UNION NATIONAL COMMUNITY BANK 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2010
(with comparative information at December 31, 2009)

1. Description of Plan:

The following description of the Union National Community Bank (the Company) 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Union National Community Bank 401(k) Profit Sharing Plan is a defined contribution plan covering all eligible employees of Union National Community Bank. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility:

An employee who has completed three months of service shall be eligible to make a salary deferral election. Employees are eligible to receive matching contributions and discretionary profit sharing contributions after completing one year of service. Entry into the Plan is permitted on the first day of the Plan year quarter following satisfaction of eligibility requirements.

Contributions:

A participant may elect to defer a portion of compensation up to the federal annual limit. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions and employer contributions into various investment options offered by the Plan.

The Company may match elective contributions by making a contribution equal to a uniform percentage of each participant's deferred compensation. The exact percentage, if any, will be determined each year by the Company. During 2009, the amount of this contribution was 100% of the first 3% of the elective contributions, then 50% of the next 2% through May 3, 2009. The Company match was suspended, as approved by the Board of Directors, effective May 4, 2009, and remained suspended through December 31, 2010. Additionally, profit sharing contributions, if any, can be contributed at the option of the Company. Contributions are subject to certain limitations. There were no profit sharing contributions for the Plan year ended December 31, 2010.

1. Description of Plan (continued):

Participant account:

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions, Plan earnings and certain forfeitures and charged with an allocation of Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and forfeitures:

Participants are always 100% vested in their contributions and rollovers and actual earnings thereon. Participants are also immediately vested in safe harbor matching contributions previously made by the Company. Participants vest over a five-year period in the Company's other discretionary contributions plus actual earnings thereon, becoming 20% vested after one year of credited service and increasing by 20% per completed year of service thereafter.

If a participant terminates before his or her match and profit sharing accounts are fully vested, the nonvested portion of the participant's accounts is forfeited. Forfeitures attributable to employer matching contributions shall be used to reduce the employer contribution of the Plan year in which such forfeitures occur. Forfeitures attributable to employer profit sharing contributions shall be added to any employer profit sharing contributions for the Plan year in which such forfeitures occur and allocated among the participants' accounts in the same manner as any employer profit sharing contributions.

Participant loans:

Participant loans are not allowed under the Plan.

Payment of benefits:

On termination of service, a participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution, as installment payments or as an annuity. Additionally, the Plan allows for in-service hardship withdrawals where a participant may elect to receive an amount equal to his or her deferral amount.

1. Description of Plan (continued):

Plan termination:

Although the Company has not expressed any intent to do so, it reserves the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of a termination of the Plan, participants would be fully vested in the entire amount credited to their accounts up to the termination date.

2. Summary of significant accounting policies:

Basis of presentation:

The accompanying financial statements have been prepared on an accrual basis and present the net assets available for benefits and changes in those net assets.

Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation:

The Plan's investments are valued as follows: a quoted market price is used to value investments in shares of mutual funds. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. The money market fund is stated at principal value, which approximates fair value.

Common/collective trust (CCT) is a guaranteed interest contract, whose primary assets are invested in a MetLife separate account. The CCT is stated at fair value based upon the market value of separate accounts in which the contract participates.

2. Summary of significant accounting policies (continued):

Investment valuation (continued):

An adjustment to fair value is made to adjust the benefit-responsive investment contracts of the common/collective trust to contract value. Contract value represents contributions, plus interest, minus withdrawals. An investment contract is valued at contract value, rather than fair value, to the extent it is fully benefit-responsive.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the adjustments of the investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Benefits to participants:

Benefits are charged to expense during the period when participants receive payment.

Administrative expenses:

The majority of administrative expenses are paid by the Plan Sponsor, except for certain expenses paid with the use of forfeitures.

Subsequent events:

The Plan has evaluated subsequent events through August 11, 2011, the date which the financial statements were available to be issued.

3. Certified investment information:

Investment information disclosed in the accompanying financial statements and schedule, specifically investments held at December 31, 2010 and 2009 and net appreciation of investments and investment earnings for the year ended December 31, 2010, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Reliance Trust Company, the trustee of the Plan.

3. Certified investment information (continued):

In 2010, the Plan's mutual funds and CCT (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $529,924 and $97,432, respectively. Dividend earnings for mutual funds totaled $101,908 and interest earned on the money market fund totaled $7.

The following summary is based on the information provided by the trustee, Reliance Trust Company. Each participant may choose to invest contributions in any or all funds. Investments as of December 31 are as follows:

		2010	2009
Money market fund, Fidelity Cash Reserves		$ 1,340	$ 23,703

(a) The schedule reflects the fair value. The contract value of the investment at December 31, 2010 and 2009 was $2,868,957 and $3,124,648, respectively.

4. Fair value measurement:

The Plan ranks investments in a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical investment.

Level 2 – Other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Significant unobservable inputs (including the Plan's own assumptions in determining the fair value of investments). The Plan does not hold any Level 3 investments.

See Note 2 for a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

4. Fair value measurement (continued):

The fair values of assets measured on a recurring basis at December 31, 2010 and 2009 are as follows:

		Fair value measurements using

Money market funds	$ 1,340	$ 1,340	
Mutual funds	5,932,638	5,932,638	
Common/collective trust	2,913,818		$ 2,913,818
Total	$ 8,847,796	$ 5,933,978	$ 2,913,818

Mutual funds	4,839,137	4,839,137	
Common/collective trust	3,034,036		$ 3,034,036
Total	$ 7,896,876	$ 4,862,840	$ 3,034,036

5. Tax status of the Plan:

The Plan obtained its latest determination letter on July 28, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan administrator believes that the Plan, as amended, is currently designed and operating in accordance with the applicable provisions of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan constitutes an exempt trust under Section 401(a) of the Internal Revenue Code and is exempt from federal income taxes under Section 501(a).

6. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
