NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Guardian Electric Manufacturing Company Employees Savings and Retirement Plan (the Plan), formerly known as Western Consolidated Technologies, Inc. Non-Union Employee Savings and Retirement Plan and Guardian Electric Manufacturing Company Non-Union Employee Savings and Retirement Plan, provides only general information. Reference should be made to the plan agreement and "Summary Plan Description" for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Guardian Electric Manufacturing Company (the Sponsor). Western Technologies, Inc. was the former plan sponsor. Non-union employees of the Sponsor and related companies, Western Consolidated Technologies, Inc., Advanced Molding Technology, Inc., Flex-Weld, Inc., and Guardian Electric Manufacturing Company, are allowed to participate in the Plan. All of the companies named above (collectively referred to as the Company) are direct or indirect majority owned subsidiaries of Kelco Industries, Inc.

On October 4, 2004 the Western Consolidated Technologies Inc. Teamsters Local 7 Union Employees Savings and Retirement Plan was merged into the Plan. After that date, union employees of the Company were allowed to participate in the Plan. The union was dissolved in 2006.

Employees become eligible to participate on the first day of the month following their completion of thirty days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan was amended as of October 15, 2007 to allow for automatic enrollment contributions. Unless an eligible employee elects to opt out, automatic deferral of 3% will begin after thirty days of service, with a minimum increase of 1% per year in subsequent years. Plan participants may defer up to 70% of their annual compensation, as defined in the Plan's document, subject to certain limitations as specified in the Internal Revenue Code. The Plan also allows for catch-up contributions for participants who have attained age 50 before the close of the Plan year. The Company may elect to make matching and non-elective contributions to the Plan. All Company contributions are discretionary. On April 25, 2009, the Company suspended its matching contribution indefinitely. There was no non-elective contribution made to the Plan for the year ended December 31, 2010.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with direct expenses incurred by each participant. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

YEARS OF VESTING SERVICE	PERCENTAGE VESTED
1	20%
2	40%
3	60%
4	80%
5	100%

Participant Loans

Participants may borrow from their fund accounts a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates (4.25% in 2010) that are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Distribution of a participant's account will be made upon death, retirement, or termination in the form of a lump sum, installments, annuity payments, or a direct rollover distribution. A participant may request a distribution from the participant's salary deferral accounts to meet an immediate financial hardship pursuant to guidelines established by the Internal Revenue Service, or at attainment of age 59 ½.

Forfeited Accounts

At December 31, 2009, forfeited nonvested accounts totaled $10,569. Nonvested accounts forfeited in 2010 totaled $2,843. Forfeitures are used to pay plan expenses and reduce employer contributions payable to the plan. At December 31, 2010, $5,519 of forfeited nonvested accounts is available to reduce future plan expenses.

Administrative Costs

The Plan sponsor absorbs the administrative costs of the Plan except for costs incurred by and directly attributable to a specific individual account.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investment Valuation and Income Recognition

The Plan invests in a commingled pool of the Fidelity Group Trust for Employee Benefit Plans, several mutual funds, and participant loans. The commingled pool is valued at contract value which approximates the sum of all of the benefits owed to participants in that fund as determined by the trustee. The adjustment from fair value to contract value is based on the contract value as reported to the Plan by the trustee. Mutual funds are valued at fair value based on the market values of the underlying investments, and participant loans are valued at cost which approximates fair value. Dividends are recorded

Investment Valuation and Income Recognition (Continued)

on the ex-dividend date. Interest is recorded when earned. Investment transactions are recorded on a trade-date basis. The net appreciation or depreciation in fair value of investments includes investments purchased, sold, and held during the year.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates. It is at least reasonably possible that significant changes may occur in the near term for the assets available for Plan benefits and changes in such assets.

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Such financial statements present the assets available for Plan benefits and changes in such assets.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interst.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets as December 31, 2010 and 2009:

	2010	2009
Investments at Contract Value		
Fidelity Advisor Stable Value Portfolio: Class II	$ 1,706,481	$ 1,777,597
Investments at Fair Value		
Fidelity Advisor Dividend Growth Fund: Class T	329,928	243,595
Fidelity Advisor Freedom 2020 Fund: Class T	417,106	324,951
Fidelity Advisor Freedom 2030 Fund: Class T	530,735	433,796
Fidelity Advisor Freedom 2050 Fund: Class T	388,529	332,213

NOTE 4 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a benefit-responsive investment contract with Fidelity Advisory Stable Value Fund (Fidelity). Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the Statements of Net Assets Available for Benefits at fair value as determined using the market approach based on market prices of similar contracts. The adjustment from fair value to contract

NOTE 4 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

value is based on the contract value as reported to the Plan by Fidelity. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contract at December 31, 2010 and 2009 was $1,739,002 and $1,775,274, respectively. The average yield and crediting interest rates were approximately 1% for 2010 and 1% for 2009. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Fidelity. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

NOTE 5 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurements Using:	
December 31, 2010	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Mutual Funds	$ 3,525,133	$ 3,525,133	$ -
Investment Contract with Insurance Company	1,739,002	-	1,739,002
Total	$ 5,264,135	$ 3,525,133	$ 1,739,002

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs consist of unobservable inputs and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when level 1 or level 2 inputs were not available.

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the share held by the Plan at year-end. The fair values of common stock, corporate bonds, and U.S. Government securities are based on quoted market prices.

Level 2 Fair Value Measurements

The fair value of the investment contract is based on the underlying investments with consideration given to risk, similar investments with comparable duration and maturity, and the credit-worthiness of the issuer.

NOTE 9 - RELATED PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are netted with investment income.

NOTE 10 - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed Fidelity Management & Research Company, the Plan's 401(k) Service Provider/Record Keeper, by a letter dated January 30, 2006, that the volume submitter profit sharing plan, which the Plan was designed from, is designed in accordance with applicable sections of the Internal Revenue Code (IRC).

The Plan's 2008-2010 Tax Returns are available for examination by the Internal Revenue Service.

NOTE 11 - RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of pooled separate accounts and a group annuity contract. Investment securities are exposed to various risks, such as interest rate, market, and credit, due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities. It is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

NOTE 12 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through June 23, 2011, the date on which the financial statements were available to be issued.
