INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of the
Husmann International, Inc. Retirement Plan
Davidson, North Carolina

We were engaged to audit the accompanying financial statements and supplemental schedule of Husmann International, Inc. Retirement Plan (the "Plan") as of and for the years ended December 31, 2010 and 2009 as listed in the table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4 to the financial statements, which was certified by JPMorgan Chase Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009 that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of the
Husmann International, Inc. Retirement Plan
Davidson, North Carolina

We were engaged to audit the accompanying financial statements and supplemental schedule of Husmann International, Inc. Retirement Plan (the "Plan") as of and for the years ended December 31, 2010 and 2009 as listed in the table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4 to the financial statements, which was certified by JPMorgan Chase Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009 that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements
December 31, 2010 and 2009

1. Description of the Plan

The following brief description of the Husmann International, Inc. Retirement Plan (the "Plan") is intended for general information purposes. Participants should refer to the Plan document for complete information.

General

The Plan is a defined benefit pension plan covering eligible non-union hourly, salaried and bargained employees of Husmann International, Inc., a subsidiary of Ingersoll-Rand plc (the "Company") and any affiliate who has adopted the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Ingersoll Rand Company serves as sponsor of the Plan and its parent, Ingersoll-Rand plc, has the authority to amend or terminate the Plan, subject to certain restrictions. JPMorgan Chase Bank, as trustee, has the authority and responsibility to hold, manage and protect the assets of the Plan in accordance with the provisions of the trust agreement and ERISA requirements.

Pension Benefits

Employees who satisfy the Plan's eligibility requirement become fully vested in accordance with the vesting schedule set forth in the Plan and are entitled to annual pension benefits beginning at the normal retirement age (65). Benefits are calculated under the applicable appendices incorporated in the Plan and reflect total years and months of credited service. The benefit calculation for non collectively bargained employees, expressed as a single life annuity, is based on Credited Service, average compensation in the highest consecutive five of the final ten years of employment and the benefit formula as established by the applicable appendices of The Plan. The benefit calculation for collectively bargained employees, expressed as a single life annuity, is based on Credited Service and a negotiated flat-dollar accrual rate established by the applicable adoption agreement. Early retirement benefits are available and require age and service requirements under certain appendices of the Plan. Death benefits are paid pursuant to the applicable appendix of the Plan and applicable laws.

Effective December 31, 2003, certain vested participants who become disabled are entitled to a vested deferred retirement benefit calculated in the same manner as an early retirement benefit. Vesting is based on the vesting schedule set forth in the Plan.

Effective January 1, 2009, the benefit multiplier for the Bridgeton union was increased from \$36 to \$39.

Effective January 1, 2010, the Plan was amended to exclude from participation all salaried and non-bargained employees hired after December 31, 2009.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"), except participant benefit payments which are recorded when distributed.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments (Master Trust Fund)

Plan assets and investments are held in the Ingersoll-Rand Collective Trust Fund ("CTF"), a master trust administered by JPMorgan Chase Bank (the "Trustee"). The CTF provides unified investment management for certain pension plans of the Ingersoll-Rand Company and its domestic subsidiaries.

Although the Plan holds an undivided interest in the underlying assets of the CTF, the CTF maintains separate accounts at fair value for each participating plan. Each account records contributions, benefit payments and direct plan disbursements and receipts, and a pro rata share of indirect expenses, realized and unrealized gains or losses, interest and dividend income. Pro rated items are allocated monthly to each account based on each participating Plan's beginning of month asset value in relation to the total CTF assets.

Investments in the CTF are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) represents the Plan's pro-rata share of net realized and unrealized gains and losses on the CTF's investments.

Valuation of Investments (Immediate Participation Guarantee Contracts)

The Immediate Participation Guarantee contracts with insurance companies are valued at contract value. Contract value represents contributions made by the Company, plus interest at the contract rates, less withdrawals by participants, less administrative fees. Contract value approximates fair value.

