KAISERAIR, INC.
SAVINGS AND PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS -
DECEMBER 31, 2010 AND DECEMBER 31, 2009

Note 1. DESCRIPTION OF THE PLAN:

The following brief description of the KaiserAir, Inc. Savings and Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for more complete information.

General:

The Plan is a profit-sharing plan covering all eligible employees of KaiserAir, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employees are eligible to participate in the Plan as of the enrollment date coinciding with or next following the date on which the employee has both attained age 21 and completed one month of Eligibility Service.

Participant accounts:

Each participant's account is credited with (1) each Employee Tax-Deferred or After-Tax contribution; (2) the Company's matching contribution or safe harbor contribution, if any, (3) a discretionary profit sharing contribution and (4) Plan earnings. The benefit to which a participant is entitled to is the benefit that is provided from the participant's account less the unvested portion of the employer's contributions, if any.

Participant contributions:

Participants may elect to make either tax-deferred or after-tax contributions to the Plan. The amount of tax-deferred contributions and after-tax contributions made by an eligible employee by payroll withholding shall be an integral percentage of his compensation of not less than 1 percent nor more than 100 percent and not less than 2 percent nor more than 100 percent respectively.

Participants' tax-deferred contribution is limited to $16,500 for the years ended December 31, 2010 and 2009. In addition, annual catch-up contributions of $5,500 (2010 and 2009) are allowed for participants who are over 50 years of age.

Employer contributions:

Matching contributions:

The employer shall make a Safe Harbor Matching Contribution on behalf of each of its eligible employees who has made tax-deferred and/or after-tax contributions for the year. The amount of the Safe Harbor Matching Contribution shall be equal to 100 percent of the first 4 percent of the eligible employee's compensation that he contributes to the Plan. In addition, the Company may, in its discretion, make a Regular Matching Contribution to the Plan in an amount determined by the Company.

SAVINGS AND PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS -
DECEMBER 31, 2010 AND DECEMBER 31, 2009

Note 1. DESCRIPTION OF THE PLAN (Continued):

Vesting:

Participants are immediately vested in their voluntary contributions and the Safe Harbor Matching Contribution. A participant's vested interest in his Regular Matching Contributions shall be determined in accordance with the following schedule:

Years of Vesting Service	Vested Interest
Less than 1	0%
1, but less than 2	20%
2, but less than 3	40%
3, but less than 4	60%
4, but less than 5	80%
5 or more	100%

Benefit payments:

Participant contributions are available for withdrawal in a lump-sum distribution upon the participant's death, retirement, total disability, age 59½, or termination of employment with the Company.

Forfeited accounts:

The portion of a forfeiture that was attributable to Regular Matching Contributions, if any, shall be allocated among the accounts of participants who are eligible employees during the Plan year in which the forfeiture is being allocated and have met the allocation requirements for matching contributions for such plan year.

Prior to allocating forfeited amounts among participants' accounts, the administrator may direct any portion or all such forfeited amount against Plan expenses. There were $14,496 and $8,953 in forfeited accounts at December 31, 2010 and December 31, 2009, respectively.

Administrative expenses:

The Plan paid all administrative expenses and certain investment expenses for the years ended December 31, 2010 and December 31, 2009.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Method of accounting:

The Plan’s policy is to prepare its financial statements on the modified cash basis of accounting; consequently, contributions and investment income are recorded as received and expenses when paid. Investment transactions are recorded as cash is received and disbursed, rather than at the trade-date as required by generally accepted accounting principles if presented in the accrual basis.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Investment valuation and income recognition:

Investments are included in the financial statements at fair value as reported to the Plan by Hartford Life Insurance Company. Mutual fund shares are stated at quoted market value. Gains and losses on investments are recognized in the period in which the appreciation or depreciation occurs. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in fair value of investments, which consists of the net realized gains or losses and unrealized appreciation or depreciation on those investments.

As described in professional accounting standards, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by professional accounting standards, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Payment of benefits:

Benefit payments are recorded when paid.

Subsequent events:

The Administrative Committee has evaluated subsequent events through September 16, 2011, the date which the financial statements were available for issue.

Note 3. NATURE OF ESTIMATES:

The preparation of financial statements in conformity with modified cash basis of accounting requires the Administrative Committee to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2010 AND DECEMBER 31, 2009

Note 4. SIGNIFICANT CONCENTRATION OF CREDIT RISK:

The Plan's investments are held in a trust fund administered by the Hartford Life Insurance Company. The Plan provides for various investment options in any one of a combination of mutual funds that invest in stocks, bonds, fixed income securities and other investment securities. These investments are exposed to various risks, such as credit, interest rate and market. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. All the investments are subject to self-direction by employees.

Note 5. GUARANTEED INVESTMENT CONTRACT:

The Plan entered into a benefit-responsive investment contract with Hartford Insurance Company (Hartford). Hartford maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Harford, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than a certain percentage. For the years ended December 31, 2010 and December 31, 2009, the portfolio gross crediting rate was 3% and 3%, and a current market interest rate of 4.00% and 3.0105%, respectively. Interest rates are reviewed on a quarterly basis for resetting.

