STOW-GLEN, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The Stow-Glen, Inc. 401(k) Plan ("Plan") is a defined contribution plan covering eligible employees of Stow-Glen, Inc. ("Company"). The following description provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Eligibility – Each full-time employee of the Company becomes eligible to participate in the Plan after completing one year of service and attaining 21 years of age.

Vesting – Participants are always 100% vested in their own contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Effective January 1, 2007, a participant is 100% vested after six years of credited service (0% after year one, 20% each year thereafter). Prior to this, a participant was vested after five years of credited service (with no amounts vested until the completion of five full years of credited service).

Payments of Benefits – Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum distribution equal to the value of a participant's vested interest in his or her account. Upon termination of service for reasons other than death, disability or retirement, a distribution of vested amounts will be made as soon as administratively feasible, at the participant's election. The Plan also allows hardship distributions as well as in-service distributions if the requirements set forth by the Plan provisions are satisfied.

Contributions – Participants may elect to contribute up to 80% of their eligible compensation to the Plan, subject to Internal Revenue Service ("IRS") limitations. Company contributions are discretionary and are determined annually. No Company contributions were made to the Plan during the year ended December 31, 2010.

Participant Accounts – The Company maintains an individual account for each participant. Participant accounts are credited with participants' contributions along with an allocation of the discretionary Company contributions, Plan earnings and charged with an allocation of administrative expenses, as defined by the Plan agreement. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account. Participants direct the investment of their contributions and any Company contributions into the various investment options offered by the Plan.

Forfeitures – Forfeitures are used to offset Company contributions. There were no forfeitures during the year ended December 31, 2010 and no forfeitures outstanding as of December 31, 2010 or 2009.

Administration – The Company administers the Plan through an agreement with Trinity Pension Consultants ("Trinity") and John Hancock Life Insurance Company ("John Hancock").

Investments are in funds managed and held by John Hancock. John Hancock maintains records of investment transactions and participants' accounts, including allocation of contributions, plan earnings, distributions, participant loans, forfeitures and any administrative fees. Trinity administers participant enrollment as well as distribution and loan requests thereby serving as a conduit between the participants and John Hancock.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 1. Description of Plan (Continued)

Administrative Expenses – Administrative expenses are paid by the Plan or the Company at the option of the Company.

Notes Receivable From Participants – The Plan permits limited borrowing by a participant against the value of his or her account to the extent of one-half of a participant's vested account balance under the Plan, not to exceed \$50,000. The minimum loan amount is \$2,000 and only one loan can be outstanding at a time. Repayments of principal and interest are credited to the participants' separate accounts within the funds as elected by the participants. Until such repayments are received, the loan receivable is accounted for in the participant loan fund.

Plan Termination – Although it has not expressed any intent to do so, the Company has the right to discontinue or to terminate the Plan subject to the provisions of ERISA. The interest of each participant becomes fully vested at the time of termination and is not subject to forfeiture.

Note 2. Summary of Accounting Policies

- A. Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("generally accepted accounting principles").

The Plan's management has evaluated subsequent events through September 9, 2011, which is the date the financial statements were available to be issued.

- B. Investment Valuation and Income Recognition – The Plan's investments in Pooled Separate Accounts are stated at estimated fair market value as determined by John Hancock based on the fair values of the underlying securities.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

- C. Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

- D. Risks and Uncertainties – The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

STOW-GLEN, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Summary of Accounting Policies (Continued)

- E. Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.
- F. Benefits – Benefits are recorded when paid.
- G. Reclassifications – Certain prior year amounts have been reclassified to conform with current year presentation.

Note 3. Unaudited Information

John Hancock held all Plan investment assets and executed transactions therein as of December 31, 2010 and 2009 and for the year ended December 31, 2010. Financial information relating to those assets is included in the accompanying financial statements and supplemental schedule based on information certified by John Hancock. That information has not been audited by independent accountants. Individual investments in excess of 5% of the Plan's net assets are as follows:

	<u>2010</u>	<u>2009</u>
Lifecycle Fund - 2015 Portfolio	\$30,882	\$25,008
Lifestyle Fund - Conservative Portfolio	**	91,817
Lifestyle Fund - Moderate Portfolio	26,160	22,382
Lifestyle Fund - Balanced Portfolio	60,925	51,642
Lifestyle Fund - Growth Portfolio	83,022	61,092
Lifestyle Fund - Growth G.I.F.L.	45,790	22,421
Lifestyle Fund - Aggressive Portfolio	27,946	21,036
Pimco Total Return Fund	47,147	**

** Investment was not greater than 5% of net assets in year presented.

Changes in net assets available for benefits not audited for the year ended December 31, 2010 include the following:

Net appreciation in fair value of Pooled Separate Accounts	\$38,464
Interest income on notes receivable from participants	465

Note 4. Party-in-Interest Transactions

John Hancock managed plan investments for the year ended December 31, 2010. As such, these transactions qualify as party-in-interest transactions. Fees paid to John Hancock for the year were \$2,488.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 5. Federal Income Tax Status

The prototype document on which this Plan is based obtained a determination letter on March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan's management has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's management believes it is no longer subject to income tax examinations for years prior to 2007.

Note 6. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. Fair value is defined as the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The inputs used to measure fair value are classified into three levels:

Level 1 – Quoted market prices in active markets for identical assets and liabilities

Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3 – Unobservable inputs in which little or no market data exists

The following is a description of the valuation methodologies used for plan assets measured at fair value:

- The fair value of investments held in the pooled separate accounts is based on their reported net asset value ("NAV"). The NAV is based primarily on observable inputs, the market value of the underlying investments, and classified as Level 2.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used from 2009 to 2010. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
