To the Trustees
 Integrated DNA Technologies, Inc. Savings Plan and Trust
 Skokie, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of Integrated DNA Technologies, Inc. Savings Plan and Trust (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) and schedule of delinquent participant contributions as of and for the year ended December 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB, the custodians of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the custodians hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the custodians regarding the completeness and accuracy of the information summarized in Note 4 that was provided to the Plan Administrator by the custodians as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. As described in Note 2, the Plan adopted Financial Accounting Standards Board Accounting Standards Update 2010-25, *Plan Accounting—Defined Contribution Pension Plans* (Topic 962): *Reporting Loans to Participants by Defined Contribution Pension Plans*, as of December 31, 2009, which clarified how loans to participants should be classified and measured by defined contribution pension plans. This Update was retrospectively applied to December 31, 2009.

Note 1. Description of Plan

The following description of Integrated DNA Technologies, Inc. Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan, as most recently amended and restated May 1, 2010, is a contributory, defined contribution plan maintained for the benefit of all eligible employees of Integrated DNA Technologies, Inc. (the Sponsor). The Sponsor is the Plan Administrator.

The Plan conforms to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and has been approved as being exempt by the Internal Revenue Service (IRS).

Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB (collectively, Prudential) are the custodians and recordkeepers of the Plan.

Eligibility: Prior to June 1, 2009, employees become eligible to participate in pre-tax contributions to the Plan after completing six months of service, as defined by the Plan. Effective June 1, 2009, employees become eligible to participate in pre-tax contributions to the Plan after completing three months of service, as defined by the Plan. The Plan provides for quarterly entry dates on January 1st, April 1st, July 1st and October 1st. The Plan's investments are 100 percent participant-directed.

Contributions: The Plan provides for the following contributions which are to be maintained in separate accounts:

- a. **Participant-directed contributions:** To be made by the Sponsor, at the direction of the employee, which amounts are deducted from the employee's direct compensation (and are excluded from the employee's reportable wages for the year). Salary deferral contributions are allowed up to the statutory limit provided by Section 402(g) of the Internal Revenue Code (IRC) as in effect at the beginning of the taxable year.

- b. **Employer discretionary matching contributions:** The Sponsor matched 50 percent of participant contributions limited to 6 percent of gross wages for those individuals active in the Plan and also meeting the three-month eligibility requirement.

- c. **Qualified discretionary contributions:** The Sponsor may, but is not required to, make contributions for nonhighly compensated employees in order to assure that the Plan satisfies certain statutory nondiscrimination testing requirements. No qualified discretionary contributions were made in 2010.

- d. **Rollover contributions:** The Plan provides for rollover contributions to be made by the employee from amounts distributed or transferred from another qualified deferred compensation plan.

Vesting: Participants are immediately vested in their participant-directed and rollover contribution accounts and earnings thereon. Vesting of the Sponsor's contribution accounts and earnings thereon is based on years of service (with 20 percent vesting for each year of service, after two years of service) and date of termination as described in the Plan.

Note 1. Description of Plan (Continued)

Forfeitures: Participants are automatically fully vested upon normal retirement, death or permanent disability. In the event of termination of employment before full vesting, the nonvested portion is immediately forfeited. The amount of the participant's account forfeited will be reinstated providing the participant resumes employment prior to incurring a "break in service" (as defined). Amounts forfeited during the year are first used to restore any prior forfeitures in the event of a former participant's return to employment, and any amount remaining is used to reduce Sponsor contributions next payable under the Plan or to reduce administration expenses paid by the Sponsor. At December 31, 2010 and 2009, forfeited nonvested amounts totaled approximately \$1,000 and \$6,000, respectively. In 2010, a total of approximately \$12,000 of nonvested accounts were forfeited. In 2010, approximately \$16,000 of forfeited nonvested funds were allocated to participant accounts.

Participants' accounts: Each participant's account is credited with participant-directed, employer discretionary matching, qualified discretionary and rollover contributions and plan earnings. Allocations are based on the participant's earnings or account balances, as defined. Allocation of administrative expenses of the Plan is based upon participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participants' contributions are credited to their respective accounts, as directed, as soon as practicable, after receipt. Investment income is allocated daily.

Participant investment options: Upon enrollment in the Plan, a participant directs their account balances to be invested in selected funds as made available and determined by the trustees. Participants are allowed to change their investment options on a daily basis.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of one-half of the vested account balance or \$50,000 reduced by the highest outstanding loan balance during the prior 12-month period. A participant may have only one loan outstanding at any given time. All loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest as determined by the Plan Administrator, based on the prevailing interest rates at the time the loan was funded. Principal and interest are paid periodically through monthly payroll deductions. Interest rates on loans outstanding at December 31, 2010 ranged from 3.25 percent to 8.25 percent.

