NOTE 1. - DESCRIPTION OF THE PLAN

The following is a brief description of the Ganz U.S.A., LLC 401(k) Plan (formerly Ganz Inc. 401(k) Plan) (the Plan) provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code. The Plan is funded by participant contributions and employer contributions, and covers all employees of Ganz U.S.A., LLC (the Company) who have completed six months of service. The assets of the Plan are maintained in an investment contract held by Great West Life and Annuity Insurance Company (Great West). Broker commissions associated with investment transactions are paid by the Plan and netted against earnings on investments and administrative expenses are paid by the Plan and the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions - Participants may authorize an elective deferred contribution rate up to the maximum annual limitations as provided by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company makes a discretionary matching contribution. The matching contribution for the years ended December 31, 2010 and 2009 is 20% of the participants' contribution up to 3% of compensation with a maximum of $2,400. Participants direct the investment of their contributions and matching contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, net of investment and administrative fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Participants are 20% vested in employer contributions after two years of service, with a 20% annual increase in each of the next four years.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes receivable from participants range from 1-5 years and may exceed five years for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest is paid ratably through monthly payroll deductions.

Withdrawals and Distributions - Unless a participant elects otherwise, distributions will be made as soon as practicable after a participant's normal retirement date or actual retirement date. The normal retirement date is the date upon which a participant reaches age 59½. The normal form of distribution is a lump sum payment.

Participants may receive their accumulated vested benefits held by the Plan's custodian upon termination of employment or elect to keep their vested balance in the Plan until the earlier of normal retirement age, death or disability if their balance exceeds $1,000. If the participant elects to keep their vested interest in the Plan, the participant's account will continue to receive its share of earnings and losses.

NOTE 1. - DESCRIPTION OF THE PLAN (CONTINUED)

Forfeitures - At December 31, 2010 and 2009, forfeited non-vested accounts totaled $13,899 and $17,802, respectively. Employer matching contributions forfeited by participants are used to reduce future employer matching contributions. Employer matching contributions forfeited during the year ended December 31, 2010 amounted to $6,636 ($5,156 - 2009). Also, during the year ended December 31, 2010, employer contributions were reduced by $10,428 ($12,639 - 2009) from forfeited non-vested accounts.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The Plan prepares its financial statements on the accrual basis of accounting and presents the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Recently Issued Accounting Pronouncements - In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (Update) 2010-06, "Improving Disclosures About Fair Value Measurements." Topic 820 of the Accounting Standards Codification (ASC) requires new disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. It also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for periods beginning after December 15, 2010. Disclosures required under Updated 2010-06 are included in the notes to the Plan's financial statements for the years ended December 31, 2010 and 2009, except for the disclosures related to Level 3 fair value measurements, which will be included in the notes to the Plan's financial statements effective January 1, 2011. Other than requiring additional disclosures, the adoption of this new guidance did not have a material impact on the Plan's financial statements.

In September 2010, the FASB issued Update 2010-25, "Reporting Loans to Participants by Defined Contribution Pension Plans". This Update requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The guidance is effective for annual periods ending after December 15, 2010 with early adoption permitted. The guidance should be applied retrospectively to all periods presented. The Plan adopted this guidance as of December 31, 2010 and reclassified participant loans from plan investments to a component of receivables for both periods presented in the Statements of Net Assets Available for Benefits. Other than the reclassification requirements, the adoption of this standard did not have a material impact on the Plan's financial statements.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net earnings (losses) on investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Contracts with Insurance Company – The Plan currently invests in guaranteed certificate funds with Great West. Great West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses, which approximates fair market value at December 31, 2010 and 2009. The investment contracts are not considered benefit responsive and therefore are presented at fair value. The average yield and crediting interest rates ranged from 0.15% to 4.05% for 2010 (0.50% to 4.10% for 2009).

Notes Receivable from Participants - Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Reclassification – Certain 2009 balances were reclassified to conform with 2010 presentation. Participant loans previously reported as a component of investments have been reclassified to a component of receivables in order to conform to the current year presentation.

Subsequent Event - These financial statements have not been updated for subsequent events occurring after September 13, 2011 which is the date these financial statements were available to be issued.

NOTE 3. - INVESTMENTS

At December 31, 2010 and 2009 the following investments comprised more than 5% of Plan's net assets:

	December 31, 2010	December 31, 2009
Maxim Money Market Portfolio	**$ 1,247,203**	$ 1,077,257
Maxim Moderate Profile II	**$ 1,188,826**	$ 1,298,443
Maxim Loomis Sayles Bond Portfolio	**$ 785,402**	$ 720,698
American Funds Growth Fund of America	**$ 639,828**	$ 551,668
Maxim Aggressive Profile II	**$ 544,566**	$ 522,768
Maxim S&P 500 Index Fund	**$ 529,614**	$ 497,611
American Funds EuroPacific Growth Fund	**$ 460,134***	$ 489,817

* Amounts were less than 5% threshold and were presented for comparative purposes only.

During the year ended December 31, 2010, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by $1,005,016 ($1,718,077 - 2009), all of which related to the shares of pooled separate accounts.

NOTE 4. - FAIR VALUE MEASUREMENTS

Financial Accounting Standard Board (FASB) *Accounting Standards Codification* (ASC) 820: *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4. - FAIR VALUE MEASUREMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Shares of pooled separate accounts: The separate accounts are stated at fair value based on the quoted market prices of the underlying mutual funds. The unit value of the separate accounts is calculated by dividing the total value of the assets of the separate account by the number of unites in the separate account. For separate accounts that invest exclusively in mutual funds, the total value of the assets of the separate account is based on the net asset value (NAV), or price per share, of the underlying mutual fund. The mutual fund calculates its NAV by dividing the mutual fund's net assets by the mutual fund's outstanding number of shares. Pooled separate accounts are classified as level 2 investments.

Investment contracts with insurance company: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The investment contracts with insurance company are classified as level 3 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009:

Balance as of December 31, 2010	$ 55,458

NOTE 5. - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

NOTE 6. - FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets at December 31, 2010 and 2009, as well as investment earnings and investment transactions for the years then ended, have been derived from information provided by Great West Life and Annuity Insurance Company, and have been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and the information relating to investments has not been audited by independent accountants.

	2010	2009
Assets:		
Shares of pooled separate accounts	**$ 10,206,889**	$ 9,021,924
Investment contracts with insurance company	**$ 55,458**	$ 54,972
Transactions for the year ended:		
Earnings on investments	**$ 1,005,016**	$ 1,718,077
Interest income	**$ 1,226**	$ 1,272

NOTE 7. - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are maintained in shares of pooled separate accounts and investment contracts with insurance company managed by Great West. Great West is the custodian as defined by the Plan. Therefore, these transactions qualify as party-in-interest. Administrative expenses paid by the Plan for the year ended December 31, 2010 amounted to $2,452 ($1,386 - 2009).

Great West invested a portion of Plan assets in Great West investment products. The earnings on these investments amounted to $510,862 for the year ended December 31, 2010 ($881,963 - 2009). Participant loans are deemed party-in-interest, therefore interest income of $9,183 ($6,926 - 2009) during the year ended December 31, 2010 qualifies as party-in-interest.

NOTE 8. - INCOME TAXES

The Internal Revenue Service has determined and informed the Company by a letter dated September 18, 2001 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 8. - INCOME TAXES (CONTINUED)

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in process. The Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9. - RECONCILIATION OF THE FINANCIAL STATEMENTS TO FORM 5500