Funding Policy

The Company's funding policy is to make annual minimum contributions as required by law and determined by the actuary, and other contributions in its discretion as allowed by law. The actuary determines the required contributions using the Projected Unit Credit Cost Method. As determined by the actuary, no contributions were required during 2010 and 2009. The Company did make a discretionary contribution of \$12,438,000 during 2010.

Expenses

The Plan pays all eligible expenses incurred in administering the Plan and a pro rata share of the CTF expenses. The Plan's actuarial cost method includes a factor to fund such expenses through employer contributions. Fees paid by the Plan include various professional fees, investment fees, Pension Benefit Guaranty Corporation ("PBGC") fees and any other costs of administering the Plan. The PBGC requires the Plan to pay an annual fee based on the number of participants in the Plan. The 2010 and 2009 fee was \$35 and \$34, respectively, per participant; however, the yearly cost is determined by the PBGC and is subject to change.

Benefit Payments

Benefit payments are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service rendered by the Plan's participants. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries; (ii) beneficiaries of employees who have died; and (iii) present employees or their beneficiaries. Benefits payable under all circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Husmann International, Inc.
Retirement Plan
Notes to Financial Statements
December 31, 2010 and 2009

The actuarial present value of accumulated plan benefits was determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation at January 1, 2010 were as follows:

- Participants' life expectancy for non-disabled participants utilized the mortality assumption under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants. Life expectancy for disabled participants utilized mortality rates in accordance with Revenue Ruling 96-7.
- Retirement ages, which start at 55 and use actual plan experience.
- Compensation is assumed to increase at the rate of 5.25% each year, compounded annually.
- Investment return, equal to the average interest rate is assumed to be 7.75% for funding.
- Pension Protection Act effective interest rate, which is assumed to be 6.66%. The rate used for January 1, 2009 was 8.19%.

In addition to the prescribed changes noted above, the interest rate method was changed from the October Full Yield Curve to the September 3-segments. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

New Accounting Pronouncements

In January 2010, the FASB issued updated guidance to improve disclosures regarding fair value measurements. This update requires entities to (i) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately (i.e., on a gross basis rather than as one net number), information about purchases, sales, issuances, and settlements in the roll forward of changes in Level 3 fair value measurements. The update requires fair value disclosures by class of assets and liabilities rather than by major category or line item in the statement of net assets available for benefits. Disclosures regarding the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for assets and liabilities in both Level 2 and Level 3 are also required. For all portions of the update except the gross presentation of activity in Level 3 roll forward, this standard is effective for interim and annual reporting periods beginning after December 15, 2009. For the gross presentation of activity in the Level 3 roll forward, this guidance is effective for fiscal years beginning after December 15, 2010. As this guidance is only disclosure related, it will not have any impact on the Plan's financial statements.

3. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Husmann International, Inc.
Retirement Plan
Notes to Financial Statements
December 31, 2010 and 2009

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and are significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Commingled funds: The investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the fund manager. The NAV is based on the value of the underlying assets owned by the fund, minus the liabilities, and then divided by the number of shares outstanding. The NAV is a reasonable exit price, but it is a quoted price in a market that is not active. Therefore, these assets are classified as Level 2.

Common and preferred stocks: The investments are valued at the closing price reported on the active market on which the individual securities are traded. Substantially all common stocks are classified within Level 1 but stocks in a non-active market (e.g. convertible preferred stocks) or unlisted securities are classified as Level 2.

U.S. government and agency obligations: A limited number of these investments are valued at the closing price reported in the major market on which the individual securities are traded. Where quoted prices are available in an active market, the investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available for the specific security, then fair values are estimated using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Such securities are classified as Level 2.

Corporate and foreign bonds: A limited number of these investments are valued at the closing price reported on the major market on which the individual securities are traded. Where quoted prices are available in an active market, the investments are classified as Level 1. If quoted market prices are not available for the specific security, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows, which are classified as Level 2.

