Independent Auditor's Report

To the Plan Administrator and Participants
GTE Inc. 401(k) Profit Sharing Plan
Orlando, Florida

We were engaged to audit the accompanying statements of net assets available for benefits of GTE Inc. 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by State Street Bank and Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

GTE Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the GTE Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan provisions.

General: The Plan is a defined contribution plan covering substantially all employees of GTE Inc. (the "Company" or "Plan Sponsor") who meet the eligibility requirements. Employees become eligible to participate in the Plan on the first day of the payroll period immediately following attaining age 21 and completion of four months of employment. Employees covered by a collective bargaining agreement are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Plan participants may voluntarily contribute, on a pre-tax basis, up to 50% of their compensation (up to the Internal Revenue Service ("IRS") maximum allowable amount) to the Plan. Participants who have attained age 50 before the end of the Plan year may be eligible to make catch-up contributions. Participants may also make after tax "Roth" contributions and rollover amounts representing distributions from other eligible retirement plans. All investments are participant directed. The maximum allowable pre-tax voluntary contribution, as determined by the IRS was \$16,500 for 2010.

The Sponsor may, at its discretion, contribute matching contributions and discretionary non-elective employer contributions as determined at the end of each year. Employer contributions are invested based on each individual participant's investment allocations. Contributions are subject to certain IRS limitations. There were no employer contributions for the year ended December 31, 2010.

Participant accounts: Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution, if any, and Plan earnings, and charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on the participant's compensation or account balances, as defined, in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants' contributions plus or minus actual earnings and losses have full and immediate vesting. Employer discretionary contributions (and earnings or losses thereon) vest upon the participant's death, disability, attainment of age 65, or according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Payment of benefits: The entire vested balance of a participant's account may be distributed at the date of the participant's retirement, disability, or death. The normal retirement age, as defined by the Plan, is 65. If a participant terminates before retirement, the participant will receive either a lump sum payment of their account balance or, if the account exceeds \$5,000, the participant may elect any distribution date up to age 70 1/2.

Investment options: Upon enrollment in the Plan, participants may elect to invest both participant and Company contributions in various investment options. Participants can change their contribution percentages and their investment options and make transfers at any time.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance. Note terms range up to 5 years or over a reasonable period of time for the purchase of a primary residence, as established by the Plan administrator at the time of the note. The notes are collateralized by the vested balance in the participant's account and bear interest at a reasonable fixed rate as determined by the Plan administrator at the date of each loan. Principal and interest are paid ratably through payroll deductions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts in common collective trusts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measure attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of common collective trusts as well as the adjustment of the fully benefit-responsive fund from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis with respect to fully benefit-responsive investment contracts.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded when earned. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based on the terms of the Plan document.

Payments of benefits: Benefits are recorded when paid.

Administrative expenses: Investment management service fees are paid directly from the Plan assets. Other administrative expenses are paid directly by the Sponsor and includes audit and legal fees.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent accounting pronouncements: In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2010-06, "*Improving Disclosures about Fair Value Measurements*" (ASU 2010-06), which primarily requires disclosures related to the levels within the fair value hierarchy. An entity is required to disclose significant transfers in and out of Levels 1 and 2 of the fair value hierarchy, and separately present information related to purchases, sales, issuances and settlements in the reconciliation of fair value measurements classified as Level 3. In addition, ASU 2010-06 amends the fair value disclosure requirement for pension and postretirement benefit plan assets to require this disclosure at the investment class level. ASU 2010-06 was effective for interim and annual reporting periods beginning after December 15, 2009 and was adopted in 2010, except for the disclosures related to purchases, sales, issuances and settlements for Level 3 fair value measurements, which will be effective for the reporting period beginning after December 15, 2010. The adoption of ASU 2010-06 did not have a significant impact on the financial statements.

In September 2010, FASB issued an amendment, *Plan Accounting-Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from Plan investments and measured at their unpaid principal balance plus accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. This adoption resulted in a reclassification of participant loans totaling \$16,085 from investments to notes receivable from participants as of December 31, 2009. There was no impact to net assets as of December 31, 2009, as a result of the adoption of ASU 2010-25.

