Report of Independent Auditors

To the Participants and Administrator of the
L-3 Communications Combat Propulsion Systems UAW Retirement Plan:

In our opinion, the accompanying Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009 and the related Statements of Changes in Net Assets Available for Benefits for the years then ended and the Statement of Accumulated Plan Benefits as of January 1, 2010 and the related Statement of Changes in Accumulated Plan Benefits for the year then ended, present fairly, in all material respects, information regarding the net assets available for benefits of the L-3 Communications Combat Propulsion Systems UAW Retirement Plan (the "Plan") at December 31, 2010 and changes therein for the year then ended and its financial status as of January 1, 2010, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Interest rate for determination of Current Liability and Maximum Contributions:	
Current Liability:	6.76% (previously, 6.69%) Effective in 2008, as mandated by the Pension Protection Act of 2006 for eligible contractor plans, this is based on the third segment rate used to determine funding requirements for noncontractor plans.
Maximum Deductible Contribution:	As mandated by the Pension Protection Act of 2006, the interest rates used are from the September 2009 segmented and averaged yield curve. The rates are 5.03% for payments in the first 5 years, 6.73% for payments in years 6-20, and 6.82% for payments thereafter. The effective interest rate is 6.70%. (Prior year's rates were from October 2008 full yield curve. The average rate were 7.35% for payments in the first 5 years, 8.61% for payments in years 6-20, and 7.26% for payments thereafter. The effective interest rate was 8.15%.)

Percent married:	70% for male participants, 55% for female participants
Spouse age:	For active participants, it was assumed that husbands were 3 years older than their wives.
Actuarial value of assets:	The actuarial value of assets at the end of each year is determined by comparing the "expected value" of assets to the market value. The "expected value" of assets at the end of the year is equal to the actuarial value of assets at the beginning of the year increased by interest at an assumed rate of 7.50% (with appropriate adjustments for trust income and disbursements). If the market value is more than 5% above or below the "expected value," then 20% of the excess is added to the "expected value" in order to determine the actuarial value of assets. Otherwise, the actuarial value is equal to the "expected value." The actuarial value is then adjusted, if necessary, so as to be not less than 80% nor more than 120% of the fair market value of assets.

For the maximum deductible contribution, the rules under the Pension Protection Act apply, based on the plan sponsor's election of an allowable asset averaging method. The actuarial value of assets is an average of the market value of assets as of the valuation date and the adjusted market value of assets as of the preceding two years. The adjusted assets reflect expected earnings (subject to a statutory cap) and actual cash flow. The resulting value is limited to between 90% and 110% of the market value of assets. The methodology was changed from market value of assets in 2008.

Actuarial cost method:

Entry Age Normal Actuarial Cost Method

This cost method develops the annual cost or expense of the Plan in two parts: that attributable to service accruing in the current year, known as the normal or service cost; and that due to service earned prior to the current year, known as the actuarial accrued or past service liability. Each of these components is calculated individually for each active employee.

The normal cost is the level annual contribution, as a percentage of pay, required to be made from the employee's date of hire until his termination or retirement so that sufficient assets will be accumulated to provide his benefit. The unfunded actuarial liability reflects the difference between the portion of projected benefits attributable to service credited prior to the valuation date and assets already accumulated. The unfunded actuarial liability is paid off in accordance with a specified amortization procedure.

Under the entry age normal cost method, if actual plan experience is close to the assumptions, the normal cost will increase each year for each employee as he or she approaches retirement age. The total contribution is made up of the sum of the individual normal costs and the amortization payment on the unfunded actuarial liability.

EIN 13-3937436 PN 023

SUMMARY OF PLAN PROVISIONS

This subsection summarizes the major provisions of the plan as included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

The following provisions apply to participants in active service on the valuation date. There are a number of participants on leave of absence or who are now covered under a different pension plan of the Plan Sponsor. For these participants, their benefits equal the benefits as defined on their last day of active service.

Normal retirement:

<i>Age requirement:</i>	65
<i>Service requirement:</i>	None
<i>Amount:</i>	A monthly pension of \$40.00 per year of Credited Service

Early retirement:

<i>Age and service requirement:</i>	55 with 10 years of service or before age 55 with 30 years of service
<i>Amount:</i>	A member retiring early on or after age 62 will be entitled to the full accrued benefit without reduction. A member retiring early on or after age 58 with 30 years of service will have his accrued benefit reduced 2-1/2% for each year prior to age 62. Otherwise, a member retiring early on or after age 55 with ten years of service will have his accrued benefit reduced 6% for each year prior to age 62. If the member retires (i) after age 60 or (ii) before age 60 with 30 years of service or 85 points, a monthly supplement is payable to age 62, which when added to the basic benefit, equals \$1,600 per month. This supplement is reduced for retirement prior to age 58 with 30 years of service or age 60 with less than 30 years of service.

