## WEST VALLEY PENSION PLAN

### NOTES TO FINANCIAL STATEMENTS

#### 1. DESCRIPTION OF THE PLAN

The following description of the West Valley Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan.

**General:** In November 2007, Washington Group International, Inc. (the “Company”) was acquired by URS Corporation and is now referred to as the Energy & Construction business of URS.

The Plan is a contributory defined benefit pension plan covering all active employees of West Valley Environmental Services LLC, a subsidiary of the Company. The Plan also covers retired and terminated vested employees, who separated from West Valley on or after January 1, 1991.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

**Benefits:** The Plan provides 100% cliff vesting upon completion of five years of service, as defined by the Plan. Retirement benefits are paid to pensioners or beneficiaries in various forms consisting of annuities, lump-sum payments, or a combination of both. The benefit that a participant is entitled to if he or she has less than five years is 100% of his or her contribution and interest attributable to these contributions.

A participant’s normal retirement benefit at age 65 is based on years of credited service and the monthly career accumulation amount of 1/12 of two percent of compensation for that year. The Plan generally provides a reduced benefit for early retirement. Eligibility for retirement is attained upon (1) completion of 10 years of eligibility service and attaining age 60 or (2) completion of 30 years of eligibility service and attaining age 58.

**Death Benefits:** If an active employee dies, the spouse may be entitled to a spouse survivor benefit. Depending on the employee’s age and/or eligibility service at the time of death, the spouse may qualify for an immediate spouse survivor benefit or a deferred spouse survivor benefit. The benefit payable to the spouse is equal to 55% of the employee’s early retirement benefit, except that the benefit is reduced as if the employee retired at the date of death (subject to a maximum benefit reduction for early commencement) and assuming that a joint and survivor benefit and 55% form of payment had been elected. Benefit payments are guaranteed for 60 months and payable to the spouse’s beneficiary, if necessary. If the employee was not married and dies before retirement, the named beneficiary will receive a refund of the employee’s contributions to the Plan plus interest earned.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of accounting:** The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America using the accrual basis of accounting.

**Valuation of investments:** The fair value of interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. Investments are reported at fair value. Fair value is the price that would be received when an asset is sold or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note 6 for a description of fair value measurements under Accounting Standards Codification ("ASC") 820.) Investment income (loss) and realized and unrealized gains or losses are reported as a single amount as plan interest in investment gain (loss) of the Master Trust. (See Note 7 for information about the Master Trust.)

The Master Trust records purchases and sales of securities on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

**Use of estimates:** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

**Risks and uncertainties:** The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**Administrative expenses:** Administrative expenses related to the Plan are paid by the Plan, as provided in the Plan document. The Company provides accounting and other administrative services to the Plan at no charge.

**Payment of benefits:** Benefit payments to participants are recorded upon distribution.

**Subsequent events:** The Plan has evaluated subsequent events through August 30, 2011, the date the financial statements were available to be issued.

### **3. FUNDING POLICY**

West Valley contributes such amounts as are necessary (calculated on an actuarial basis) to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. For 2010 and 2009, the minimum funding requirements of ERISA, as determined by consulting actuaries, have been met.

Active participants are required to contribute 1.5% of their salary to the Plan as a condition of accruing a benefit. Participants are immediately vested in their contributions, including earnings thereon. Total participant accumulated contributions at December 31, 2010 and 2009, were \$7,221,371 and \$6,902,510, respectively, including interest credited at the annual rate of 120% of the federal mid-term interest rate for the first month of the Plan year (2.95% for 2010 and 2.48% for 2009).

#### **4. ACCUMULATED PLAN BENEFITS**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) current employees or their beneficiaries.

The actuarial present value of accumulated plan benefits of the Plan is as follows:

|                                                             | <b><u>January 1,<br/>2010</u></b> | <b><u>January 1,<br/>2009</u></b> |
|-------------------------------------------------------------|-----------------------------------|-----------------------------------|
| Vested benefits:                                            |                                   |                                   |
| Participants and beneficiaries currently receiving benefits | \$20,349,596                      | \$19,632,293                      |
| Other participants                                          | <u>36,640,428</u>                 | <u>30,923,308</u>                 |
| Total vested benefits                                       | 56,990,024                        | 50,555,601                        |
| Non-vested benefits                                         | <u>2,262,035</u>                  | <u>692,851</u>                    |

