WORKSCAPE EMPLOYEE RETIREMENT SAVINGS PLAN

Notes to Financial Statements
For the Period January 1, 2010 to November 30, 2010

1. Plan Description

The following description of Workscope Employee Retirement Savings Plan (the Plan), provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan covering all eligible employees of Workscope, Inc. (the Company) who are age twenty-one or older, excluding contract employees and residents of Puerto Rico. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On August 18, 2010 the Company was acquired by Automated Data Processing, Inc.(ADP). Effective November 30, 2010, the Plan sponsor voted to terminate the Plan and merge the assets into Automated Data Processing, Inc. Retirement and Savings Plan. All participants became 100 percent vested in their accounts at the time of merger.

Contributions

Prior to August 30, 2010 participants could elect to contribute up to 60 percent of their annual pre tax compensation, as defined by the Plan and limited by the Internal Revenue Code (the Code). Participants who were over the age of 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants directed the investment of their accounts into various investment options offered by the Plan.

The Company could elect to make discretionary matching and/or profit sharing contributions. To be eligible for the discretionary profit sharing contribution a participant must have been credited with 1,000 hours of service and have been employed as of the last day of the Plan year, as defined in the plan. During 2010 the Company made a discretionary matching contribution of 50 percent up to 4 percent of a participant's eligible compensation. The Company did not make any profit sharing contributions during 2010.

Participant Accounts

Each participant's account was credited with the participant's contribution plus Company contributions and an allocation of Plan earnings and was charged with administrative expenses, as required. Allocations were based on participant compensation or account balances, as defined. The benefit to which a participant was entitled was the benefit that could have been provided from the participant's vested account.

For the Period January 1, 2010 to November 30, 2010

1. Plan Description (Continued)

Vesting

Participants were immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions plus actual earnings thereon occurred ratably over 4 years of credited service, as defined in the Plan.

Notes Receivable from Participants

Participants could borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their vested account balance, whichever was less. Loan terms ranged from 1 to 5 years or up to 10 years for the purchase of a primary residence. The loans were secured by the balance in the participant's account with interest rates which were commensurate with local prevailing rates, as determined by the plan administrator at the time of issuance. Principal and interest were repaid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, retirement or other reason, a participant or beneficiary could elect to receive a benefit payment as a life annuity or receive a lump-sum amount equal to the participant's vested interest in his or her account. A participant could also elect to receive a Qualified Optional Survivor Annuity at a 75 percent survivor percentage. Withdrawals could be made in certain other circumstances as defined in the Plan document.

Forfeitures

Forfeitures represented non-vested Company contributions forfeited by employees who terminated their employment or withdrew from the Plan. During 2010 \$32,200 of forfeitures were retained by the Plan and were used to reduce Company contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

For the Period January 1, 2010 to November 30, 2010

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments were stated at fair value as determined by the trustee of the Plan's assets. Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Interest income was recorded on the accrual basis.

The change in fair value of investments and realized gains (losses) were reflected in the accompanying statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments. The realized gain or loss on investments was the difference between the proceeds received and the fair value of the investment sold at the beginning of the Plan year.

Benefits Paid to Participants

Benefits were recorded when paid.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans were reclassified as distributions in accordance with the provisions of the Plan.

Reclassifications

Certain accounts in the accompanying 2009 financial statements have been reclassified to conform to the 2010 presentation. The reclassifications had no impact on the net assets available for benefits at December 31, 2009 as previously reported.

3. Information Prepared and Certified by the Trustee

The plan administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The investment information included in the accompanying financial statements was obtained from data that has been certified as complete and accurate to the plan administrator by Fidelity Management Trust Company (Fidelity), the trustee of the Plan, at November 30, 2010 and December 31, 2009. Incorporation of this financial information in the accompanying financial statements is based solely on those certifications.

