the year ended March 31, 2010, the employer utilized \$6,478 and \$36,972, respectively, to reduce employer matching contributions and employer profit sharing contributions.

Payment of Benefits

Upon termination of service, a participant or the participant's beneficiary may elect to receive a benefit payment in a lump sum or periodic installments. A participant with an account valued at less than \$5,000 shall receive a lump sum distribution, with accounts valued at more than \$1,000 being automatically rolled over into an individual retirement account for the participant. For accounts exceeding \$5,000, the participant may elect a lump sum distribution, periodic payments, or may elect to defer such distribution to any valuation date subsequent to his/her termination but no later than the valuation date of his/her normal retirement date; or the participant may elect to roll over the distribution to another qualified plan.

A participant in the Plan may make a complete or partial hardship withdrawal of the amounts held in the participant's account attributable to the participant's contributions at any time. The withdrawal must be necessary in light of immediate and heavy financial needs of the participant. Employee contributions are suspended for a period of six months following such a withdrawal.

Participant Loans

A participant may borrow from the amounts held in the participant's account attributable to the participant's contributions and the vested portion of Company's contributions. The loan request must qualify according to guidelines outlined in the plan document, and loan repayments are required to be made by payroll deductions. Participants may borrow from their account a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant's loan fund.

The loan term shall not exceed the earlier of termination of employment or five years or for a longer period of time for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the bank's prime rate plus 1 percent. Interest rates range from 4.25 percent to 9.25 percent. Principal and interest are to be paid ratably through payroll deduction.

Merger

On July 30, 2009, the Board of Directors of Keihin Carolina System Technology, Inc., the sponsor of the Plan, approved the benefit unification of all Keihin North America companies which included merging the retirement plans for all of these companies into one plan. The transfer of assets from the Plan into the Keihin North America, Inc. Savings & Retirement Plan occurred on November 1, 2010.

More detailed information concerning the Plan may be found by consulting the Summary Plan Description which is available from the plan administrator.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual method of accounting from information supplied by the Company, the plan administrator and the Trustee.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 11 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company may pay administrative and trust expenses in whole or in part. All expenses not paid by the Company shall be paid by the Plan. Administrative and trust expenses paid by the Company and not charged to the Plan amounted to \$4,339 for the period ended November 1, 2010. The Company also pays the salaries of the benefits administrators and other personnel who perform services for the Plan as part of their duties. These expenses are not recorded as Plan expenses.

**NOTE 3 PLAN MERGER**

On November 1, 2010, the Plan's assets were transferred to and merged into the Keihin North America, Inc. Savings & Retirement Plan. Prior to transfer, the Plan's net assets available for benefits were as follows:

|                                                  |                     |
|--------------------------------------------------|---------------------|
| Investments with registered investment companies | \$ 6,983,141        |
| Investments in common/collective trust           | 1,066,305           |
| Participant loans                                | 510,289             |
| Total investments                                | <u>\$ 8,559,735</u> |

This transfer is included in the statement of changes in net assets available for benefits for the period ended November 1, 2010.

**NOTE 4 TAX STATUS**

The Internal Revenue Service has determined and informed the Plan by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving its determination letter. However, the Plan sponsor believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of November 1, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

**NOTE 5 RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**NOTE 6 PLAN AMENDMENT**

Effective March 31, 2010, the Plan sponsor amended the Plan to comply with the Pension Protection Act of 2006 and the Heart Act of 2008.

**NOTE 7 INVESTMENT INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

**NOTE 9 ERISA BOND REQUIREMENT**

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the plan's assets at the beginning of the plan year or \$500,000. At November 1, 2010, the Plan's sponsor maintained bond coverage in the amount of \$2,000,000.

**NOTE 10 BENEFIT OBLIGATIONS**

Prior to transfer to the new plan at November 1, 2010, net assets available for benefits included \$1,097,393 allocated to the accounts of persons who as of, or prior to, that date had withdrawn from participating in the operations of the Plan, but had not yet been paid.

**NOTE 11 FAIR VALUE MEASUREMENTS**

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

---

|         |                                                                                                                                                                 |
|---------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
|---------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|

---

|         |                                              |
|---------|----------------------------------------------|
| Level 2 | Inputs to the valuation methodology include: |
|---------|----------------------------------------------|

---

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or by other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

---

|         |                                                                                                     |
|---------|-----------------------------------------------------------------------------------------------------|
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |
|---------|-----------------------------------------------------------------------------------------------------|

---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at November 1, 2010 and March 31, 2010.

*Mutual funds:* Valued at the net asset value (NAV) of shares held by the plan at year end.

*Common/collective trust fund:* Valued at quoted redemption values on the last business day of the plan year.

*Participant loans:* Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
