To the Participants and
Plan Administrator of the
Independent Electric Supply, Inc.
401(k) Plan

We were engaged to audit the financial statements and supplemental schedule of the Independent Electric Supply, Inc. 401(k) Plan (the Plan) as of December 31, 2010 and 2009, and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), as amended, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Transamerica Life Insurance & Annuity Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

INDEPENDENT ELECTRIC SUPPLY, INC.
401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

NOTE 1 - THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General - The following description of the Independent Electric Supply, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established on February 1, 2004 by Independent Electric Supply, Inc. (the Company) to provide benefits to eligible employees, as defined in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code), as amended, and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration - Under the terms of the Plan, a group of designated officers of the Company act as the trustee. The Company has appointed a Company officer and trustee of the Plan to manage the operation and administration of the Plan. The Company has contracted with Transamerica Life Insurance & Annuity Company (Transamerica) as the third-party administrator to process and maintain the records of participant data and to act as the custodian. Substantially all expenses incurred for administering the Plan are paid by the Company.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited accounts - Forfeited nonvested accounts are used to pay Plan administrative expenses or reduce future employer contributions.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought or sold as well as held during the year.

In 2010, the Plan entered into a benefit-responsive investment contract, the Stable Value Advantage Option Fund (Stable Value), with Transamerica. The Stable Value is invested in the general account of Transamerica with no stated maturity. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The insurance company general account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the insurance company general account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The fair value of the Plan's investment contract accounts approximates the contract value at December 31, 2010. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer and such interest rates are reset monthly as of the beginning of each month, during which a new interest rate is applied daily to the total outstanding balance of the investment. The credited interest rate is backed by the income received from assets held in the general account. The minimum rate for 2010 was 2.98%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents, (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The insurance company general account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. The following relates to the years ended December 31:

	2010	2009
Average yield:		
Based on actual earnings	3.15%	3.16%
Based on interest rate credited to participants	2.98%	2.75%

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Income taxes - The Plan has been amended since receiving its latest favorable determination letter dated June 4, 2009. The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. No uncertain positions have been identified that would require recognition of a liability (or asset) or disclosure in the financial statements as of December 31, 2010. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2007.

Risks and uncertainties - The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates or other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Recent accounting pronouncements - In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements,* which expanded the required disclosures about fair value measurements. In particular, this guidance requires information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for level 3 fair value measurements. This guidance is effective for annual reporting periods beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

In September 2010, the FASB issued an amendment, *Plan Accounting - Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010 and requires retrospective application to all periods presented.

The Plan adopted the amendment for the year ended December 31, 2010 and has restated the financial statements for 2009 to reflect the retrospective application. There was no impact to the net assets as of December 31, 2010 and 2009 as a result of the adoption.

Subsequent events - The Plan has evaluated subsequent events through August 18, 2011, which is the date the financial statements were available to be issued.

NOTE 2 - FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Valued at the net asset value (NAV) of units held by the Plan at year end. Certain separate accounts, directly invested in fixed maturity securities, are measured based on the pricing data provided by outside valuation service providers. It is not probable that the investments will be sold at amounts that differ materially from the NAV of shares held.

Insurance company general account: Valued at cost (the sum of deposits) plus credited interest, less withdrawals and expenses, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at fair value as of December 31, 2010

Transamerica Stable Value Advantage Option Fund

This investment seeks to protect against any loss of principal while providing returns in excess of money market funds and one-year treasury bills. The investment has a portfolio investment rate design in which all deposits are credited with the same interest rate, credited on a daily basis, and there is no set maturity. The effective credited interest rate is set monthly and effective on the first day of the month. Contract charges may reduce this return.

Transamerica Templeton Foreign Fund

This investment seeks long-term capital growth. This is done by investing mainly in equity securities issued by companies located outside the U.S., including emerging markets. It includes primarily international stocks diversified among a variety of industries, as well as a variety of countries, and may include preferred stocks.

