NOTES TO THE FINANCIAL STATEMENTS

NOVEMBER 12, 2010 AND DECEMBER 31, 2009

NOTE 1 - DESCRIPTION

The following description of the Universal Systems & Technology, Inc. (the Company and Plan Sponsor) Employees 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document and the amendment thereto for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with 401(k) salary deferral provisions covering all eligible employees of the Company. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

On January 9, 2009, Lockheed Martin Corporation purchased the Plan Sponsor. As a result, effective September 26, 2009, the Plan was frozen, with no continued participation or contributions. In addition, participant account balances for active employees became fully vested as of that date. The Plan Sponsor offered all participants who were active employees as of September 26, 2009 entrance to the Lockheed Martin Corporation Salaried Savings Plan.

On September 16, 2010, the Board of Trustees of the Universal Systems & Technology, Inc. Employees 401(k) Savings Plan, resolved to terminate the Plan and merge the Plan into the Lockheed Martin Corporation Salaried Savings Plan. Participant account balances, including notes receivable from participants, were transferred to the Lockheed Martin Corporation Salaried Savings Plan on November 12, 2010.

Contributions

Effective September 26, 2009, contributions are no longer permitted to the Plan as a result of the purchase of the Plan Sponsor except for amounts rolled over from other qualified plans. Active employees transitioned to the Lockheed Martin Corporation Salaried Savings Plan as of that date.

Participant accounts

Prior to the termination of the Plan each participant's account was credited with the participant's contribution and allocations of the Company's matching and profit sharing contribution, if any, and Plan earnings and losses, less any charges, if applicable. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's account.

Vesting

Effective September 25, 2009, all participant accounts became fully vested as a result of the purchase of the Plan Sponsor by Lockheed Martin Corporation.

Notes receivable from participants

Prior to the termination of the Plan, a participant could borrow from their vested account balance a minimum of \$500, a maximum of \$50,000 or 50% of their vested account balance, whichever was less. The notes were secured by the vested account balance in the participant's account and had a one to five-year permissible term. The interest rates on notes outstanding at December 31, 2009 ranged from 4.25% to 9.25%. These rates were consistent with local prevailing rates as determined by the Plan Administrator. Principal and interest were repaid ratably through payroll deductions.

Payment of benefits

Prior the termination of the Plan, termination of service due to death, disability, retirement or any other reason, a participant or beneficiary could elect, from one of seven optional forms of distribution, to receive an amount equal to the value of participant's vested interest. Unless directed by the participant, payments could not be deferred beyond the latest of the following;

- 1) Normal retirement date under the Plan or age 65, if earlier;
- 2) Termination of employment; or
- 3) Ten years of Plan participation

Participants could elect to withdraw from their accounts in the event of proven financial hardships.

Forfeitures

Effective September 25, 2009, all participant accounts became fully vested as a result of the purchase of the Plan Sponsor by Lockheed Martin Corporation. There were no forfeitures outstanding as of November 12, 2010.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

Due to the decision to terminate the Plan effective September 16, 2010, the Plan's financial statements as of November 12, 2010, and for the period from January 1, 2010 through November 12, 2010 are prepared using the liquidation basis of accounting. The Plan's financial statements as of December 31, 2009 are prepared using the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from estimated amounts.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recognized principally on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Prior to the termination of the Plan notes receivable from participants were measured at unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans were reclassified as distributions in accordance with the terms of the plan document.

Payment of benefits

Prior to the termination of the Plan benefits were recorded when paid.

Administrative expenses

Prior to the termination of the Plan administrative expenses were generally paid by the Company or through the use of forfeitures.

Subsequent events

The Plan Administrator has evaluated subsequent events through September 12, 2011, the date the financial statements were available to be issued.

Reclassifications

Certain items in the statements of net assets available for plan benefits as of December 31, 2009 have been reclassified, with no effect on net assets available for plan benefits, to be consistent with the classifications adopted for the year ended December 31, 2010.