Subsequent events: The Plan administrator has evaluated subsequent events through September 13, 2011, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Trustee

The following is a summary of the Plan's asset information, as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by State Street Bank and Trust Company ("State Street"), the trustee under the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to the following assets and asset activity is to the best of their knowledge, complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rule and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this information, except for comparing such certified information to information included in the Plan's financial statements and supplemental schedule.

Notes receivable from participants	\$ 5,452	\$ 16,085

* Amount represents less than 5% of Plan's assets for 2009, but is included for comparative purposes.

**Trustee certified this investment at \$97,437 and \$65,454 as of December 31, 2010 and 2009, which represents contract value.

State Street has also certified the completeness and accuracy of \$181,814 of net appreciation of fair value of investments, \$22,709 of dividends and \$525 of interest related to the aforementioned Plan assets for the year ended December 31, 2010.

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated, as follows:

Shares of registered investment companies (mutual funds)	\$ 169,699
Common collective trusts	12,115
	<u>\$ 181,814</u>

Note 4. Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

- Level 2 – Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Shares of registered investment companies (mutual funds): Valued at the quoted market price of the fund, as reported on the active market on which the fund is traded.

Common collective trust: Valued at net asset value, based on the market value of the underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Because the trust fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributed to the fund.

The following table sets forth additional disclosures for the Plan's investments whose fair value is estimated using the net asset value per share as of December 31, 2010 and 2009:

	Fair Value		Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
	2010	2009				
Shares of common/collective funds						
Stable Value Fund (a)	\$ 98,512	\$ 66,944	\$ -	Immediate	None	None
S&P 500 Index Fund (b)	103,293	90,122	\$ -	Immediate	None	None
	<u>\$ 201,805</u>	<u>\$ 157,066</u>				

- (a) The investment objectives of the Stable Value Fund are to preserve principal while maintaining a rate of return comparable to other similar fixed income investments without market value fluctuations. The Stable Value Fund attempts to achieve these objectives by investing in principally guaranteed investment contracts (GICs) issued by insurance companies, investment contracts issued by banks, synthetic investment contracts (SICs) issued by banks, insurance companies and other issuers and securities supporting such SICs, as well as other similar instruments that are intended to maintain a constant net asset value while permitting participant-initiated benefit responsive withdrawals for certain events.

The existence of certain conditions can limit the Plan's ability to transact at contract value with the issuer of the Stable Value Fund. Specifically, any event outside the normal operations of the Plan that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to such withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unit holder in which in order to transact at contract value it requires a 3-month waiting period before distribution of funds. The Plan administrator does not believe that any events which could limit the Plan's ability to transact at contract value with participants are probable of occurring.

Average yields:	2010	2009
Based on actual earnings	1.10%	3.04%
Based on interest rate credited to participants	1.85%	3.25%

- (b) The objective of this fund is to preserve principal while maintaining a rate of return comparable to other similar fixed income investments without market value fluctuations.

Note 5. Tax Status

Effective January 1, 2009, the Plan adopted a non-standardized form of a prototype plan sponsored by ADP Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan's opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2007.

Notes to Financial Statements

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7. Related-Party Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Accordingly, the contributions of the Plan sponsor are considered party-in-interest transactions. The Plan sponsor also provides administrative personnel and services at no cost to the Plan. Certain Plan investments are common collective trusts fund managed by State Street. State Street is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were not significant for the year ended December 31, 2010.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investments securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the net assets per the Form 5500 as of December 31, 2010 and 2009:

	2010	2009
Net assets available for benefits per the financial statements	\$ 1,766,727	\$ 1,319,462
Differences in:		
Investments	5,452	16,085
Notes receivable from participants	(5,452)	(16,085)
Excess distributions payable	22,046	4,518
Net assets per the Form 5500	\$ 1,788,773	\$ 1,323,980

The following is a reconciliation of changes in net assets available for benefits per the financial statements to net income per the Form 5500 for the year ended December 31, 2010:

Net increase in net assets available for benefits per the financial statements	\$ 447,265
Increase in excess distributions payable	17,528
Net income per the Form 5500	\$ 464,793

Certain assets included in common collective trusts have been represented at fair value in these financial statements and at contract value in the Form 5500. The adjustment from fair value to contract value is included in the accompanying statement of net assets available for benefits.
