NOTE A – Description of Plan

The following description of the Jones & Carter, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Jones & Carter, Inc. (the "Company") who have one month of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute from 3% to 12% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan which consist primarily of mutual funds and money market funds. The Company may make matching contributions equal to a discretionary percentage, to be determined on a quarterly basis by the Company. In determining Company matching contributions, only salary reductions up to 6% of a Participant's compensation will be matched. Matching Company contributions are invested as directed by the participants. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested as directed by the participants. Contributions are subject to certain limitations.

During the years ended November 30, 2010 and 2009, the Company made matching contributions of $448,977 and $475,598 and profit sharing contributions of $717,724 and $706,942, respectively.

Plan Amendments and Rollovers – Effective December 1, 2009, the Plan was amended to allow for Roth Elective Contributions to be made into the Plan. In addition, it was amended to permit Deemed IRA's and Deemed Roth IRA's to be included within the Plan after January 1, 2010 (See Note F). In July 2010, several employees rolled their Deemed IRA's into the Plan. These Deemed IRA rollovers totaled approximately $16,748,000. Other rollovers into the Plan totaled approximately $123,000 and $76,000 for the year ending November 30, 2010 and 2009, respectively.

Deemed IRA's – Except for specific items addressed in the tax regulations, deemed IRA's (both pretax IRA's and after tax Roth IRA's) are treated as separate entities under the Code, thus they are subject to separate rules applicable to qualified employer plans and IRA's respectively. In addition, the Pension Benefit Guarantee Corporation (PBGC) treats the deemed IRA's as a separate entity from the qualified plan.

NOTE A – Description of Plan – continued

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan sponsor is absorbing substantially all administrative expenses of the Plan.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Participant Loans – The Plan does not allow loans to be made.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or an annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Benefits are recorded when paid. As of November 30, 2010 and 2009, there were $108 and $708 benefit claims that had been processed and approved for payment, respectively.

Forfeited Accounts – During the years ended November 30, 2010 and 2009, forfeited nonvested accounts allocated to participants totaled $29,447 and $138,814, respectively. Forfeitures of Company contributions other than matching contributions are added to the Company's contribution under the Plan. Forfeitures of matching contributions may be used to reduce the Company's contributions; however, they have not reduced their contributions for such forfeitures during 2010 or 2009.

NOTE B – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

NOTE B – Summary of Significant Accounting Policies - continued

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Recently Issued Accounting Standards – In January 2010, the FASB issued new accounting guidance that requires additional disclosures regarding fair value measurements, amends disclosures about post-retirement benefit plan assets and provides clarification regarding the level of disaggregation of fair value disclosures by investment class. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for certain Level 3 activity disclosure requirements that will be effective for reporting periods beginning after December 15, 2010. The Plan is currently evaluating the impact of the adoption of this guidance.

NOTE C – Investments

The following presents the fair value of investments at November 30, 2010 and 2009 that was certified as complete and accurate by Wilmington Trust and represent 5% or more of the Plan's net assets. All investments are participant directed; there are no nonparticipant directed accounts at November 30, 2010 or 2009. As set forth in Note A, Deemed IRA's are treated as a separate entity under the IRS Code. Those assets are separately disclosed below.

	2010 Qualified Plan	2010 Deemed IRA's
Managed Aggressive Asset Allocation A	$ 25,694,921	$ 17,335,768
Other investments, less than 5% of net assets	1,926,247	
Total investments	$ 27,621,168	$ 17,335,768

	2009
Managed Aggressive Asset Allocation A	$ 21,375,279
Other investments, less than 5% of net assets	1,949,630
Total investments	$ 23,324,909

NOTE C – Investments -continued

Wilmington Trust also certified to the completeness and accuracy (including gains and losses on investments bought and sold, as well as held during the year) of $3,238,802 and $5,391,325 net appreciation in the fair value of investments and $31,065 and $61,236 of interest and dividends for the years ended November 30, 2010 and 2009, respectively.

NOTE D – Tax Status

The Internal Revenue Service has determined and informed the sponsor, by a letter dated October 22, 2003, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Code.

The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended November 30, 2010. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements

NOTE E – Transactions with Parties-In-Interest

The Plan's investments are held by a custodian, Fidelity Investments, which invests cash received, interest and dividend income. Investments are self directed by the participants within several pooled investment accounts established by Wilmington Trust, the Plan trustee. The trustee administers the distributions to participants. Certain administrative functions are performed by officers and employees of the Company. No such officer or employee receives compensation from the Plan.

The Company paid the following administrative expenses on behalf of the Plan during the years ended November 30, 2010 and 2009.

	2010	2009
Plan administrator fees	$ 259,340	$ 110,000
Service provider fees	53,262	43,167
Audit fees	15,500	17,500
	$ 328,102	$ 170,667

NOTE F – Plan Amendment

Effective October 30, 2006, the Plan was amended to reflect the various provisions required by the Final Regulations under Code Sections 401(k) and 401(m) that were published on December 29, 2004. The Plan was further amended on November 14, 2007 to comply with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) under code section 401(k) and to reduce the participant eligibility requirements from three months to one month of service. Effective December 1, 2009, the Plan was amended to allow for Deemed IRA's and Roth Elective Contributions to be made into the Plan as described in Note A.

NOTE G – Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the Plan to terminate the Plan, subject to provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE H – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – Fair Value Measurements

FASB ASC Codification 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Codification 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to valuation methodology include,

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

NOTE I – Fair Value Measurements - continued

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at the fair value. There have been no changes in the methodologies used at November 30, 2010 and 2009.

Mutual funds and money market funds: Valued at the net asset value of shares held by the plan at year end.

The preceding method described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of November 30,