Mortgage-backed securities, collateralized mortgage obligations and other asset-backed securities: Prices are based on a compilation of primarily observable market information or a broker quote in a non-active market, which are classified as Level 2.

Real estate limited partnerships: Investments in real estate take the form of direct investment in real estate funds. Transaction price is used as the best estimate of fair value at inception. When evidence supports a change to the varying value from the transaction price, adjustments are made to reflect

Husmann International, Inc.
Retirement Plan
Notes to Financial Statements
December 31, 2010 and 2009

expected exit values. As the investments are infrequently traded and may not have available comparables, they are classified as Level 3.

Derivatives: Exchange-traded derivatives valued using quoted prices are classified within Level 1 of the valuation hierarchy. If they are not listed on an exchange, derivative contracts are valued using models that use as their basis readily observable market parameters, which are actively quoted in the market and can be validated through external sources. Depending on the types and contractual terms of derivatives, fair value can be modeled using a series of techniques, such as Black-Scholes option pricing model, simulation models or a combination of various models, which are consistently applied. Most of the inputs for this valuation are readily observable from actively quoted markets. Such instruments are generally classified as Level 2.

Guaranteed Interest Contracts ("GIC"): The investment value is reported based upon observable inputs, including the insurance company's assumptions as to what market participants would use in pricing such instruments. GIC's are included in Level 2.

Group Annuity Contracts: The investments are valued at contract value, which approximates fair value, by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. Funds under the contracts that have been allocated and applied to purchase annuities are excluded from the CTF's assets. Such assets are classified within Level 3.

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table does not include the Plan's interest in the Collective Trust Fund. See Note 4 for further disclosures of the fair value of the assets held within the Collective Trust Fund.

4. Investments in the Collective Trust Fund ("Master Trust")

A majority of the Plan's investments are included in the CTF, which was established for the investment of assets of the Plan and several other Ingersoll-Rand Company sponsored retirement plans. Each participating retirement plan has an undivided interest in the CTF. Assets of the CTF are held by the trustee. At December 31, 2010 and 2009, the Plan's interest in the net assets of the CTF was approximately 11.94% and 13.16%, respectively.

The following investments in the Statements of Net Assets Available for Benefits and the net appreciation in fair value of investments, interest, and dividend income and other receipts in the Statements of Changes in Net Assets Available for Benefits are certified by the trustee to be complete and accurate. The trustee has also certified the Plan's proportionate share of such items to be complete and accurate. The CTF financial statements are prepared on the modified cash basis of accounting, while the Plan's financial statements are prepared on the accrual basis of accounting. The CTF financial statements do not include any contribution receivables or accrued expenses.

5. Plan Termination

Although it has not expressed any intention to do so, the Ingersoll-Rand plc has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to participants in an order of priority determined in accordance with ERISA and applicable regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan is terminated. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan be terminated will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

6. Group Annuity Contracts

The Plan invests in Immediate Participation Guarantee contracts which are presented at contract value. Plan assets of \$130,100 and \$166,080 at December 2010 and 2009, respectively, were held by The Equitable Life Assurance Society of the United States, under Contract No. AC742. The average interest rate at December 31, 2010 and 2009, respectively, for the contract was 2.98% and 3.80%. Additionally, Plan assets of \$1,759,184 and \$1,730,974 at December 31, 2010 and 2009, respectively, were held by Aetna Life Insurance Company, under Contract No. GA-5913. The average interest rates at December 31, 2010 and 2009, respectively, for the individual contracts held under this agreement ranged from 5.48% to 6.21% and 5.62% to 6.38%.

7. Transactions with Parties-in-Interest

Through the CTF, certain plan investments are shares of mutual funds managed by JPMorgan Chase Bank. JPMorgan Chase Bank is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. These transactions are allowable party-in-interest transactions under Section 408(b)(8) of the ERISA regulations.

