We were engaged to audit the accompanying statements of net assets available for benefits of Owens Healthcare 401(k) Plan (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets held for investment purposes as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Standard Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN

The following description of Owens Healthcare 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General The Plan is a defined contribution plan covering substantially all employees of Owens Healthcare (the Company). The Company is a pharmacist-owned healthcare company specializing in the areas of retail pharmacy, compounding pharmacy, infusion services, medical equipment and respiratory services. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was originally established as of January 1, 1991, and has been subsequently amended.

Eligibility Employees are eligible to participate in the Plan upon completing 500 hours of service with the Company and meeting the minimum age requirement of 18.

Contributions Participants may elect to contribute to the Plan, in the form of employee 401(k) salary deferral contributions, up to the lesser of 100% of eligible compensation or the maximum amount allowable by law.

The Plan requires the employer to make mandatory safe harbor matching contributions whereby the employer matches 100% of each participant's deferral up to 3% of the participant's compensation and 50% of each participant's deferral between 3% and 5% of the participant's compensation.

Participant Accounts Each participant's account is credited with the participant's salary deferral contributions, account earnings, and employer contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting Participants are immediately 100% vested in their salary deferral and employer contributions.

Notes Receivable From Participants Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest. Interest rates on participant loans ranged from 3.25% to 7.25%. Loans shall provide for a level amortization with payments to be made over a period not to exceed five years unless the loan qualifies as a home loan, which may not exceed 10 years.

Payment of Benefits Upon termination of service, a participant may elect to receive payment in the form of a lump-sum distribution, installments paid over a fixed number of years, or any other form of payment that may be permitted under the Plan.

Plan Administration Costs The Company paid administrative costs on behalf of the Plan for the years ended December 31, 2010 and 2009.

Plan Termination Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note below for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Reclassifications Certain amounts in the December 31, 2009, financial statements have been reclassified, for comparative purposes, to conform with the presentation in the December 31, 2010, financial statements.

Subsequent Events Management has evaluated the need for disclosures and/or adjustments resulting from subsequent events through July 29, 2011, the date the financial statements were available to be issued. Based on this evaluation, no disclosures or adjustments were required to the financial statements as of December 31, 2010.

Estimates The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits Benefits are recorded when paid.

Fair Value Measurements Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the years ended December 31, 2010 and 2009.

Pooled Separate Account: The underlying assets of the pooled separate account consist of mutual funds and a common collective trust known as sub-accounts. Each sub-account invests in shares or units of an underlying mutual fund or common collective trust, respectively. Sub-accounts are measured in terms of accumulation units. The sub-accounts are valued based on the quoted market prices of the mutual funds and the underlying assets of the common collective trust. Certain fund fees and expenses, mortality and risk charges, and administration charges (if any) are deducted from the value of both the mutual funds and the common collective trust to arrive at the value of the sub-accounts. The accumulation units are valued at net asset value on a daily basis. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the pooled separate account, the investment advisor reserves the right to temporarily delay withdrawal from the pooled separate account in order to ensure that securities liquidations will be carried out in an orderly business.

Deposit Administration Contracts: The contracts are included in the financial statements at contract value. Contract value approximates fair value as the contract crediting rate resets quarterly. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. INVESTMENTS

The Plan has a deposit administration contract with Standard Insurance Company (Standard). Standard maintains the contributions in an unallocated fund with assets that are invested with other assets in the general account of Standard. Withdrawals from the contract are subject to a market value adjustment and, therefore, are not considered to be fully benefit responsive. The crediting interest rate is based on an agreed-upon formula with the issuer. The average rate was approximately 3.36% and 3.31% for the years ended December 31, 2010 and 2009, respectively. There are no reserves against contract value for credit risk of the contract issues or otherwise.

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such an election, the total investments as shown below were not subjected to any auditing procedures. The investments as certified by Standard also represent investments that are 5% or more of the Plan's net assets and are as follows:

	2010	2009
Pooled Separate Account A	$ 2,879,086	$ 2,360,650
Deposit administration contract	1,464,289	1,382,588
Total Investments Certified by Standard	$ 4,343,375	$ 3,743,238

During 2010 and 2009, the pooled separate account certified by Standard appreciated in value by $401,324 and $460,457, respectively. During 2010 and 2009, the interest earned on the deposit administration contract certified by Standard was $46,722 and $50,946, respectively.

The tables below set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

December 31, 2010	Level 1	Level 2	Level 3	Total
Pooled separate account	$ -	$ 2,879,086	$ -	$ 2,879,086
Deposit administration contract	-	-	1,464,289	1,464,289
Total Assets at Fair Value	$ -	$ 2,879,086	$ 1,464,289	$ 4,343,375

December 31, 2009	Level 1	Level 2	Level 3	Total

Total Assets at Fair Value	$ -	$ 2,360,650	$ 1,382,588	$ 3,743,238

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2010 and 2009:

Contributions per Forms 5500	$ 506,731	$ 508,729

5. RELATED-PARTY TRANSACTIONS

The Plan has an investment contract with Standard. Standard is the trustee as defined by the Plan and, therefore, qualifies as a party-in-interest with respect to the pooled separate account and deposit administration contract managed by them; however, they are exempt from the prohibited transaction rules under ERISA. Fees paid by the Plan for investment management services were included as reductions of the return on each fund.

6. INCOME TAX STATUS

The Plan was restated to adopt a prototype plan established by Sungard Corbel, LLC (Sungard), effective January 1, 2008. The Sungard prototype plan document was granted a determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the *Internal Revenue Code.* The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the *Internal Revenue Code;* and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. RECENT ACCOUNTING PRONOUNCEMENTS

In September 2010, FASB issued Accounting Standards Update (ASU) No. 2010-25, *Plan Accounting–Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contributions Pension Plans.* ASU No. 2010-25 clarifies how loans to participants should be classified and measured. Effective for fiscal years ending after December 15, 2010, entities will need to classify loans to participants as notes receivable from participants with retrospective application to all prior periods presented. The Plan has adopted ASU No. 2010-25 for the current fiscal year.

In January 2010, FASB issued Accounting Standards Update (ASU) No. 2010-06, *Improving Disclosures About Fair Value Measurements*. ASU No. 2010-06 clarifies existing disclosures and requires additional disclosures regarding fair value measurements. Effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years, plans will need to disclose information about purchases, sales, issuances, and settlements of Level 3 securities on a gross basis rather than as a net number as currently required. The Plan is currently evaluating the impact ASU No. 2010-06 will have on its financial disclosures.
