Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

To the Participants and Administrator of the
L-3 Communication Systems-East Pension Plan for Bargaining Unit Employees:

In our opinion, the accompanying Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009 and the related Statements of Changes in Net Assets Available for Benefits for the years then ended and the Statement of Accumulated Plan Benefits as of January 1, 2010 and the related Statement of Changes in Accumulated Plan Benefits for the year then ended, present fairly, in all material respects, information regarding the net assets available for benefits of the L-3 Communication Systems-East Pension Plan for Bargaining Unit Employees (the "Plan") at December 31, 2010 and changes therein for the year then ended and its financial status as of January 1, 2010, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Statement by Enrolled Actuary (see instructions before signing):

To the best of my knowledge, the information supplied in this schedule and on the accompanying schedules, statements, and attachments, if any, is complete and accurate, and in my opinion each assumption, used in combination, represents my best estimate of anticipated experience under the plan. Furthermore, in the case of a plan other than a multiemployer plan, each assumption used (a) is reasonable (taking into account the experience of the plan and reasonable expectations) or (b) would, in the aggregate, result in a total contribution equivalent to that which would be determined if each such assumption were reasonable; in the case of a multiemployer plan, the assumptions used, in the aggregate, are reasonable (taking into account the experience of the plan and reasonable expectations).

ACTUARIAL ASSUMPTIONS AND ACTUARIAL COST METHOD

Net investment return:	7.50%
Interest rate for determination of current liability:	6.76% (previously, 6.69%). Effective in 2008, as mandated by the Pension Protection Act of 2006 for eligible contractor plans, this is based on the third segment rate used to determine funding requirements for noncontractor plans.
Interest rate for determination of maximum deductible contribution and variable rate premium:	As mandated by the Pension Protection Act of 2006 and based upon recently released guidance, the interest rates used are the 24-month average of corporate bond yields ending in September 2009 (5.03% for payments in the first 5 years, 6.73% for payments in years 6 – 20, and 6.82% for payments thereafter). The effective interest rate is 6.71%. This market-based assumption is mandated by law, based on the plan sponsor's one-time election of one of the alternative methodologies. (Prior year's rates were the October 2008 full spot yield curve, effective rate was 8.04%.)
Mortality rates:	
Healthy:	RP 2000 Combined Healthy
Disabled:	RP 2000 Combined Disabled
Current Liability and Maximum Deductible:	The RP 2000 combined table with static projection. This assumption is one of the choices allowed by proposed regulations. (Prior year current liability assumption was similar, but based on one less year of projection)
Assumed form of benefit:	(1) For a married participant: 50% Qualified Joint and Survivor annuity. (2) For a single participant: a life annuity with 5 years certain (3) For all employees with a Personal Pension Account and/or Voluntary Pension Account: a lump sum.on the account balance.

Percent married:	70% of male participants and 55% of female participants are assumed to be married. For inactive participants for whom a spouse's date of birth was not provided, and for active participants, it was assumed that husbands were 3 years older than their wives.
Annual earnings on PPA and VPA accounts:	7.50%
Annual earnings on employee contributions:	5.50%
Administrative expenses:	$213,000
Actuarial value of assets:	Prior year's actuarial value of assets plus (1) + (2) + (3): (1) Net new money (2) Expected investment return on actuarial value (3) 25% of each of the previous four years' gain/(loss) due to investment return. The actuarial value of assets is limited to not less than 80% nor greater than 120% of market value. For the maximum deductible contribution, the rules under the Pension Protection Act apply, based on the plan sponsor's election of an allowable asset averaging method. The actuarial value of assets is an average of the market value of assets as of the valuation date and the adjusted market value of assets as of the preceding two years. The adjusted assets reflect expected earnings (subject to a statutory cap) and actual cash flow. The resulting value is limited to between 90% and 110% of the market value of assets. The methodology was changed from market value of assets in 2008.
Actuarial cost method:	Entry Age Normal Cost Method This cost method develops the annual cost or expense of the Plan in two parts: that allocated in the current year, known as the normal or service cost, and that allocated prior to the current year, known as the actuarial accrued or past service liability. Each of these components is calculated individually for each active employee.

Attachment to 2010 Schedule B of Form 5500
Schedule B, Line 6 - Statement of Actuarial Assumptions/Methods
L-3 Communication Systems - East Pension Plan for Bargaining Unit Employees
EIN 13-3937436 PN 005

The normal cost is the level annual contribution as a percentage of pay, required to be made from the employee's date of hire until his termination or retirement, so that sufficient assets will be accumulated to provide his benefit. The unfunded actuarial liability reflects the difference between the portion of projected benefits allocated to the period prior to the valuation date and assets already accumulated. The unfunded actuarial liability is paid off in accordance with a specified amortization procedure.

