To the Plan Administrator
SummaCare, Inc. Employees 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of SummaCare, Inc. Employees 401(k) Plan (the Plan) as of December 31, 2010 and 2009, the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule listed in the accompanying table of contents as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the trustee of the Plan at December 31, 2010 and 2009, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SUMMACARE, INC. EMPLOYEES 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - Description of the Plan

The following brief description of the SummaCare, Inc. Employees 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan established on March 20, 1994. The Plan covers all employees of SummaCare, Inc. (the Employer) with the exception of union employees whose employment is governed by a collective bargaining agreement and certain nonresident aliens who have no earned income from sources within the United States. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Employees are eligible to make salary reduction contributions on their date of hire, and to receive matching contributions after one year of service. Employees are eligible to receive discretionary matching contributions if they are actively employed and receiving compensation on the last day of the Plan year as well as actively employed and receiving compensation on the date of contribution.

Contributions

Each year, a participant may voluntarily contribute a percentage of his or her compensation by means of salary deferral up to the maximum amount allowed by the Internal Revenue Service (IRS). The Employer matches 50% of the participant's contributions to the Plan, up to 6% of the participant's respective compensation. Effective January 1, 2010, the Plan was amended for all participants hired as of January 1, 2010 to receive an employer match equal to 100% of the participant's contributions up to 1%, and 50% of the participant's contributions up to the next 5%. In addition, these employer matching contributions are 100% vested after 3 years. Participants may also contribute amounts representing rollovers from qualified plans. A discretionary contribution of \$130,650 was approved for the 2010 plan year and contributed in May 2011. A discretionary contribution of \$115,862 was approved for the 2009 plan year and contributed in April 2010.

Participant accounts

Each participant's account is credited with the participant's contributions, the Employer's contribution and an allocation of the Plan's earnings. Allocations of earnings are based on the participant's account balances. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account. During the years ended December 31, 2010 and 2009, participants could direct the investments of their respective accounts into various investment options offered by the Plan.

SUMMACARE, INC. EMPLOYEES 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - Description of the Plan, continued

Vesting

Participants are immediately vested in their contributions, plus earnings thereon. Vesting in the contributions of the Employer is based on the Hour of Service Method, as defined in the Plan document. Credit will be given for each hour worked for which compensation is paid to include paid-time-off and leave of absence. Once a participant reaches 1,000 hours of service in any given calendar year, the participant is then credited with a year of vesting. Vesting in the contributions of the Employer is based on years of continuous service. For participants who were employed by the Employer on or before December 31, 2009 vesting shall be determined according to the following table:

<u>Years of service</u>	<u>Vested percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

For participants who were employed by the Employer on or after January 1, 2010 vesting shall be determined according to the following table:

<u>Years of service</u>	<u>Vested percentage</u>
0 - 2 years	0%
3 or more years	100%

Notes receivable from participants

Participants may borrow from their accounts 50% of their vested account balance, from a minimum of \$1,000 up to a maximum of \$50,000, reduced by the highest outstanding loan balance over the last year. Loan terms range from 1 to 5 years or up to fifteen years for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account. The interest rate is fixed for the life of the loan and is 1% over the prime rate published in the *Wall Street Journal* on the first business day of the month the loan is originated. Principal and interest are repaid ratably through payroll deductions.

Distributions to participants or beneficiaries

On termination of service due to death, disability, discharge or retirement, a participant may elect to receive a lump-sum amount equal to the value of the vested interest in his or her account.

Vested account balances of less than \$5,000 may be distributed at the discretion of the Plan in a single lump sum.

NOTES TO FINANCIAL STATEMENTS

NOTE A - Description of the Plan, continued

Forfeitures

Forfeitures resulting from terminated participants are accumulated in the forfeiture account and used to reduce future Employer contributions. During 2010 and 2009, \$9,762 and \$15,322 of forfeitures were used to offset Employer contributions, respectively. At December 31, 2010 and 2009, forfeited non vested accounts totaled \$15,509 and \$17,603, respectively.

Administrative expenses

Certain professional and administrative fees are paid by the Employer. All other administrative fees are paid by the Plan.

Plan termination

Although the Employer has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE B - Summary of significant accounting policies

Basis of accounting

The accompanying financial statements and supplemental schedule have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note G for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Accounting Standards Codification (ASC) Topic on *Defined Contribution Pension Plans* requires that investment contracts held by a defined-contribution plan be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available

for Benefits presents the fair value of the common/collective trust as well as the adjustment from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Recent accounting pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued guidance to improve the disclosures related to fair value measurements. The new guidance requires expanded fair value disclosures, including the reasons for significant transfers between Level 1 and Level 2 and the amount of significant transfers into each level disclosed separately from transfers out of each level. For Level 3 fair value measurements, information in the reconciliation of recurring Level 3 measurements about purchases, sales, issuances and settlements shall be presented separately on a gross basis, rather than as one net number.

