BANCSTAR, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

1. DESCRIPTION OF THE PLAN

General

The following brief description of the BancStar, Inc. 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

The Plan covers BancStar, Inc. and Pacific BancStar, Inc. and subsidiaries.

Effective January 1, 1998 BancStar, Inc. (BancStar) elected to participate in the Kemper Finanical Services, Inc. (now known as Scudder Investments D W Trust) Defined Contribution Master Plan. The Plan, as adopted, restated the BancStar, Inc. Employees 401(k) Profit Sharing Plan adopted as of January 1, 1994, which was an amendment and restatement of the 401(k) plan first adopted by BancStar January 1, 1989. Effective January 1, 2002, BancStar amended the Plan to provide for "Safe Harbor Matching" contributions, which are affirmed by an annual election. As of July 15, 2009 the Plan was amended to stop making the safe harbor employer matching. The Plan has completed the IRS-mandated retirement restatement commonly referred to as the "EGTRRA" restatement referring to the Economic Growth and Tax Relief Reconciliation Act of 2001.

The Plan was established under the provisions of Section 401(a) of the Internal Revenue Code. The purpose of the Plan is to provide retirement and other benefits for those employees who qualify for participation under the terms of the Plan. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974, as amended (ERISA).

Eligible Participants

Under the terms of the Plan, employees are eligible to participate effective the January 1 or July 1 following completion of 1,000 hours of service and three months of service.

Contributions

The Plan permits a participant to elect to contribute (Elective Deferred Contribution), during each payroll period, an amount up to 100% of the participant's annual compensation, up to a maximum of $16,500 for the year ended December 31, 2010.

In addition, employer contributions may be made as follows:

Matching Contributions for a participant shall be an amount equal 100 percent of the participant's elective deferred contributions, not to exceed 4% of participant's annual compensation until July 15, 2009. Prior to January 1, 2002, matching contributions for a participant were equal to twenty-five percent of the participant's elective deferred contributions, not to exceed 1.5% of participant's annual compensation.

1. DESCRIPTION OF THE PLAN CONTINUED

Contributions Continued

Profit Sharing Contributions shall be determined annually based on BancStar obtaining profit goals.

Qualified Non-Elective Contributions shall be determined by BancStar. Qualified Non-Elective Contributions are 100% vested and non-forfeitable when made.

The Plan maintains accounts for each participant as follows:

Elective Deferred Contributions – For all invested amounts deducted from the participant's current compensation and contributed to the Plan.

After-tax Contributions – For all invested amounts deducted from the participant's current compensation on an after-tax basis and contributed to the Plan.

Employer Contributions – For each participant's share of employer matching contributions.

Participant Loans – Participants are allowed to transfer portions of their account balances into the loan account and borrow from the account up to an amount such that the outstanding loan plus accrued interest does not exceed 50% of the participant's vested account balance, as defined in the plan document, or $50,000, whichever is less. The loan bears interest at an amount determined as reasonable by BancStar.

Profit Sharing – For each participant's share of employer profit sharing contributions.

Qualified Non-Elective Contribution – For each participant's share of employer qualified non-elective contributions.

Rollover Contributions – For all invested amounts transferred from other qualified plans.

Contributions are invested in investment choices, as determined by the participant.

Self-directed brokerage is available to all participants. Currently only one participant is investing with State Street Brokerage.

1. DESCRIPTION OF THE PLAN CONTINUED

Vesting and Distributions

Participants are immediately vested in their Elective Deferral Contributions, Employers Matching Contributions made after January 1, 2002, and Qualified Non-Elective Contributions, plus actual earnings thereon. Participants' vesting in BancStar's Profit Sharing contributions, and Employers Matching Contributions made before January 1, 2002, and earnings thereon is based on a six-year vesting schedule.

Participants or beneficiaries are entitled to receive the balance of their accounts including their vested rights in employer contributions upon death, disability, retirement or other termination of employment. Distributions can be made in a lump sum payment or a monthly annuity.

Forfeitures

Forfeitures are allocated to the participants in the same manner as a contribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Service Provider

The Plan funds are invested under the Scudder Investments Account at the participant's discretion.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Expenses

Certain administrative expenses of the Plan are paid by BancStar.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES CONTINUED

Tax Status

The plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

3. INVESTMENTS

The Company has elected the method of compliance permitted by 29 CFR 2520-103-8 the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Accordingly, as permitted under such election, The Company has obtained certifications from the Investment Service Provider that all of the information in the accompanying financial statements and supplemental schedules, except for notes to financial statements, is complete and accurate. Information as to the assets and investment income as included in the financial statements and all information appearing in the accompanying schedules is presented in reliance solely upon these certifications.

The following presents investments that represents 5% or more of the Plan's net assets.

4. TERMINATION OF THE PLAN

Although BancStar has not expressed any intention to do so, it has the right, under provisions of the Plan, to discontinue its contributions and terminate the Plan. If terminated, no part of the net assets of the Plan will revert to BancStar, and the accrued benefit account of each member will become fully vested and non-forfeitable.

5. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds and self directed options: Valued at the net asset value of shares held by the plan at year end.

Common Collective Trust: Valued at other significant observable inputs including quoted prices for similar securities, interest rates and credit risk.

5. FAIR VALUE MEASUREMENTS CONTINUED

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009.

