NOTE 1 - DESCRIPTION OF PLAN

The following description of the Letsos Company 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan covers all employees of Letsos Company (the "Company") except union employees, non-resident aliens, and employees of a related employer that has not executed a related employer participation agreement. Reliance Trust Company is the trustee of the Plan. Employees of the Company are eligible to participate in the Plan upon the attainment of age 18. The Plan's entry date is the first of the month after becoming eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may elect to make salary deferral contributions to the Plan up to 92% of their eligible compensation, subject to certain limitations. The Plan provides for automatic enrollment for eligible participants who have not declined participation in the Plan. Participants may elect not to participate in the Plan. Eligible participants who have not declined participation or elected to participate are initially enrolled with a contribution rate of 2% of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Rollover contributions are accepted in the Plan from any eligible employee. The Plan is participant directed and participants may change their contribution rates on the first day of a month.

The Company makes a matching contribution equal to 50% of the participant's salary deferral contribution up to 10% of a participant's eligible compensation. Matching contributions are determined on a quarterly basis. Participants do not need to meet service requirements or be employed on the last day of the Plan year to qualify for matching contributions. Participants who die, become totally and permanently disabled, or retire also qualify for matching contributions. The Company may also make a discretionary profit sharing contribution. Participants must be employed on the last day of the Plan year, except for participants who die, become totally and permanently disabled, or retire in the Plan year, and complete 1,000 hours of service during the Plan year to receive profit sharing contributions. Profit sharing contributions are allocated to participants based on their eligible compensation to total eligible compensation for the year. The Company did not make any profit sharing contributions for 2010.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan is participant directed and participants may change their investment options at any time.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are at all times fully vested in their participant and rollover contribution accounts and the appreciation or depreciation thereon. Vesting in the Company's contributions portion of their accounts plus earnings thereon is based on continuous years of service. Participants vest 20% per year after two years of service and are 100% vested after six years of service.

Benefit Payments

A participant shall be immediately vested upon death, retirement, or termination of employment due to total and permanent disability. Normal retirement age under the Plan is 65. A participant may elect to withdraw any part of their vested balance upon retirement, termination of employment, death, or total and permanent disability. The Plan also allows for hardship withdrawals and in-service withdrawals subject to the terms of the Plan document and only from the participant's elective deferral account. All payments are made in lump-sum amounts. All vested benefits of terminated participants to the Plan that are $5,000 or less may be distributed in a single lump-sum payment without any consent from the terminated participant.

Forfeited Accounts

Forfeitures of employer matching contributions are used to reduce future employer matching contributions. Forfeitures of profit sharing contributions are to be allocated as additional profit sharing contributions in the year forfeited. At December 31, 2010 and 2009, the forfeited nonvested account totaled $173,383 and $153,879, respectively. No forfeitures were used in 2010.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested balance. The loans bear interest at reasonable rates and are secured by the participant's vested account to the extent of the principal amount of the loan plus accrued interest. Principal and interest are paid ratably through payroll deductions for periods ranging up to five years, or longer for the purchase of a primary residence. Participants may only have one loan outstanding at any time.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual method of accounting.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Investments

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. As required, the statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan or the Company.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Income Taxes

The Plan has adopted a non-standardized prototype plan, which obtained its latest opinion letter dated March 31, 2008 in which the Internal Revenue Service (IRS) stated that the prototype document satisfies the applicable provisions of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, contributions to the Plan and earnings from its assets are not currently taxable to the Plan or its participants.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Recent Accounting Pronouncement

In September 2010, the Financial Accounting Standards Board issued Accounting Standards Update No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* ("ASU 2010-25"). ASU 2010-25 provides guidance on how loans to participants should be classified and measured by defined contribution plans. This guidance requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. ASU 2010-25 is effective for periods ending after December 15, 2010 and requires retrospective application to all periods presented. The Plan adopted this guidance for the year ended December 31, 2010 and has reclassified participant loans from investments to notes receivable from participants as of December 31, 2009 in the statement of net assets available for benefits.

NOTE 4 - FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* Topic ("ASC 820") clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Mutual Funds: Valued at net asset value (NAV) of shares held by the Plan at year-end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Money Funds: Valued at NAV of $1 per share held by the Plan at year-end.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Common/Collective Trust Funds: Valued at the underlying NAV, per unit, which approximates fair value based on the audited financial statements of these funds. The common/collective trust funds held by the Plan provide for daily redemptions by the Plan with no advance notice requirement. The Plan has no unfunded commitments and no contractual obligations to further invest in the funds.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used at December 31, 2010 and 2009.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009:

NOTE 5 - INFORMATION CERTIFIED BY THE AGENT FOR THE TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, ING Institutional Plan Services, LLC, as agent for Reliance Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying statement of net assets available for benefits as of December 31, 2010 and 2009, and the schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2010, and the related investment activity and interest income on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2010.

NOTE 6 - RISKS AND UNCERTAINTIES

The Plan provides for various investments. In general, such investments are exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Notes receivable from participants qualify as party-in-interest transactions. These transactions are considered to be exempt party-in-interest transactions and are not considered prohibited transactions under the Department of Labor's Rules and Regulations.

NOTE 8 - OPERATIONAL ERROR

During 2010 and 2009, certain ineligible employees were admitted to the Plan. In 2010 and 2009, the Company corrected this error through a voluntary correction program (VCP) and has refunded these employees their contributions along with any earnings.

NOTE 9 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 20, 2011, the date the financial statements were available to be issued.