3. Information Prepared and Certified by the Trustee (Continued)

Investments that represent 5 percent or more of the Plan's net assets at November 30, 2010 and December 31, 2009 are as follows:

	2010	2009
Fidelity Diversified International Fund	\$ -	\$ 2,810,720
Fidelity Contrafund	-	2,563,735
Spartan US Equity Index	-	2,156,308
Fidelity Balanced Fund	-	2,089,652
Fidelity Small Cap Independent Fund	-	1,679,035
Fidelity Retirement Money Market Portfolio	-	1,532,256
Fidelity Dividend Growth Fund	-	1,467,027

The investment income reported in the statement of changes in net assets available for benefits for the period January 1, 2010 to November 30, 2010 was also certified by the trustee.

4. Common Collective Trust

The Plan invested in the Fidelity Managed Income Portfolio, which was a common collective trust. It was a commingled pool of the Fidelity Group Trust for employee benefit plans and was managed by Fidelity, which was also the trustee of the Plan. This fund sought to preserve principal investments while earning interest income. This fund sought to maintain a net asset value of \$1 per unit. The portfolio invested in investment contracts issued by insurance companies and other financial institutions, and in fixed income securities. A portion of the portfolio was invested in a money market fund to provide daily liquidity. Investment contracts provided for the payment of a specified rate of interest to the portfolio and for the repayment of principal when the contract matured. All investment contracts and fixed income securities purchased for the portfolio must satisfy the credit quality standards of Fidelity.

The average yield for the period January 1, 2010 to November 30, 2010 and for the year ended December 31, 2009 was 2.68% and 1.20%, respectively. The crediting interest rate for the period January 1, 2010 to November 30, 2010 and for the year ended December 31, 2009 was 1.44% and 3.16%, respectively.

Certain events, such as premature termination of the contract by the Plan or termination of the Plan, could limit the Plan's ability to transact at contract value with Fidelity. At November 30, 2010 this investment was transferred to the Automated Data Processing, Inc. Retirement and Savings Plan as an investment to be held.

For the Period January 1, 2010 to November 30, 2010

5. Party-in-Interest Transactions

Certain Plan investments were managed by Fidelity, the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

6. Tax Status of the Plan

The Plan had adopted a prototype plan which had been determined by the Internal Revenue Service, in an opinion letter dated March 31, 2008, to be in accordance with the applicable sections of the Code. The Plan had since been amended; however, the plan administrator believed that the Plan was designed and operated in compliance with applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The plan administrator analyzed the tax positions taken by the Plan, and concluded that there were no uncertain tax positions taken or expected to be taken. The Plan was subject to routine audits by taxing jurisdictions; however, there were no audits currently in process. The Plan's tax returns generally remain open for IRS audit 3 years from the date of filing.

7. Administrative Expenses

Administrative expenses associated with custody and recordkeeping of the Plan and loan and other transaction fees were charged to participants. The Company provided certain accounting and administrative services to the Plan at no charge and paid for the annual audit of the Plan.

8. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants, as of the measurement date. Authoritative guidance establishes a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (also referred to as observable inputs). The following summarizes the fair value hierarchy:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Continued --

See independent auditors' report

WORKSCAPE EMPLOYEE RETIREMENT SAVINGS PLAN

Notes to Financial Statements
For the Period January 1, 2010 to November 30, 2010

8. Fair Value Measurements (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The determination of where assets and liabilities fall within this fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used during the period January 1, 2010 to November 30, 2010 or during 2009.

Money market: Valued at the net asset value of \$1 per share.

Mutual funds: Valued at quoted prices in an active market.

Common collective trust: Valued at estimated fair value, which represents the net asset value of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

10. Delinquent Participant Contributions

ERISA regulations require the Company to remit participant contributions to the Plan as soon as they can be reasonably segregated from the Company's general assets. During 2010 participant contributions and loan repayments totaling \$428,578 and \$14,617, respectively, were not remitted to the Plan within the requirements of ERISA.

11. Subsequent Events

Subsequent events were evaluated through July 13, 2011, which is the date the financial statements were available to be issued.