Payment of benefits: Benefits under the Plan are payable to participants or their beneficiaries upon death, retirement, disability or severance of employment of the participants. Benefits are payable in a lump sum or by other methods as described in the Plan. Participants may make withdrawals from their account balances upon reaching age 65 or by determination that a financial hardship, as defined, has been incurred. Effective June 1, 2009, the Plan was amended to lower the age that participants may make withdrawals from their account balance to age 59.5.

At December 31, 2010, there were no amounts owed to former participants whose employment had been terminated and who requested payouts of their account balances.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts: Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits and changes in net assets available for benefits present the fair value of the investment contract. There is no adjustment to contract value reflected, as the difference between fair value and contract value is immaterial.

Valuation of investments: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition: Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend basis. Net appreciation or depreciation in the value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Valuation of notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefit payments to participants are recorded when paid.

Use of estimates: In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Income taxes: The Plan follows the provisions of Financial Accounting Standards Board (FASB) guidance related to accounting for uncertainty in income taxes. Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2007.

Recently adopted accounting pronouncements: In September 2010, FASB issued an amendment, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans (ASU 2010-25)*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling \$328,780 and \$348,834 from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 and 2009, as a result of adoption.

In January 2010, the FASB issued an amendment, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* (ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurements are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should be done separately from purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010, and has been adopted. The adoption of this amendment did not have a material impact on the Plan's financial statements.

Pending accounting pronouncement: In May 2011, the FASB issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosures Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent events: The Sponsor has evaluated subsequent events for potential recognition and/or disclosure through August 22, 2011, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

Accounting guidance on fair value measurements and disclosures defines fair value and establishes a framework for measuring the fair value of assets and liabilities using a hierarchy system. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts business. The Plan's statement of net assets available for benefits contains plan investments that are recorded at fair value on a recurring basis. The three-level valuation hierarchy for disclosure of fair value is as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 3. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

When available, quoted market prices are used to determine the fair value of investments held in the Plan, and such items are classified within Level 1 of the fair value hierarchy. An example is mutual funds with available market prices. A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. The level to which an asset or liability is classified is based upon the lowest level of input that is significant to the fair value measurements. There have been no changes in valuation methodologies at December 31, 2010, compared to December 31, 2009.

The following is a description of the valuation methodologies used for assets measured at fair value.

Shares of pooled separate accounts: Valued at the total of the net asset value (NAV) of shares of mutual funds and cash held by the account at year-end. The Plan's interest in the pooled separate accounts is valued based on the information reported by the investment advisor. These fair values are classified within Level 2 of the valuation hierarchy since the NAV of the pooled separate account itself is not publicly quoted but the values are not dependent on the input of any significant judgments or assumptions by management.

Mutual funds: Reported at fair value based on the quoted market price of the fund which represents the NAV of shares held by the Plan at year-end.

Guaranteed income fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. See Note 6.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3. Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2009:

Investment	Fair Value	Redemption Frequency	Redemption Notice Period
------------	------------	----------------------	--------------------------

Shares of pooled separate accounts:

Small cap funds (a)	\$ 582,358	Monthly	None
Mid cap funds (a)	799,268	Monthly	None
Large cap funds (a)	2,984,486	Monthly	None
Balanced funds (b)	3,005,840	Monthly	None
Fixed income fund (c)	133,278	Monthly	None
International funds (d)	756,930	Monthly	None
Total shares of pooled separate accounts	<u>\$ 8,262,160</u>		

(a) The shares of pooled separate accounts in this category primarily invest in equity securities of U.S. companies with small to large market capitalization. Selected funds within this category may invest in stocks of foreign companies, convertible debt securities, and real estate investment trusts. Participants are allowed to transfer into this category during the 30-day period (redemption notice period). New contributions are allowed during this period.

(b) This category is comprised of five distinct, multi-asset class, multi-manager investment portfolios, which offer a range of risk/return characteristics. The performance goal for each fund in this class is to consistently outperform its benchmark over full market cycles. Participants are allowed to transfer into this category during the 30-day period (redemption notice period). New contributions are allowed during this period.

(c) This category includes securities that are AAA rated or issued by the U.S. government or its agencies and mortgage backed securities. Participants are allowed to transfer into this category during the 30-day period (redemption notice period). New contributions are allowed during this period.

(d) This category seeks long-term growth by investing in common stocks of non-U.S. companies with large market capitalization. Investments are normally diversified across different countries and regions of the world. Participants are allowed to transfer into this category during the 30-day period (redemption notice period). New contributions are allowed during this period.

A redemption period is the period when the Plan changes or removes funds in the Plan and the Plan Sponsor sends a notice to the participants which includes the date the fund will be removed, the date the new fund will be available, and the date in which the money will be moved from the old account fund to the new account fund.

