INDEPENDENT PRINTING COMPANY, INC.
401(K) SAVINGS PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

Note 1 - Plan description

The following description of the Independent Printing Company, Inc. 401(k) Savings Plan and Trust (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

The Plan is a contributory defined contribution plan covering substantially all employees of Independent Printing Company, Inc. (the Company) who are age 18 or older. Employees can participate in the 401(k) portion of the Plan immediately. To be eligible for Company contributions, participants must complete 12 months of service with one thousand or more hours in the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Participant accounts

Each participant's account is credited with the participant's contributions and an allocation of the Company's contribution and plan earnings (losses). Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

At December 31, 2010 and 2009, segregated accounts existed for two participants.

C. Vesting

Participants are immediately vested in their rollover and voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

D. Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account. Interest is determined based on the prime rate as determined by Associated Bank, N.A. plus 2% (prime rate as determined by Associated Bank, N.A. through June 1, 2010). Principal and interest is paid ratably through biweekly payroll deductions.

E. Payment of benefits

On termination of service, a participant may elect to receive either a lump sum amount equal to the value of his or her account or monthly, quarterly or annual installments over the life expectancy of the participant and his or her beneficiary.

Benefits are recorded as deductions when paid.

INDEPENDENT PRINTING COMPANY, INC.
401(K) SAVINGS PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

Note 1 - Plan description, continued

F. Administration

Independent Printing Company, Inc. is the administrator of the Plan and has appointed Associated Trust Company, N.A. (Associated) as trustee and custodian. The trustee is responsible for investing and safekeeping all assets of the Plan. Costs of administering the Plan are paid by the Plan and plan sponsor.

Note 2 - Significant accounting policies

A. Accounting method

The Plan's financial statements are prepared on the accrual basis of accounting.

B. Valuation of investments

The Plan's investments are stated at fair value. Quoted market prices are used to value investments as determined by the custodian. Shares of common collective trusts are valued at the net asset value of shares held by the Plan at year end. See Note 6 for further discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend dates.

C. Use of estimates

The plan administrator uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect certain reported amounts and disclosures. Actual results could differ from those estimates.

D. Adoption of new accounting guidance

In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. That guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant loans from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

E. Subsequent events

The Company has evaluated events and transactions for potential recognition or disclosure in the financial statements through August 16, 2011, the date on which the financial statements were available to be issued.

Note 2 - Significant accounting policies, continued

F. Reclassifications

Certain accounts in the 2009 financial statements have been reclassified for comparative purposes to conform to the presentation in the 2010 financial statements with no impact on previously reported net assets available for benefits.

Note 3 - Funding policy

Participants may contribute up to 85% of their annual compensation through wage deferral not to exceed the maximum amount allowed under the Internal Revenue Code. Participants direct the investment of contributions into various investment options. The Plan currently offers twenty-eight investment options. Segregated accounts are also allowed.

The Company may, at its discretion, match 50¢ on the dollar up to 6% of each participating employee's compensation. In addition, the Company may make annual discretionary contributions to the Plan from its net profits. There were no Company contributions to the Plan in 2010.

Note 4 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6 - Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end. The NAV is a quoted price in an active market.

Common collective trust funds: Valued at the net asset value (NAV) of units held by the Plan at year-end, provided by the administrator of the fund. The NAV is based on the value of the underlying assets of the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Participant-directed brokerage accounts: Invested in common stocks which are valued at the closing price reported on the active market on which the individual securities are traded as wells as a money market fund which is valued at \$1 NAV.

Note 6 - Fair value measurements, continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with the other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009:

Note 7 - Income tax status

The Company adopted a Prototype Non-standardized Profit Sharing Plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, stating that the Plan and related trust are designed in accordance with applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or state taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 8 - Information provided by trustee

The trustee has reported and certified as to the completeness and accuracy of the investment information they provided for purposes of preparing the financial statements and supplemental schedules related thereto. In addition to the investment information provided in Note 5, the trustee has also certified the following:

	2010	2009
Notes receivable from participants	\$ 435,139	\$ 315,481
Accrued income	500	470
Interest and dividends	\$ 243,513	
Interest income from notes receivable from participants	16,018	

In accordance with the procedures stated in 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the trustee. The plan administrator, therefore, has instructed the independent public accountants to exclude the information certified by the trustee from the scope of their audit.

Note 9 - Reconciliation to Form 5500

Differences between these financial statements and information combined in Schedule H, items I and II of Form 5500 were identified and are due to different classifications among various detail accounts. In total, these balances are in agreement.

Note 10 - Related party transactions

Certain Plan investments are shares of common trust funds managed by Associated. Associated is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to the trust for investment management and trust services amounted to \$48,561 for the year ended December 31, 2010.

Certain employees and officers of the Plan sponsor, who are also participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

Note 11 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 12 - Supplemental schedules

Disclosures required by regulations include separate schedules of: (1) assets (held at end of year), (2) assets (acquired and disposed of within year), (3) nonexempt transactions, (4) loans in default or uncollectible, (5) leases in default or uncollectible and (6) reportable transactions.

Schedules 3, 4, 5 and 6 are not included herein as they are not applicable to this Plan as of or for the year ended December 31, 2010.