8. Risks and Uncertainties

Through the CTF, the Plan invests in various investments as described in Note 4. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain of the CTF's investments, and the level of uncertainty related to changes in fair values of such investments, it is at least reasonably possible that changes in such risks in the near term would materially affect the Plan's investment balances, and amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. Tax Status

The Plan has received a favorable determination letter from the Internal Revenue Service dated August 29, 2002, which states that the Plan and its underlying trust qualify under the applicable provisions of the Internal Revenue Code (the "Code") and, therefore, are exempt from federal income taxes. The Plan and its underlying trust have been amended since receiving the determination letter. However, the Plan administrator believes that the Plan and its underlying trust is designed and is currently being operated in material compliance with the applicable requirements of the Code and has no income subject to unrelated business income tax. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize tax liability (or assets) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

10. Subsequent Events

The Plan has evaluated subsequent events through September 26, 2011, in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued. On August 6, 2011, Ingersoll-Rand plc, the ultimate parent of Hussmann International, Inc., entered into a stock purchase agreement in which a Joint Venture will be formed and own the outstanding shares of the Hussmann refrigerated display case business (of which Hussmann International, Inc. is a part). The private equity firm Clayton Dubilier & Rice, LLC will own sixty percent (60%) of the joint venture entity and Ingersoll-Rand plc will own the remaining forty percent (40%). Pursuant to the stock purchase agreement, the Plan will be assigned to, and assumed by, the Joint Venture and the sponsor of the Plan will be Hussmann Corporation upon the consummation of the transactions contemplated by the stock purchase agreement.

Effective as of the closing date described in the stock purchase agreement, the Plan has been amended to: (i) include the participation of all salaried and non-bargained employees hired after December 31, 2009, and all "Business Employees" as defined by the stock purchase agreement, who would otherwise satisfy the Plan's eligibility requirement, (ii) change the Plan Sponsor to Hussmann Corporation, (iii) change the Plan name to the "Hussmann Corporation Retirement Plan," (iv) provide that members of the Benefits Investment Committee and Benefits Administration Committee should consist of individuals appointed by Hussmann Corporation, and (v) Hussmann Corporation shall have the authority to amend and/or terminate the Plan.

Mortality

For non-disabled participants: The prescribed mortality assumption under Section §430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants.

For disabled participants: mortality in accordance with Revenue Ruling 96-7.

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age and gender are shown below.

Salaried and non-bargaining employees:

Percentage retiring during the year		
Age	Males	Females
55-59	2%	2%
60-61	0%	0%
62	40%	40%
63-64	5%	5%

55-59	3%	3%
60-61	5%	5%
62	20%	20%
63-64	5%	5%
65	45%	45%

Disability

The 1985 Wyatt Pension Disability Study Unisex Class Three rates of disablement are used for bargaining employees. The 1985 Wyatt Pension Disability Study Unisex Class One rates of disablement are used for non-bargaining employees.

Compensation Increases

For purposes of determining the target normal cost, compensation is assumed to increase by 5.250% during the plan year. For purposes of determining the additional funding target for maximum deductible contribution purposes, compensation is assumed to increase by 5.250% per annum.

Future Increases in Social Security

For purposes of determining target normal cost and the additional funding target for maximum deductible contribution purposes, the National Average Wage Index is assumed to increase by 4.500% per annum.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC Section 415. Plan compensation is limited to the maximum presently allowed under IRC Section 401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Representative Termination Rates not Due to Disability, Retirement or Mortality

Attained Age	Percentage leaving during the year	
	Males	Females
20	14.9%	14.9%
25	9.9%	9.9%
30	6.9%	6.9%
35	4.9%	4.9%
40	2.8%	2.8%
45	1.7%	1.7%
50	0.4%	0.4%
55	0.0%	0.0%

In addition, the rates of withdrawal used for the first three years of service are 30%, 25% and 20%, respectively.

Form of Payment

a) Hussmann Salaried and Non-Bargaining Employees

33% of all participants who retire directly from active service after age 55 are assumed to elect the single life annuity or, if married, the actuarial equivalent 50% joint and survivor annuity. The single life annuity includes a ten year guarantee; the joint and survivor annuity is assumed to be equivalent to this form of payment.