Note 4. Information Certified and Provided by Prudential

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

	2010	2009
Shares of pooled separate accounts	\$ 10,387,065	\$ 8,262,160
Mutual funds	622,577	372,046
Guaranteed income fund	2,196,981	1,768,016
Notes receivable from participants	328,780	348,834
	<u>\$ 13,535,403</u>	<u>\$ 10,751,056</u>

Prudential also certified to the completeness and accuracy of \$1,302,239 of net appreciation in fair value of shares of pooled separate accounts, \$113,005 in net appreciation in fair value of mutual funds, \$506 in dividends on mutual funds, \$58,625 of interest on guaranteed income fund and \$14,948 of interest on notes receivable from participants related to the aforementioned investments for the year ended December 31, 2010.

Note 5. Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets at December 31, 2010 and 2009:

	2010	2009
Shares of pooled separate accounts:		
Dryden S&P 500 Index Fund	\$ 1,927,686	\$ 1,595,663

* Less than 5 percent of the net assets at end of year.

Notes to Financial Statements

Note 6. Investment Contract with Insurance Company

The Plan entered into an investment contract with Prudential Retirement Insurance and Annuity Company (PRIAC). PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed income fund contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed income fund. Contract value, as reported to the Plan by PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value within reasonable timeframes.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest and adjusted rate is based on a formula agreed upon with the issuer, but may not be less than 1.50 percent. Such interest rates are reviewed semi-annually by PRIAC.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Participants should refer to the investment contract for a list of such events. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

There are no contract termination clauses or charges applied upon discontinuance to terminate the agreement prior to the scheduled maturity date.

Average yields:		
Based on actual earnings	3.05	2010
Based on interest rate credited to participants	3.05	2010
Interest rate at year-end	3.25	2009

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such manner as the Sponsor may determine.

Note 8. Income Tax Status

By an opinion letter dated March 31, 2008, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the IRC and is therefore not letter subject to income tax under present laws. The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended and restated since receiving this letter. The Plan Administrator believes that the Plan is designed and being operated in compliance with applicable requirements of the IRC.

Notes to Financial Statements

Note 9. Related-Party and Party-In-Interest Transactions

The Sponsor pays certain investment and administrative expenses of the Plan. Total expenses paid to Prudential by the Plan for the year ended December 31, 2010, were \$3,605. In addition, certain administrative functions are performed by trustees or employees of the Sponsor for which no compensation is received from the Plan.

Note 10. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2010 and 2009:

	2010	2009
Net assets available for benefits per the financial statements	\$ 13,535,403	\$ 10,809,449
Participant loans	328,780	348,834
Notes receivable from participants	(328,780)	(348,834)
Net assets available for benefits per the Form 5500	\$ 13,535,403	\$ 10,809,449

The following is a reconciliation of the changes in net assets available for benefits for the year ended December 31, 2010:

Net increase in net assets available for benefits per the financial statements	\$ 2,725,954
Earnings on investments - interest on participant loans	(14,948)
Interest on participant notes receivable	14,948
Net increase in net assets available for benefits per the Form 5500	\$ 2,725,954

Note 12. Prohibited Transactions

The Plan Administrator has concluded that during 2010, \$63,869 of salary deferrals and loan repayments were not deposited within the period required under the DOL regulations. The DOL considers late deposits to be prohibited transactions. The Plan Sponsor will file Form 5330 in 2011 and pay the applicable excise tax. The excise tax payments will be made from the Plan Sponsor's assets and not from the assets of the Plan.

To the Trustees
Integrated DNA Technologies, Inc. Savings Plan and Trust
Skokie, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of Integrated DNA Technologies, Inc. Savings Plan and Trust (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) and schedule of delinquent participant contributions as of and for the year ended December 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB, the custodians of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the custodians hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the custodians regarding the completeness and accuracy of the information summarized in Note 4 that was provided to the Plan Administrator by the custodians as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. As described in Note 2, the Plan adopted Financial Accounting Standards Board Accounting Standards Update 2010-25, *Plan Accounting—Defined Contribution Pension Plans* (Topic 962): *Reporting Loans to Participants by Defined Contribution Pension Plans*, as of December 31, 2009, which clarified how loans to participants should be classified and measured by defined contribution pension plans. This Update was retrospectively applied to December 31, 2009.

Note 1. Description of Plan

The following description of Integrated DNA Technologies, Inc. Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan, as most recently amended and restated May 1, 2010, is a contributory, defined contribution plan maintained for the benefit of all eligible employees of Integrated DNA Technologies, Inc. (the Sponsor). The Sponsor is the Plan Administrator.

The Plan conforms to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and has been approved as being exempt by the Internal Revenue Service (IRS).

Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB (collectively, Prudential) are the custodians and recordkeepers of the Plan.

