Independent Auditor's Report

Trustees of
Komet of America, Inc. 401(k) Plan
Schaumburg, Illinois

We were engaged to audit the financial statements of **Komet of America, Inc. 401(k) Plan** as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule as of December 31, 2010, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by John Hancock Life Insurance Company, the custodian of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of the Komet of America, Inc. 401(k) Plan (the plan) provides only general information. Participants should refer to the plan agreement for a complete description of the plan's provisions.

General

The plan is a defined contribution plan that covers substantially all employees of Komet of America, Inc. (the company). The plan does not cover nonresident aliens or employees who are covered by a collective bargaining agreement that does not provide for their participation in the plan. The plan was established by the company on July 1, 1987 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Any covered employee is eligible to participate in the plan upon date of hire. Any employee hired after July 1, 2005 shall be automatically enrolled in the plan unless they elect otherwise. The employee payroll deferral rate for such participants will be set at 3%.

Participant Contributions

Participants may elect to make 401(k) deferral contributions that are not less than $5.00 and not greater than 100% of their compensation each pay period. Participants who have attained age 50 may make catch-up contributions in addition to their regular deferral contributions. These contributions are made out of pretax earnings through payroll deductions and are subject to certain IRS limitations. The plan also accepts rollover contributions from other qualified plans.

Employer Contributions

The company may elect to make discretionary matching contributions or other discretionary contributions. No such contributions were made in 2010.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer matching contribution and allocations of plan earnings and charged with allocations of plan losses and administrative expenses. Allocations are based on participant earnings or account balances as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are immediately vested in all their participant accounts.

Note 1 - Description of Plan (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement or termination of service, a participant may request a lump-sum amount equal to the value of the participant's vested interest in his or her account. In-service distributions may be made from a participant's vested account at any time after the attainment of age 59½. Hardship distributions are also permitted if certain criteria are met.

Notes Receivable from Participants

Participants may borrow from their plan accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance and a minimum of $1,000. Loan terms range from one to five years. The loans are secured by the vested balance in the participant's account and bear a reasonable rate of interest, as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Administration of the Plan

The company is the plan's sponsor and administrator. John Hancock Life Insurance Company (John Hancock) is the contract administrator and custodian of the plan. All investments are self-directed by plan participants. Administrative expenses are paid by the plan to the extent not paid by the company.

Investment Options

Participants direct the investment of their account balances into various investment options provided by the plan. Participants may change their investment options on a monthly basis.

Subsequent Events

The plan administrator has evaluated subsequent events through September 13, 2011, the date the financial statements were available to be issued and September 8, 2010 with respect to the comparative 2009 financial statements.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the plan are prepared under the accrual method of accounting.

Investments

Investments are reported at fair value in accordance with accounting principles generally accepted in the United States of America (GAAPUSA). See Note 3 for a discussion of fair value measurements.

Note 2 - Summary of Significant Accounting Policies

Investments (Continued)

Effective January 1, 2010, the plan adopted new guidance that requires the plan to report significant transfers between Level 1 and Level 2 and the reasons for those transfers, as well as disclosing the reasons for transfers in or out of Level 3. Additionally, the guidance requires the plan to clarify existing disclosure requirements about the level of disaggregation and inputs and valuation techniques. The adoption of this guidance did not have an impact on the plan's financial statements.

The new guidance also requires the reconciliation of changes in Level 3 fair value measurements to present purchases, sales and settlements separately on a gross basis rather than as a net amount, effective for fiscal years beginning after December 15, 2010. The plan does not expect the adoption of the guidance for Level 3 activity to have a significant impact on its financial statements.

The plan's investments are exposed to risks such as interest rate, credit and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near term and could materially affect the amounts reported in the financial statements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Effective January 1, 2010, the plan retrospectively adopted updated GAAPUSA regarding the reporting of loans to participants by defined contribution plans. Such loans are now required to be presented as "notes receivable from participants" that are measured at their unpaid principal balance plus any accrued but unpaid interest. Prior to this change, loans to participants were presented as investments that were measured at fair value. This change resulted in a reclassification of $18,753 from investments to notes receivable from participants in the 2009 statement of net assets available for benefits. In addition, fair value measurement disclosures regarding loans to participants are no longer required.