The changes in the actuarial present value of the Plan's accumulated plan benefits for the years ended are as follows:

|                                                                             | <b>January 1,<br/>2010</b> | <b>January 1,<br/>2009</b> |
|-----------------------------------------------------------------------------|----------------------------|----------------------------|
| Actuarial present value of accumulated plan benefits at beginning of period | <u>\$51,248,452</u>        | <u>\$49,221,637</u>        |
| Increase (decrease) during the period attributable to:                      |                            |                            |
| Benefits accumulated                                                        | 1,243,675                  | 1,160,401                  |
| Actuarial (gains) losses                                                    | 1,026,349                  | (690,499)                  |
| Benefits paid                                                               | (2,172,396)                | (2,480,697)                |
| Interest due to the decrease in the discount period                         | 4,112,474                  | 3,931,335                  |
| Change in assumptions                                                       | <u>3,793,505</u>           | <u>106,275</u>             |
| Net increase                                                                | <u>8,003,607</u>           | <u>2,026,815</u>           |
| Actuarial present value of accumulated plan benefits at end of period       | <u>\$59,252,059</u>        | <u>\$51,248,452</u>        |

The actuarial present value of accumulated plan benefits is determined by independent actuaries and reflects actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and expected date of payment.

Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, the effect of such changes could be material to the Plan's financial statements.

The significant actuarial assumptions used in the valuations for 2010 and 2009 are shown below:

|                        |   |                                                                                                                                                                           |
|------------------------|---|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

## 5. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Plan by a letter dated October 27, 2008, that the Plan, as amended through August 2007, and related trust were designed in accordance with applicable regulations of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for federal income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

## 6. FAIR VALUE MEASUREMENTS

The Plan’s investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits.

Financial Accounting Standards Board (FASB) ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs into three broad levels: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are quoted prices for similar assets in active markets or inputs that are observable for the asset, either directly or indirectly through market corroboration, for substantially the full term of the asset; and Level 3 inputs are unobservable inputs and significant to the fair value measurement. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1: The master trust in which the Plan’s investment assets are held did not have any Level 1 investments.

Level 2: The Plan’s investment assets, which are held in a master trust, consist of common trust funds. The fair value of common trust funds are based on quoted prices for identical or similar assets in active markets, quoted prices for identical or similar assets in inactive markets, inputs other than quoted prices that are observable for the asset, and/or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3: The master trust in which the Plan’s investment assets are held did not have any Level 3

investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in methodologies used at December 31, 2010 and 2009.

## **7. INTEREST IN URS GOVERNMENT SERVICES GROUP MASTER TRUST**

The Plan's investment assets are held in a trust account at The Bank of New York Mellon ("Trustee") and consist of an undivided interest in an investment account of the URS Government Services Group Master Trust ("Master Trust"), a master trust established by Westinghouse Government Services Company, LLC and Washington Government Environmental Services Company, LLC, subsidiaries of the Company, and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets with the assets of three other pension plans sponsored by the Company for investment and administrative purposes. Although assets of the four pension plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income (loss) of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. Prior to June 30, 2010, the Master Trust was known as the Washington Government Services Group Master Trust.

The Plan had a 37% and 39% interest in the Master Trust's net assets at December 31, 2010, and 2009, respectively. At December 31, 2010 and 2009, the assets of the Master Trust were invested in common trust funds. The fair value of the investments was \$177,052,887 and \$156,974,049 at December 31, 2010 and 2009, respectively.

The net investment earnings of the Master Trust were \$17,901,630 and \$27,277,670 for the years ended December 31, 2010, and 2009, respectively.

The following table sets forth by type of investment and level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2010 and 2009:

***Changes in fair value levels:*** The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2010 and 2009, there were no significant transfers in or out of levels 1, 2 or 3.

## **8. INFORMATION CERTIFIED BY PLAN TRUSTEE**

The Plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, no independent auditing procedures were performed with respect to the information certified by the Trustee as of December 31, 2010 and 2009.

The information certified by the Trustee was the annual report and accounting for the years ending December 31, 2010 and 2009, which includes beginning and ending balances of assets, and a detailed listing of the transactions in the various funds, including investment earnings (losses).