The fair market value of the Plan's benefit-responsive investment was $9,596,017 and $9,379,354 at December 31, 2010 and December 31, 2009, respectively.

Note 7. FAIR VALUE MEASUREMENTS:

Professional accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the standards are described as follows:

Note 7. FAIR VALUE MEASUREMENTS (Continued):

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed Investment Contract- Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level the Plan's assets at fair value as of December 31, 2010 and 2009.

Note 7. FAIR VALUE MEASUREMENTS (Continued):

Investments at Fair Value as of December 31, 2010

	Level 1	Level 2	Level 3	Total

Investments at fair value	$ 8,397,755	$ 9,379,354	$ -	$17,777,109

Note 8. INCOME TAX STATUS:

Effective October 1, 2004, the Plan, as amended and restated, is intended to qualify as a profit-sharing plan under code section 401(a) and 401(k).

The Plan obtained its latest determination letter on July 3, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan recognizes the financial statement benefit of an uncertain tax position only after considering the probability that a tax authority would sustain the position in an examination. For tax position meeting a “more-likely-than-not” threshold, the amount recognized in the financial statements is the benefit expected to be realized upon settlement with the tax authority. For tax positions not meeting the threshold, no financial statement benefit is recognized. As of December 31, 2010, the Plan has had no uncertain tax position. The Plan recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense. Annual returns for the years prior to 2006 are no longer subject to examination by tax authorities.

2010 Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in understanding the fees and compensation associated with your plan. If your plan is required to complete a *Form 5500 Schedule C*, this report identifies the different types of reportable compensation paid with respect to the Hartford product utilized by the retirement plan.

As permitted under the Schedule C reporting rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate, or a formula or rate.

- Where it is an actual dollar amount, no further notation is provided.
- Where it is an estimate, we have used a reasonable method to arrive at the estimate and described the method used to arrive at the estimated amount.
- Where a formula or rate is provided, the formula may be disclosed under the Schedule C reporting rules. Alternatively, for purposes of Schedule C or for your fiduciary review of the compensation paid with respect to the plan's product, you may calculate an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies. Thus, much of the compensation information being provided can be expressed in the form of a formula.

Please note that all compensation is being reported for the 2010 calendar year. This report includes compensation actually paid to or by The Hartford within the 2010 calendar year as part of your Hartford product. This report does not include amounts deducted from plan assets and paid to third parties (other than The Hartford). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here directly from other service providers.

Please note that we have provided suggested service codes with respect to services provided through our Hartford product. These service codes are listed in the 2010 Instructions for Schedule C (Form 5500). Please review with your experienced benefits counsel and other professionals to determine the most appropriate service codes for your plan.

Please contact your Hartford Client Service Team should you require additional information regarding the compensation paid to or by The Hartford with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice or accounting or other professional services. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Hartford Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The list includes any investment option held by the plan during the 2010 calendar year. To arrive at an estimate of the dollar amount that Hartford received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

[2] This amount is the sum of the fund's distribution, management and other fees, which are also identified in the fund's prospectus. Please note that affiliates of Hartford Life Insurance Company act as advisor to the Hartford funds. Such affiliates are identified in the fund's prospectus' and receive management fees in the following amounts:

KAISERAIR, INC.
SAVINGS AND PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS -
DECEMBER 31, 2010 AND DECEMBER 31, 2009

Note 1. DESCRIPTION OF THE PLAN:

The following brief description of the KaiserAir, Inc. Savings and Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for more complete information.

General:

The Plan is a profit-sharing plan covering all eligible employees of KaiserAir, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employees are eligible to participate in the Plan as of the enrollment date coinciding with or next following the date on which the employee has both attained age 21 and completed one month of Eligibility Service.

Participant accounts:

Each participant's account is credited with (1) each Employee Tax-Deferred or After-Tax contribution; (2) the Company's matching contribution or safe harbor contribution, if any, (3) a discretionary profit sharing contribution and (4) Plan earnings. The benefit to which a participant is entitled to is the benefit that is provided from the participant's account less the unvested portion of the employer's contributions, if any.

Participant contributions:

Participants may elect to make either tax-deferred or after-tax contributions to the Plan. The amount of tax-deferred contributions and after-tax contributions made by an eligible employee by payroll withholding shall be an integral percentage of his compensation of not less than 1 percent nor more than 100 percent and not less than 2 percent nor more than 100 percent respectively.

Participants' tax-deferred contribution is limited to $16,500 for the years ended December 31, 2010 and 2009. In addition, annual catch-up contributions of $5,500 (2010 and 2009) are allowed for participants who are over 50 years of age.