Under the entry age normal cost method, if actual plan experience is close to the assumptions, the normal cost will remain constant as a percentage of payroll for each employee as he or she approaches retirement age. The total contribution is made up of the sum of the individual normal costs and the amortization payment on the unfunded actuarial liability.

Personal Pension Account Annuity:	The balance of the employee's Personal Pension Account (i.e., employee contribution in former GE pension plan) converted to an immediate annuity as of the date of conversion is payable on or after his Normal Retirement Date. Employee contributions began January 1, 1989 and were eliminated effective December 31, 1994. Interest credited on the account is the lesser of (i) an annual rate established at the beginning of the plan year equal to the average 10-year contract maturity yield on U.S. Treasury Securities for the previous three years, and (ii) 120% of the Federal Mid Term Rate for the plan year. This account can also be paid as a lump sum.
Voluntary Pension Account Annuity:	The balance of the employee's Voluntary Pension Account (i.e., employee voluntary contribution in former GE pension plan) converted to an immediate annuity as of the date of conversion is payable on or after his Normal Retirement Date. Employee contributions began January 1, 1989 and were eliminated effective December 31, 1994. Interest credited on the account is the greater of (i) an annual rate established at the beginning of the plan year equal to the average 10-year contract maturity yield on U.S. Treasury Securities for the previous three years, and (ii) 120% of the Federal Mid Term Rate for the plan year. This account can also be paid as a lump sum.

Early retirement:

Age requirement:	60
Service requirement:	Must retire from active service.
Amount:	Benefit accrued to date as of Early Retirement without reduction.
Regular Supplement:	A Supplement of $13 per month per year of service (no maximum) is payable up to age 62 for retirements between ages 60 and 62.

Report of Independent Auditors

To the Participants and Administrator of the
L-3 Communication Systems-East Pension Plan for Bargaining Unit Employees:

In our opinion, the accompanying Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009 and the related Statements of Changes in Net Assets Available for Benefits for the years then ended and the Statement of Accumulated Plan Benefits as of January 1, 2010 and the related Statement of Changes in Accumulated Plan Benefits for the year then ended, present fairly, in all material respects, information regarding the net assets available for benefits of the L-3 Communication Systems-East Pension Plan for Bargaining Unit Employees (the "Plan") at December 31, 2010 and changes therein for the year then ended and its financial status as of January 1, 2010, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

1. Plan Description

The following brief description of the L-3 Communication Systems-East Pension Plan for Bargaining Unit Employees (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan was established effective May 1, 1997 in connection with the acquisition of certain entities, including the L-3 Communication Systems-East division by L-3 Communications Corporation (the "Company"), a wholly owned subsidiary of L-3 Communications Holdings, Inc., from Lockheed Martin Corporation ("Lockheed Martin"). On that date, certain participants in the Lockheed Martin Corporation Pension Plan for Employees in Participating Bargaining Units (the "Prior Plan") became participants in the Plan. In 1997, Lockheed Martin transferred the assets from the Prior Plan attributable to the accrued benefits of the participants to the Plan.

The Plan is a non-contributory defined benefit plan covering bargaining unit employees at certain locations of the Company. Participation in the Plan commenced on January 1st following the participant's first day of service as an employee. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Employees who are hired on or after January 1, 2007 and are represented by the International Federation of Professional & Technical Engineers, Local 241 are not eligible to participate in the Plan. Employees who are hired on or after January 1, 2008 and are represented by the Teamsters Local 676, an affiliate of the International Brotherhood of Teamsters or the International Union of Electronic, Electrical, Salaried, Machine and Furniture Workers-Communications Workers of America, Locals 103 and 110 are not eligible to participate in the Plan.

During the years ended December 31, 2010 and 2009, certain participants transferred to another Company-sponsored plan. The reduction in benefit obligation of approximately $190 resulting from these transfers is included in the Statement of Changes in Accumulated Plan Benefits within benefits accumulated and actuarial experience.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Investment in Master Trust

Investment assets of the Plan are maintained in the L-3 Communications Corporation Master Trust (the "Master Trust") administered by The Bank of New York Mellon, as Trustee. The Plan participates in the Master Trust along with other defined benefit plans sponsored by the Company (collectively, the "L-3 Participating Plans"). The only investment of the Plan is its interest in the net assets of the Master Trust. The fair value of the Plan's interest in the Master Trust is determined based on the beginning of year value of the Plan's interest in the trust plus

actual contributions and allocated investment income (loss) less actual distributions and actual administrative expenses. Assets held in the Master Trust primarily consist of corporate equity securities, commingled trust funds and mutual funds, corporate bonds and Government and mortgage-backed securities. See Note 6 for a description of the valuation methodologies of the assets of the Master Trust.

