REPORT OF INDEPENDENT AUDITORS

The Participants and Administrator
River City Bank Tax Deferred Investment Plan
Sacramento, California

We were engaged to audit the financial statements and supplemental schedule of River City Bank Tax Deferred Investment Plan (the "Plan") as of December 31, 2010 and 2009, and for the years then ended, as listed in the accompanying contents page. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Bank of America, N.A., the trustee of the Plan, in 2010 and 2009, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee held the Plan's investment assets and executed investment transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009, and for the years then ended, that the information provided to the Plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1) Description of the Plan

The following description of the River City Bank Tax Deferred Investment Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a) General

The Plan is a defined contribution retirement plan established on January 1, 1999. The Plan is sponsored by River City Bank (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

The Company pays the majority of the expenses incurred in the administration of the Plan. Certain fees such as origination fees for the notes receivable from participants are paid for from the particular participant's account.

b) Eligibility

All employees of the Company, except certain temporary employees, who are age twenty-one or older and complete one month of service are eligible to participate in the Plan, as defined.

c) Contributions

Participants may elect to contribute up to 50% of their pretax annual compensation subject to the statutory limitations. Commencing in 2009, the Company shall make nondiscretionary matching contributions in an amount equal to 4% of each participant's plan compensation contributed as an elective deferral. Additionally, the Plan allows rollover contributions of participants from other qualifying plans.

d) Participant accounts

Each participant's account is credited with the participant's contributions, the allocation of the Company's contributions and Plan earnings or loss and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on the compensation or account balances of the participants, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

e) Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The Company's contributions and earnings thereon become

1) Description of the Plan, Continued

vested at a rate of 20% per year beginning with the first year of credited service and are fully vested after five years.

f) Forfeitures

In the event participants terminate employment for reasons other than death, disability, or retirement, the participants shall forfeit the unvested portion of their account balances. These forfeitures are used to reduce the Company's contributions. As of December 31, 2010 and 2009, $17,378 and $13,939 of forfeited employer matching contributions were applied to offset employer contributions receivable reflected in the financial statements, respectively.

g) Payment of benefits

On termination of service due to death, disability, or retirement, but in no event later than attainment of age 70 ½, a participant or beneficiary may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2) Summary of Significant Accounting Policies

a) Method of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

b) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c) Risk and uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

2) Summary of Significant Accounting Policies, Continued

d) Investment valuation and revenue recognition

The Plan's investments are reported at fair value. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation of investments is recognized in the year in which the fair value change occurs and includes any realized gains or losses and investment management fees. Purchases and sales of securities are recorded on a trade-date basis.

e) Benefit payments

Benefit payments are recorded when paid.

f) Excess contributions

Refunds of excess participant deferral contributions may be required to satisfy the relevant nondiscrimination provisions of the Plan. Such refunds are accrued as a liability and reduction in contributions in the Plan year in which the excess deferrals were made to the Plan.

g) Adoption of new accounting standards

In September 2010, the Financial Accounting Standards Board (FASB) amended existing guidance with respect to the reporting of participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and measured at their unpaid principal balances plus accrued but unpaid interest. This guidance is effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. The adoption of this guidance by the Plan resulted in a reclassification from *investments* to *notes receivable from participant*s of $56,084 on the statement of net assets available for benefits as of December 31, 2009. Adoption had no effect on the Plan's net assets available for benefits.

3) Notes Receivable From Participants

Under the terms of the Plan, participants may borrow from their accounts subject to limitations set forth in the Plan document and the Internal Revenue Code. Participants may borrow from their accounts up to the lesser of 50% of their vested account balance or $50,000. These transactions are treated as a transfer to (from) the investment funds from (to) the notes receivable fund. General-purpose notes receivable must be repaid within five years and notes receivable to purchase a primary residence must be repaid within fifteen years. Origination fees deducted from the participants accounts during the years ended December 31, 2010 and 2009, were $500 and $400, respectively. The notes receivable are

3) Notes Receivable From Participants, Continued

secured by the balance in the participant's vested account and bear interest at a rate of prime plus 1% at the time of origination. Principal and interest is paid ratably through monthly payroll deductions. Interest rates on notes receivable ranged from 4.25% to 9.25% as of December 31, 2010. At December 31, 2010 and 2009, notes receivable and accrued interest amounted to $101,303 and $56,084, respectively.

4) Fair Value Measurements

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

4) Fair Value Measurements, Continued

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective trust fund: During the year ended December 31, 2010, the Bank of America N.A. Retirement Preservation Trust (RPT) was restructured to operate as short-term investment fund that seeks to maintain a $1 net asset value per share. The RPT previously operated as a stable value fund that sought to maintain a $1 net asset value per share.

