NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan

The following description of the Richard D. Kimball Company, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. An employee who has satisfied the eligibility and entry date requirements as defined in the Plan documents or a former eligible employee who has an account balance remaining in the Plan is referred to in these footnotes to the financial statements as a "Participant".

General

The Plan is a defined contribution profit sharing plan with a cash deferral arrangement that was established on January 1, 1986 by the Board of Directors of Richard D. Kimball Company, Inc. (the "Employer"). Fidelity Management Trust Company ("FMTC") provides recordkeeping and trustee services for the Plan, and also serves as custodian for the Plan's investments. The Employer is the plan administrator and has the authority to appoint person(s) or entities to carry out the operation of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All employees who have attained the age of 18 are eligible and automatically enrolled in the Plan, except residents of Puerto Rico, non-benefit eligible employees and part-time employees. Non-benefit eligible employees and part-time employees shall become eligible to participate in the Plan on the first entry date after attaining age 21 and completing at least 1,000 hours of service. All investments are participant-directed.

Participant Contributions

Participants may defer a percentage of their eligible pre-tax annual compensation, not to exceed 60%, as defined by the Plan, subject to dollar limits set by federal law. In addition, the Plan allows, upon proper notice, Participants to make additional deferrals of up to 100% of (a) compensation earned in the final month of the plan year and (b) cash bonuses paid to Participants during the plan year, subject to dollar limits set by federal law. Participants who have reached the age of 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans ("Rollovers").

Employer Contributions

Profit Sharing Contributions

The Employer, at its discretion, may make profit sharing contributions to the Plan as determined by its Board of Directors. Profit sharing contributions are allocated according to the following groups; Shareholders and Non-Shareholders. An employee may only belong to one group. In the event the employee fits the description of more than one group, the employee will be considered as belonging to the group that provides the largest allocation. To be eligible for a profit sharing contribution allocation, a Participant must have completed at least 501 hours of service during the plan year or be employed by the Employer as of the last day of the plan year. For the year ended December 31, 2010, the Employer elected to make a profit sharing contribution in the amount of $216,590.

Note 1 - Description of Plan (Continued)

Employer Contributions (Continued)

Matching Contributions
The Employer, at its discretion, may elect to contribute a matching contribution. A Participant is entitled to Employer matching contributions once enrolled in the Plan and making deferral contributions. Effective April 1, 2009, the Board of Directors of the Employer elected to terminate the matching contribution and, on April 7, 2010, elected to reinstate the employer matching contribution. The total Employer matching contributions amounted to $124,236 for the year ended December 31, 2010.

Participant Accounts
Each Participant's account is credited with the Participant's contribution and allocations of the Employer's contributions and Plan investment earnings, and reduced by direct loan fees. Allocations are based on Participant earnings or account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

Vesting
Participants are always fully vested in their deferral and rollover contributions. Participants start vesting in Employer profit sharing and matching contributions after two years of service and become fully vested after six years of service. Upon death, disability, or attainment of normal retirement age, a Participant is fully vested in all of their accounts.

Payment of Benefits
Upon termination of service, a Participant may elect to receive a lump-sum amount equal to the value of his or her account. The payment can either be a cash distribution or a tax free rollover to an individual retirement account or another qualified plan. If a Participant's vested account is less than $1,000, the Plan administrator, after notification, may distribute the benefit.

In service withdrawals from the Participant's account are permitted only due to financial hardship or upon reaching age 59½. Participants must have obtained all distributions, other than the hardship withdrawal, and all nontaxable loans currently available, before financial hardship withdrawals are allowed. Hardship withdrawals may be taken from the Participant's account, without respect to earnings, and are subject to a $500 minimum amount. Deferrals must be suspended for six months following receipt of hardship withdrawal.

Forfeited Accounts
Forfeited non-vested accounts at December 31, 2010 and 2009 amounted to $11,180 and $65,432, respectively. Forfeited amounts are used to reduce future Employer contributions. During the plan year ended December 31, 2010, $92,383 was used to reduce employer matching contributions.

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan (Continued)

Notes Receivable from Participants
Subject to approval by the Plan administrator, Participants may borrow from their accounts up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The minimum amount a Participant may borrow is $1,000. A Participant may only have one loan outstanding at a time. Loan terms range from one to five years (or up to ten years for the purchase of a primary residence). Loans are secured by the vested balance in the Participant's account and bear interest at a rate commensurate with local prevailing rates as determined monthly by the Plan administrator. Principal and interest are paid ratably through payroll deductions or by check if the employee has terminated employment. The interest rate on loans outstanding at December 31, 2010 ranges from 4.25% to 9.25%. Loans to participants are reported in the Statement of Net Assets Available for Benefits as notes receivable from Participants at the unpaid principal balance plus any accrued but unpaid interest.