The Master Trust records investment transactions on the trade-date, dividend income on the ex-dividend date, interest income as earned and determines realized gains and losses on sales of securities based on the average cost method.

Net Investment Gain (Loss) from Master Trust

The net investment gain (loss) from the Master Trust includes interest and dividend income and net appreciation or depreciation in the fair value of investments, which includes gains or losses realized upon disposition of investments and net unrealized appreciation or depreciation of investments. The net investment gain or loss is allocated to the L-3 Participating Plans based upon the relationship of each plan's respective monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Benefit Payments

Benefit payments are recorded when paid.

Plan Expenses

The administrative expenses of the Plan are paid for by the Plan. Administrative expenses are allocated to the Plan at the direction of the Company based upon the Plan's respective portion of the expense. Investment management fees of the Master Trust are allocated to the L-3 Participating Plans based upon the relationship of each plan's respective monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, disclosures of contingent assets, liabilities and benefit obligations, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results will differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation

and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The investments held in the Master Trust are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the investments and related allocation of the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Subsequent Events

The Plan continued to evaluate events after the Statement of Net Assets Available for Benefits date through September 15, 2011, the date the financial statements were available to be issued.

3. Contributions

Generally, the Company's funding policy is to contribute amounts in accordance with the Internal Revenue Code ("IRC") and the minimum funding requirements under ERISA. No contributions from the Company were required in 2010 and 2009 under the minimum funding requirements of ERISA. Contributions are calculated using the Entry Age Normal Actuarial Cost Method. Under this method, the total actuarial liability for participants is the actuarial present value as of the valuation date of all benefits attributed by the pension benefit formula to employee service rendered prior to that date, which assumes the normal cost will remain as a percentage of payroll for each employee as he or she approaches retirement age. The yield (interest, dividends and net realized and unrealized gains and losses) on investments of the Plan serves to adjust future contributions that will be required to provide for the defined level of benefits.

4. Plan Benefits

The Plan provides an annual benefit equal to the sum of the Regular Pension, the Future Service Annuity, the Personal Pension Account and the Voluntary Pension Account Annuity. The Regular Pension is the benefit accrued as of December 31, 1994. The Future Service Annuity is computed based on 1.45% of employee compensation earned per calendar year (beginning on January 1, 1995) up to $26 plus 1.90% of employee compensation in excess of $26 for the first 34 years of service. After 34 years of service, the Future Service Annuity is computed based on 1.45% of all employee compensation for each year of service. The Personal Pension Account and the Voluntary Pension Account Annuity consist of employee contributions under a prior plan, which were eliminated effective December 31, 1994. Benefits vest 100% after 5 years of service and are payable at age 65. Service in the Prior Plan is considered as service under the Plan.

The Plan permits early retirement for participants at age 60. The benefit may begin at the date of early retirement and represents the benefit accrued as of the date of early retirement. Retirees may elect to receive their pension benefits in the form of a joint and survivor annuity or a life

annuity payable monthly from the date of retirement. Under the joint and survivor annuity, if a vested participant dies prior to the date pension payments commence, the surviving spouse of that deceased vested participant receives benefits equal to 50% of the amount which would have been payable to the retiree under a joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree. If participants are terminated before completing 5 years of service, they forfeit the right to receive their accumulated benefits.

The following presents the more significant assumptions underlying the actuarial computations as of January 1, 2010 and 2009.

Mortality basis	RP-2000 Combined Healthy Table RP-2000 Combined Disabled Table
Retirement	Retirement at ages 60 through 70, at varying rates with 100% by age 70.
Discount rate for the determination of the present value of accumulated plan benefits	2010 and 2009 – 7.5%

The foregoing actuarial assumptions are based upon the assumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors may be used in determining the actuarial present value of accumulated plan benefits.

5. *Master Trust Investments*

The fair value of the assets and liabilities of the Master Trust at December 31, 2010 and 2009 is presented in the table below. The Plan's percentage interest in the Master Trust was 2.0% at December 31, 2010 and 2.3% at December 31, 2009.

	2010	2009
Corporate equity securities	$ 778,788	$ 607,388

The following presents the net appreciation (depreciation) in fair value of the Master Trust's investments, including realized gains and losses, and the unrealized appreciation and depreciation of investments for the years ended December 31, 2010 and 2009.