Prior to the restructure, the fair value of the Plan's interests in the RPT was based upon the net asset values of such fund, after adjustments to reflect all investments at fair value, including indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund. The fund invested in traditional and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions, with the objective of providing a high level of return that was consistent with also providing stability of investment return, preservation of capital and liquidity to pay plan benefits of its retirement plan investors. The fund provided for daily redemptions by the Plan at reported net asset value per share, with no advance notice requirement. The fair value of the RPT was classified within level 2 of the fair value hierarchy.

After the restructure, the fair values of Plan's interest held in the RPT, are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. The RPT invests in cash, cash equivalents investments and short-term, highly liquid securities. The fund provides for daily redemptions by the Plan at reported net asset value per share, with no advance notice requirement. The fair value of the RPT is classified within level 2 of the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

4) Fair Value Measurements, Continued

	Fair Value Measurements at December 31, 2010 Using

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. As of December 31, 2010 and 2009, there were $0 and $152,208 adjustments from fair value to contract value presented in the statements of net assets available for benefits.

5) Certified Investments – Unaudited Information

Substantially all investment information included in the financial statements, including interest and dividend income and net appreciation (depreciation) in the fair value of investments was certified by the Plan trustee, Bank of America, N.A. (Bank of America) in 2010 and 2009, in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. This information has not been audited by independent accountants.

Individual investments representing 5% or more of net assets for Plan benefits at December 31, 2010 and 2009, are as follows:

During the year ended December 31, 2010 and 2009, the Plan's assets earned interest and dividend income of $161,953 and $131,103, respectively.

During the year ended December 31, 2010 and 2009, the Plan's mutual fund investments, including gains and losses on investments bought and sold, as well as held during the years, appreciated in value by $558,355 and $1,355,929, respectively.

6) Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated January 12, 2004, that the Plan is designed in accordance with applicable sections of the Code. The Plan has been amended since the determination letter date; however the Plan's administrators believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan were to terminate all participants would become 100% vested in their account balances.

8) Party-In-Interest Transactions

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain Plan investments are units of a collective trust fund trusteed by Bank of America, trustee of the Plan, therefore, these investments qualify as parties in interest. The Plan also holds mutual funds issued by Blackrock, who is an affiliate of Bank of America. These investments also qualify as party-in-interest transactions. Lastly, the Plan holds notes receivables from participants which also qualify as a party-in-interest investment. Fees paid by the Plan to Bank of America for administrative expenses qualify as party-in-interest transactions. The fees amounted to $1,160 and $1,060 for the years ended December 31, 2010 and 2009, respectively.

9) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to the Form 5500:

	2010	2009
Net assets available for benefits per the financial statements	$ 8,354,439	$ 8,272,099
Excess of contract value over estimated fair value of investment in collective trust fund	-	(152,208)
Net assets per the Form 5500	$ 8,354,439	$ 8,119,891

9) Reconciliation of Financial Statements to Form 5500, Continued

The following is a reconciliation of the change in net assets available for benefits for the year ended December 31, 2010 and 2009 per the financial statements to the net income reported in the Form 5500:

	2010	2009
Increase in net assets available for benefits per the financial statements	$ 82,340	$ 1,148,134
Change in excess of contract value over estimated fair value of investment in collective trust fund	152,208	165,894
Net income per the Form 5500	$ 234,548	$1,314,028

10) Subsequent Events

Plan management has evaluated subsequent events for recognition and disclosure through August 8, 2011, which is the date the financial statements were available to be issued. Other than as noted below, there were no subsequent events requiring recognition or disclosure in the financial statements.

The Bank of America Retirement Preservation Trust terminated operations on February 28, 2011 and was liquidated on March 1, 2011 through an in-kind distribution. All units were redeemed or exchanged at the net asset value per unit of $1.00, which terminated the trust.

During the year ended December 31, 2010, the Plan selected a new recordkeeper and a new trustee/custodian. Accordingly, on April 7, 2011, the Bank transferred all Plan assets from Bank of America to TD AMERITRADE Trust Company, the new custodian and trustee of the Plan. Related to this transfer, on April 1, 2011, the Plan adopted a new Plan document.