Employer contributions:

Matching contributions:

The employer shall make a Safe Harbor Matching Contribution on behalf of each of its eligible employees who has made tax-deferred and/or after-tax contributions for the year. The amount of the Safe Harbor Matching Contribution shall be equal to 100 percent of the first 4 percent of the eligible employee's compensation that he contributes to the Plan. In addition, the Company may, in its discretion, make a Regular Matching Contribution to the Plan in an amount determined by the Company.

SAVINGS AND PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS -
DECEMBER 31, 2010 AND DECEMBER 31, 2009

Note 1. DESCRIPTION OF THE PLAN (Continued):

Vesting:

Participants are immediately vested in their voluntary contributions and the Safe Harbor Matching Contribution. A participant's vested interest in his Regular Matching Contributions shall be determined in accordance with the following schedule:

Years of Vesting Service	Vested Interest
Less than 1	0%
1, but less than 2	20%
2, but less than 3	40%
3, but less than 4	60%
4, but less than 5	80%
5 or more	100%

Benefit payments:

Participant contributions are available for withdrawal in a lump-sum distribution upon the participant's death, retirement, total disability, age 59½, or termination of employment with the Company.

Forfeited accounts:

The portion of a forfeiture that was attributable to Regular Matching Contributions, if any, shall be allocated among the accounts of participants who are eligible employees during the Plan year in which the forfeiture is being allocated and have met the allocation requirements for matching contributions for such plan year.

Prior to allocating forfeited amounts among participants' accounts, the administrator may direct any portion or all such forfeited amount against Plan expenses. There were $14,496 and $8,953 in forfeited accounts at December 31, 2010 and December 31, 2009, respectively.

Administrative expenses:

The Plan paid all administrative expenses and certain investment expenses for the years ended December 31, 2010 and December 31, 2009.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Method of accounting:

The Plan’s policy is to prepare its financial statements on the modified cash basis of accounting; consequently, contributions and investment income are recorded as received and expenses when paid. Investment transactions are recorded as cash is received and disbursed, rather than at the trade-date as required by generally accepted accounting principles if presented in the accrual basis.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Investment valuation and income recognition:

Investments are included in the financial statements at fair value as reported to the Plan by Hartford Life Insurance Company. Mutual fund shares are stated at quoted market value. Gains and losses on investments are recognized in the period in which the appreciation or depreciation occurs. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in fair value of investments, which consists of the net realized gains or losses and unrealized appreciation or depreciation on those investments.

As described in professional accounting standards, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by professional accounting standards, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Payment of benefits:

Benefit payments are recorded when paid.

Subsequent events:

The Administrative Committee has evaluated subsequent events through September 16, 2011, the date which the financial statements were available for issue.

Note 3. NATURE OF ESTIMATES:

The preparation of financial statements in conformity with modified cash basis of accounting requires the Administrative Committee to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2010 AND DECEMBER 31, 2009

Note 4. SIGNIFICANT CONCENTRATION OF CREDIT RISK:

The Plan's investments are held in a trust fund administered by the Hartford Life Insurance Company. The Plan provides for various investment options in any one of a combination of mutual funds that invest in stocks, bonds, fixed income securities and other investment securities. These investments are exposed to various risks, such as credit, interest rate and market. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. All the investments are subject to self-direction by employees.

Note 5. GUARANTEED INVESTMENT CONTRACT:

The Plan entered into a benefit-responsive investment contract with Hartford Insurance Company (Hartford). Hartford maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Harford, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than a certain percentage. For the years ended December 31, 2010 and December 31, 2009, the portfolio gross crediting rate was 3% and 3%, and a current market interest rate of 4.00% and 3.0105%, respectively. Interest rates are reviewed on a quarterly basis for resetting.

The fair market value of the Plan's benefit-responsive investment was $9,596,017 and $9,379,354 at December 31, 2010 and December 31, 2009, respectively.

Note 7. FAIR VALUE MEASUREMENTS:

Professional accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the standards are described as follows:

Note 7. FAIR VALUE MEASUREMENTS (Continued):

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed Investment Contract- Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level the Plan's assets at fair value as of December 31, 2010 and 2009.

Note 7. FAIR VALUE MEASUREMENTS (Continued):

Investments at fair value	$ 8,397,755	$ 9,379,354	$ -	$17,777,109

Note 8. INCOME TAX STATUS:

Effective October 1, 2004, the Plan, as amended and restated, is intended to qualify as a profit-sharing plan under code section 401(a) and 401(k).

The Plan obtained its latest determination letter on July 3, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan recognizes the financial statement benefit of an uncertain tax position only after considering the probability that a tax authority would sustain the position in an examination. For tax position meeting a “more-likely-than-not” threshold, the amount recognized in the financial statements is the benefit expected to be realized upon settlement with the tax authority. For tax positions not meeting the threshold, no financial statement benefit is recognized. As of December 31, 2010, the Plan has had no uncertain tax position. The Plan recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense. Annual returns for the years prior to 2006 are no longer subject to examination by tax authorities.
