These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by ADP Retirement Services, Inc. Note 1 - Plan Description

The following description of Creative & Response Research Services, Inc. Profit Sharing and 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Creative & Response Research Services, Inc. (the "Company") who have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) and Roth 401(k) contributions up to a maximum of 80 percent of annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for discretionary employer matching contributions of 50 percent of participant deferrals, up to 4 percent of a participant's deferred compensation. Participants who have completed 12 months of service are eligible to receive discretionary employer matching contributions. There were no discretionary employer matching contributions for the year ended December 31, 2010.

The Company may also make annual discretionary profit-sharing contributions. Participants who have completed 12 months of service on or before the last day of the year and continue employment through the last day of the year are eligible to receive an allocation of the Company's discretionary contribution. There were no profit-sharing contributions for the year ended December 31, 2010.

In order to maintain the tax status of the Plan, the plan sponsor was required to make qualified nonelective contributions in 2010 and 2009. These required contributions were approximately $169,000 and $138,000 for 2010 and 2009, respectively, and any portion not paid to participants by year end is included in the contribution receivable balance in the statement of net assets. Company contributions of $85,957 and $154,458 were properly remitted to the Plan during 2011 and 2010, respectively.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, plan earnings, and forfeitures of terminated participants' nonvested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary employer matching and profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service beginning at 10 percent for the first two years of service, and increasing 20 percent for each year of continuous service thereafter. A participant is 100 percent vested after six years of continuous service with the Company.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are allocated to the remaining participants in the same proportion of each participant's compensation for the plan year in relation to the compensation of all participants for the plan year.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount or in fixed installments with a fixed period equal to the vested balance of a participant's account. Participants may take in-service withdrawals of any part of their vested account balance resulting from rollover contributions.

Participant Notes Receivable - Participants may borrow from their accounts up to a maximum of 50 percent of their vested account balance, not to exceed $50,000. Participant notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals. The participant is prohibited from contributing to the Plan for a period of six months from the date of the withdrawal.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets were in investment funds managed by JPMorgan Chase Bank, N.A. or its affiliates and State Street Bank and Trust Company or its affiliates. JPMorgan Chase Bank, N.A. and State Street Bank and Trust Company were trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for a common collective trust fund that invests in fully benefit-responsive investment contracts, commonly referred to as a stable value fund, which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the stable value common collective trust fund is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. The fair value of the remaining common collective trust fund is valued at net asset value per share (or its equivalent) of funds, which is based on the fair value of the fund's underlying assets. All other investments are valued based on quoted market prices. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

New Accounting Pronouncements - During 2010, the Plan adopted the provisions of a new accounting standard which requires that defined contribution plans classify participant loans as participant notes receivable rather than as investments as was previously required. This standard was adopted retroactively and, as a result, the December 31, 2009 participant loans have been reclassified from investments to participant notes receivable. The adoption of this standard had no impact on the Plan's net assets or changes in net assets.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 2, 2011, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

During 2010, the Plan engaged ADP Retirement Services, Inc. (ADP) to be recordkeeper for plan assets held by JPMorgan Chase Bank, N.A. (JPMorgan). ADP, as agent for JPMorgan, certified investment income from January 1, 2010 to June 24, 2010.

Effective June 25, 2010, the Plan engaged State Street Bank and Trust Company (State Street) as trustee of the Plan. State Street certified investment balances in the financial statements and supplemental schedule of assets held at end of year as of December 31, 2010 and investment income from June 25, 2010 to December 31, 2010. As of December 31, 2009, JPMorgan certified investment balances included in the accompanying financial statements and supplemental schedule of assets held at end of year.

JPMorgan and State Street held the Plan's investment assets and executed related transactions. The investment balances and investment results included in the accompanying financial statements and schedule of assets held at end of year are based solely on information certified by State Street, ADP, and JPMorgan.

Note 3 - Unaudited Information (Continued)

Significant investments at year end are as follows:

	2010	2009
Common collective trust funds:		
ABN AMRO Income Plus Fund (contract value)	$ 1,567,221	$ 1,483,843
SSgA S&P 500 Index Fund (fair value)	681,416	557,913
Mutual funds - At fair value:

Janus Balanced Fund	530,017	490,042
Baron Growth Fund	-	1,158,646
Allianz CCM Cap APP Fund	-	555,168

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the prototype plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Note 5 - Reconciliation to Form 5500

The net assets and changes in net assets on the financial statements differ from the net assets and changes in net assets on Form 5500 due to a common collective trust fund being recorded at contract value on the financial statements and at fair value on Form 5500. At December 31, 2010, the net assets on the financial statements were lower than those on Form 5500 by $6,129. At December 31, 2009, the net assets on the financial statements were higher than those on Form 5500 by $31,163. Additionally, the changes in net assets on the financial statements is lower by $37,292 than those on Form 5500 for the year ended December 31, 2010.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

Note 6 - Fair Value Measurements (Continued)

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2010 and 2009 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

(a) This class represents investments in actively managed common collective trust funds with investments primarily in equity securities. The investments may include common stocks, options, and futures.

(b) This class represents investments in actively managed common collective trust funds that invest primarily in investment contracts, which may include guaranteed investment contracts, money market funds, money market instruments, repurchase agreements, private placements, bank investment contracts, and synthetic guaranteed investment contracts. Investments are valued at the fair value per share multiplied by the number of shares held as of the measurement date.

For both classes noted above, there were no unfunded commitments and no redemption limitations or notice periods.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period. For the year ended December 31, 2010, there were no transfers between levels of the fair value hierarchy.
