We were engaged to audit the accompanying statements of net assets available for benefits of the Mooreville Retirement Savings Plan as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the year ended December 31, 2010, and the period from October 1, 2009 (inception) through December 31, 2009, and the supplemental schedules of assets (held at end of year) as of December 31, 2010 and 2009. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Prudential Bank & Trust, F.S.B., the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the Trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the period from October 1, 2009 (inception) through December 31, 2009, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the investment information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Mooresville Retirement Savings Plan

Notes to Financial Statements

December 31, 2010

1. Description of the Plan

The following description of the Mooresville Retirement Savings Plan (the “Plan”) provides only general information. Interested parties should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan (i) is a defined contribution plan that became effective on October 1, 2009 and (ii) currently operates pursuant to a Plan document, dated October 1, 2009, as subsequently amended. The Plan covers eligible non-highly compensated employees, as defined in the Plan document, who may elect to participate in the Plan as of the date set forth in the Plan document; however, completion of a year of service is generally required before a participant is eligible for matching contributions from the Plan’s sponsor, Mooresville Hospital Management Associates, LLC (the “Company”), and/or its participating subsidiary. The Company is a subsidiary of Health Management Associates, Inc. (“Health Management”), a publicly-traded company that owns and operates approximately sixty hospitals and other related healthcare facilities. Prudential Bank & Trust, F.S.B. is the Plan’s trustee (the “Trustee”) and Prudential Retirement Insurance and Annuity Company is the Plan’s recordkeeper.

The Plan has been designed to qualify as a defined contribution plan under Section 401(a) of the Internal Revenue Code of 1986, as amended (the “Code”). The Plan includes a cash or deferred arrangement under Section 401(k) of the Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Effective October 1, 2009, Health Management restructured one of its joint ventures. As a result of such restructuring, among other things, participants in the Health Management Associates, Inc. Retirement Savings Plan (the “Health Management Plan”) that were affiliated with the Company and its participating subsidiary had their outstanding loans and vested and unvested account balances, which aggregated \$15,457,783, transferred from the Health Management Plan to the Plan. The Plan covers the transferred employees/participants, as well as other eligible employees of the Company and its participating subsidiary, and constitutes a successor to the Health Management Plan. A Plan participant’s vested interest in his or her transferred account balance shall not be less than the vested interest in the Health Management Plan on the date immediately preceding the transfer.

The period from October 1, 2009 through December 31, 2009 is hereinafter referred to as the “2009 Period.”

Contributions

Subject to certain Code limitations, participants may elect to defer from 1% to 75% of their eligible compensation during each Plan year. Unless a participant elects otherwise, he or she will be automatically enrolled in the Plan and will be treated as having elected to contribute 4% of his or her eligible compensation to the Plan. Additionally, subject to certain Code limitations, participants who attain the age of fifty before the end of a taxable year are eligible to make voluntary catch-up contributions.

Mooresville Retirement Savings Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

The Company and its participating subsidiary may make discretionary matching contributions to the Plan. During the period October 1, 2009 through September 30, 2010, the Company suspended all matching contributions. Effective with the first pay period that began after October 1, 2010 and through the last pay period in 2010, matching contributions for all eligible employees were in an amount equal to one-sixth of a Plan participant's deferred compensation, but not exceeding 1% of the participant's eligible compensation. At their discretion, the Company and its participating subsidiary may make qualified matching or qualified nonelective contributions (or designate matching contributions as qualified matching contributions) in amounts determined by the Company in its sole discretion.

Effective January 1, 2011, the Plan was amended to add new annual matching contribution eligibility requirements. To receive a discretionary matching contribution subsequent to such date, Plan participants must be employed by the Company or its participating subsidiary on December 31 and must be credited with 1,000 hours of service during the Plan year then ended. These annual eligibility requirements are waived for participants who retire, become disabled or die during a Plan year and, at the discretion of the Plan sponsor, participants who are affected by the sale of the assets of a Company location or the closure of a Company location during a Plan year.

Participants may contribute amounts representing distributions from other qualified pension plans in the form of rollover contributions.

Participant Accounts and Forfeitures

Each participant's account is credited with the participant's contributions and allocations of Company contributions and Plan earnings or losses. Allocations are based on participant earnings or account balances, as provided in the Plan document. Specifically, each participant's account is (i) credited with the participant's and the Company's contributions, investment income and an allocation of the net appreciation/depreciation in the fair value of investments and (ii) charged with the participant's withdrawals and distributions, as well as an allocable share of the Plan's administrative expenses that were not paid by the Company or Health Management. Investment income and appreciation/depreciation in the fair value of investments are allocated by individual fund based on the proportion that each participant's account balance bears to the aggregate balance of all participants. Each participant's proportionate share of investment earnings/losses is then credited to, or charged against, his or her individual fund account.

