Independent Auditor's Report

Board of Trustees
Fort Dearborn Company
401(k) Profit Sharing Plan
Elk Grove Village, Illinois

We were engaged to audit the financial statements of **Fort Dearborn Company 401(k) Profit Sharing Plan** as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule as of December 31, 2010, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Wells Fargo Bank, N.A., the trustee of the plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustees hold the plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the trustees as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of Fort Dearborn Company 401(k) Profit Sharing Plan (the plan) provides only general information. Participants should refer to the plan agreement for a complete description of the plan's provisions. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Coverage and Eligibility

The Fort Dearborn 401(k) Profit Sharing Plan is a profit sharing plan and 401(k) savings plan covering all eligible employees of Fort Dearborn Company (the company).

All employees not subject to collective bargaining, who have completed 30 days of service and have attained the age of 21, are eligible to participate in the plan. Employees can enroll in the plan on the first day of the month coinciding with or next following the date that the eligibility requirements are met.

Plan participants are eligible for employer matching contributions and a portion of any employer profit sharing contribution after one year of service. A participant must be employed as of the last day of the plan year in order to receive an allocation of this contribution.

Participant Contributions

Salaried and nonunion hourly employees may elect to make 401(k) deferral contributions up to 50% of their total earnings. Participants who have attained age 50 may make catch-up contributions in addition to their regular deferral contributions. All deferral contributions are made out of pretax earnings through salary reductions and are subject to certain IRS limitations. These contributions are not subject to federal income tax until withdrawn.

Participants may also make rollover contributions, which represent amounts distributed from other qualified defined benefit or defined contribution plans.

Investment Options

All plan assets are held by Wells Fargo Bank NA as of December 31, 2010 and 2009. Upon enrollment in the plan, a participant may direct contributions into common collective trust or mutual fund investment options made available through the plan. Participants may change the amount of their contribution on a weekly basis and their investment options on a daily basis.

Employer Matching Contributions

For each participant who has completed at least one year of service, the employer makes a discretionary matching contribution equal to 100% of the employee's deferral contribution not in excess of 6% of earnings.

Note 1 - Description of Plan (Continued)

Employer Profit Sharing Contributions

The employer may also make a discretionary profit sharing contribution to all employees of the company.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the employer's contributions and plan earnings and charged with allocations of administrative expenses and plan losses. Allocations are based on participant earnings or account balances as defined in the plan document. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

Payment of Benefits

On termination of service due to death, disability or retirement, participants may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or one of several types of annuities. For termination of service due to other reasons, participants may receive the value of the vested interest in his or her account as a lump-sum distribution either at the time of termination or a later date, depending on the value of the participant's account.

Administrative Expenses

Substantially all administrative expenses are paid by the company.

Notes Receivable from Participants

Participants may borrow from their vested accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or the greater of 50% of their vested account balance. Loan terms range from one to five years. Loans for a principal residence may have loan terms up to 10 years. The loans are secured by the balance in the participant's vested account and bear interest at the rate in effect on the date of the loan as determined by the plan administrator. Principal and interest are paid ratably through periodic payroll deductions. Participants are charged a loan set-up fee of $75.

Note 2 - Summary of Significant Accounting Policies

Significant accounting principles are described below and have been consistently applied.

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

Notes Receivable from Participants

Effective January 1, 2010, the plan retrospectively adopted updated accounting principles generally accepted in the United States of America (GAAPUSA) regarding the reporting of loans to participants by defined contribution plans. Such loans are now required to be presented as "notes receivable from participants" that are measured at their unpaid principal balance plus any accrued but unpaid interest. Prior to this change, loans to participants were presented as investments that were measured at fair value. This change resulted in a reclassification of $1,223,461 from investments to notes receivable from participants in the 2009 Statement of Net Assets Available for Benefits. In addition, fair value measurement disclosures regarding loans to participants are no longer required.

Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

Fair Value Measurements

Effective January 1, 2010, the plan adopted new guidance that requires the plan to report significant transfers between Level 1 and Level 2 and the reasons for those transfers, as well as disclosing the reasons for transfers in or out of Level 3. Additionally, the guidance requires the plan to clarify existing disclosure requirements about the level of disaggregation and inputs and valuation techniques. The adoption of this guidance did not have a significant impact on the plan's financial statements, other than expanded disclosures.