Eligibility: Prior to June 1, 2009, employees become eligible to participate in pre-tax contributions to the Plan after completing six months of service, as defined by the Plan. Effective June 1, 2009, employees become eligible to participate in pre-tax contributions to the Plan after completing three months of service, as defined by the Plan. The Plan provides for quarterly entry dates on January 1st, April 1st, July 1st and October 1st. The Plan's investments are 100 percent participant-directed.

Contributions: The Plan provides for the following contributions which are to be maintained in separate accounts:

a. **Participant-directed contributions:** To be made by the Sponsor, at the direction of the employee, which amounts are deducted from the employee's direct compensation (and are excluded from the employee's reportable wages for the year). Salary deferral contributions are allowed up to the statutory limit provided by Section 402(g) of the Internal Revenue Code (IRC) as in effect at the beginning of the taxable year.

b. **Employer discretionary matching contributions:** The Sponsor matched 50 percent of participant contributions limited to 6 percent of gross wages for those individuals active in the Plan and also meeting the three-month eligibility requirement.

c. **Qualified discretionary contributions:** The Sponsor may, but is not required to, make contributions for nonhighly compensated employees in order to assure that the Plan satisfies certain statutory nondiscrimination testing requirements. No qualified discretionary contributions were made in 2010.

d. **Rollover contributions:** The Plan provides for rollover contributions to be made by the employee from amounts distributed or transferred from another qualified deferred compensation plan.

Vesting: Participants are immediately vested in their participant-directed and rollover contribution accounts and earnings thereon. Vesting of the Sponsor's contribution accounts and earnings thereon is based on years of service (with 20 percent vesting for each year of service, after two years of service) and date of termination as described in the Plan.

Note 1. Description of Plan (Continued)

Forfeitures: Participants are automatically fully vested upon normal retirement, death or permanent disability. In the event of termination of employment before full vesting, the nonvested portion is immediately forfeited. The amount of the participant's account forfeited will be reinstated providing the participant resumes employment prior to incurring a "break in service" (as defined). Amounts forfeited during the year are first used to restore any prior forfeitures in the event of a former participant's return to employment, and any amount remaining is used to reduce Sponsor contributions next payable under the Plan or to reduce administration expenses paid by the Sponsor. At December 31, 2010 and 2009, forfeited nonvested amounts totaled approximately \$1,000 and \$6,000, respectively. In 2010, a total of approximately \$12,000 of nonvested accounts were forfeited. In 2010, approximately \$16,000 of forfeited nonvested funds were allocated to participant accounts.

Participants' accounts: Each participant's account is credited with participant-directed, employer discretionary matching, qualified discretionary and rollover contributions and plan earnings. Allocations are based on the participant's earnings or account balances, as defined. Allocation of administrative expenses of the Plan is based upon participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participants' contributions are credited to their respective accounts, as directed, as soon as practicable, after receipt. Investment income is allocated daily.

Participant investment options: Upon enrollment in the Plan, a participant directs their account balances to be invested in selected funds as made available and determined by the trustees. Participants are allowed to change their investment options on a daily basis.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of one-half of the vested account balance or \$50,000 reduced by the highest outstanding loan balance during the prior 12-month period. A participant may have only one loan outstanding at any given time. All loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest as determined by the Plan Administrator, based on the prevailing interest rates at the time the loan was funded. Principal and interest are paid periodically through monthly payroll deductions. Interest rates on loans outstanding at December 31, 2010 ranged from 3.25 percent to 8.25 percent.

Payment of benefits: Benefits under the Plan are payable to participants or their beneficiaries upon death, retirement, disability or severance of employment of the participants. Benefits are payable in a lump sum or by other methods as described in the Plan. Participants may make withdrawals from their account balances upon reaching age 65 or by determination that a financial hardship, as defined, has been incurred. Effective June 1, 2009, the Plan was amended to lower the age that participants may make withdrawals from their account balance to age 59.5.

At December 31, 2010, there were no amounts owed to former participants whose employment had been terminated and who requested payouts of their account balances.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts: Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits and changes in net assets available for benefits present the fair value of the investment contract. There is no adjustment to contract value reflected, as the difference between fair value and contract value is immaterial.

Valuation of investments: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition: Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend basis. Net appreciation or depreciation in the value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Valuation of notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefit payments to participants are recorded when paid.

Use of estimates: In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Income taxes: The Plan follows the provisions of Financial Accounting Standards Board (FASB) guidance related to accounting for uncertainty in income taxes. Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2007.

Recently adopted accounting pronouncements: In September 2010, FASB issued an amendment, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

Note 2. Summary of Significant Accounting Policies (Continued)

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling \$328,780 and \$348,834 from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 and 2009, as a result of adoption.

In January 2010, the FASB issued an amendment, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* (ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurements are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should be done separately from purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010, and has been adopted. The adoption of this amendment did not have a material impact on the Plan's financial statements.