Transamerica Loomis Sayles Bond Fund

This investment seeks high total investment return through both current income and capital appreciation. The portfolio seeks to attain its objective by normally investing substantially all of its assets in debt securities (including convertibles), although 20% may be invested in preferred stocks. At least 80% of the total assets will normally be invested in bonds with no more than 35% in below investment grade quality bonds.

TI Columbia Lifegoal Growth Fund

This investment seeks capital appreciation. Under normal circumstances, the fund invests most of its assets in Class Z shares of mutual funds managed by the advisor or its affiliates (Columbia Funds), exchange traded funds and third party-advised funds, equity and fixed income securities, including Treasury Inflation Protected Securities, and other instruments such as derivatives.

TI Columbia Lifegoal Balanced Growth Fund

This investment seeks total return, consisting of capital appreciation and current income. Under normal circumstances, the fund invests most of its assets in Class Z shares of mutual funds managed by the advisor or its affiliates (Columbia Funds), exchange traded funds and third party-advised funds, equity and fixed income securities, including Treasury Inflation Protected Securities, and other instruments such as derivatives.

TI Fidelity Advisor Mid-Cap Fund

This investment seeks long-term growth of capital. The fund normally invests at least 80% of assets in securities of companies with medium market capitalizations. These companies generally have market capitalizations that fall within the range of the S&P MidCap 400 index. It may potentially invest in companies with smaller or larger market capitalizations. The fund may invest in domestic and foreign issuers, as well as growth stocks, value stocks or both.

Columbia Marsico 21st Century Fund

This investment seeks long-term capital growth. The fund invests primarily in equity securities of companies of any capitalization size. It generally holds a core position of between 35 and 50 common stocks. The fund may invest without limit in foreign securities, including in emerging-markets securities. It also may invest in foreign currency exchange contracts to convert foreign currencies to and from the U.S. dollar, and to hedge against changes in foreign currency exchange rates.

Pioneer Cullen Value Fund

This investment seeks capital appreciation; current income is a secondary objective. The fund invests primarily in equity securities. It may invest a significant portion of assets in equity securities of medium- and large-capitalization companies. The fund may invest up to 30% of assets in securities of non-U.S. issuers. It may invest up to 10% of total assets in securities of emerging-market issuers.

First American Small Cap Select Fund

This investment seeks capital appreciation. The fund invests primarily in common stocks of small-capitalization companies, defined as companies that have market capitalizations at the time of purchase within the range of market capitalizations of companies constituting the Russell 2000 index. It may also invest up to 25% of assets, collectively, in non-dollar denominated and dollar denominated equity securities of foreign issuers that are either listed on a U.S. stock exchange or represented by depositary receipts that may or may not be sponsored by a domestic bank.

NOTE 3 - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Transamerica, the custodian of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA

NOTE 4 - PARTICIPATION AND BENEFITS

Participant contributions - Participants may elect to have the Company contribute their eligible pre-tax compensation to the Plan up to the amount allowable under the Plan document and current income tax regulations. Effective January 1, 2010, the Plan also permits the automatic enrollment of eligible employees in the Plan with a contribution of 3% of eligible compensation, unless the employee affirmatively elects otherwise. Participants who have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. Contributions withheld are invested in accordance with the participant's direction.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions - The Company matches 25% of each eligible participant's contribution.

Vesting - Participants are immediately vested in their contributions. Participants are fully vested in the employer's matching and profit sharing contributions allocated to their account after six years of credited service.

Participant accounts - Each participant's account is credited with the participant's contribution, Plan earnings or losses and an allocation of the Company's contribution. Allocation of the Company's contribution is based on participant contributions, as defined in the Plan.

Payment of benefits - Upon termination, the participants or beneficiaries may elect to leave their account balance in the Plan, or receive their total benefits in a lump sum amount equal to the value of the participant's vested interest in their account. The Plan allows for the automatic lump sum distribution of participant vested account balances that do not exceed $1,000.

NOTE 5 - CERTIFIED INFORMATION