67% of all participants who retire directly from active service after age 55 and 100% of vested employees who terminate employment prior to age 55 are assumed to elect the lump sum payment option. The lump sum payable is assumed to be the greater of

- i. the immediate life annuity multiplied by 10, and
- ii. the actuarially equivalent lump sum of the deferred life annuity, determined using interest rates based on the 3 segment rates used for determination of the Funding Target and the applicable mortality under Revenue Ruling 2007-67.

b) Hussmann Bargaining Employees

All participants are assumed to elect the single life annuity or, if married, the actuarial equivalent 50% joint and survivor annuity.

c) Former Employees with Deferred Vested Benefits

All participants are assumed to elect a single life annuity, with a 10 year guarantee for non-bargaining employees who terminated employment after December 31, 2002.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of eligible male participants and 55% percent of eligible female participants are assumed to be married and male spouses are assumed to be 3 years older than female spouses.

Employees

It was assumed that there will be no new or rehired employees.

Plan Compensation

Plan compensation is actual gross earnings during the prior year provided by the employer.

Asset Method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.68%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.75%, and the applicable limitation for the plan year, equal to 6.68%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.38%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.5%, and the applicable limitation for the plan year, equal to 6.38%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Participant Data

Employee data was supplied by Ingersoll Rand as of the census date. We have not independently verified the accuracy or completeness of the data or information provided, but we have performed limited checks for reasonableness.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2010 is used to determine the maximum deductible contribution for the tax year ending December 31, 2010.

PBGC Premium Funding Target

For purposes of determining the PBGC Premium Funding Target in Section 2.2D, the Alternative Premium Funding Target was determined using the assumptions described above.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable

efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of January 1, 2010

Employees are assumed to retire in accordance with the following probabilities:

(a) Salaried and nonbargaining employees:

Age	Probability
55-59	2%
60-61	0%
62	40%
63-64	5%
65	40%

(b) Bargaining employees:

Age	Probability
55-59	3%
60-61	5%
62	20%
63-64	5%
65	45%

The average expected retirement age for active participants, to the nearest integer, is age 63. This average age was determined by summing the following product for assumed retirement ages 55 through 65: (i) the number of expected employees at the applicable age times (ii) the assumed rate of retirement at the applicable age times (iii) the applicable age, where one salaried employee and one bargaining employee, are assumed to exist at age 55 and are then assumed to retire in accordance with the probabilities shown above. This result is then weighted by the relative number of employees in each group.

Summary of Plan Provisions

Plan Sponsor

SALARIED AND NON-BARGAINING HOURLY EMPLOYEES ACTIVE JANUARY 1, 2003 AND LATER

1. Effective Date(s)

(a) Original January 1, 1981

(b) Amendments Effective December 31, 1999, the Hussmann International, Inc. Retirement Plan for Hourly Employees and the Hussmann International, Inc. Pension Plan for Hourly Paid Branch Service and Installation Employees were merged into the Hussmann International, Inc. Retirement Plan for Salaried Employees. The Salaried Plan was amended and restated to provide for the mergers and to change its name to the Hussmann International, Inc., Retirement Plan. The plan was amended effective January 1, 2005, to change the benefit multiplier for Bridgeton active participants, and January 1, 2006 to change the benefit multiplier for Gloversville active participants. The plan was amended effective January 1, 2010 to exclude from participation all salaried and non-bargaining employees hired after December 31, 2009.

2. Eligibility

Each employee employed by the Company becomes a member of the plan as of his date of employment excluding, however, except as otherwise provided in the plan:

- Members of a collective bargaining unit or employees accruing benefits under any other retirement plan of the Company
- Salaried employees under the age of 21

Effective December 31, 2002, the Refrigeration Engineering, Inc. (REI) Retirement Plan was merged into this Plan.

Effective January 1, 2003, certain non-bargaining hourly employees of National Refrigeration Systems (NRS) became participants of the Plan. These participants receive accruals under the plan for future service only commencing on or after January 1, 2003.