The new guidance also requires the reconciliation of changes in Level 3 fair value measurements to present purchases, sales and settlements separately on a gross basis rather than as a net amount, effective for fiscal years beginning after December 15, 2010. The plan does not expect the adoption of the guidance for Level 3 activity to have a significant impact on its financial statements, other than expanded disclosures.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Stable Return Fund

Under GAAPUSA, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measure attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Wells Fargo Stable Return Fund qualifies as a fully benefit-responsive investment contract. As required by GAAPUSA, the statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. The yield earned by the fund with an adjustment to reflect the actual interest rate credited to participants in the fund as of December 31, 2010 and 2009 was 2.90% and 3.32%, respectively.

Investment Valuation and Income Recognition

The plan's mutual fund investments are stated at fair value. See Note 3 for discussion on fair value measurements.

All investments are participant-directed.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

In September 2009, the Financial Accounting Standards Board (FASB) issued new guidance regarding the use of net asset value per share provided by the investee as a practical expedient to estimate the fair value of alternative investments (such as hedge funds, private equity funds, common collective trusts and pooled separate accounts). The plan's adoption of this new guidance had no material effect on its net assets available for benefits, but did result in additional disclosures included in Note 3 of these financial statements.

Subsequent Events

The plan has evaluated subsequent events through August 9, 2011, the date the 2010 financial statements were available to be issued and August 18, 2010 with respect to the comparative 2009 financial statements.

Use of Estimates

The preparation of financial statements in conformity with GAAPUSA requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Note 3 - Fair Value Measurements

GAAPUSA defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, in the absence of a principal market, the most advantageous market accessible to the reporting entity as of the measurement date. Under GAAPUSA, the principal market is the market in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. The most advantageous market, which may be a hypothetical market, is the market in which the reporting entity would sell the asset or transfer the liability with the price that maximizes the amount that would be received for the asset or minimizes the amount that would be paid to transfer the liability, considering transaction costs in the respective market.

GAAPUSA describes three approaches to measuring fair value: the market approach, the income approach and the cost approach. Each approach includes multiple valuation techniques. GAAPUSA does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques based on the degree to which such inputs are observable to market participants. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk.

The plan's investments are classified in one of the following three categories based on the inputs used to determine their respective fair values.

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data. These inputs may include quoted prices for similar assets or liabilities in active markets as well as quoted prices for identical or similar assets or liabilities in inactive markets.

- Level 3 - Unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

When the inputs used to value an investment fall into more than one level, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and is dependent on factors specific to the investment. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 3 - Fair Value Measurements (Continued)

As of December 31, 2010 and 2009, the following valuation methodologies have been used to value the plan's investments:

- Mutual Funds - Valued at quoted market prices, which represent the net asset value (NAV) of the securities held in such funds.

- Common collective trusts - Valued at the NAV per unit as determined by the manager of the trust. Such NAV is based on the value of the underlying assets and liabilities of the trust. The investment objectives of the trusts vary and can be differentiated by the nature of their holdings as disclosed below. Participants may transfer in and out of such trusts on a daily basis without any prohibitive restrictions.

The methods described above might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the different methodologies or assumptions used to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following table summarizes the plan's financial assets that are measured at fair value on a recurring basis as of December 31, 2010 and 2009:

	Level 1	Level 2	Level 3	Fair Value as of December 31, 2010

The plan's investments are exposed to various risks such as interest rate, credit and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near term and materially affect the amounts reported in the statements of net assets available for benefits.

Note 4 - Investments

The following investments represent 5% or more of the plan's net assets as of December 31, 2010 and 2009.

	2010		2009	
	Number of Shares	Fair Value	Number of Shares	Fair Value

Note 4 - Investments (Continued)

For the year ended December 31, 2010, the plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value as follows:

Common collective trusts	$ 253,147
Mutual funds	4,884,058
	$ 5,137,205

Fort Dearborn Company, the plan administrator, has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Wells Fargo Bank, N.A has certified to the completeness and accuracy of the plan's investments reflected in the statements of net assets available for benefits as of December 31, 2010 and 2009, the schedule of assets held at end of year as of December 31, 2010, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2010, as indicated above and in total.

Note 5 - Income Tax Status

The Internal Revenue Service has determined and informed the company by a letter dated March 31, 2008, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements.

GAAPUSA requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 6 - Related Party Transactions (Party-in-Interest)

Plan investments are held by Wells Fargo Bank, N.A., who is also the trustee as defined by the plan and, therefore, qualifies as a party-in-interest.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of the plan's termination, participants would become 100% vested in their accounts and shall be entitled to a distribution of their accounts.

Note 8 - Reconciliation of Financial Statement to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2010 and 2009:

	2010	2009
Net assets available for benefits per the financial statements	$ 46,457,935	$ 39,194,846