REPORT OF INDEPENDENT AUDITORS

The Participants and Administrator
River City Bank Tax Deferred Investment Plan
Sacramento, California

We were engaged to audit the financial statements and supplemental schedule of River City Bank Tax Deferred Investment Plan (the "Plan") as of December 31, 2010 and 2009, and for the years then ended, as listed in the accompanying contents page. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Bank of America, N.A., the trustee of the Plan, in 2010 and 2009, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee held the Plan's investment assets and executed investment transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009, and for the years then ended, that the information provided to the Plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1) Description of the Plan

The following description of the River City Bank Tax Deferred Investment Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a) General

The Plan is a defined contribution retirement plan established on January 1, 1999. The Plan is sponsored by River City Bank (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

The Company pays the majority of the expenses incurred in the administration of the Plan. Certain fees such as origination fees for the notes receivable from participants are paid for from the particular participant's account.

b) Eligibility

All employees of the Company, except certain temporary employees, who are age twenty-one or older and complete one month of service are eligible to participate in the Plan, as defined.

c) Contributions

Participants may elect to contribute up to 50% of their pretax annual compensation subject to the statutory limitations. Commencing in 2009, the Company shall make nondiscretionary matching contributions in an amount equal to 4% of each participant's plan compensation contributed as an elective deferral. Additionally, the Plan allows rollover contributions of participants from other qualifying plans.

d) Participant accounts

Each participant's account is credited with the participant's contributions, the allocation of the Company's contributions and Plan earnings or loss and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on the compensation or account balances of the participants, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

e) Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The Company's contributions and earnings thereon become

1) Description of the Plan, Continued

vested at a rate of 20% per year beginning with the first year of credited service and are fully vested after five years.

f) Forfeitures

In the event participants terminate employment for reasons other than death, disability, or retirement, the participants shall forfeit the unvested portion of their account balances. These forfeitures are used to reduce the Company's contributions. As of December 31, 2010 and 2009, $17,378 and $13,939 of forfeited employer matching contributions were applied to offset employer contributions receivable reflected in the financial statements, respectively.

g) Payment of benefits

On termination of service due to death, disability, or retirement, but in no event later than attainment of age 70 ½, a participant or beneficiary may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2) Summary of Significant Accounting Policies

a) Method of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

b) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c) Risk and uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

2) Summary of Significant Accounting Policies, Continued

d) Investment valuation and revenue recognition

The Plan's investments are reported at fair value. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation of investments is recognized in the year in which the fair value change occurs and includes any realized gains or losses and investment management fees. Purchases and sales of securities are recorded on a trade-date basis.

e) Benefit payments

Benefit payments are recorded when paid.

f) Excess contributions

Refunds of excess participant deferral contributions may be required to satisfy the relevant nondiscrimination provisions of the Plan. Such refunds are accrued as a liability and reduction in contributions in the Plan year in which the excess deferrals were made to the Plan.

g) Adoption of new accounting standards

In September 2010, the Financial Accounting Standards Board (FASB) amended existing guidance with respect to the reporting of participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and measured at their unpaid principal balances plus accrued but unpaid interest. This guidance is effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. The adoption of this guidance by the Plan resulted in a reclassification from *investments* to *notes receivable from participant*s of $56,084 on the statement of net assets available for benefits as of December 31, 2009. Adoption had no effect on the Plan's net assets available for benefits.

3) Notes Receivable From Participants

Under the terms of the Plan, participants may borrow from their accounts subject to limitations set forth in the Plan document and the Internal Revenue Code. Participants may borrow from their accounts up to the lesser of 50% of their vested account balance or $50,000. These transactions are treated as a transfer to (from) the investment funds from (to) the notes receivable fund. General-purpose notes receivable must be repaid within five years and notes receivable to purchase a primary residence must be repaid within fifteen years. Origination fees deducted from the participants accounts during the years ended December 31, 2010 and 2009, were $500 and $400, respectively. The notes receivable are

secured by the balance in the participant's vested account and bear interest at a rate of prime plus 1% at the time of origination. Principal and interest is paid ratably through monthly payroll deductions. Interest rates on notes receivable ranged from 4.25% to 9.25% as of December 31, 2010. At December 31, 2010 and 2009, notes receivable and accrued interest amounted to $101,303 and $56,084, respectively.

4) Fair Value Measurements

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

4) Fair Value Measurements, Continued

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective trust fund: During the year ended December 31, 2010, the Bank of America N.A. Retirement Preservation Trust (RPT) was restructured to operate as short-term investment fund that seeks to maintain a $1 net asset value per share. The RPT previously operated as a stable value fund that sought to maintain a $1 net asset value per share.