Pending accounting pronouncement: In May 2011, the FASB issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosures Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent events: The Sponsor has evaluated subsequent events for potential recognition and/or disclosure through August 22, 2011, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

Accounting guidance on fair value measurements and disclosures defines fair value and establishes a framework for measuring the fair value of assets and liabilities using a hierarchy system. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts business. The Plan's statement of net assets available for benefits contains plan investments that are recorded at fair value on a recurring basis. The three-level valuation hierarchy for disclosure of fair value is as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 3. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

When available, quoted market prices are used to determine the fair value of investments held in the Plan, and such items are classified within Level 1 of the fair value hierarchy. An example is mutual funds with available market prices. A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. The level to which an asset or liability is classified is based upon the lowest level of input that is significant to the fair value measurements. There have been no changes in valuation methodologies at December 31, 2010, compared to December 31, 2009.

The following is a description of the valuation methodologies used for assets measured at fair value.

Shares of pooled separate accounts: Valued at the total of the net asset value (NAV) of shares of mutual funds and cash held by the account at year-end. The Plan's interest in the pooled separate accounts is valued based on the information reported by the investment advisor. These fair values are classified within Level 2 of the valuation hierarchy since the NAV of the pooled separate account itself is not publicly quoted but the values are not dependent on the input of any significant judgments or assumptions by management.

Mutual funds: Reported at fair value based on the quoted market price of the fund which represents the NAV of shares held by the Plan at year-end.

Guaranteed income fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. See Note 6.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Mid cap funds (a)	799,268	Monthly	None
Large cap funds (a)	2,984,486	Monthly	None
Balanced funds (b)	3,005,840	Monthly	None
Fixed income fund (c)	133,278	Monthly	None
International funds (d)	756,930	Monthly	None
Total shares of pooled separate accounts	<u>\$ 8,262,160</u>		

(a) The shares of pooled separate accounts in this category primarily invest in equity securities of U.S. companies with small to large market capitalization. Selected funds within this category may invest in stocks of foreign companies, convertible debt securities, and real estate investment trusts. Participants are allowed to transfer into this category during the 30-day period (redemption notice period). New contributions are allowed during this period.

(b) This category is comprised of five distinct, multi-asset class, multi-manager investment portfolios, which offer a range of risk/return characteristics. The performance goal for each fund in this class is to consistently outperform its benchmark over full market cycles. Participants are allowed to transfer into this category during the 30-day period (redemption notice period). New contributions are allowed during this period.

(c) This category includes securities that are AAA rated or issued by the U.S. government or its agencies and mortgage backed securities. Participants are allowed to transfer into this category during the 30-day period (redemption notice period). New contributions are allowed during this period.

(d) This category seeks long-term growth by investing in common stocks of non-U.S. companies with large market capitalization. Investments are normally diversified across different countries and regions of the world. Participants are allowed to transfer into this category during the 30-day period (redemption notice period). New contributions are allowed during this period.

A redemption period is the period when the Plan changes or removes funds in the Plan and the Plan Sponsor sends a notice to the participants which includes the date the fund will be removed, the date the new fund will be available, and the date in which the money will be moved from the old account fund to the new account fund.

Notes to Financial Statements

Note 4. Information Certified and Provided by Prudential

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

	2010	2009
Shares of pooled separate accounts	\$ 10,387,065	\$ 8,262,160
Mutual funds	622,577	372,046

Notes receivable from participants	328,780	348,834
	<u>\$ 13,535,403</u>	<u>\$ 10,751,056</u>

Prudential also certified to the completeness and accuracy of \$1,302,239 of net appreciation in fair value of shares of pooled separate accounts, \$113,005 in net appreciation in fair value of mutual funds, \$506 in dividends on mutual funds, \$58,625 of interest on guaranteed income fund and \$14,948 of interest on notes receivable from participants related to the aforementioned investments for the year ended December 31, 2010.

Note 5. Investments

Notes to Financial Statements

Note 6. Investment Contract with Insurance Company

The Plan entered into an investment contract with Prudential Retirement Insurance and Annuity Company (PRIAC). PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed income fund contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed income fund. Contract value, as reported to the Plan by PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value within reasonable timeframes.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest and adjusted rate is based on a formula agreed upon with the issuer, but may not be less than 1.50 percent. Such interest rates are reviewed semi-annually by PRIAC.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Participants should refer to the investment contract for a list of such events. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

There are no contract termination clauses or charges applied upon discontinuance to terminate the agreement prior to the scheduled maturity date.

Average yields:		
Based on actual earnings	3.05	2010
Based on interest rate credited to participants	3.05	2010
Interest rate at year-end	3.25	2009

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such manner as the Sponsor may determine.

