INDEPENDENT AUDITORS' REPORT

Participants
DSS 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of DSS 401(k) Plan as of November 30, 2010 and December 31, 2009, and the related statement of changes in net assets available for benefits for the final period from January 1, 2010 to November 30, 2010 and the supplemental schedule of assets (held at end of year) as of November 30, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note D, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of November 30, 2010 and December 31, 2009 and for the period from January 1, 2010 to November 30, 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA.

NOTE A - PLAN MERGER

On June 10, 2010, all of the stock of JP&D Digital Satellite Systems, Inc. (the "Plan Sponsor") was purchased by DIRECTV, Inc. ("DTV"). DTV, the new owner of the Plan Sponsor, elected to merge the assets of the DSS 401(k) Plan into the DIRECTV 401(k) Savings Plan and notified participants of its intentions. Participants were notified that effective July 23, 2010 the DSS 401(k) Plan would no longer accept contributions.

As of November 30, 2010, all of the Plan's net assets had been transferred to the DIRECTV 401(k) Savings Plan.

NOTE B - PLAN DESCRIPTION

The following description of the DSS 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

[1] General:

The Plan was a defined-contribution 401(k) savings plan covering all employees of JP&D Digital Satellite Systems, Inc. (the "Company") who were age 18 or older. Employees were immediately able to participate in the Plan after being hired by the Company. Upon satisfying the requirements, an employee became eligible to enter the Plan on the first day of the month following the participant's completion of the eligibility requirements. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

[2] Participant contributions:

Elective deferral contributions for a participant were equal to a portion of compensation as specified in the written elective deferral agreement. The elective deferral agreement could be effective at any date following a participant's entry date. A participant could not defer more than 88% of compensation for a Plan year. Elective deferral contributions were limited as needed to meet nondiscrimination tests and the maximum allowed by the Internal Revenue Service.

[3] Employer contributions:

The Company made a matching contribution to participants based on their elective deferrals. Participants were matched 100% of their elective deferrals, not to exceed 2% of their compensation which was deferred as an elective deferral. For the period from January 1, 2010 to November 30, 2010, matching contributions were $6,399.

[4] Participant accounts:

Participants were provided with a selection of investments within common/collective trusts managed by the trustee, mutual funds of various registered investment companies and a stable value fund in which to invest contributions. Earnings were credited to each participant's account based upon the performance of the respective funds. Each investment within the common/collective trusts was revalued daily based on the underlying fair market value of its mutual funds, and accounts were adjusted accordingly. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

NOTE B - PLAN DESCRIPTION (CONTINUED)

[5] Vesting:

Participants were vested immediately in their contributions, rollovers and transfer contributions and earnings thereon.

Participants were vested in the Company's matching contributions and the earnings or losses thereon in accordance with the following table:

Years of Service	Vested Percentage
Less than 1	None
1 but fewer than 2	25%
2 but fewer than 3	50%
3 but fewer than 4	75%
4 or more	100%

[6] Notes receivable from participants:

Notes receivable from participants were measured at their unpaid principal balances plus any accrued but unpaid interest. A participant could borrow from his or her fund account a minimum of $500, up to a maximum equal to the lesser of $50,000 or 50% of the vested account balance. Loan terms ranged from one to five years; however, terms could exceed five years for the purchase of a primary residence. The loans were secured by the balance in the participant's account and bore interest at a rate commensurate with local prevailing rates as determined by the Plan administrator, ranging from 5.25% to 8.00%. Principal and interest were paid ratably through payroll deductions.

[7] Benefit payments:

Benefits were recorded when paid.

Upon termination of service, a participant could elect to receive his or her vested accrued benefits. If the vested account balance was less than $5,000, the participant would be paid in a lump-sum payment. If the vested account balance was greater than $5,000, the participant could elect to receive his or her payment in a lump-sum or an annuity payment.

[8] Forfeitures:

Forfeitures of terminated participants' nonvested accounts were used to reduce future contributions of the Company. For the period from January 1, 2010 to November 30, 2010, $1,089 of forfeited nonvested accounts was reallocated for the purposes above. As of November 30, 2010 and December 31, 2009, there were $-0- and $10 forfeitures available for such reallocation.

NOTE C - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value approximated contract value as of November 30, 2010 and December 31, 2009.