NOTE 3 - INVESTMENTS

Individual investments that represent five percent or more of the Plan's net assets

Fair values of individual investments that represent five percent or more of the Plan's net assets as of December 31, 2009 are as follows:

Principal pooled separate accounts

Principal Global Lifetime 2020	\$	1,464,493
Principal Global Money Market		915,064
Principal Global Large Cap S&P 500		756,672
Principal Global Lifetime 2030		749,628
Principal Global International Emerging Markets		634,583
Principal Global Middle Capital Blend		594,675
Guaranteed Interest Accounts		578,939

During the period from January 1, 2010 through November 12, 2010, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,083,964.

Information Certified by Principal Life Insurance Company

The following is a summary of the investment information as of November 12, 2010 and December 31, 2009, and for the period from January 1, 2010 through November 12, 2010, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Principal Life Insurance Company (Principal) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Principal that the information provided to the Plan Administrator by Principal related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following investments:

	<u>2010</u>	<u>2009</u>
Investments at fair value:		
Pooled separate accounts	\$ 0	\$ 10,134,919
Guaranteed interest contracts	0	578,939

Principal also certified to the completeness and accuracy of \$1,083,964 of net appreciation in fair value of investments and \$10,613 of interest and dividends related to the aforementioned investments for the period from January 1, 2010 through November 12, 2010.

NOTE 4 - FAIR VALUE MEASUREMENTS

Authoritative guidance issued by the FASB provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to

measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under authoritative guidance issued by the FASB are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets in active markets;
- quoted prices for identical or similar assets in inactive markets;
- inputs other than quoted prices that are observable for the asset;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following section describes the valuation methodologies the Plan uses to measure its assets at fair value. There have been no changes in the methodologies used at November 12, 2010 and December 31, 2009.

Pooled separate investments accounts: The pooled separate accounts are comprised of mutual funds, domestic and international stock, and corporate bonds with underlying level 1 inputs. The pooled separate real estate account is valued using an income cost, and sales comparison approach. The income approach estimates an income stream for a property (typically 10 years) and discounts that income plus a revision (presumed sale) into a present value at a risk adjusted rate. The cost approach estimates the replacement cost of the building less physical depreciation plus the land value. The sales comparison approach comprises the most weight in the value reconciliation.

Guaranteed investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 5).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value:

As of December 31, 2009				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Real estate funds	\$ 0	\$ 0	\$ 255,177	\$ 255,177

Total investments at fair value	\$ 0	\$ 9,879,742	\$ 834,116	\$ 10,713,858

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the period from January 1, 2010 through November 12, 2010

	Real Estate funds	Guaranteed investment contract
Balance, beginning of period	\$ 255,177	\$ 578,939

Purchases, sales, issuances and settlements, net	(273,249)	(589,545)
Balance, end of period	\$ 0	\$ 0

NOTE 5 - INVESTMENT CONTRACTS

The Plan has guaranteed investment contracts with Principal. Principal maintains the Plan's deposits in general accounts, to which it adds interest at the contract rates, which ranged 3.95% to 1.02% at December 31, 2009. Deposits into this contract are guaranteed the contract minimum rate of return. The weighted average interest rate earned for the year ended December 31, 2009 was 3.35%, respectively. Withdrawals are permitted at any time without penalty and the contract has been determined to be fully benefit-responsive as defined in the authoritative guidance issued by the FASB. All guaranteed investment contracts were transferred out of the plan effective November 12, 2010.

NOTE 6 - TAX STATUS

The Plan was adopted under a prototype plan arrangement with Principal who has received a letter from the Internal Revenue Service stating that its master prototype plan is designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has not received its own tax determination letter. It is the opinion of management that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 7 - RELATED PARTY

The Plan's investments were units of publicly traded mutual funds and participant loans. Certain funds of the Plan were managed by Principal. As a result, Principal qualifies as a party-in-interest to the Plan with respect to transactions related to these funds. The fair market value of funds managed by Principal totaled \$10,713,858 at December 31, 2009.

NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
