CONNEY SAFETY PRODUCTS

NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

NOTE 1 - Description of the Plan

The following description of the Conney Safety Products Retirement Plan (the "plan") provides only general information. Participants should refer to the plan's summary plan description for a more complete description of the plan's provisions.

General

The plan is a defined contribution plan established by Conney Safety Products, LLC (the "company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). All employees who have completed at least 90 days of service with the company, as defined in the plan, and are age 18 or older are eligible to participate. Upon enrollment in the plan, which occurs the first day of the plan quarter after eligibility requirements are met, a participant may direct employer and employee contributions to any combination of available investment options. In order to receive discretionary company matching contributions, employees must have completed at least 1,000 hours of service during the plan year and be employed by the company on the last day of the plan year, as defined in the plan.

Contributions

Each year, participants may contribute up to 80% of pretax annual compensation (salary reduction contributions), as defined in the plan. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). Prior to 2009, the company matched 100% of the employee contributions up to 5% of the participant's compensation (safe harbor matching contributions).

On January 1, 2009, the plan was amended to eliminate the company safe harbor matching contributions. Effective the same date, the plan was amended to allow company matching contributions equal to a discretionary percentage of participant salary deferrals as determined by the company each year. During 2010 and 2009, no discretionary contribution was contributed by the company. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction, rollover, safe harbor matching, and discretionary company matching contributions plus earnings thereon.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the plan agreement. The plan provides for normal retirement at age 62. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment or installments. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the plan.

NOTE 1 - Description of the Plan (cont.)

Termination of Plan

Although it has not expressed any intent to do so, the company has the right under the plan to terminate the plan at any time subject to the provisions of ERISA.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at rates that range from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Administrative Expenses

The company pays a portion of the plan's administrative expenses.

Subsequent Events

The plan has evaluated subsequent events through September 16, 2011, which is the date that the financial statements were available to be issued, for events requiring recording or disclosure in the plan's financial statements. See Note 8 for subsequent event disclosure.

Reclassification

For comparability, certain 2009 amounts have been reclassified to conform with classifications adopted in 2010.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Investment Valuation and Income Recognition

The plan's investments are valued at fair value using quoted market prices. Investments in guaranteed investment contracts that are fully benefit responsive are valued at contract value, which approximates fair value.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in the fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

The plan invests in collective investment funds that determine their fair value using the net asset value (NAV) of the funds. The NAV is determined by each fund's trustee using the fair value of the underlying securities within the fund at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

In September 2010, the Financial Accounting Standards Board (FASB) released Accounting Standards Update (ASU) 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans. The ASU clarifies how loans to participants should be classified and measured by defined contribution pension benefit plans. Participant loans were previously classified as investments at fair value. The ASU requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. As required under the ASU, the plan has retrospectively adopted the ASU for the plan year ended December 31, 2009.

The adoption of the ASU impacted the classification of participant loans on the statement of net assets available for benefits, but had no impact on net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS December 31, 2010 and 2009

NOTE 3 - Information Prepared and Certified by Trustee - Unaudited (cont.)

During the year ended December 31, 2010, the plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Collective Investment Funds	\$ 147,517
Mutual Funds	<u>299,443</u>
Net Change in Fair Value of Investments	446,960
Interest and dividends	<u>57,467</u>
Net Investment Return Certified by Trustee	<u>\$ 504,427</u>

Accrued income as reported was \$1,979 and \$2,105 at December 31, 2010 and 2009, respectively.

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 4 - Fair Value Measurements

The plan follows accounting principles generally accepted in the United States of America for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Quoted market prices in active markets for identical assets or liabilities.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3 - Unobservable inputs that are not corroborated by market data.

The plan sponsor is responsible for the determination of fair value and has not historically adjusted the prices obtained from the pricing services.

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy.

NOTE 5 - Amount Owed to Participants Withdrawing From the Plan

There were no significant amounts owed to participants who have withdrawn from the plan as of December 31, 2010 and 2009.

NOTE 6 - Parties In Interest

Certain plan investments are shares of mutual funds managed by the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services are with the trustee and are party in interest transactions. The plan allows for loans to be taken out by plan participants, which are considered party-in-interest transactions.

NOTE 7 - Tax Status

The plan is a prototype plan document with a determination letter dated March 31, 2008. The plan administrator believes that the plan, as amended, is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator believes that the plan was qualified and the related trust was tax-exempt at the financial statement date. Therefore, no provision for income taxes has been included in the plan's financial statements. Subsequent to December 31, 2010, the plan obtained a new determination letter dated January 10, 2011.

NOTE 8 - Subsequent Events

Effective January 1, 2011, the plan added the T. Rowe Price Real Estate Fund, the T. Rowe Price Income Fund, various T. Rowe Price target retirement funds (ranging from 2015 to 2055), the Oppenheimer International Bond Y Fund, and the Columbia Acorn International A Fund.

Effective January 1, 2011, the plan was amended to allow participants to make post-tax Roth contributions.

On July 1, 2011, the company acquired the assets and employees of an existing business. The company will offer participation to this new group of employees on October 1, 2011, the start of the first quarter following the acquisition.