Effective January 1, 2010, participation is closed to all salaried and non-bargaining hourly employees hired after December 31, 2009.

3. Normal Retirement

(a) Eligibility

An employee is eligible for a normal retirement benefit on the first day of the calendar month following the month in which he reaches age 65.

(b) Benefit Formula

The monthly benefit payable at Normal Retirement Date is equal to the greater of [(i) + (ii) + (iii)] and (iv) below:

- (i) monthly accrued benefit at December 31, 2002 under the plan provisions in effect on December 31, 2002. For employees of REI, the frozen accrued benefit as of December 31, 2002 under the Refrigeration Engineering, Inc. Retirement Plan.
- (ii) 0.5% of Final Average Pay times years of credited service earned after December 31, 2002.
- (iii) Transition Benefit: 0.5% of Final Average Pay times years of credited service earned after December 31, 2002 up to a maximum of ten years. This transition benefit applies only to salaried employees who were participants in this plan on December 31, 2002, are at least age 45 and whose age plus service exceeds 55 on January 1, 2003 and does not apply to REI employees.
- (iv) 0.5% of Final Average Pay times all years of credited service

Final Average Monthly Earnings: The highest average of a participant's annual compensation for a 5 consecutive calendar year period during the last 10 calendar years preceding the date of termination of employment, divided by 12.

(c) Commencement Date

Payments commence on the first day of the month succeeding the month during which the employee retires.

(d) Form of Payment

For a single employee the normal form of payment is a monthly pension for the life of the employee. This single life annuity includes a ten year payment guarantee. For a married employee the normal form of payment is a reduced monthly pension which provides for a continuation of payments equal to one-half of the reduced pension to the surviving spouse after the employee's death. Any employee may elect, by written application, to receive the normal benefit or other optional forms of benefit payment.

Optional forms of payment include a lump sum payment, a contingent annuity and a life with term certain annuity.

4. Early Retirement

(a) Eligibility

Every employee eligible for a vested benefit is entitled to commence benefits as of the first day of the calendar month following his separation from service or on the first day of any calendar month thereafter.

- (b) **Benefit Formula** The early retirement benefit is equal to the normal retirement benefit reduced by 0.3% for each whole calendar month that the benefit commencement date precedes the normal retirement date, provided that the reduction not exceed 85%. For certain participants, the adjustment factors described in Appendix B1 apply.
- (c) **Commencement Date** Payments commence on the first day of the month succeeding the month which includes the employee's normal retirement date or, if elected, on the first day of any month following the month in which the employee retires early or on the first day of any later month.
- (d) **Form of Payment** The form of payment is the same as for normal retirement, except that an employee may also choose to receive his benefit under the Social Security level benefit option if he retires at or after age 55 with at least 15 years of service.
- 5. Late Retirement**
- (a) **Eligibility** All employees may work past the age of 65 and continue to earn credited service.
- (b) **Benefit formula** Same as normal retirement.
- (c) **Commencement date** Payments commence on the first day of the month succeeding the month during which the employee retires.
- (d) **Form of payment** Same as normal retirement.
- 6. Disability Retirement** Any vested participant who becomes disabled after December 31, 2003 is entitled to the benefit described under (9) below.
- 7. Death Prior to Retirement**
- (a) **Eligibility** The surviving spouse of an employee who is married on his date of death or the designated beneficiary of any employee who is not married on his date of death, who has a vested accrued benefit is eligible for a pre-retirement death benefit.
- Non-spouse beneficiaries are permitted under these provisions, subject to IRS consent rules
- (b) **Benefit Formula** The pre-retirement death benefit payable to the designated beneficiary of an employee who is not married on his date of death is equal to one half of the benefit which would be payable to the participant had the participant separated from service on the date of death and elected to commence a single life annuity, payable as a lump sum.
- The pre-retirement death benefit payable to the surviving spouse of a participant who is married on his date of death is equal to one half the benefit that would be payable to the participant had the participant separated from service on the date of death, survived to the benefit commencement date elected by the spouse and elected to commence a single life annuity.