[2] Notes receivable from participants:

In September 2010, the Financial Accounting Standards Board ("FASB") issued new guidance that requires participant loans be classified as notes receivable from participants in the financial statements of a defined-contribution pension plan, measured at the unpaid principal balance plus accrued but unpaid interest. Although the new guidance is effective for fiscal years ending after December 15, 2010, the Plan adopted this guidance as of November 30, 2010, and it was applied retrospectively, by reclassifying participant loans on the statement of net assets available for benefits for all years presented. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

[3] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

[4] Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

[5] Plan expenses:

Substantially all administrative expenses of the Plan are paid by the Company.

[6] Subsequent events:

The Plan has evaluated subsequent events through September 14, 2011, which is the date the financial statements were available to be issued.

NOTE D - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, State Street Bank and Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activity in the accompanying statements of net assets available for benefits as of November 30, 2010 and December 31, 2009, the statement of changes in net assets available for benefits for the period from January 1, 2010 to November 30, 2010 and the accompanying supplemental schedule of assets (held at end of year) as of November 30, 2010.

NOTE E - INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets available for benefits as of November 30, 2010 and December 31, 2009:

	2010	2009

Fidelity Advisor Small-Cap Fund	*	4,275
Mainstay ICAP International Fund Class R	*	4,596

Common/collective trusts	$ 232
Registered investment companies	3,130
Stable value fund	143
	$ 3,505

NOTE F - FAIR VALUE MEASUREMENTS

FASB's Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE F - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 – Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability, or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In January 2010, FASB issued amended guidance on fair value measurements. The Plan has adopted the amended provisions that are effective for interim and annual reporting periods beginning after December 15, 2009 regarding disclosures of significant transfers in and out of Level 1 and Level 2 assets and description of the reasons for the transfers. Additional disclosures that are effective for fiscal years beginning after December 15, 2010 regarding reporting purchases, sales, issuances, and settlements for Level 3 assets on a gross basis should not have a significant impact on the Plan's financial statements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of November 30, 2010 and December 31, 2009.

Common/collective trusts – Valued at the unit value of the trusts. Unit prices of the trusts are primarily based on the market value of the underlying assets. The trusts' investments primarily are comprised of equities and guaranteed investment contracts (stable value funds).

Registered investment companies – Valued at the net asset value of the shares held by the Plan at year-end.

Stable value fund – Valued at fair value by discounting the related cash flow based on current yields of similar instruments with comparable durations, considering the creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE F - FAIR VALUE MEASUREMENTS (CONTINUED)

As of November 30, 2010, the fair value measurement of the Plan assets was $-0-. The following table presents the fair value hierarchy for the balances of the assets of the Plan measured at fair value as of December 31, 2009.

	Investment Assets at Fair Value as of December 31, 2009			
	Level 1	**Level 2**	**Level 3**	**Total**
Investments:				
Common/collective trusts:				
Equity	$ -	$ 5,456	$ -	$ 5,456
Large Blend	-	2,498	-	2,498
Mid-Cap Blend	-	1,205	-	1,205
Registered investment companies:				
Intermediate-Term Bond	2,774	-	-	2,774
International	8,222	-	-	8,222
Large Blend	1,089	-	-	1,089
Large Growth	4,190	-	-	4,190
Large Value	2,960	-	-	2,960
Mid-Cap Growth	4,850	-	-	4,850
Mid-Cap Value	1,175	-	-	1,175
Small Blend	4,275	-	-	4,275
Small Value	1,478	-	-	1,478
Target-Date	22,605	-	-	22,605
Stable value fund	-	7,178	-	7,178
Total investment assets at fair value	$ 53,618	$ 16,337	$ -	$ 69,955

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the period from January 1, 2010 to November 30, 2010, there were no significant transfers in or out of Levels 1, 2 or 3.

NOTE G - PARTY-IN-INTEREST TRANSACTIONS

Certain investments consist of common/collective trusts managed by State Street Global Advisors, an investment arm of State Street Bank and Trust Company. State Street Bank and Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions. Fees paid by the Plan were $800 for the period from January 1, 2010 to November 30, 2010.

NOTE H - TAX STATUS

The Plan adopted a Prototype Standardized Plan sponsored by ADP Inc., the Plan administrator. The Internal Revenue Service informed the Plan administrator by a favorable tax determination letter dated March 31, 2008, that the Prototype Standardized Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate section of the Internal Revenue Code ("IRC"). The Plan was amended since receiving the determination letter. However, the Plan administrator and management believe that the Plan was designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator analyzed the tax positions taken by the Plan, and has concluded that as of November 30, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2007.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities did occur and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of the investments as of December 31, 2009 and as of the liquidation date may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE J - MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These fees are annual fees deducted to pay for marketing and distribution costs of the funds prior to the allocation of the Plan's investment earnings activity and thus not separately identifiable as an expense.