	Fair Value Measurements Using			
	Quoted Prices in Active markets for Identical Assets (Level 1)	Quoted Prices in Active Markets for Similar Assets (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value Total
Mutual Funds	$3,925,717	$ -0-	$ -0-	$3,925,717
Brokerage Options	498,203	-0-	-0-	498,203
Common Collective Trust	-0-	898,158	-0-	898,158
	$4,423,920	$ 898,158	$ -0-	$5,322,078

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes, could materially affect the amounts reported in the statement of net assets available for benefits.

7. SUBSEQUENT EVENTS

Subsequent events have been evaluated through June 29, 2011, the date financial statements were available to be issued. It was noted that the Plan will be changing service providers in 2011.

The Plan permits a participant to elect to contribute (Elective Deferred Contribution), during each payroll period, an amount up to 100% of the participant's annual compensation, up to a maximum of $16,500 for the year ended December 31, 2010.

In addition, employer contributions may be made as follows:

Matching Contributions for a participant shall be an amount equal 100 percent of the participant's elective deferred contributions, not to exceed 4% of participant's annual compensation until July 15, 2009. Prior to January 1, 2002, matching contributions for a participant were equal to twenty-five percent of the participant's elective deferred contributions, not to exceed 1.5% of participant's annual compensation.

1. DESCRIPTION OF THE PLAN CONTINUED

Contributions Continued

Profit Sharing Contributions shall be determined annually based on BancStar obtaining profit goals.

Qualified Non-Elective Contributions shall be determined by BancStar. Qualified Non-Elective Contributions are 100% vested and non-forfeitable when made.

The Plan maintains accounts for each participant as follows:

Elective Deferred Contributions – For all invested amounts deducted from the participant's current compensation and contributed to the Plan.

After-tax Contributions – For all invested amounts deducted from the participant's current compensation on an after-tax basis and contributed to the Plan.

Employer Contributions – For each participant's share of employer matching contributions.

Participant Loans – Participants are allowed to transfer portions of their account balances into the loan account and borrow from the account up to an amount such that the outstanding loan plus accrued interest does not exceed 50% of the participant's vested account balance, as defined in the plan document, or $50,000, whichever is less. The loan bears interest at an amount determined as reasonable by BancStar.

Profit Sharing – For each participant's share of employer profit sharing contributions.

Qualified Non-Elective Contribution – For each participant's share of employer qualified non-elective contributions.

Rollover Contributions – For all invested amounts transferred from other qualified plans.

Contributions are invested in investment choices, as determined by the participant.

Self-directed brokerage is available to all participants. Currently only one participant is investing with State Street Brokerage.

1. DESCRIPTION OF THE PLAN CONTINUED

Vesting and Distributions

Participants are immediately vested in their Elective Deferral Contributions, Employers Matching Contributions made after January 1, 2002, and Qualified Non-Elective Contributions, plus actual earnings thereon. Participants' vesting in BancStar's Profit Sharing contributions, and Employers Matching Contributions made before January 1, 2002, and earnings thereon is based on a six-year vesting schedule.

Participants or beneficiaries are entitled to receive the balance of their accounts including their vested rights in employer contributions upon death, disability, retirement or other termination of employment. Distributions can be made in a lump sum payment or a monthly annuity.

Forfeitures

Forfeitures are allocated to the participants in the same manner as a contribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Service Provider

The Plan funds are invested under the Scudder Investments Account at the participant's discretion.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Expenses

Certain administrative expenses of the Plan are paid by BancStar.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES CONTINUED

Tax Status

The plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

3. INVESTMENTS

The Company has elected the method of compliance permitted by 29 CFR 2520-103-8 the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Accordingly, as permitted under such election, The Company has obtained certifications from the Investment Service Provider that all of the information in the accompanying financial statements and supplemental schedules, except for notes to financial statements, is complete and accurate. Information as to the assets and investment income as included in the financial statements and all information appearing in the accompanying schedules is presented in reliance solely upon these certifications.

The following presents investments that represents 5% or more of the Plan's net assets.

4. TERMINATION OF THE PLAN

Although BancStar has not expressed any intention to do so, it has the right, under provisions of the Plan, to discontinue its contributions and terminate the Plan. If terminated, no part of the net assets of the Plan will revert to BancStar, and the accrued benefit account of each member will become fully vested and non-forfeitable.

5. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds and self directed options: Valued at the net asset value of shares held by the plan at year end.

Common Collective Trust: Valued at other significant observable inputs including quoted prices for similar securities, interest rates and credit risk.

5. FAIR VALUE MEASUREMENTS CONTINUED

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009.

	Fair Value Measurements Using			
	Quoted Prices in Active markets for Identical Assets (Level 1)	Quoted Prices in Active Markets for Similar Assets (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value Total
Mutual Funds	$3,925,717	$ -0-	$ -0-	$3,925,717
Brokerage Options	498,203	-0-	-0-	498,203
Common Collective Trust	-0-	898,158	-0-	898,158
	$4,423,920	$ 898,158	$ -0-	$5,322,078

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes, could materially affect the amounts reported in the statement of net assets available for benefits.

7. SUBSEQUENT EVENTS

Subsequent events have been evaluated through June 29, 2011, the date financial statements were available to be issued. It was noted that the Plan will be changing service providers in 2011.