(c) **Commencement Date** The pre-retirement death benefit payable to the beneficiary of a participant who was not married on his date of death will commence on the first day of the month following the participant's death.

The pre-retirement death benefit payable to the surviving spouse of a participant who was married on his date of death will commence on the first day of the month following the participant's death or on the first day of any month thereafter at the election of the surviving spouse but not later than the participant's normal retirement date.

(d) **Form of Payment** The benefit is paid monthly for the life of the surviving spouse. However, the surviving spouse may elect to receive the pre-retirement death benefit in a lump sum in lieu of a life annuity. For unmarried participants the benefit is paid as a lump sum.

8. Death after Retirement

(a) **Eligibility** An employee who is eligible to receive a normal retirement or early retirement pension can elect a form of pension payment which provides benefit payments to a beneficiary upon the death of the employee after retirement.

(b) **Benefit Formula** The beneficiary will be paid under the optional forms of benefit payment elected by the employee. All optional forms are actuarially equivalent to a life annuity form of payment.

(c) **Commencement Date** Payments will commence on the first day of the month following the month in which the employee's death occurs.

(d) **Form of Payment** The benefit is paid to the beneficiary in accordance with the terms of the option the employee had elected.

9. Termination of Employment

(a) **Eligibility** An employee whose employment is terminated before death or retirement but after having completed 4 years and 6 months or more of vesting service is eligible for a vested deferred retirement benefit.

(b) **Benefit Formula** The normal retirement benefit payable at age 65. The benefit payable at any date earlier than age 65 is calculated in the same manner as an early retirement benefit.

(c) **Commencement Date** Payment can commence on the first day of the month following termination of employment or at any time thereafter.

(d) **Form of Payment** The benefit is payable as a lump sum or immediate life annuity or, for a married individual, as a qualified joint and survivor annuity unless a lump sum is elected.

Changes in Provisions Since Last Actuarial Valuation

The plan was amended effective January 1, 2010 to exclude from participation all salaried and non-bargained employees hired after December 31, 2009. To the best of our knowledge there were no other changes in provisions since the last actuarial valuation.

Normal Retirement Benefit

Accrued Benefit at date of termination.

Early Retirement Benefit

Accrued Benefit earned to the date of termination reduced 6% per year from age 65. For Bridgeton, benefit is an unreduced at age 60 with 30 years of Continuous Service.

Postponed Retirement Benefit

Accrued Benefit calculated as of the Postponed Retirement Date using Credited Service at the Postponed Retirement Date.

Vested Benefit

Accrued Benefit payable at age 65. If payment commences prior to age 65, the benefit is reduced in the same manner as the Early Retirement Benefit.

Disability Benefit

For Bridgeton, immediate unreduced annuity commencing as early as five months and as late as 18 months after last day of employment (period of deferral). The period of deferral is counted as Credited Service. At age 65, benefit is adjusted to reflect additional Credited Service equal to the difference between 24 months and the period of deferral.

Spouse's Death Benefit

The benefit which would have been payable to the spouse assuming the employee terminated employment on the day before he died (or, if earlier, on his actual date of termination employment) and elected the 50% Joint and Survivor Annuity Option to commence on his earliest possible retirement date. The benefit is payable in the form

of a life annuity to the spouse commencing on the Participant's earliest retirement date.

Death Benefit

For Bridgeton, designated beneficiary receives 60 monthly pension payments (or an equivalent lump sum) of the Participant's monthly Accrued Benefit, unreduced for an early commencement of payment.

Normal Form of Benefit Payment

1. Married Participants: 50% Joint and Survivor Annuity.
2. Five-Year Certain and Life Annuity.

Optional Forms of Payment

1. Five-Year Certain and Annuity.
2. Five-Year Certain Joint and Survivor Annuity (50% or 100%).

Changes in Provisions Since Last Actuarial Valuation
