Abraxas Corporation Profit Sharing Plan

Notes to Financial Statements December 31, 2010

NOTE A – PLAN DESCRIPTION

The following description of the Abraxas Corporation Profit Sharing Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan Document or Summary Plan Description for a more complete description of the Plan’s provisions.

Overview

The Plan was established as a volume submitter defined contribution plan on January 1, 2002, and was amended and restated effective January 1, 2009, in accordance with Section 401(a) of the Internal Revenue Code (“IRC”). The plan covers eligible employees of Abraxas Corporation (the “Company”). The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

The Plan provides for a Company discretionary contribution. The discretionary contribution is based upon employee classification as defined in the Plan document.

Vesting

Participants are immediately vested in their employer contributions plus or minus earnings or losses.

Rollovers

New employees are permitted to transfer account balances from other qualified plans to the Plan.

Distributions

Benefit distributions are recorded when payments are made by the Plan. Upon termination of service due to death, disability, or retirement, a participant, or in the event of death, his or her designated beneficiary may elect to receive a lump-sum amount equal to the full value of the participant’s account balance or installment payments for a fixed period not to extend beyond the participant’s life expectancy. For termination of service or for other reasons, a participant may receive the value of his or her vested balance in his or her account. The Plan permits “in-service withdrawals” in the case of rollover accounts, attainment of age 40 and hardship withdrawals.

Participant Accounts

Individual accounts are maintained by Vanguard Fiduciary Trust Company (“the Custodian”) for each participant. Each participant’s account is credited with the Company’s contribution and an allocation of Plan earnings or losses including market value adjustments on Plan investments. Allocations of earnings and losses are based on the proportion of the participant’s account balance to the total account balances of all participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Administrative Expenses

Except for certain costs associated with participant initiated transactions, administrative expenses of the Plan are paid by the Plan Sponsor.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared under the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from these estimates.

Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term. Such changes could materially affect the participants’ account balances and the amount reported in the statement of net assets available for benefits.

Abraxas Corporation Profit Sharing Plan

Notes to Financial Statements (continued)

December 31, 2010

Investment Valuation

The Plan's investments are reported at fair value as determined by the Custodian, and are based on the net asset value of units held by the Plan at year-end. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements. Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

The Plan has evaluated subsequent events through August 19, 2011, the date the financial statements were available to be issued.

NOTE C – INVESTMENTS

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the trustee, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule H, line 4i – Schedule of Assets (Held at End of Year).

The fair values of individual investments that represent 5 percent or more of the Plan's net assets (as certified by the trustee) as of December 31, 2010 and 2009 are as follows:

	2010	2009
Vanguard Federal Money Market Fund	\$ 6,119,441	\$ 7,503,987
Vanguard Target Retirement 2015 Fund	2,151,322	1,677,394
Vanguard Prime Money Market Fund	3,159,445	1,458,809
**Other	17,243,723	13,756,572
	<u>\$ 28,673,931</u>	<u>\$ 24,396,762</u>

**Aggregate of funds representing less than 5 percent of net assets individually.

During the year ended December 31, 2010, investments (including gains and losses on investments bought and sold, as well as held during the year), increased in value by \$1,841,354, as certified by the trustee.

NOTE D – FAIR VALUE MEASUREMENTS

The valuation techniques required to determine fair value are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect internal market assumptions. The two types of inputs create the following fair value hierarchy:

Level 1 – Valuation is based upon quoted prices in active markets for identical assets or liabilities.

Level 2 – Valuation is based upon other significant observable inputs (including quoted prices for similar assets or liabilities in active markets, identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, etc.

Level 3 – Valuation is based upon significant unobservable inputs, including the reporting entity's own assumptions in determining the fair value of investments.

The inputs or methodology used by valuing securities are not necessarily an indication of risk associated with investing in those securities.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

The Money Market Accounts and Mutual Funds held by the plan are valued at the net asset value ("NAV") of shares held by the plan at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine that fair value of certain financial instruments could result in a different fair value measurement in the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Total assets at fair value	\$ 28,673,931	\$ -	\$ -	\$ 28,673,931	\$ 24,396,762

NOTE E – TAX STATUS

The volume submitter Plan adopted by the Company received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan is qualified and the related trust is tax-exempt.

NOTE F – PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan Agreement to amend any or all provisions of the Plan as well as discontinue contributions and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will remain 100% vested in their accounts, and the net assets of the Plan must be allocated among the participants and beneficiaries of the Plan in the order provided for by ERISA.