Note 8. Income Tax Status

By an opinion letter dated March 31, 2008, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the IRC and is therefore not letter subject to income tax under present laws. The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended and restated since receiving this letter. The Plan Administrator believes that the Plan is designed and being operated in compliance with applicable requirements of the IRC.

Notes to Financial Statements

Note 9. Related-Party and Party-In-Interest Transactions

The Sponsor pays certain investment and administrative expenses of the Plan. Total expenses paid to Prudential by the Plan for the year ended December 31, 2010, were \$3,605. In addition, certain administrative functions are performed by trustees or employees of the Sponsor for which no compensation is received from the Plan.

Note 10. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2010 and 2009:

	2010	2009
Net assets available for benefits per the financial statements	\$ 13,535,403	\$ 10,809,449
Participant loans	328,780	348,834
Notes receivable from participants	(328,780)	(348,834)
Net assets available for benefits per the Form 5500	\$ 13,535,403	\$ 10,809,449

The following is a reconciliation of the changes in net assets available for benefits for the year ended December 31, 2010:

Net increase in net assets available for benefits per the financial statements	\$ 2,725,954
Earnings on investments - interest on participant loans	(14,948)
Interest on participant notes receivable	14,948
Net increase in net assets available for benefits per the Form 5500	\$ 2,725,954

Note 12. Prohibited Transactions

The Plan Administrator has concluded that during 2010, \$63,869 of salary deferrals and loan repayments were not deposited within the period required under the DOL regulations. The DOL considers late deposits to be prohibited transactions. The Plan Sponsor will file Form 5330 in 2011 and pay the applicable excise tax. The excise tax payments will be made from the Plan Sponsor's assets and not from the assets of the Plan.

To the Trustees
Integrated DNA Technologies, Inc. Savings Plan and Trust
Skokie, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of Integrated DNA Technologies, Inc. Savings Plan and Trust (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) and schedule of delinquent participant contributions as of and for the year ended December 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB, the custodians of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the custodians hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the custodians regarding the completeness and accuracy of the information summarized in Note 4 that was provided to the Plan Administrator by the custodians as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. As described in Note 2, the Plan adopted Financial Accounting Standards Board Accounting Standards Update 2010-25, *Plan Accounting—Defined Contribution Pension Plans* (Topic 962): *Reporting Loans to Participants by Defined Contribution Pension Plans*, as of December 31, 2009, which clarified how loans to participants should be classified and measured by defined contribution pension plans. This Update was retrospectively applied to December 31, 2009.

Note 1. Description of Plan

The following description of Integrated DNA Technologies, Inc. Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan, as most recently amended and restated May 1, 2010, is a contributory, defined contribution plan maintained for the benefit of all eligible employees of Integrated DNA Technologies, Inc. (the Sponsor). The Sponsor is the Plan Administrator.

The Plan conforms to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and has been approved as being exempt by the Internal Revenue Service (IRS).

Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB (collectively, Prudential) are the custodians and recordkeepers of the Plan.

Eligibility: Prior to June 1, 2009, employees become eligible to participate in pre-tax contributions to the Plan after completing six months of service, as defined by the Plan. Effective June 1, 2009, employees become eligible to participate in pre-tax contributions to the Plan after completing three months of service, as defined by the Plan. The Plan provides for quarterly entry dates on January 1st, April 1st, July 1st and October 1st. The Plan's investments are 100 percent participant-directed.

Contributions: The Plan provides for the following contributions which are to be maintained in separate accounts:

- a. **Participant-directed contributions:** To be made by the Sponsor, at the direction of the employee, which amounts are deducted from the employee's direct compensation (and are excluded from the employee's reportable wages for the year). Salary deferral contributions are allowed up to the statutory limit provided by Section 402(g) of the Internal Revenue Code (IRC) as in effect at the beginning of the taxable year.

- b. **Employer discretionary matching contributions:** The Sponsor matched 50 percent of participant contributions limited to 6 percent of gross wages for those individuals active in the Plan and also meeting the three-month eligibility requirement.

- c. **Qualified discretionary contributions:** The Sponsor may, but is not required to, make contributions for nonhighly compensated employees in order to assure that the Plan satisfies certain statutory nondiscrimination testing requirements. No qualified discretionary contributions were made in 2010.

- d. **Rollover contributions:** The Plan provides for rollover contributions to be made by the employee from amounts distributed or transferred from another qualified deferred compensation plan.

Vesting: Participants are immediately vested in their participant-directed and rollover contribution accounts and earnings thereon. Vesting of the Sponsor's contribution accounts and earnings thereon is based on years of service (with 20 percent vesting for each year of service, after two years of service) and date of termination as described in the Plan.

