INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Lusamerica 401(k) Plan

We were engaged to audit the financial statements of the Lusamerica 401(k) Plan as of December 31, 2010 and 2009, and for the years ended December 31, 2010 and the period from October 1, 2009 through December 31, 2009, and the supplemental schedule of assets as of and for the year ended December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

LUSAMERICA 401(K) PLAN

Notes to Financial Statements

December 31, 2010

Note 1 - Description of plan:

The following description of the Lusamerica (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. *General* - The Plan is a defined contribution plan established on October 1, 1991 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

   The Company is the Plan Administrator and retains the services of third parties to assist in the administration of the Plan. For the year ended December 31, 2010 and the period from October 1, 2009 through December 31, 2009, the Plan's custodian and third party administrator was Fidelity Management Trust Company.

b. *Eligibility* - Except for excluded employees, all employees who have reached age eighteen and have completed one year of service by the end of a twelve month period with the Company, are eligible to participate in the Plan. Employees are credited with a year of service for eligibility purposes for each twelve month period, during which, they have completed 1,000 hours of service. The employment commencement date and each anniversary of the employment commencement date will be the starting point for measuring the number of hours of service you worked during each twelve month period. Entry into the Plan occurs on the first day of April or October following the date an employee meets the eligibility requirement. An employee may elect not to participate in the Plan.

c. *Participant contributions* - Each year participants may contribute an annual limit of the lesser of 75 percent of eligible compensation or $16,500 per Plan year, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their account balances into various investment options offered by the Plan. Participants may change their investment options daily. The Plan currently offers eighteen registered investment companies (mutual funds) as investment options for participants.

d. *Employer matching contributions* - The Plan provides for discretionary employer matching contributions to be determined by the employer each Plan year. Contributions are subject to certain limitations. Employees must be actively employed at the end of the Plan year and have completed at least one thousand hours of service to be eligible to share in the allocation of matching contributions. Effective March 20, 2009, the employer elected to decline further safe harbor matching contributions. During 2010 and 2009, there were no employer contributions.

Note 1 - Description of plan (continued):

e. *Participant accounts* - Each participant's account is credited with the participant's contribution and allocations of (1) the Company's contribution, and (2) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

f. *Vesting* - Participants are immediately vested in their deferral contributions, rollover contributions, qualified matching contributions, qualified non-elective contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service, subject to a six year graded schedule.

g. *Notes receivable from participants* - Participants may borrow from their fund accounts from a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. The loans are secured by the balance in the participant's account and bear interest at rates that range from 6.00 percent to 9.25 percent, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

h. *Payment of benefits* - On termination of service due to death, hardship, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments, in accordance with the Plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

i. *Forfeited accounts* - Any forfeiture will first be used to reduce administrative expenses. Any remaining forfeitures are then used to reduce employer contributions. There were no forfeitures remaining in the Plan as of the year ended December 31, 2010 and the period from October 1 through December 31, 2009.

j. *Administrative expenses* - The Company absorbs substantially all administrative expenses of the Plan, except investment manager and distribution fees which are borne by the participants. For the year ended December 31, 2010 and the period from October 1 through December 31, 2009, the Plan paid $176 and $26, respectively, to the Plan Administrator.

Note 2 - Summary of significant accounting policies:

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Accordingly, actual results may differ from those estimates.

Basis of accounting - The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Contributions from participants are recorded when withheld from the participant. Benefit payments to participants are recorded when paid.

The Plan's investments are stated at their fair value except for its investment contract which is stated at contract value. The trustee has stated that the best estimate of fair value for the investments which would be considered fully benefit-responsive is contract value, as participants may withdraw investment assets at contract value without restriction, and investment assets are marked-to-market on a daily basis. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Notes receivable from participants are valued at their outstanding balances, which approximates fair value. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in a n orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation (depreciation) in fair value of plan assets - The earnings, expenses, realized gains and losses, and unrealized appreciation (depreciation) in registered investment companies and other investments are recorded in the accompanying financial statements as net appreciation (depreciation) in fair value of plan assets.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits - Benefit payments to participants are recorded when paid. As of the year ended December 31, 2010 and the period from October 1, 2009 through December 31, 2009, there were no distributions approved that were not disbursed prior to year end.