In addition, clarification is provided about existing disclosure requirements, such as presenting fair value measurement disclosures for each class of assets and liabilities that are determined based on their nature and risk characteristics and their placement in the fair value hierarchy (that is, Level 1, 2, or 3), as opposed to each major category of assets and liabilities, as required in the previous guidance.

Disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements will be required for fair value measurements that fall in either Level 2 or Level 3. The new guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures related to the gross presentation of purchases, sales, issuances and settlements for Level 3 fair value measurements, which are effective for reporting periods beginning after December 15, 2010.

In September, 2010, the FASB issued guidance to amend generally accepted accounting principles related to the classification and measurement of loans to participants by defined contribution pension benefit plans. Previous guidance required loans to participants to be classified as plan investments, which are generally measured at fair value in accordance with generally accepted accounting principles. The new guidance requires that loans to participants be classified as notes receivable from participants and measured at their unpaid principal balance plus any accrued but unpaid interest. The new guidance is effective for periods ending after December 15, 2010 to be applied retrospectively.

Payments of benefits

Benefits are recorded when paid.

Reclassifications

Certain December 31, 2009 financial statement items have been reclassified to conform to the December 31, 2010 financial statement presentation. The reclassifications had no effect on the Plan's changes in net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through July 26, 2011, the date the financial statements were available to be issued.

NOTE C - Investments/Notes receivable from participants/information certified by trustee

All investment information and participant notes receivable information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2010 and 2009, net appreciation in fair value of shares of registered investment companies, and interest and dividend income for the years ended December 31, 2010 and 2009, was obtained or derived from information supplied to the Employer and certified as complete and accurate by Fidelity Management Trust Company, the trustee at December 31, 2010 and 2009. As elected by the Employer, no auditing procedures have been performed on this information except to compare such information to the information included in the accompanying financial statements.

Investments that represent 5% or more of the fair value of the Plan's net assets are as follows at December 31:

	<u>2010</u>	<u>2009</u>
Fidelity Managed Inc Portfolio	\$ 3,359,684 *	\$ 2,754,246 *
Fidelity International Discovery	1,122,332	1,506,660
Morgan Stanley Institutional Trust Mid Cap	1,820,859	1,531,811
Alliance Bernstein International Value	<5%	976,606
Rainier Large Cap	1,540,202	1,245,727
Janus Overseas	1,172,618	1,127,178

* Amount represents contract value for this investment.

SUMMACARE, INC. EMPLOYEES 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE C - Investments/Notes receivable from participants/information certified by trustee, continued

During 2010 and 2009, the Plan's shares of registered investment companies (including investments purchased, sold, and held during the year) appreciated in value by \$1,576,522 and \$2,471,156, respectively.

NOTE D - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE E - Tax status

The Employer adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on August 8, 2001, stating that the Plan and related trust, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE F - Party-in-interest transactions

Plan investments consist of certain shares of registered investment companies and units of a common/collective trust offered by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions. There were no fees paid by the Plan during 2010 and 2009 for trustee or investment management services.

NOTE G - Fair value measurements

The ASC Topic on *Fair Value Measurements and Disclosure* defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. The Topic does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

The Topic establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Shares of registered investment companies: Valued at the net asset value of shares held by the Plan at year-end.

NOTES TO FINANCIAL STATEMENTS

NOTE G - Fair value measurements, continued

Common/collective trust – Stable value fund: The fair values of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (Level 2 inputs). The fund invests in conventional and synthetic investment contracts issued by various companies and institutions, with the objective of providing a high level of return that is consistent with also providing stability of investment return, preservation of capital and liquidity to pay plan benefits of its retirement plan investors. There are no redemption restrictions upon which the participant may redeem investments in the fund. However, the Plan is required to provide a one-year redemption notice to liquidate its entire investment in the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

NOTE I - Subsequent events

Effective July 1, 2011, the Plan was amended for any participant who had not attained age 60 on or before December 31, 2010 to receive an employer match at 100% of the participant's contributions up to 1% of the participant's compensation and 50% of the participant's contributions up to the next 5% of the participant's compensation and will be 100% vested after 3 years. The same vesting rules apply to all participants hired on or after January 1, 2010. The Employer will contribute a non-discretionary contribution equal to 1% of compensation for all participants, who had not attained age 60 on or before December 31, 2010 and were hired on or after January 1, 2010. These participants will be required to be employed by the Employer on both January 1 and December 31.