Delinquent loans are reclassified as distributions based on the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Management Estimates

The preparation of financial statements in conformity with GAAPUSA requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Note 3 - Fair Value Measurements

GAAPUSA defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, in the absence of a principal market, the most advantageous market accessible to the reporting entity as of the measurement date. Under GAAPUSA, the principal market is the market in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. The most advantageous market, which may be a hypothetical market, is the market in which the reporting entity would sell the asset or transfer the liability with the price that maximizes the amount that would be received for the asset or minimizes the amount that would be paid to transfer the liability, considering transaction costs in the respective market.

GAAPUSA describes three approaches to measuring fair value: the market approach, the income approach and the cost approach. Each approach includes multiple valuation techniques. GAAPUSA does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques based on the degree to which such inputs are observable to market participants. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk.

The plan's investments are classified in one of the following three categories based on the inputs used to determine their respective fair values.

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data. These inputs may include quoted prices for similar assets or liabilities in active markets as well as quoted prices for identical or similar assets or liabilities in inactive markets.

- Level 3 - Unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Note 3 - Fair Value Measurements (Continued)

When the inputs used to value an investment fall into more than one level, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and is dependent on factors specific to the investment. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

As of December 31, 2010 and 2009, the following valuation methods have been used to value the plan's investments:

- Guaranteed interest accounts - Valued by discounting the related cash flows of the underlying investments based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuers. The investment objective of these accounts is to preserve principal and provide a stable return over the life of the investments. Participants may transfer funds in and out of these accounts without restriction. These investments are not fully benefit-responsive; therefore, the investments are stated at fair value.

- Pooled separate accounts - Valued at the net asset value (NAV) per unit as determined by John Hancock. Such NAV is based on the value of the underlying assets and liabilities of the accounts. The investment objective of the accounts varies and can be differentiated by the nature of their holdings as disclosed in the tables below. Participants may transfer funds in and out of the accounts without restriction.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the different methodologies or assumptions used to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Note 3 - Fair Value Measurements (Continued)

The following tables summarize the plan's financial assets and liabilities that are measured at fair value on a recurring basis as of December 31, 2010 and 2009:

Note 4 - Investments

The following table presents investments that represent 5% or more of the plan's net assets as of December 31, 2010 or 2009:

	2010		2009	
	Number of Units	Fair Value	Number of Units	Fair Value
Pooled Separate Accounts				
PIMCO Total Return	45,646	$ 996,717	48,951	$ 987,078
JP Morgan Mid Cap Value	15,829	443,770	15,457	352,773

Money Market	125,491	1,637,017	129,298	1,690,213

For the year ended December 31, 2010, the plan's pooled separate account investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by $542,455.

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company, the custodian of the plan, has certified to the completeness and accuracy of the plan's investment information in the statements of net assets available for benefits as of December 31, 2010 and 2009, the schedule of assets held at end of year as of December 31, 2010 and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2010, as indicated above and in total.

Note 5 - Plan Termination

While the plan is intended to be permanent, it may be terminated at the discretion of the company subject to the provisions of ERISA. Upon termination of the plan the trustee may commence distribution to each participant.

Note 6 - Party-in-Interest Transactions

The plan's investments include pooled separate accounts and guaranteed interest accounts managed by John Hancock Life Insurance Company, the contract administrator and custodian of the plan. As a result, transactions relating to John Hancock investments qualify as party-in-interest transactions.

Note 7 - Income Tax Status

The plan obtained its latest determination letter on September 8, 2010, in which the Internal Revenue Service stated that the plan was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter, however, the plan administrator and the plan's tax counsel believe that the plan continues to operate in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the plan's financial statements.

GAAPUSA requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.