Note 2 - Summary of significant accounting policies (continued):

Date of management's review - Subsequent events are evaluated through the date the financial statements were available to be issued. The Plan administration has determined that no material subsequent events require an estimate to be recorded as of the year ended December 31, 2010 and the period from October 1, 2009 through December 31, 2009.

Reclassification - Certain 2009 balances have been reclassified to conform to 2010 financial statement presentation. These reclassifications have no effect on previously reported net assets available for plan benefits.

Recent accounting pronouncements - In September 2010, the Financial Accounting Standards Board ("FASB") issued FASB Accounting Standards Update ("ASU") No. 2010-25 "Reporting Loans to Participants by Defined Contribution Pension Plans." The update amends FASB Accounting Standards Codification ("ASC") Topic 962, "Plan Accounting-Defined Contribution Pension Plans." This new standard provides guidance on how loans to participants should be classified and measured by defined contribution pension benefit plans. Participant loans are currently classified as investments on the Statement of Net Assets Available for Benefits. The amendments in this update require that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments in this update should be applied retrospectively to all prior periods presented, effective for fiscal years ending after December 15, 2010.

Other accounting standards that have been issued or proposed by FASB or other standards-setting bodies do not require adoption until a future date are not expected to have a material impact on the Plan's financial statements upon adoption.

Note 3 - Fair Value:

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - Fair Value (continued):

The Company's investments consisted of the following at December 31, 2010:

	Fair Value	Fair Value Measurements Using Input Type Quoted Prices in Active Markets for Identical Assets (Level 1)
Mutual funds	$ 2,395,551	$ 2,395,551
Total investments measured at fair value	$ 2,395,551	$ 2,395,551

The Company's investments consisted of the following at December 31, 2009:

	Fair Value	Fair Value Measurements Using Input Type Quoted Prices in Active Markets for Identical Assets (Level 1)
Mutual funds	$ 2,213,443	$ 2,213,443
Total investments measured at fair value	$ 2,213,443	$ 2,213,443

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because the generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available. Investments measured at fair value on a recurring basis consisted of the following types of instruments as of the period from October 1 through December 31, 2009 (Level 1, 2, and 3 inputs are defined above):

- Level 1: The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Note 4 - Investments:

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's independent accountants did not perform any auditing procedures with respect to this information certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information to the related information included in the financial statements and supplemental schedule.

The following information included in the financial statements and supplemental schedule was provided by and certified by the Plan's trustee as complete and accurate:

- Investments as shown in the Statement of Net Assets Available for Plan Benefits as of the period from October 1 through December 31, 2009 and the year ended September 30, 2009.

- Investment income (loss), as shown in the Statement of Changes in Net Assets Available for Plan Benefits for the years ended December 31, 2010 and 2009.

- Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year).

Investments that represent 5% or more of the Plan's net assets are separately identified.

Note 5 - Party-in-interest transactions:

Certain Plan investments are units in mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 6 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7 - Reconciliation of financial statements to Schedule H of Form 5500:

The following table is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 for the period from October 1, 2009 through December 31, 2009.

Net assets available for benefits per the financial statements	$	2,227,837
Employee contributions receivable		(5,454)
Net assets available for benefits per the Schedule H to the Form 5500	$	2,222,383

Note 8 - Income tax status:

The Plan adopted the Fidelity Volume Submitter Profit Sharing Cash or Deferred Arrangement ("CODA"). Fidelity received an opinion letter in March 2008 from the Internal Revenue Service indicating the prototype, as designed, was exempt from federal income tax. The IRS permits the Plan to rely on their approval of the Fidelity prototype plan. The Plan has since been amended by adopting the IRS Model Amendment relating to several tax law changes. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor. The Plan Administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities ; however, there are currently no audits for an tax periods in progress.

Note 9 - Risks and uncertainties:

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits and participant account balances.