Prior to the restructure, the fair value of the Plan's interests in the RPT was based upon the net asset values of such fund, after adjustments to reflect all investments at fair value, including indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund. The fund invested in traditional and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions, with the objective of providing a high level of return that was consistent with also providing stability of investment return, preservation of capital and liquidity to pay plan benefits of its retirement plan investors. The fund provided for daily redemptions by the Plan at reported net asset value per share, with no advance notice requirement. The fair value of the RPT was classified within level 2 of the fair value hierarchy.

After the restructure, the fair values of Plan's interest held in the RPT, are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. The RPT invests in cash, cash equivalents investments and short-term, highly liquid securities. The fund provides for daily redemptions by the Plan at reported net asset value per share, with no advance notice requirement. The fair value of the RPT is classified within level 2 of the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

Foreign Equity Mutual Funds	1,005,931	-	-
Fixed Income Mutual Fund	1,062,273	-	-
Collective Trust Fund	-	2,173,986	-

There were no significant transfers between Level 1 and Level 2 during 2010.

	Fair Value Measurements at December 31, 2009 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments:			
Domestic Equity Mutual Funds	$3,721,151	$ -	$ -
Foreign Equity Mutual Funds	1,282,641	-	-
Fixed Income Mutual Fund	700,383	-	-
Collective Trust Fund	-	2,086,139	-

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. As of December 31, 2010 and 2009, there were $0 and $152,208 adjustments from fair value to contract value presented in the statements of net assets available for benefits.

5) Certified Investments – Unaudited Information

Substantially all investment information included in the financial statements, including interest and dividend income and net appreciation (depreciation) in the fair value of investments was certified by the Plan trustee, Bank of America, N.A. (Bank of America) in 2010 and 2009, in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. This information has not been audited by independent accountants.

Individual investments representing 5% or more of net assets for Plan benefits at December 31, 2010 and 2009, are as follows:

Van Kampen Equity and Income – Mutual Fund	57,552	448,326

During the year ended December 31, 2010 and 2009, the Plan's assets earned interest and dividend income of $161,953 and $131,103, respectively.

During the year ended December 31, 2010 and 2009, the Plan's mutual fund investments, including gains and losses on investments bought and sold, as well as held during the years, appreciated in value by $558,355 and $1,355,929, respectively.

6) Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated January 12, 2004, that the Plan is designed in accordance with applicable sections of the Code. The Plan has been amended since the determination letter date; however the Plan's administrators believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan were to terminate all participants would become 100% vested in their account balances.

8) Party-In-Interest Transactions

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain Plan investments are units of a collective trust fund trusteed by Bank of America, trustee of the Plan, therefore, these investments qualify as parties in interest. The Plan also holds mutual funds issued by Blackrock, who is an affiliate of Bank of America. These investments also qualify as party-in-interest transactions. Lastly, the Plan holds notes receivables from participants which also qualify as a party-in-interest investment. Fees paid by the Plan to Bank of America for administrative expenses qualify as party-in-interest transactions. The fees amounted to $1,160 and $1,060 for the years ended December 31, 2010 and 2009, respectively.

9) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to the Form 5500:

	2010	2009
Net assets available for benefits per the financial statements	$ 8,354,439	$ 8,272,099
Excess of contract value over estimated fair value of investment in collective trust fund	-	(152,208)
Net assets per the Form 5500	$ 8,354,439	$ 8,119,891

9) Reconciliation of Financial Statements to Form 5500, Continued

The following is a reconciliation of the change in net assets available for benefits for the year ended December 31, 2010 and 2009 per the financial statements to the net income reported in the Form 5500:

	2010	2009
Increase in net assets available for benefits per the financial statements	$ 82,340	$ 1,148,134
Change in excess of contract value over estimated fair value of investment in collective trust fund	152,208	165,894
Net income per the Form 5500	$ 234,548	$1,314,028

10) Subsequent Events

Plan management has evaluated subsequent events for recognition and disclosure through August 8, 2011, which is the date the financial statements were available to be issued. Other than as noted below, there were no subsequent events requiring recognition or disclosure in the financial statements.

The Bank of America Retirement Preservation Trust terminated operations on February 28, 2011 and was liquidated on March 1, 2011 through an in-kind distribution. All units were redeemed or exchanged at the net asset value per unit of $1.00, which terminated the trust.

During the year ended December 31, 2010, the Plan selected a new recordkeeper and a new trustee/custodian. Accordingly, on April 7, 2011, the Bank transferred all Plan assets from Bank of America to TD AMERITRADE Trust Company, the new custodian and trustee of the Plan. Related to this transfer, on April 1, 2011, the Plan adopted a new Plan document.
