1. Description of the Plan:

The following description of the Skyline Chili, Inc. Profit Sharing and 401(k) Plan ("the Plan") is provided for general informational purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Skyline Chili, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees who have attained the age of 19 and completed 90 days of service of not less than 246 hours are eligible to participate in the Plan.

Contributions

Each year, participants may contribute up to the maximum annual dollar limit permitted by law of annual pre-tax compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company will contribute a discretionary matching contribution amount equal to 100 percent of the first 3 percent, and 50 percent of the next 2 percent of base compensation that a participant contributed to the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contributions and (b) plan earnings and losses thereon and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the plan document.

Vesting

Participants are immediately vested in their contributions and discretionary matching company contributions that are deemed safe harbor contributions plus actual earnings and losses thereon. A participant is 100 percent vested after three years of credited service with respect to discretionary company contributions. Regardless of service, a participant's entire account balance becomes fully vested upon attaining normal retirement age, or termination of employment due to death or permanent disability.

Notes receivable from participants

Participants may borrow from their fund accounts up to a maximum of the lesser of $50,000 (reduced by the highest outstanding loan balance in their account during the prior twelve month period) or 50 percent of their vested account balance. The loan term is not to exceed five years unless the loan is for the purchase of a principal residence, in which case the term may be longer. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Benefit payments

On termination of service for death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the vested value of his or her account or installments over a period of time. Benefits are payable to designated beneficiaries in the event of a participant's death. Upon termination of employment for other reasons, participants may elect to rollover the vested balance to another qualified plan.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited accounts
Forfeited balances of terminated participants' non-vested accounts are used to reduce plan expenses and/or any future company contributions. At December 31, 2010 and 2009 forfeited accounts totaled $473 and $418, respectively. In 2010 no forfeitures were used to offset employer contributions.

2. Summary of Significant Accounting Policies:

Basis of accounting
The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Valuation of investments
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Effective with the plan year ended December 31, 2010, the Plan adopted the new standard which requires that participant loans be classified as notes receivable from participants, which are segregated from Plan investments. This change was made retroactive to December 31, 2009. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits
Benefits are recorded when paid.

Administrative expenses
Certain professional and accounting fees incurred in connection with the operation of the Plan are paid directly by the Company.

Subsequent events
The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through July 20, 2011, the date on which the financial statements were available to be issued.

3. Investments Certified by Trustee:

All investment information (except for participant loans) disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2010 and 2009, and net appreciation in fair value of investments, and interest and dividends, for the year ended December 31, 2010, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Reliance Trust Company.

4. Investments:

	December 31, 2010	2009
Reliance Advisory Trust Inv 60	$ 981,061	806,161

5. Fair Value Measurements:

Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include: 1. Quoted prices for similar assets or liabilities in active markets; 2. Quoted prices for identical or similar assets or liabilities in inactive markets; 3. Inputs other than quoted prices that are observable for the asset or liability; 4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common/Collective trusts: The fair value of the investments in the common/collective trust is determined by the fund trustee based on the fair value of the underlying securities within the fund, which represent the net asset value of the shares held by the Plan at year end. The significant investment strategies of the funds are as described in the financial statements provided by each fund. There are no restrictions on redemptions from these funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009.

6. Plan Termination:

Although it has expressed no intention to do so, the Company has the right under the Plan to discontinue its contributions and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts, to the extent they are not already fully vested.

7. Income Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated March 24, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

8. Party-In-Interest Transactions:

Certain Plan investments are common/collective trust funds issued by Reliance Trust Company. Reliance Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

9. Risks and Uncertainties:

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the financial statements.

10. Plan Amendments

Effective November 1, 2010, SCR of Cherry Grove, Ohio Partnership joined and adopted the Plan in order to provide retirement benefits for its eligible employees.

11. Subsequent Events

Effective January 1, 2011 the Plan was amended to allow participants to designate all or a portion of their elective deferrals as Roth elective deferrals.

Effective January 1, 2011 the Plan's loan policy was amended to limit the number of loans outstanding to a participant to three loans at any time.