De Pere, Wisconsin

We have audited the accompanying statements of net assets available for benefits of Independent Printing Company, Inc. 401(k) Savings Plan and Trust as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010 and supplemental schedules. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Associated Trust Company, N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009 and for year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

Note 1 - Plan description

The following description of the Independent Printing Company, Inc. 401(k) Savings Plan and Trust (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

The Plan is a contributory defined contribution plan covering substantially all employees of Independent Printing Company, Inc. (the Company) who are age 18 or older. Employees can participate in the 401(k) portion of the Plan immediately. To be eligible for Company contributions, participants must complete 12 months of service with one thousand or more hours in the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Participant accounts

Each participant's account is credited with the participant's contributions and an allocation of the Company's contribution and plan earnings (losses). Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

At December 31, 2010 and 2009, segregated accounts existed for two participants.

C. Vesting

Participants are immediately vested in their rollover and voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

D. Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account. Interest is determined based on the prime rate as determined by Associated Bank, N.A. plus 2% (prime rate as determined by Associated Bank, N.A. through June 1, 2010). Principal and interest is paid ratably through biweekly payroll deductions.

E. Payment of benefits

On termination of service, a participant may elect to receive either a lump sum amount equal to the value of his or her account or monthly, quarterly or annual installments over the life expectancy of the participant and his or her beneficiary.

Benefits are recorded as deductions when paid.

INDEPENDENT PRINTING COMPANY, INC.
401(K) SAVINGS PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

Note 1 - Plan description, continued

F. Administration

Independent Printing Company, Inc. is the administrator of the Plan and has appointed Associated Trust Company, N.A. (Associated) as trustee and custodian. The trustee is responsible for investing and safekeeping all assets of the Plan. Costs of administering the Plan are paid by the Plan and plan sponsor.

Note 2 - Significant accounting policies

A. Accounting method

The Plan's financial statements are prepared on the accrual basis of accounting.

B. Valuation of investments

The Plan's investments are stated at fair value. Quoted market prices are used to value investments as determined by the custodian. Shares of common collective trusts are valued at the net asset value of shares held by the Plan at year end. See Note 6 for further discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend dates.

C. Use of estimates

The plan administrator uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect certain reported amounts and disclosures. Actual results could differ from those estimates.

D. Adoption of new accounting guidance

In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. That guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant loans from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

E. Subsequent events

The Company has evaluated events and transactions for potential recognition or disclosure in the financial statements through August 16, 2011, the date on which the financial statements were available to be issued.

Note 2 - Significant accounting policies, continued

F. Reclassifications

Certain accounts in the 2009 financial statements have been reclassified for comparative purposes to conform to the presentation in the 2010 financial statements with no impact on previously reported net assets available for benefits.

Note 3 - Funding policy

Participants may contribute up to 85% of their annual compensation through wage deferral not to exceed the maximum amount allowed under the Internal Revenue Code. Participants direct the investment of contributions into various investment options. The Plan currently offers twenty-eight investment options. Segregated accounts are also allowed.

The Company may, at its discretion, match 50¢ on the dollar up to 6% of each participating employee's compensation. In addition, the Company may make annual discretionary contributions to the Plan from its net profits. There were no Company contributions to the Plan in 2010.

Note 4 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6 - Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end. The NAV is a quoted price in an active market.

Common collective trust funds: Valued at the net asset value (NAV) of units held by the Plan at year-end, provided by the administrator of the fund. The NAV is based on the value of the underlying assets of the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Participant-directed brokerage accounts: Invested in common stocks which are valued at the closing price reported on the active market on which the individual securities are traded as wells as a money market fund which is valued at \$1 NAV.

Note 6 - Fair value measurements, continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with the other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009:

Note 7 - Income tax status

The Company adopted a Prototype Non-standardized Profit Sharing Plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, stating that the Plan and related trust are designed in accordance with applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or state taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

December 31, 2010 and 2009

Note 8 - Information provided by trustee

The trustee has reported and certified as to the completeness and accuracy of the investment information they provided for purposes of preparing the financial statements and supplemental schedules related thereto. In addition to the investment information provided in Note 5, the trustee has also certified the following:

	2010	2009
Notes receivable from participants	\$ 435,139	\$ 315,481
Accrued income	500	470
Interest and dividends	\$ 243,513	
Interest income from notes receivable from participants	16,018	

In accordance with the procedures stated in 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the trustee. The plan administrator, therefore, has instructed the independent public accountants to exclude the information certified by the trustee from the scope of their audit.

Note 9 - Reconciliation to Form 5500

Differences between these financial statements and information combined in Schedule H, items I and II of Form 5500 were identified and are due to different classifications among various detail accounts. In total, these balances are in agreement.

Note 10 - Related party transactions

Certain Plan investments are shares of common trust funds managed by Associated. Associated is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to the trust for investment management and trust services amounted to \$48,561 for the year ended December 31, 2010.

Certain employees and officers of the Plan sponsor, who are also participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

Note 11 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 12 - Supplemental schedules

Disclosures required by regulations include separate schedules of: (1) assets (held at end of year), (2) assets (acquired and disposed of within year), (3) nonexempt transactions, (4) loans in default or uncollectible, (5) leases in default or uncollectible and (6) reportable transactions.

Schedules 3, 4, 5 and 6 are not included herein as they are not applicable to this Plan as of or for the year ended December 31, 2010.