Plan Expenses
Individual participant accounts are charged directly for loan recordkeeping, if applicable. All other operating expenses incurred in the administration of the Plan are paid by the Employer.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could vary from the estimates that were used.

Investments, Investment Valuation and Income
Investments are reported at fair value. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 - Summary of Significant Accounting Policies (Continued)

Payments of Benefits

Benefits are recorded during the period in which they are paid.

New Accounting Standard

In September 2010, the Financial Accounting Standards Board issued accounting guidance requiring participant loans to be classified as notes receivable from Participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The guidance is effective for fiscal years ending after December 15, 2010 with early adoption permitted. The guidance is to be applied retrospectively to all periods presented. In accordance with this guidance, the Plan reclassified participant loans from plan investments to a component of receivables for both periods presented in the Statements of Net Assets Available for Benefits. Other than the reclassification requirements, the adoption of this standard did not have a material impact on the Plan's financial statements.

Subsequent Events

The Company has evaluated subsequent events through August 19, 2011, the date the financial statements were approved and authorized for issuance by management, and determined that there have been no subsequent events that would require recognition in the financial statements or disclosure in the notes to the financial statements.

Note 3 - Investments (Unaudited)

The Plan offers investment choices to allow Participants to create a diversified portfolio of investments based on the Participants' risk tolerance. Participants may direct contributions to any of 34 mutual funds and a money market fund as investment options.

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by FMTC at December 31, 2010 and 2009 and for the year ended December 31, 2010 except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

Note 3 - Investments (Unaudited) (Continued)

The following table presents the fair value of the participant-directed investments in this Plan that were certified by FMTC. Single investments representing more than 5% of the Plan's net assets are separately identified as of December 31:

Fidelity Contrafund	**$ 2,187,485**	$ 1,963,390

	$ 14,724,124	$ 12,866,571

*Investment was less than 5% of net assets available for benefits.

FMTC also certified to the completeness and accuracy of (1) the net appreciation in the value of investments by $1,494,418, dividend income of $276,054 and interest income of $8,959 and (2) the information in the supplemental schedule, Form 5500 – Schedule H, Part IV, Line 4(i) – Schedule of Assets (Held at Year End).

Note 4 - Fair Value Measurements

Under generally accepted accounting principles, a framework for measuring fair values has been established to clarify the definition of those fair values and expand disclosures about assets and liabilities measured at fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy described under generally accepted accounting principles are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note 4 - Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Money market fund: Valued at the net asset value (NAV) of shares held by the plan at year end.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Assets at Fair Value as of December 31, 2010

	Level 1	Level 2	Level 3	Total
Money market fund	$ 745,669	$ -	$ -	$ 745,669
Mutual funds	13,978,455	-	-	13,978,455
Total assets at fair value	$ 14,724,124	$ -	$ -	$ 14,724,124

Assets at Fair Value as of December 31, 2009

	Level 1	Level 2	Level 3	Total
Money market fund	$ 1,075,659	$ -	$ -	$ 1,075,659
Mutual funds	11,790,912	-	-	11,790,912
Total assets at fair value	$ 12,866,571	$ -	$ -	$ 12,866,571

Note 5 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect Participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants will become fully vested in their accounts.

Note 7 - Tax Status

The Plan is qualified under Section 401(a) and is exempt from federal income taxes under Section 501(a) of the Internal Revenue Code (the "Code"). The Plan obtained its latest determination letter on December 5, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter; however, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and that the Plan is qualified and the related trust is tax-exempt as of the financial statement dates.

It is the Plan's policy to account for any uncertainties as described under the income tax laws. The Plan currently recognizes the impact of such a tax position in its financial statements if, upon ultimate settlement, that position is more likely than not to be sustained. No such uncertain tax positions have been recognized by the Plan.

Note 8 - Party-in-Interest Transactions

Plan investments are shares of mutual funds and a money market portfolio managed by Fidelity Investments, an affiliate of FMTC. Accordingly, these transactions qualify as exempt party-in-interest transactions. Notes receivable from Participants are also exempt party-in-interest transactions. The Plan paid administrative expenses of $1,961 to FMTC in connection with notes receivable from Participants during the year ended December 31, 2010.