Disability:

<i>Age requirement:</i>	None
<i>Service requirement:</i>	10 years of service
<i>Amount:</i>	Accrued normal retirement benefit plus a temporary monthly pension, payable to the earlier of age 62 or commencement of Social Security disability benefits equal to \$20.00 for each year of credited service up to 25 years.

Special Medicare Benefit:

Amount:

If terminating employment after becoming eligible for an Early Retirement Benefit, Normal Retirement Benefit, or Disability Benefit, the member shall receive a monthly Special Medicare Benefit beginning at age 65 equal to \$6.00 per year of Credited Service.

Vesting:

Age requirement:

None

Service requirement:

5 years

Amount:

If terminating employment after completion of five years of service, the accrued normal retirement pension is payable commencing at age 65. The benefit may commence prior to age 65, but after age 55 with ten years of service, with a reduction of 7.2% for each year prior to age 65.

Pre-retirement death benefits:

Amount:

If a member dies while eligible for early retirement or while eligible for a vested benefit and leaves a surviving spouse, the surviving spouse will be entitled to the benefit that would have been payable had the member terminated employment on the date of death with payment of benefits to commence on the earliest date permitted thereafter as a qualified joint and survivor annuity.

Post-retirement death benefits:

Amount:

If a member dies while receiving benefits, his beneficiary will be entitled to receive a lump sum payment equal to \$2,500.

Forms of payment:

Normal Form:

Single life annuity.

Optional Forms:

Life and 55% survivor annuity

Life and 60% survivor annuity

Life and 75% survivor annuity

Lump sum benefits:

Benefits with present value less than \$5,000 are automatically cashed out.

Section 415 limit:

\$195,000 (previously, \$195,000)

Participation:

Service requirement:

All hourly paid employees of GDLS Muskegon Operations represented by the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, U.A.W. Locals 113 and 1279 who have completed 1,000 hours of service or received one year of Credited Service.

Credited Service:

One year for each calendar year that member works or receives credit for at least 1,700 hours (fractional credit for less than 1,700 hours worked).

Recent Amendments:

Effective January 1, 2008, the plan provides a 75% joint and survivor annuity as an optional form of benefit. (Amendment No. 1)

Effective January 1, 2007, the plan is closed to new hires, the benefit multiplier increased to \$40 (previously \$34) and the monthly supplement payable to age 62 increased to \$1,600 (previously \$13,00). Amendment No. 2)

Effective in 2008, the Plan has been amended to comply with tax law changes and to make certain other changes as described in Amendment No. 2.

Report of Independent Auditors

To the Participants and Administrator of the
L-3 Communications Combat Propulsion Systems UAW Retirement Plan:

In our opinion, the accompanying Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009 and the related Statements of Changes in Net Assets Available for Benefits for the years then ended and the Statement of Accumulated Plan Benefits as of January 1, 2010 and the related Statement of Changes in Accumulated Plan Benefits for the year then ended, present fairly, in all material respects, information regarding the net assets available for benefits of the L-3 Communications Combat Propulsion Systems UAW Retirement Plan (the "Plan") at December 31, 2010 and changes therein for the year then ended and its financial status as of January 1, 2010, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

1. Plan Description

The following brief description of the L-3 Communications Combat Propulsion System UAW Retirement Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan was established effective February 25, 2005 in connection with the acquisition of the Propulsion Systems business unit of General Dynamics by L-3 Communications Corporation (the “Company”), a wholly owned subsidiary of L-3 Communications Holdings, Inc. (“Holdings”). On that date, certain collectively bargained hourly paid participants in the General Dynamics Land Systems Muskegon Operations UAW Retirement Plan (the “Prior Plan”) became participants in the Plan. The provisions of the Plan apply only to employees who terminate active employment on or after February 25, 2005.

