INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of the
Fireworks by Grucci, Inc. Profit Sharing Plan

We have audited the accompanying statements of net assets available for benefits of Fireworks By Grucci, Inc. Profit Sharing Plan as of December 31, 2010 and December 31, 2009 and the related statement of changes in net assets available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Fireworks By Grucci, Inc. Profit Sharing Plan as of December 31, 2010 and the changes in its net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules on pages 9 through 12 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

FIREWORKS BY GRUCCI, INC. PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 1: Description of the Plan

The following description of the Fireworks By Grucci, Inc. Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a Prototype Defined Contribution Volume Submitter Plan and Trust offered by Associated Pension Consultants. The Plan was effective on December 1, 1986 and was amended and restated on January 1, 2002. Under the Plan, participants may elect to contribute a portion of their compensation to the Plan. In addition, the Employer may make contributions to the Plan on behalf of the participants. The Plan covers all employees of the Fireworks By Grucci, Inc. and Pyrotechnique By Grucci, Inc. who are twenty-one years of age or older. Entry date into the plan is semi-annually, on January 1, or July 1, following the date the participant meets the eligibility requirements. The plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

Contributions

The employer may make non-elective discretionary contributions to the Plan. Participants may elect to defer a portion of compensation subject to a dollar limit which is set by law. The limit for 2010 is $16,500. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. The maximum catch-up contribution is $5,500 for 2010.

Participant Accounts

Each participant's account is credited with their elective contributions, discretionary employer contributions on a percentage basis, and earnings on the investments. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The portion of the participant's account representing the participant's contributions are invested in segregated self-directed accounts.

The Company contributions are maintained in investments selected by the trustees.

Vesting

Participants are immediately vested in their contributions and any qualified non-elective contributions made by the Company plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after completing three years of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a commercially reasonable rate. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits

Mandatory distributions from the Plan will be made following severance from the Company. Benefits are recorded when paid.

Forfeited Accounts

If a participant terminates employment before being fully vested, then the non-vested portion of the terminated participant's account balance remains in the Plan and is forfeited. Forfeitures may first be used pay any administrative expenses and any remaining forfeitures attributable to non-elective contributions will be allocated as an additional discretionary non-elective contribution.

Plan Expenses

The expenses charged to the Plan may be charged pro rata to each participant in relation to the size of each participant's account balance or may be charged equally to each participant. Some types of expenses may be charged only to some participants based upon their use of a Plan feature or receipt of a distribution. Settlor expenses for the design, establishment or termination of the Plan are paid by the Company.

Note 2: Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through August 22, 2011, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles as accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contact value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on the investments bought and sold as well as held during the year.

Mutual Fund Fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to allocation of the Plan's investment earnings activity thus not separately identifiable as an expense.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Operating expenses are the responsibility of the plan and it's sponsor.

NOTE 3: Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

As of December 31, 2010		Fair Value Measurements Using:	
	Fair Value	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
Investments	$2,408,959	$ 2,408,959	$ -
Investment contract with insurance company	21,960	-	21,960
Participant loans	36,551	-	36,551
Employer Contributions Receivable	300,000	300,000	-
Participant's Contribution Receivable	3,503	3,503	-
Other Receivables	20	20	-
	$2,770,993	$ 2,712,482	$ 58,511

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of investments is based on quoted values of the shares held by the Plan at year end. The fair value of the contributions and other receivable is the face value.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by reference to information provided by the plan's administrator and the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured to each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Investment Contract	Participant Loans	Total
Beginning balance	$ 45,474	$59,504	$ 104,978
Total gains or losses (realized and unrealized) included in changes in net assets available for Benefits	981	-	981
Purchases sales, issuances, and settlements (net)	(24,495)	(22,953)	(47,448)
Ending Balance	$ 21,960	$ 36,551	$ 58,511

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2010 are reported in net appreciation in fair value of investments.

Note 4: Investments

The following presents investments that represent 5% or more of the Plan's net assets.

	Units	Amount
Bank Amer Corp Internote 5.5% PFD	6200.00	$ 149,482.00
New Dest 2035R2	139153.753	157,592.06
Federated Govt Reserves- Money Mkt Fund		145,215.04
		$ 452,289.10

Note 5: Investment Contracts with Insurance Company

The Plan has an investment in a guaranteed fixed annuity contract with Nationwide Life Insurance Company. Nationwide Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract included in the financial statements at contract value as reported to the Plan by Nationwide is $21,960 at December 31, 2010. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were approximately 1.23% for 2010. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on an annual basis for resetting.

The fair value of the investment contract at December 31, 2010 approximates contract value. The plan administrator believes that there are no events that would limit the plan's ability to transact at contract value with plan participants.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 7: Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2008, that the Plan and restated trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' balances and the amounts reported in the statement of net assets available for benefits.
