1. DESCRIPTION OF THE PLAN

The following brief description of the Central Florida Equipment Rentals 401(k) Savings and Retirement Plan is provided for general information purposes only. Participants should refer to the Central Florida Equipment Rentals 401(k) Savings and Retirement Plan (the "Plan") agreement for more complete information.

General - The Plan is a defined contribution plan available to substantially all employees of Central Florida Equipment Rentals, Inc. (the "Company") who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Amendments- On January 1, 2008, the Plan was amended to add a safe harbor matching contribution in an amount of 100 percent of the first 3 percent of elective contributions and 50 percent on the next 2 percent of elective contributions, not to exceed 4 percent of compensation.

Contributions –Each year, participants may contribute up to 60 percent of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes 100 percent of the first 3 percent and 50 percent of the next 2 percent of base compensation that a participant contributes to the Plan. All contributions to the Plan are invested into various investment options offered by the Plan as directed by the participant.

The Company may also make additional non-matching contributions to participants' accounts at its discretion. A participant will share in a non-matching contribution only if completed at least 1,000 hours of service during the plan year and is employed on the last day of the plan year. A non-matching contribution was not provided for in fiscal 2010 or 2009.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (b) Plan earnings, and (c) forfeitures. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. As of January 1, 2008, participants are also immediately vested in employer contributions as a result of the safe harbor matching contribution amendment. The Company's profit sharing contribution portion of their accounts vest at 20%, 40%, 60%, 80% and 100% after a participant provides two, three, four, five and six years of service, respectively. A year of service is earned in each Plan year in which an employee completes at least 1,000 hours of service.

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from 1-5 years, but can be longer for the purchase of a primary residence. The loans

are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a life annuity with monthly installments over 120 months certain and thereafter not to exceed the life expectancy of the participant. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Forfeitures - Forfeited nonvested accounts approximated $1,200 and $2,200 as of December 31, 2010 and 2009, respectively. These accounts are first used to pay Plan expenses with the remaining balance used to reallocate to participants employed on the last day of the Plan year. In 2010 and 2009, participants' accounts were credited by approximately $1,200 and $6,300, respectively from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements have been prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to intitate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts with no adjustment of the fully benefit-responsive investment contracts as fair value approximates contract value.

Investments Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-divident date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Pursuant to an investment contract with Transamerica Asset Management (Transamerica), Transamerica maintains the contributions and invests all Plan assets in various funds provided by the contract.

Guaranteed Interest Accounts provide guaranteed interest rates for a specified period of time, referred to as the guarantee period. During each calendar month, a monthly account is established consisting of all deposits designated for the guaranteed interest investment account, plus transfers, plus interest, and less withdrawals, as applicable. Each monthly account will earn a guaranteed annual interest rate established before the beginning of each calendar month and will earn such interest through its maturity date. No additional funds are placed in that account for the rest of the guarantee period. These accounts are valued at contract value, as determined by Transamerica, which approximates fair value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract rates range from 1.6% to 5% with maturing dates ranging from August 1, 2011 to December 1, 2016 in 2010 and 1.9% to 5% with maturing dates ranging from February 1, 2010 to December 1, 2015 in 2009. The average yield on the contracts was approximately 4% for both 2010 and 2009. The terms of the contract require all permitted participant-initiated transactions involving the investment to occur at contract value with no conditions, limits or restrictions.

The value of each pooled separate account is determined at the end of each business day based on market value of the underlying securities and is expressed by unit value.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits – Benefits are recorded when paid.

Subsequent Events – The Plan has evaluated subsequent events through August 2, 2011, the date the financial statements were available to be issued.

Risks and Uncertainties – The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

Reclassifications – Certain reclassifications have been made to the 2009 financial statements to the classifications used in 2010.

3. FINANCIAL INFORMATION CERTIFIED BY TRUSTEE

All investment information disclosed in the accompanying financial statements and schedule including investments held at December 31, 2010 and 2009, and net appreciation in fair value of investments, interest and investment expenses for the year ended December 31, 2010, were obtained or derived from information certified as complete and accurate by Transamerica Life Insurance and Annuity Company (Transamerica), the trustee of the Plan. The following table presents investments as of December 31, 2010 and 2009:

The Plan's net appreciation in the fair value of investments for the year ended December 31, 2010 is as follows:

Guaranteed interest accounts	$ 17,059
Pooled separate accounts	122,954
	$ 140,013

4. FAIR VALUE MEASURMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosure,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Guaranteed interest accounts: Contract value approximates fair value, as determined by Transamerica, based on the monthly set interest rates of each investment account based on market information obtained through Bloomberg, competitive rates, asset earnings and past rates. The accounts are adjusted for transfers, deposits and withdrawals as applicable.

Pooled separate accounts: Those separate accounts investing in mutual funds or equity securities are measured using quoted prices in active markets for identical assets (Level 1). Those separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities (Level 2).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010

5. TAX STATUS

The Plan obtained its latest determination letter on July 7, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosures in the financial statements. The plan is subject to routine audits by taxing jurisidictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

6. PARTY IN INTEREST TRANSACTIONS

Plan investments are managed by Transamerica Life Insurance and Annuity Company, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to approximately $15,000 for the year ended December 31, 2010. Fees paid by the Company on behalf of the Plan approximated $10,000 for the year ended December 31, 2010.

During 2010, the Company failed to remit to the plan's trustee certain employee contributions totaling approximately $8,800 within the period prescribed by Department of Labor regulations. Delays in remitting contributions to the trustee were due to administrative errors, and the Company has or will make contributions to the affected participants' accounts to compensate those participants an aggregate of approximately $40 for potential lost income due to the delays.
