Plan Trustees
First Credit Union 401(k) Profit Sharing Plan
Chandler, Arizona

We were engaged to audit the accompanying statements of net assets available for benefits of First Credit Union 401(k) Profit Sharing Plan as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended and the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of ended December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Marshall & Ilsley Trust Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and participant notes receivable and executes related transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2010 and 2009 that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FIRST CREDIT UNION 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
Years Ended December 31, 2010 and 2009

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the First Credit Union 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants and others should refer to the Plan agreement for a more complete description of the Plan's provisions. The effective date of the Plan is January 1, 1997. Effective January 1, 2003, the Plan was amended and restated to comply with all recent law changes relating to minimum distributions and catch-up contributions. The restatement complied with the required EGTRRA and GUST amendments.

General

The Plan is a defined contribution plan which provides eligibility for all employees of First Credit Union (the Plan Sponsor) (Credit Union) who are not members of a collective bargaining unit or nonresident aliens and have attained age 19 and completed one year of service or if earlier, 6 consecutive full calendar months of employment with First Credit Union. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Contributions

Participant contributions to the Plan are made through payroll deductions. Participants may elect to have a percentage of their eligible pre-tax earnings contributed to the Plan up to annual limits established by the Internal Revenue Service (\$16,500 for 2010 and 2009).

Employer contributions are made at the discretion of First Credit Union and may consist of both matching and discretionary profit sharing amounts. Each participant's share of the matching contribution is based on the matching percentage multiplied by eligible employee deferrals. Each participant's share of the discretionary profit sharing contribution is based on the relationship of the participant's compensation to the total compensation for all participants. Participants are eligible for matching and discretionary contributions when they have reached age 21 and completed one year of service.

Effective November 26, 2008, the profit sharing contribution was suspended and effective June 24, 2009, the employer match contribution was suspended.

Participant Accounts

Participants may direct contributions to any of several investment options. Each participant's account is credited with the participant's contribution and allocation of the Plan earnings (losses), Credit Union matching contribution, and the discretionary profit sharing match. Allocations are based on account balances and participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account subject to plan provisions.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment fund and the participant loan fund. Loan terms may range from one to five years or longer if used to purchase the primary residence of the participant. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 9.25% which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through periodic payroll deductions.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits

Under the terms of the Plan, a participant is eligible for retirement benefits upon attainment of age 65, or upon suffering total and permanent disability. Upon retirement or disability, the amount credited to the participant's account is distributed to the participant, with the approval of the trustees of the Plan in one lump-sum distribution of the participant's total account balance.

Vesting

Participants are immediately fully vested in contributions made through salary deferrals. Participants are fully vested in the employer contributions after completing six years of service.

<u>Years of Service</u>	<u>Percentage Vested</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

Forfeitures are the unvested amounts of employer discretionary contributions that were allocated to the accounts of terminated participants. Forfeitures are used to offset the amount of future employer discretionary contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates in Preparing Financial Statements

The preparation of the financial statements in conformity with accounting principles generally accepted in the United State of America requires management to make a number of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

The Plan administrator has determined the difference between contract value and fair value of the fully benefit-responsive investment contracts at December 31, 2010 and 2009 is immaterial. As such, the fair value of these investments is not reflected on the Statements of Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The investments are reported at fair value, which is the current market value of each account as determined by Marshall & Ilsley Trust Company N.A. (M&I). The current market value is determined by M&I based on a valuation of the assets held by each account, using the last sales price for securities traded on national securities exchanges and the last reported bid price for other securities.

FIRST CREDIT UNION 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
Years Ended December 31, 2010 and 2009

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Changes in market value of investments held at year-end and realized gains and losses on investment transactions during the year are reflected in the statements of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative costs of the Plan are paid by First Credit Union. Investment expenses are charged to the participants' accounts.

Change in Accounting Principles

The Plan adopted a new accounting standard, *Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides clarification of how loans to participants should be classified and measured by defined contribution pension benefit plans. This guidance requires that loans to participants be reported as notes receivable from participants in the statements of net assets available for benefits and be measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this standard in its December 31, 2010 financial statements and has reclassified participant loans of \$171,257 from participant-directed investments to notes receivable from participants as of December 31, 2009. The Plan also reclassified interest income from participant loans of \$9,813 from investment income to interest income from notes receivable from participants for the year ended December 31, 2009. Net assets of the Plan were not affected by the adoption of this standard.

New Accounting Pronouncement

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*. This guidance requires: (i) separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers; (ii) disclosure, on a gross basis, of purchases, sales, issuances, and net settlements within Level 3; (iii) disclosures by class of assets and liabilities, and (iv) a description of the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. This guidance is effective for interim and annual reporting periods beginning after December 31, 2009, except for the Level 3 disclosure requirements, which will be effective for fiscal years beginning after December 15, 2010 and interim periods within those fiscal years. Management of the Plan does not believe the adoption of this guidance will impact the financial statement amounts; however, additional disclosures are required.

Subsequent Events

The Plan has evaluated subsequent events through August 17, 2011, the date the financial statements were available to be issued.

NOTE 4 – FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Stable principal fund: Seeks long-term, stable interest rate returns on pension deposits. Marshall & Ilsley Trust Company N.A. guarantees the account, with investments primarily in corporate bonds, mortgage backed securities, municipal bonds, and other high grade fixed income securities. They are valued at the net asset value (NAV) of the shares held by the Plan in each mutual fund as determined by Marshall & Ilsley Trust Company's trading partners as of the close of each business day based on active quoted prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has an investment contract with Marshall & Ilsley Trust Company (Trust). The Trust maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the Trust. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONTINUED)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and credited interest rates was approximately 2.79 and 3.36 percent, respectively, for 2010 and for 2009.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial plan termination or merger with another investment entity); (ii) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (iii) bankruptcy of the Plan sponsor or other plan sponsor events which cause significant withdrawal from the plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes of any required prohibited transaction exemption under ERISA. The Plan does not believe that any occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE 6 – TAX STATUS

The Plan obtained its latest determination letter on July 28, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 7 – FORFEITED ACCOUNTS

At December 31, 2010 and 2009, forfeited non-vested accounts totaled \$47,485 and \$24,183, respectively. These forfeited account balances are available to reduce future employer contributions. During 2010 and 2009, employer contributions were reduced by forfeiture reallocations of \$-0- and \$23,060, respectively.

NOTE 8 – RELATED PARTY TRANSACTIONS

As of December 31, 2010 and 2009, the Plan's investments include mutual funds and a guaranteed interest contract managed by Marshall & Ilsley Trust Company who is a custodian as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions.

NOTE 9 – PLAN TERMINATION

Although it has not expressed any intent to do so, First Credit Union has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon such termination, all participants would become fully vested in their account balances after deductions for estimated liquidation and distribution expenses.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The information is an integral part of the accompanying financial statements.