Note 1. Description of Plan (Continued)

Forfeitures: Participants are automatically fully vested upon normal retirement, death or permanent disability. In the event of termination of employment before full vesting, the nonvested portion is immediately forfeited. The amount of the participant's account forfeited will be reinstated providing the participant resumes employment prior to incurring a "break in service" (as defined). Amounts forfeited during the year are first used to restore any prior forfeitures in the event of a former participant's return to employment, and any amount remaining is used to reduce Sponsor contributions next payable under the Plan or to reduce administration expenses paid by the Sponsor. At December 31, 2010 and 2009, forfeited nonvested amounts totaled approximately \$1,000 and \$6,000, respectively. In 2010, a total of approximately \$12,000 of nonvested accounts were forfeited. In 2010, approximately \$16,000 of forfeited nonvested funds were allocated to participant accounts.

Participants' accounts: Each participant's account is credited with participant-directed, employer discretionary matching, qualified discretionary and rollover contributions and plan earnings. Allocations are based on the participant's earnings or account balances, as defined. Allocation of administrative expenses of the Plan is based upon participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participants' contributions are credited to their respective accounts, as directed, as soon as practicable, after receipt. Investment income is allocated daily.

Participant investment options: Upon enrollment in the Plan, a participant directs their account balances to be invested in selected funds as made available and determined by the trustees. Participants are allowed to change their investment options on a daily basis.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of one-half of the vested account balance or \$50,000 reduced by the highest outstanding loan balance during the prior 12-month period. A participant may have only one loan outstanding at any given time. All loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest as determined by the Plan Administrator, based on the prevailing interest rates at the time the loan was funded. Principal and interest are paid periodically through monthly payroll deductions. Interest rates on loans outstanding at December 31, 2010 ranged from 3.25 percent to 8.25 percent.

Payment of benefits: Benefits under the Plan are payable to participants or their beneficiaries upon death, retirement, disability or severance of employment of the participants. Benefits are payable in a lump sum or by other methods as described in the Plan. Participants may make withdrawals from their account balances upon reaching age 65 or by determination that a financial hardship, as defined, has been incurred. Effective June 1, 2009, the Plan was amended to lower the age that participants may make withdrawals from their account balance to age 59.5.

At December 31, 2010, there were no amounts owed to former participants whose employment had been terminated and who requested payouts of their account balances.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts: Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits and changes in net assets available for benefits present the fair value of the investment contract. There is no adjustment to contract value reflected, as the difference between fair value and contract value is immaterial.

Valuation of investments: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition: Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend basis. Net appreciation or depreciation in the value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Valuation of notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefit payments to participants are recorded when paid.

Use of estimates: In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Income taxes: The Plan follows the provisions of Financial Accounting Standards Board (FASB) guidance related to accounting for uncertainty in income taxes. Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2007.

Recently adopted accounting pronouncements: In September 2010, FASB issued an amendment, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling \$328,780 and \$348,834 from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 and 2009, as a result of adoption.

In January 2010, the FASB issued an amendment, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* (ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurements are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should be done separately from purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010, and has been adopted. The adoption of this amendment did not have a material impact on the Plan's financial statements.

Pending accounting pronouncement: In May 2011, the FASB issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosures Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent events: The Sponsor has evaluated subsequent events for potential recognition and/or disclosure through August 22, 2011, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

Accounting guidance on fair value measurements and disclosures defines fair value and establishes a framework for measuring the fair value of assets and liabilities using a hierarchy system. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts business. The Plan's statement of net assets available for benefits contains plan investments that are recorded at fair value on a recurring basis. The three-level valuation hierarchy for disclosure of fair value is as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 3. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

When available, quoted market prices are used to determine the fair value of investments held in the Plan, and such items are classified within Level 1 of the fair value hierarchy. An example is mutual funds with available market prices. A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. The level to which an asset or liability is classified is based upon the lowest level of input that is significant to the fair value measurements. There have been no changes in valuation methodologies at December 31, 2010, compared to December 31, 2009.

The following is a description of the valuation methodologies used for assets measured at fair value.

Shares of pooled separate accounts: Valued at the total of the net asset value (NAV) of shares of mutual funds and cash held by the account at year-end. The Plan's interest in the pooled separate accounts is valued based on the information reported by the investment advisor. These fair values are classified within Level 2 of the valuation hierarchy since the NAV of the pooled separate account itself is not publicly quoted but the values are not dependent on the input of any significant judgments or assumptions by management.

Mutual funds: Reported at fair value based on the quoted market price of the fund which represents the NAV of shares held by the Plan at year-end.

Guaranteed income fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. See Note 6.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3. Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2009:

Investment	Fair Value	Redemption Frequency	Redemption Notice Period
------------	------------	----------------------	--------------------------

Shares of pooled separate accounts:

Small cap funds (a)	\$ 582,358	Monthly	None
Mid cap funds (a)	799,268	Monthly	None
Large cap funds (a)	2,984,486	Monthly	None
Balanced funds (b)	3,005,840	Monthly	None
Fixed income fund (c)	133,278	Monthly	None
International funds (d)	756,930	Monthly	None
Total shares of pooled separate accounts	<u>\$ 8,262,160</u>		

(a) The shares of pooled separate accounts in this category primarily invest in equity securities of U.S. companies with small to large market capitalization. Selected funds within this category may invest in stocks of foreign companies, convertible debt securities, and real estate investment trusts. Participants are allowed to transfer into this category during the 30-day period (redemption notice period). New contributions are allowed during this period.