	2010	2009
Corporate equity securities	$ 104,585	$ 121,766
Commingled trust funds and mutual funds	20,585	39,365
Corporate bonds	5,045	20,449
Forward contracts	627	(595)
	$ 130,842	$ 180,985

6. *Fair Value Measurements*

The Plan adopted the standards for fair value measurements. The provisions of the standards are applicable to all of the Plan's assets and liabilities that are measured and recorded at fair value. The standards establish a framework for measuring fair value and expand related disclosures. The standards define fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. It establishes a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described below.

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Plan's Level 1 assets include equity securities, certain mutual funds and U.S. Treasury bonds, all of which fair value is derived from quoted market prices.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. The fair value is determined using a valuation model based on observable market inputs. The Plan's Level 2 assets include commingled trust funds, certain mutual funds, corporate bonds, government securities and forward contracts.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data. The Plan has no Level 3 assets.

The table below reports by level, within the fair value hierarchy, the assets held in the Master Trust at fair value as of December 31, 2010 and 2009, including a description of the valuation methodologies. As required by the standards, each asset is classified based on the lowest level of input that is significant to the fair value measurement.

	Fair Value Measured at December 31, 2010				Fair Value Measured at December 31, 2009			
Asset Category	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total

International Equity	98,282	114,632	—	212,914	86,365	103,788	—	190,153
Fixed Income — Investment Grade	155,351[2]	155,040[3]	—	310,391	126,094[2]	110,086[3]	—	236,180
Fixed Income — High Yield[4]	—	82,477	—	82,477	—	68,905	—	68,905

Total	$ 932,448	$ 413,277	$ —	$1,345,725	$ 736,471	$356,520	$ —	$ 1,092,991

(1) Equity securities consist of investments in common stock of U.S. and foreign companies. The fair value of equity securities is based on quoted market prices available in active markets at the close of a trading day, primarily the New York Stock Exchange (NYSE), National Association of Securities Dealers Automated Quotations (NASDAQ), and various foreign exchanges. The Level 2 investment balance is derived from a pooled equity fund offered by a registered investment company, which fair value is based on net asset value (NAV). NAV is calculated by the fund manager based on the fair value of the fund's holdings, primarily equity securities traded in active markets, determined as of the end of each month. Withdrawals are permitted monthly based on NAV.

(2) Approximately 50% in 2010 and 53% in 2009 of plan assets invested in fixed income — investment grade securities consist of a mutual fund offered by a registered investment company. The mutual fund invests in investment grade fixed income securities, mortgaged-backed securities, U.S. treasury and agency bonds and corporate bonds. This fund is classified by the Company as a Level 1 measurement within the fair value hierarchy as the mutual fund trades on an active market and daily, quoted prices are available.

(3) The remaining 50% in 2010 and 47% in 2009 of plan assets invested in fixed income — investment grade securities is derived from pooled bond funds offered by registered investment companies. As these funds do not trade in an active market, the fair value is based on NAVs calculated by fund managers based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs.

(4) Fixed income — high yield consists of investments in corporate high-yield bonds from various industries. The fair values of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs.

(5) Real Estate Investment Trusts (REITs) consist of securities that trade on the major exchanges and invest in real estate directly, either through properties or mortgages.

(6) Other consists of short term investments maintained in a commingled trust or pooled fund, which primarily invests in short term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit, which are classified as Level 2.

7. Accounting Standards Issued and Not Yet Implemented

In May 2011, the FASB issued a revised accounting standard for fair value measurement and disclosure. The revisions clarify how to measure fair value and require additional disclosures as follows: 1) transfers between Level 1 and Level 2 of the fair value hierarchy, 2) the valuation process used and the sensitivity of a fair value measurement categorized within Level 3 of the fair value hierarchy to changes in unobservable inputs, and 3) the categorization by level of the fair value hierarchy for items that are not measured at fair value in the Statement of Net Assets Available for Benefits, but for which the fair value of such items is required to be disclosed. The revised accounting standard is effective for the Company beginning after December 15, 2011, and is not expected to have an impact on the Plan's Net Assets Available for Benefits.

8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated December 18, 2008, that the Plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is

no longer subject to income tax examinations for years prior to the year ended December 31, 2006.

9. Related Party Transactions

Certain plan investments held in the Master Trust are units of a commingled trust fund managed by The Bank of New York Mellon, the Plan's trustee.

10. Termination Priorities

While the Company has not expressed any intention to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to collective bargaining and the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

a. Benefits attributable to employee contributions, taking into account those paid out before termination.

b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and receive pension benefits at least three years before, but who did not elect to retire at that time.

c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.

d. All vested and non-vested benefits.

To the extent the Plan's net assets are not sufficient to fund the accumulated benefits upon Plan termination, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation, up to specified limits.