The benefit to which a participant is entitled is that which can be provided from the participant's vested account. If a participant separates from service before becoming fully vested, the portion of the account attributable to Company contributions is generally not permanently forfeited until the participant incurs a five-year break in service. Accordingly, participants who are rehired by the Company or an affiliate within five years of their termination date will have their nonvested Company contributions, if any, restored. Participants that received distributions of their vested balances upon severance from the Company and/or its affiliates must comply with the provisions of the Plan document to reinstate their nonvested Company contributions.

Mooreville Retirement Savings Plan
Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Forfeited balances of nonvested accounts are used to: (i) reduce future Company contributions; (ii) pay administrative expenses of the Plan; and (iii) reinstate certain account balances of former Plan participants who are rehired by the Company or an affiliate; however, forfeitures cannot be used to increase benefits for Plan participants. The Plan used forfeitures aggregating \$15,965 and \$36 during the year ended December 31, 2010 and the 2009 Period, respectively. The accumulated forfeitures held by the Plan at December 31, 2010 and 2009 were \$46,622 and \$1,547, respectively.

Participant Loans

Participants may borrow against their vested account balance a minimum of \$1,000 and a maximum aggregate amount not to exceed the lesser of (i) 50% of their vested account balance or (ii) \$50,000. The loan repayment period cannot exceed five years unless the loan is for the purchase of a primary residence, in which case the loan repayment period may not exceed ten years. Loans are secured by a participant's vested account balance and bear interest at a rate commensurate with local prevailing rates, as determined at the time the loan is approved. Principal and interest are generally paid ratably through payroll withholdings and outstanding loan balances are due and payable upon a participant's termination of employment. A discussion of special loan repayment provisions available to certain terminated participants is set forth below under the heading "Vesting."

Withdrawals and Payments of Benefits

Upon retirement, disability, death or termination of employment, the vested amount of a participant's account is distributable to the participant or a designated beneficiary in Health Management Class A common stock and/or cash. Amounts that were rolled over from another qualified benefit plan, plus earnings thereon, are always available for distribution at a participant's discretion. Otherwise, participants are only entitled to withdrawals from their accounts prior to severance from employment if they attain age 59½ or qualify for a hardship withdrawal.

Vesting

Participants are immediately vested in their voluntary contributions, qualified matching contributions and qualified nonelective contributions, plus earnings thereon. A participant becomes fully vested in Company matching contributions, if any, plus earnings thereon, upon the occurrence of one of the following events:

- The participant attains his/her Normal Retirement Date, as such term is defined in the Plan document, while still an employee of the Company or one of its affiliates;

Mooresville Retirement Savings Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

- The participant becomes Disabled, as such term is defined in the Plan document, while still an employee of the Company or one of its affiliates;
- The participant dies while an employee of the Company or one of its affiliates; or
- The Company terminates the Plan in accordance with its terms or a participant is affected by a partial Plan termination.

Absent one of the above circumstances, the Plan utilizes a graded vesting schedule whereby participants vest 20% per annum upon the completion of two years of vesting service. A participant becomes 100% vested upon the completion of six years of vesting service. A year during which an employee works at least 1,000 hours is deemed to be a year of vesting service. Vesting service under the Plan includes the Plan participant's credited vesting service from the Health Management Plan.

The Plan provides accelerated vesting and special loan repayment provisions to participants whose employment is terminated as a result of the sale of the assets of a Company location or the closure of a Company location. In that regard, affected participants will become (i) fully vested on the date the underlying transaction or event is completed and (ii) eligible for post-employment repayment of outstanding loans according to such loans' original terms.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared using the accrual method of accounting. The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. When completing the financial statements included herein, the Plan's management evaluated subsequent events up to and including September 19, 2011, the date the financial statements were available to be issued.

Investment Valuation

There were no changes in the Plan's valuation methodologies for its investments during the year ended December 31, 2010 and the 2009 Period. The valuation methods described below may produce a fair value measurement that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes that the valuation methods are appropriate and consistent with other market participants, the use of alternative methodologies or assumptions to determine the fair values of the Plan's investments could result in different fair value measurements at the reporting dates.

Mooresville Retirement Savings Plan
Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Equity Securities

Investments in equity securities are stated at their estimated fair values based on quoted prices in an active market. Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the Plan year.

Pooled Separate Accounts

The estimated fair values of the participation units owned by the Plan in pooled separate accounts are based on quoted redemption values, as determined by the recordkeeper, on the last business day of the Plan year. Pooled separate accounts are accounts established by the Trustee solely for the purpose of investing the assets of one or more plans. Funds in a separate account are not commingled with other assets of the Trustee for investment purposes.