## **9. RELATED-PARTY TRANSACTIONS**

Certain of the Plan investments at December 31, 2010, and all of the Plan investments at December 31, 2009, are shares of common trust funds managed by the Trustee; and therefore, these transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA. Fees paid by the Plan for investment management services were included as a reduction of the return on each fund.

## **10. PLAN TERMINATION**

Although it has not expressed any intention to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated as specified by the Plan document in accordance with ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination, subject to a statutory ceiling on the amount of an individual’s monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will

depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

When the PBGC takes over a plan, it pays pension benefits through its insurance program. Only benefits that the participant has earned a right to receive and that cannot be forfeited (called vested benefit) are guaranteed. Most participants and beneficiaries receive all of the pension benefits they would have received under their plan, but some people may lose certain benefits that are not guaranteed.

The PBGC pays pension benefits up to certain maximum limits. The maximum guaranteed benefit is \$4,500 per month, or \$54,000 per year, payable in the form of a straight life annuity, for a 65-year-old person in a plan that would have terminated in 2010. The maximum benefit may be reduced for an individual who is younger than age 65. The maximum benefit will also be reduced when a benefit is provided to a survivor of a plan participant.

## **11. SUBSEQUENT EVENT**

Effective August 29, 2011, the West Valley Environmental Services LLC will no longer be the management and operating contractor at the West Valley Demonstration Project. The sponsorship of the Plan will change to the new contractor at West Valley, CH2M Hill B&W West Valley LLC, as directed by the Department of Energy. The assets of the Plan that are held in the Master Trust will be transferred to a trust established by the new contractor. The Plan will also experience a partial plan termination due to the layoff of a portion of the work force. As a result, those participants who are terminated and not fully vested in the Plan will receive full vesting credit.

### Form of Payment

Participants are assumed to elect the normal form except that 25% of active participants are assumed to elect a lump sum payment on benefits accrued through December 31, 1994.

Lump sums were valued using the substitution of annuity form under Proposed IRC §1.430(d)-1(f)(4) without application of generational mortality and without recognition of the phase-in of IRC §417(e)(3) assumptions.

### Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of eligible male participants and 65% of eligible female participants are assumed to be married. Male spouses are assumed to be 3 years older than female spouses.

### Employees

It was assumed there will be no new or rehired employees.

### Plan Compensation

Compensation assumed paid in the current year beginning on the valuation date is the greater of the actual pay from the prior plan year adjusted by one-half year of the salary increase assumption and the current annual rate of pay.

### Asset Method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This

## **SCHEDULE SB ATTACHMENTS (cont.)**

---

amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date.

The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.69%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.69%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.41%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.41%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

### **Participant Data**

Employee data was supplied by the Plan's administrator as of the valuation date.

### **Nature of Actuarial Calculations**

The results documented in the Schedule SB are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results different from those reported could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

## Schedule SB, Line 25 Change in Method

In accordance with 1.430(d)-1(g)(3)(ii)(A), automatic approval has been granted for the first plan year for which all the provisions of 1.430(d)-1, 1.430(f)-1, 1.430(g)-1, 1.430(i)-1, and 1.436-1 are reflected of any changes to funding methods permitted by the Pension Protection Act. 2010 is the first plan year for which all of these provisions were reflected, and thus all funding method changes are automatically approved.

- For the January 1, 2010 valuation, funding interest rates were based on the three-segment rates in effect for the month of the valuation date, which were 4.60% for the first 5 years, 6.65% for year 6 through year 20 and 6.76% thereafter. For the January 1, 2009 valuation, the interest rates to determine funding target liability are based on the full yield curve of monthly yields in effect for October 2008 and published two months prior to the valuation date.
- The lump sum interest rate assumption was changed to the January 2010 3-segment rates without recognition of the phase-in of IRC§417(e)(3) assumptions. For the January 1, 2009 valuation, the October 2008 full yield curve without recognition of the phase-in of IRC §417(e)(3) assumptions was used.
- As elected by the plan sponsor, for the January 1, 2010 valuation, the asset method was changed to be based on the average of three values, using assets on the valuation date plus the present value of receivable contributions, the adjusted market value as of the prior valuation date, and as of the second prior valuation date. For the January 1, 2009 valuation, the valuation assets were equal to the market value of assets as of the valuation date plus the present value of receivable contributions.

There were no other changes to the methods for the January 1, 2010 valuation.
