Independent Auditors' Report

Board of Trustees
Plantel Nurseries, Inc. 401(k) Profit Sharing Plan
Santa Maria, California

We were engaged to audit the financial statements of the Plantel Nurseries, Inc. 401(k) Profit Sharing Plan (the Plan) as of December 31, 2010 and 2009 and for the year ended December 31, 2010, and the supplementary schedule as of December 31, 2010, as listed in the accompanying table of contents. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by John Hancock, the trustee of the Plan, except for comparing the information with the related information included in the 2010 and 2009 financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Plantel Nurseries, Inc. 401(K) Profit Sharing Plan
Notes to Financial Statements
December 31, 2010

Note 1: Description of Plan

The following description of the Plantel Nurseries, Inc., (the Company) 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a type of defined contribution plan under which each participant has a specific account balance. The Plan covers all employees of the Company, excluding those under collective bargaining agreements, leased employee agreements or non-resident aliens, who have attained the age of twenty-one and have completed one year of service in which they were employed 1,000 or more hours. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute to the Plan through salary reductions. The Company may also make a matching contribution as determined by the Company. In addition, each year the Company may also elect, at its discretion, to contribute an additional amount to the Plan. This contribution will be credited to eligible participant accounts based on the proportion of the employees' compensation to the Company's total compensation. Beginning in 2010, the Company amended the Plan to allow for auto enrollment for new participants. Newly eligible employees are automatically enrolled into the Plan unless employee elects to opt out of participation in the Plan. Effective January 1, 2011, the Plan was amended to allow for Eligible Automatic Contribution Arrangements (EACA). Under the EACA, employees who become eligible after the effective date will become automatically enrolled in the Plan unless the employee provides an affirmative election to not participate. Initial deferral rates begin at 2% of compensation and are subject to annual increases of 1% with a maximum of 5%.

Participant Accounts

Each participant's account is credited with their salary deferral contribution and with an allocation of the Company's contribution and Plan earnings. Allocations are based on participants' compensation or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures

Participants are immediately vested in their contributions plus actual earnings thereon. A participant is 100% vested after six years of credited service. A participant will also become 100% vested upon retirement, death or permanent disability. Forfeitures of employer matching contributions are used to reduce Plan administrative expenses or reduce employer matching contributions.

Note 1: Description of Plan (Continued)

Payment of Benefits

Benefit payments will commence upon termination of service unless elected otherwise by the participant. Benefits may be paid in one of the following forms of payment, or in a combination: (1) single lump sum, (2) the purchase of a different form of annuity, or (3) installments over a period not to exceed the participant's or participant's beneficiary's life expectancy.

Investment Options

Participants can invest their Plan assets among several investment funds offered by John Hancock, the trustee of the Plan.

Notes Receivable from Participants

Effective November 15, 2010, participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate as determined by the Plan. Loans are granted only if a financial hardship or financial need under certain criterions has occurred. Principal and interest are paid through payroll deductions.

In September 2010, the Financial Accounting Standards Board (FASB), issued an amendment, *Plan Accounting - Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Plans* (ASU 2010-25), which provides for guidance on how loans to participants should be classified and measure by defined contribution plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from Plan investments and measure at their unpaid principal balance plus any accrued but unpaid interest. This amendment required retrospective application to all periods presented, if applicable. This amendment was adopted for the year ended December 31, 2010.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accrual basis of accounting is used in preparation of information regarding net assets available for Plan benefits and related changes.

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Fair Value Measurements and Income Recognition

Investments are reported at fair value. If available, quoted market prices are used to value investments. If quoted prices in an active market are not available, the investments are reported at estimated fair value. Many factors are considered in arriving at fair value. For example, corporate bonds could be valued based on yields currently available on comparable securities of issuers with similar credit ratings. Participant loans are valued at their outstanding balance, which approximates fair value. See Note 2 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investment bought and sold as well as held during the year.

Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification (the "Topic"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the reporting date. The Topic also established a three-tier hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note 2: Summary of Significant Accounting Policies (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In September 2009, FASB issued an amendment "*Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*" (ASU 2009-12), which provides guidance on how entities should estimate fair value on certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value ("NAV") per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosures of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods after December 15, 2009, with early adoption permitted. Adoption of this guidance has no impact on the financial statements of the Plan.

Note 2: Summary of Significant Accounting Policies (Continued)

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

Plan Administration Expenses

Administrative expenses on the Plan were $8,004 for the year ended December 31, 2010 and were paid by the Plan.

Subsequent Events

Events subsequent to December 31, 2010 have been evaluated through August 2, 2011, which is the date the financial statements were available to be issued. Management did not identify any subsequent events that required disclosure.

Note 3: Information Prepared and Certified by Trustee

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included in the accompanying financial statements and supplemental schedules was prepared or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator from the custodian related to the following assets is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosures under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears through the financial statements and supplemental schedules. The following table presents this certified information, including the fair value of investments that include 5% or more of the plan's net assets as of and for the years ended December 31:

	2010	2009
Plan assets, at fair value:		
LS - Balance	$ 335,189	$ 354,486
LS - Growth	339,717	253,696
LS - Aggressive	363,860	237,719
LS - Conservative	96,775	71,441
Energy	112,673	67,780
Other investments individually less than 5% of net assets	175,257	64,189
Total	$ 1,423,471	$ 1,049,311

During the year ended December 31, 2010, the Plan's investments (including investments bought, sold, and held during the period) appreciated in value by $170,462. Investment income (including interest from note receivables from participants) during the year ended December 31, 2010 was $23.

Note 4: Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 5: Additional Financial Statement Disclosures

Under ERISA, the Department of Labor and the Internal Revenue Service have the authority to issue regulations covering reporting and disclosure requirements, certain administrative responsibilities, and enforcement powers. The items enumerated below are required to be disclosed to meet ERISA guidelines.

A. The Plan received a favorable letter of determination from the Internal Revenue Service on August 7, 2001, regarding its qualified tax status for the Plan. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

B. All reportable transactions have been disclosed in supplemental schedules of the annual report made available to the Plan participants.

During the year ended December 31, 2010, the FASB issued new guidance on accounting for uncertainty in income taxes under the Income Taxes Topic of the FASB Accounting Standards Codification. The Plan adopted this new guidance for the year ended December 31, 2010. Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2007.

Note 6: Participant-Directed Investments

The Plan has a deposit contract with John Hancock. John Hancock maintains the contributions in mutual funds as directed by the participants. The account is credited with actual earnings on the mutual funds as well as any changes in market value and charged for Plan withdrawals. The contract is included in the financial statements at the December 31, 2010 current values as reported to the Plan by John Hancock.

The Plan provides a variety of investment programs that participants may choose from, allowing the participants to allocate their contributions between the programs in any manner they choose.

Note 7: Recent Accounting Pronouncements

In January 2010, FASB issued amendments to the Fair Value Measurements and Disclosures Topic (ASU 2010-06) which requires new disclosures and reasons for transfers of financial assets and liabilities between level 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both level 2 and level 3 measurements. It further clarifies that the reconciliation of level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes.

With respect to matters other than level 3 measurements, the amendment was effective for periods beginning on or after December 15, 2009 and has been adopted. There were no transfers between levels 1 and 2 investment during the year ended December 31, 2010. The guidance related to level 3 measurements is effective for periods beginning on or after December 15, 2010 and has been adopted.