(b) This category is comprised of five distinct, multi-asset class, multi-manager investment portfolios, which offer a range of risk/return characteristics. The performance goal for each fund in this class is to consistently outperform its benchmark over full market cycles. Participants are allowed to transfer into this category during the 30-day period (redemption notice period). New contributions are allowed during this period.

(c) This category includes securities that are AAA rated or issued by the U.S. government or its agencies and mortgage backed securities. Participants are allowed to transfer into this category during the 30-day period (redemption notice period). New contributions are allowed during this period.

(d) This category seeks long-term growth by investing in common stocks of non-U.S. companies with large market capitalization. Investments are normally diversified across different countries and regions of the world. Participants are allowed to transfer into this category during the 30-day period (redemption notice period). New contributions are allowed during this period.

A redemption period is the period when the Plan changes or removes funds in the Plan and the Plan Sponsor sends a notice to the participants which includes the date the fund will be removed, the date the new fund will be available, and the date in which the money will be moved from the old account fund to the new account fund.

Note 4. Information Certified and Provided by Prudential

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

	2010	2009
Shares of pooled separate accounts	\$ 10,387,065	\$ 8,262,160
Mutual funds	622,577	372,046
Guaranteed income fund	2,196,981	1,768,016
Notes receivable from participants	328,780	348,834
	<u>\$ 13,535,403</u>	<u>\$ 10,751,056</u>

Prudential also certified to the completeness and accuracy of \$1,302,239 of net appreciation in fair value of shares of pooled separate accounts, \$113,005 in net appreciation in fair value of mutual funds, \$506 in dividends on mutual funds, \$58,625 of interest on guaranteed income fund and \$14,948 of interest on notes receivable from participants related to the aforementioned investments for the year ended December 31, 2010.

Note 5. Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets at December 31, 2010 and 2009:

* Less than 5 percent of the net assets at end of year.

Notes to Financial Statements

Note 6. Investment Contract with Insurance Company

The Plan entered into an investment contract with Prudential Retirement Insurance and Annuity Company (PRIAC). PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed income fund contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed income fund. Contract value, as reported to the Plan by PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value within reasonable timeframes.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest and adjusted rate is based on a formula agreed upon with the issuer, but may not be less than 1.50 percent. Such interest rates are reviewed semi-annually by PRIAC.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Participants should refer to the investment contract for a list of such events. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

There are no contract termination clauses or charges applied upon discontinuance to terminate the agreement prior to the scheduled maturity date.

Average yields:		
Based on actual earnings	3.05	2010
Based on interest rate credited to participants	3.05	2010
Interest rate at year-end	3.25	2009

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such manner as the Sponsor may determine.

Note 8. Income Tax Status

By an opinion letter dated March 31, 2008, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the IRC and is therefore not letter subject to income tax under present laws. The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended and restated since receiving this letter. The Plan Administrator believes that the Plan is designed and being operated in compliance with applicable requirements of the IRC.

Notes to Financial Statements

Note 9. Related-Party and Party-In-Interest Transactions

The Sponsor pays certain investment and administrative expenses of the Plan. Total expenses paid to Prudential by the Plan for the year ended December 31, 2010, were \$3,605. In addition, certain administrative functions are performed by trustees or employees of the Sponsor for which no compensation is received from the Plan.

Note 10. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2010 and 2009:

	2010	2009
Net assets available for benefits per the financial statements	\$ 13,535,403	\$ 10,809,449
Participant loans	328,780	348,834
Notes receivable from participants	(328,780)	(348,834)
Net assets available for benefits per the Form 5500	\$ 13,535,403	\$ 10,809,449

The following is a reconciliation of the changes in net assets available for benefits for the year ended December 31, 2010:

Net increase in net assets available for benefits per the financial statements	\$ 2,725,954
Earnings on investments - interest on participant loans	(14,948)
Interest on participant notes receivable	14,948
Net increase in net assets available for benefits per the Form 5500	\$ 2,725,954

Note 12. Prohibited Transactions

The Plan Administrator has concluded that during 2010, \$63,869 of salary deferrals and loan repayments were not deposited within the period required under the DOL regulations. The DOL considers late deposits to be prohibited transactions. The Plan Sponsor will file Form 5330 in 2011 and pay the applicable excise tax. The excise tax payments will be made from the Plan Sponsor's assets and not from the assets of the Plan.