The Plan is a non-contributory defined benefit plan covering bargaining unit employees of Locals 113 and 1279 of the UAW. Participation in the Plan commenced when an employee was represented by a collective bargaining agreement that specifically provided for coverage under the Plan and after an employee completed at least 1,000 hours of service or one year of credited service during a period of twelve consecutive months measured from his or her employment date. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan is frozen with respect to new participants hired on or after January 1, 2007. As such, any employees hired on or after January 1, 2007 are not eligible to participate in the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Investment in Master Trust

Investment assets of the Plan are maintained in the L-3 Communications Corporation Master Trust (the “Master Trust”) administered by The Bank of New York Mellon, as Trustee. The Plan participates in the Master Trust along with other defined benefit plans sponsored by the Company (collectively, the “L-3 Participating Plans”). The only investment of the Plan is its interest in the net assets of the Master Trust. The fair value of the Plan’s interest in the Master Trust is determined based on the beginning of year value of the Plan’s interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and actual administrative expenses. Assets held in the Master Trust primarily consist of corporate equity securities, commingled trust funds and mutual funds, corporate bonds and Government and mortgage-backed securities. See Note 6 for a description of the valuation methodologies of the assets of the Master Trust.

L-3 COMMUNICATIONS COMBAT PROPULSION SYSTEMS
UAW RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS - continued
(Dollars in thousands)

The Master Trust records investment transactions on the trade-date, dividend income on the ex-dividend date, interest income as earned and determines realized gains and losses on sales of securities based on the average cost method.

Net Investment Gain (Loss) from Master Trust

The net investment gain (loss) from the Master Trust includes interest and dividend income and net appreciation or depreciation in the fair value of investments, which includes gains or losses realized upon disposition of investments and net unrealized appreciation or depreciation of investments. The net investment gain or loss is allocated to the L-3 Participating Plans based upon the relationship of each plan's respective monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Benefit Payments

Benefit payments are recorded when paid.

Plan Expenses

The administrative expenses of the Plan are paid for by the Plan. Administrative expenses are allocated to the Plan at the direction of the Company based upon the Plan's respective portion of the expense. Investment management fees of the Master Trust are allocated to the L-3 Participating Plans based upon the relationship of each plan's respective monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, disclosures of contingent assets, liabilities and benefit obligations, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results will differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The investments held in the Master Trust are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the investments and related allocation reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Subsequent Events

The Plan continues to evaluate events after the Statement of Net Assets Available for Benefits date through August 31, 2011, the date the financial statements were available to be issued.

3. Contributions

Generally, the Company's funding policy is to contribute amounts in accordance with the Internal Revenue Code ("IRC") and the minimum funding requirements under ERISA. Contributions from the Company required in 2010 and 2009 under the minimum funding requirements of ERISA were \$1,262 and \$851, respectively. Contributions are calculated using the Entry Age Normal Actuarial Cost Method. Under this method, the total actuarial liability for participants is the actuarial present value as of the valuation date of all benefits attributed by the pension benefit formula to employee service rendered prior to that date, which assumes the normal cost will remain constant as a percentage of payroll for each employee as he or she approaches retirement age. The yield (interest, dividends, and net realized and unrealized gains and losses) on investments of the Plan serves to adjust future contributions that will be required to provide for the defined level of benefits.

4. Plan Benefits

Participants are entitled to receive monthly pension benefits beginning at the normal retirement age of 65 equal to thirty-four dollars multiplied by the number of years of credited service. Effective January 1, 2007, the thirty-four dollars rate was increased to forty dollars. Effective January 1, 2011, the rate increased to forty-two dollars for participants retiring on or after that date.

The Plan permits early retirement upon reaching age 55 for participants with at least 10 years of vesting or credited service or prior to reaching age 55 after completing 30 years of vesting or credited service. Participants retiring early who have attained age 62 will be entitled to full

benefits. Participants retiring early, on or after reaching age 58, with 30 years of service prior to termination of service will receive the normal accrued benefit reduced by $\frac{1}{12}$ th of 2½% for each full calendar month after the date of commencement elected and prior to attainment of age 62. Retirees may elect to receive pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement. Under the joint and survivor annuity, if a vested participant dies prior to the date pension benefits commence, the surviving spouse of the deceased vested participant generally receives benefits equal to 55% of the amount which would have been payable to the retiree under the applicable joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree. If participants are terminated before completing 5 years of service, they forfeit the right to receive their accumulated benefits.

The following presents the more significant assumptions underlying the actuarial computations as of January 1, 2010 and 2009.

Mortality basis	RP-2000 Combined Healthy Table RP-2000 Disabled Retiree Table
Retirement	Retirement starting at ages 54 and under, with 100% by age 70
Discount rate for the determination of the present value of accumulated plan benefits	2010 and 2009 – 7.5%

The foregoing actuarial assumptions are based upon the assumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors may be used in determining the actuarial present value of accumulated plan benefits.

