Notes to the Financial Statements

JORDAN FORD EMPLOYEE SAVINGS PLAN
December 31, 2010 and 2009

NOTE 1. DESCRIPTION OF PLAN

This summary of significant accounting policies of Jordan Ford Employee Savings Plan (the "Plan") is presented to assist in understanding the Plan's financial statements. The financial statements and notes are the representation of the Plan's management, who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in preparing the financial statements.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Jordan Ford, Ltd. (the "Employer") who have one year of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Employee - Participants can contribute up to 50% of annual compensation, as defined in the Plan up to the annual dollar limit allowed by law. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions up to the maximum allowable under the Internal Revenue Code.

Matching - The Employer may make a discretionary contribution. The contribution, if made, is allocated to the participant's account based upon the ratio of the active Plan participant's contributions to total active Plan participants' contributions. The Employer match may be increased by forfeitures of Employer match contributions. Participants receive a match provided they have at least five hundred hours of service during the Plan year. The Employer did not make a matching contribution for the year ended December 31, 2010.

Profit sharing - The Employer may make a discretionary contribution of current or accumulated net profits. The contribution, if made, is allocated to all eligible participants based upon the ratio of each eligible participant's compensation to the total of all eligible participants' compensation. The Employer's profit sharing contribution may be increased by forfeitures of Employer profit sharing contributions. Participants are eligible for profit sharing if they have at least five hundred hours of service during the Plan year and are employed on the last day of the year. The Employer did not make a profit sharing match for the year ended December 31, 2010.

NOTE 1. DESCRIPTION OF PLAN (CONTINUED)

Rollovers

The Plan allows for rollovers from qualified plans.

Participant Accounts

Each participant's account is credited with the participant's contribution and the allocation of (a) the Employer's discretionary matching contribution, (b) the Employer's discretionary profit sharing contribution and (c) Plan earnings. Each participant's account is charged with an allocation of administrative expenses based on account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Employer contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service as follows:

Years of Service	Vesting Percentage
0-1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow a minimum of $1,000 up to a maximum of 50% of their vested account balance or $50,000, whichever is smaller. The notes are secured by the balance in the participant's account and have interest rates ranging from 4.25% to 8.75%. Principal and interest is paid ratably through payroll deductions.

NOTE 1. DESCRIPTION OF PLAN (CONTINUED)

Forfeitures

Forfeitures may be used to pay administrative costs of the Plan or may be used for matching and profit sharing as outlined in "Contributions." Forfeitures as of December 31, 2010 totaled $389.

Investment Options

Upon enrollment in the Plan, participants may direct contributions in whole percentage increments among different investment options. Additionally, participants have the option to maintain a participant-directed brokerage account. There were no participant-directed brokerage accounts as of December 31, 2011 and 2010.

Payment of Benefits

Upon termination of service, a participant receives a lump-sum distribution amount equal to the value of the participant's vested interest in his or her account. Based upon the Plan amendment entered into as of July 7, 2005, written consent will be required before vested interest over $1,000 can be distributed. In the event that the Plan terminates and the participant fails to make an election for distribution, the Plan Administrator will automatically rollover the entire vested amount to an IRA.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value based on current quoted market prices. The Plan's investments are stated at fair value as provided by the trustee of the Plan. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Plan Expenses

Plan expenses are paid by the Plan's profit sharing forfeitures account until depleted. Any excess Plan expenses are allocated to participant accounts and paid accordingly.

Notes Receivable from Participants

The Plan allows participants to borrow up to 50% of their vested account balance. The remaining 50% is used as collateral against the borrowed amount. Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Management has evaluated the notes and believes that they are collectible. Accordingly, no allowance for doubtful accounts has been recorded.

NOTE 3. CERTIFIED INVESTMENT INFORMATION

At December 31, 2010 and 2009, the Plan's registered investment company investments were held by TD Ameritrade Trust Company, the trustee.

The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by TD Ameritrade Trust Company as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 3. CERTIFIED INVESTMENT INFORMATION (CONTINUED)

The following table presents investments at December 31, 2010 and 2009. Investments that individually represent 5% or more of the Plan's net assets as reported by the trustee are separately identified.

American Funds	Other investments individually less than 5% of net assets	344,365	386,111
	Total Certified Investments	$ 4,355,792	$ 4,250,178

NOTE 4. FAIR VALUE MEASUREMENTS

The Plan uses fair value measurements to record fair value adjustments to certain assets and liabilities.

The Fair Value Measurements Topic of the FASB Accounting Standards Codification defines fair value, establishes a consistent framework for measuring fair value and expands disclosure requirements for fair value measurements. The disclosures required under this Topic have been included in this note.

Fair Value Hierarchy

The Fair Value Measurements Topic of the FASB Accounting Standards Codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value and for estimating fair value for financial instruments. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common stocks, bonds, registered investment companies, money market and U.S. government securities: Valued at the closing price reported on the active markets on which the individual securities are traded.

Notes receivable from participants: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	Investments at Fair Value at December 31, 2010			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$4,298,055	$ -	$ -	$4,298,055
Interest-bearing cash	57,737	-	-	57,737
Total Investments at Fair Value	$4,355,792	$ -	$ -	$4,355,792

	Investments at Fair Value at December 31, 2009			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$4,130,781	$ -	$ -	$4,130,781
Interest-bearing cash	119,397	-	-	119,397
Total Investments at Fair Value	$4,250,178	$ -	$ -	$4,250,178

NOTE 5. TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6. CONCENTRATION OF CREDIT RISK

The Plan's investments are not guaranteed by any federal depository insurance. Any significant concentration of credit risk related to the specified investments in the regulated investment companies may subject the Plan's investments to economic changes occurring within those industries in which the regulated investment companies have invested.

NOTE 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8. ADOPTION OF NEW ACCOUNTING STANDARD

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 changed the reporting of loans to participants. Prior to ASU 2010-25, loans to participants were reported as investments at fair value. ASU 2010-25 requires that loans to participants be reported as notes receivable from participants at the unpaid principal balance plus any accrued but unpaid interest. ASU 2010-25 is effective for periods ending after December 15, 2010.