Unallocated Insurance Contracts

As required by GAAP, investment contracts held by a defined contribution plan are required to be reported at their fair value. However, contract value is the relevant measurement factor for the Plan's fully benefit-responsive investment contracts because contract value is generally the amount that participants receive when they initiate permitted transactions. During the periods presented herein, the contract values of the Plan's unallocated insurance contracts reasonably approximated their corresponding fair values, which were estimated by the Plan's management after considering, among other things, the current yields of similar investments in the marketplace with comparable durations and the overall creditworthiness of the Trustee. Accordingly, the Plan's unallocated insurance contracts are recorded at their contract values, which represent contributions and reinvested interest income, less withdrawals and expenses, plus or minus net participant-directed transfer activity with the Plan's other investment funds.

The unallocated insurance contracts in the Plan's financial statements represent contracts between the Trustee and the Plan that provide for a guaranteed investment return over a specified time period. Other than certain limited circumstances, which the Plan's management considers unlikely to occur, these contracts have fully benefit-responsive features. However, in the event of such an unlikely circumstance, the Trustee has the right to defer transfers or distributions. For example, in the event of a withdrawal request coinciding with a pool closing, the contract value would be paid in installments, which may result in an aggregate distribution of an amount other than the contract value. At December 31, 2010 and 2009, no unallocated insurance contract reserves were recorded or deemed necessary for the inherent credit risk of the Trustee or other related matters.

The Plan's unallocated insurance contracts credited interest to Plan participant accounts at a weighted average annual rate of 3.00% during both the year ended December 31, 2010 and the 2009 Period. Interest is credited to participant accounts using the single portfolio rate approach whereby a discrete contractual interest rate is applied to all contributions during the period, regardless of the timing of the receipt of the contributions during such period.

Mooreville Retirement Savings Plan
Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

When establishing unallocated insurance contract gross and net interest crediting rates, the Trustee considers a number of factors, including, but not limited to, current economic and market conditions, the general interest rate environment and the expected and actual experience of a reference portfolio. However, the Trustee does not use an explicit formula to establish such crediting interest rates, which are reset semi-annually and cannot be less than 1.50%. Subsequent to December 31, 2010, the net crediting interest rate on the Plan's unallocated insurance contracts was set at 2.75% for both the six months ended June 30, 2011 and the six months ending December 31, 2011.

At both December 31, 2010 and 2009, the average net yield earned by the Plan's unallocated insurance contracts was 3.00%.

Notes Receivable from Participants

Notes receivable from participants represent loans that are recorded at their unpaid principal balances, plus accrued but unpaid interest thereon. Interest income on notes receivable from participants is recognized when earned and any loan-related fees are expensed when incurred. No allowance for loan losses was recorded at December 31, 2010 or 2009 or during the periods then ended. If a participant ceases to make loan repayments and the Plan's recordkeeper deems the loan to be a distribution, the participant loan balance is reduced and a benefit payment is recognized.

Contributions

Participant contributions are recognized when payroll withholdings are processed and are remitted to the Plan as soon as administratively practicable. Company matching contributions, if previously approved and declared by the Company or its participating subsidiary, accrue to the Plan at such payroll withholding dates. These contributions are generally remitted to the Plan at the same time as the underlying participant contributions.

Discretionary nonelective Company contributions accrue to the Plan when declared and are remitted prior to the date that Health Management and the Company file their federal income tax return for the corresponding fiscal year.

Rollover contributions are recognized when received by the Plan.

Investment Income

Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date. Gains and losses on dispositions of securities are recorded on a trade-date basis.

Mooreville Retirement Savings Plan
Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Concentrations of Market and Credit Risk

The Plan's exposure to credit loss in the event of nonperformance of its investments is limited to the carrying value of each such investment. The Plan's concentrations of credit and market risk are dictated by individual participant investment preferences. Due to the risks associated with investments and uncertainties related to changes in the values of such investments, it is at least reasonably possible that changes in the marketplace in the near term could materially affect participant account balances and the amounts reported in the Plan's financial statements.

Administrative Expenses

Certain of the Plan's administrative expenses are paid directly by the Company and/or Health Management and, accordingly, such expenses are not reflected in the Plan's financial statements.

Benefit Payments and Rollover Distributions

Benefit payments and rollover distributions are recognized when paid by the Plan.

3. Fair Value Measurements and Investments

All investment information in the financial statements and supplemental schedules, including investments, notes receivable from participants, net investment income (loss) and interest income on notes receivable from participants, was obtained or derived from information provided to the Plan administrator and certified as complete and accurate by the Trustee.