6. Fair Value Measurements

The Plan adopted the standards for fair value measurements. The provisions of the standards are applicable to all of the Plan's assets and liabilities that are measured and recorded at fair value. The standards establish a framework for measuring fair value and expand related disclosures. The standards define fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. It establishes a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described below.

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Plan's Level 1 assets include equity securities, certain mutual funds and U.S. Treasury bonds, all of which fair value is derived from quoted market prices.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. The fair value is determined using a valuation model based on observable market inputs. The Plan's Level 2 assets include commingled trust funds, certain mutual funds, corporate bonds, government securities and forward contracts.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data. The Plan has no Level 3 assets.

The table below reports by level, within the fair value hierarchy, the assets held in the Master Trust at fair value as of December 31, 2010 and 2009, including a description of the valuation methodologies. As required by the standards, each asset is classified based on the lowest level of input that is significant to the fair value measurement.

⁽¹⁾ Equity securities consist of investments in common stock of U.S. and foreign companies. The fair value of equity securities is based on quoted market prices available in active markets at the close of a trading day, primarily the New York Stock Exchange (NYSE), National Association of Securities Dealers Automated Quotations (NASDAQ), and various foreign exchanges. The Level 2 investment balance is derived from a pooled equity fund offered by a registered investment company, which fair value is based on net asset value (NAV). NAV is calculated by the fund manager based on the fair value of the fund's holdings, primarily equity securities traded in active markets, determined as of the end of each month. Withdrawals are

L-3 COMMUNICATIONS COMBAT PROPULSION SYSTEMS

permitted monthly based on NAV.

- ⁽²⁾ Approximately 50% in 2010 and 53% in 2009 of plan assets invested in fixed income — investment grade securities consist of a mutual fund offered by a registered investment company. The mutual fund invests in investment grade fixed income securities, mortgaged-backed securities, U.S. treasury and agency bonds and corporate bonds. This fund is classified by the Company as a Level 1 measurement within the fair value hierarchy as the mutual fund trades on an active market and daily, quoted prices are available.
- ⁽³⁾ The remaining 50% in 2010 and 47% in 2009 of plan assets invested in fixed income — investment grade securities is derived from pooled bond funds offered by registered investment companies. As these funds do not trade in an active market, the fair value is based on NAVs calculated by fund managers based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs.
- ⁽⁴⁾ Fixed income — high yield consists of investments in corporate high-yield bonds from various industries. The fair values of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs.
- ⁽⁵⁾ Real Estate Investment Trusts (REITs) consist of securities that trade on the major exchanges and invest in real estate directly, either through properties or mortgages.
- ⁽⁶⁾ Other consists of short term investments maintained in a commingled trust or pooled fund, which primarily invests in short term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit, which are classified as Level 2.

7. *Accounting Standards Issued and Not Yet Implemented*

In May 2011, the FASB issued a revised accounting standard for fair value measurement and disclosure. The revisions clarify how to measure fair value and require additional disclosures as follows: 1) transfers between Level 1 and Level 2 of the fair value hierarchy, 2) the valuation process used and the sensitivity of a fair value measurement categorized within Level 3 of the fair value hierarchy to changes in unobservable inputs, and 3) the categorization by level of the fair value hierarchy for items that are not measured at fair value in the Statement of Net Assets Available for Benefits, but for which the fair value of such items is required to be disclosed. The revised accounting standard is effective for the Company beginning after December 15, 2011, and is not expected to have an impact on the Plan's Net Assets Available for Benefits.

L-3 COMMUNICATIONS COMBAT PROPULSION SYSTEMS
UAW RETIREMENT PLAN

8. *Tax Status*

The Internal Revenue Service has determined and informed the Company by a letter dated July 28, 2008, that the Plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2006.

9. *Related Party Transactions*

Certain plan investments held in the Master Trust are units of a commingled trust fund managed by The Bank of New York Mellon, the Plan's trustee.

10. *Termination Priorities*

While the Company has not expressed any intention to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to collective bargaining and the provisions set forth in ERISA.

In the event the Plan terminates, the net assets will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and receive pension benefits at least three years before, but who did not elect to retire at that time.
- c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.

L-3 COMMUNICATIONS COMBAT PROPULSION SYSTEMS

(Dollars in thousands)

- d. All vested and non-vested benefits.

To the extent the Plan's net assets are not sufficient to fund the accumulated benefits upon Plan termination, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation, up to specified limits.