GAAP defines fair value as the amount that would be received for an asset or paid to transfer a liability (i.e., an exit price) in the principal market for the asset or liability in an orderly transaction between market participants on the measurement date. GAAP also establishes a hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. GAAP describes the following three levels of inputs that may be used:

- Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets and liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.
- Level 2: Observable prices that are based on inputs not quoted on active markets but corroborated by market data.
- Level 3: Unobservable inputs when there is little or no market data available, thereby requiring an entity to develop its own assumptions. The fair value hierarchy gives the lowest priority to Level 3 inputs.

Transfers between levels within the fair value hierarchy are recognized by the Plan on the date of the change in circumstances that requires such transfer. The tables on the following page summarize the estimated fair values of the Plan's investments by investment strategy.

Balances at the end of the period	<u>\$ 5,143,774</u>	<u>\$ 4,922,469</u>

The estimated fair values of individual investments that represented 5% or more of the Plan's net assets available for benefits are summarized in the table below.

	December 31,	
	2010	2009
Prudential Retirement Insurance and Annuity Company:		
Guaranteed Income Fund (unallocated insurance contracts)	\$ 5,143,774	\$ 4,922,469
Large Cap Value/LSV Asset Management Fund	1,413,021	1,259,899

International Blend/Applied Quantitative Research Fund	969,562	-
Health Management Class A common stock ⁽⁴⁾	2,998,693	2,766,947

⁽¹⁾ At December 31, 2009, the estimated fair value of this fund was \$755,977, which was less than 5% of the Plan's net assets available for benefits on such date.

⁽²⁾ Effective August 25, 2011, JPMorgan Investment Management replaced Turner Investment Partners as the investment sub-advisor for this fund.

⁽³⁾ Effective May 17, 2010, Applied Quantitative Research replaced Munder Capital Management as the investment sub-advisor for this fund.

⁽⁴⁾ At December 31, 2010 and 2009, the per share market value of the Health Management Class A common stock was \$9.54 and \$7.27, respectively. As of September 19, 2011, the corresponding per share market value was \$7.33.

4. Excess Contributions

During the year ended December 31, 2010, an ineligible individual was inadvertently permitted to contribute to the Plan. The impermissible contributions and the related investment earnings thereon were refunded to the affected individual in 2011. A liability for the \$18,258 that was returned to the individual has been recorded in the Plan's financial statements at December 31, 2010. There was no corresponding amount in respect of the Plan's 2009 Period contributions.

5. Income Taxes

During April 2010, the Plan applied for a tax determination letter from the Internal Revenue Service (the “IRS”) stating that the Plan is qualified under Section 401(a) of the Code; however, no response has yet been received from the IRS. The Plan’s management believes that the Plan (i) has been designed to comply with and is operating in accordance with the applicable requirements of the Code and (ii) is qualified and the related trust is exempt from taxation. Accordingly, no provision for income taxes has been provided in the Plan’s financial statements. The Plan’s amendments subsequent to the application for tax-exempt status have been structured to, and are intended to, maintain the Plan’s tax qualified status. The Plan is required to operate in conformity with the Code and the Plan document to maintain its tax qualified status. If deemed necessary, the Plan administrator will take remedial action to cause the Plan’s operations to be compliant with the Code and the Plan document.

The effects of a tax position are recognized in the Plan’s financial statements when, based on its technical merits, the tax position is more likely than not to be sustained upon examination by the IRS. The Plan’s management analyzed the tax positions taken by the Plan as of December 31, 2010 and concluded that there were no uncertain tax positions taken or expected to be taken. During the year ended December 31, 2010 and the 2009 Period, the Plan recorded no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits and examinations by federal and various state tax jurisdictions. The Plan’s management believes that the Plan remains subject to income tax audit or examination for all periods since its inception on October 1, 2009.

6. Party-in-Interest Transactions

Plan investments include (i) shares of pooled separate accounts and trust funds (i.e., unallocated insurance contracts) that are managed by the Trustee and (ii) shares of Health Management Class A common stock. Additionally, the Company and/or Health Management paid an immaterial amount of the Plan’s administrative expenses during each of the year ended December 31, 2010 and the 2009 Period and those expenses are not reflected in the Plan’s financial statements. These arrangements are characterized as party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan document to terminate the Plan, subject to the provisions of ERISA. In the event of a Plan termination, participants become fully vested in their Company contributions, including investment earnings thereon, and the balance in each participant’s account shall be held in the Plan and continue to accrue investment earnings until it is distributed as a benefit payment or rollover distribution.
