Report of Independent Certified Public Accountants

Trustees
The Centech Group, Inc. Retirement Savings Plan

We were engaged to audit the financial statements of The Centech Group, Inc., Retirement Savings Plan as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes C and D, which were certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the certified Plan assets, and executes the related transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and do not express, an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants, and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A—DESCRIPTION OF PLAN

The following description of The Centech Group, Inc. (the Company), Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, (ERISA) and was adopted by the Company effective March 1, 1992. The Plan is intended to encourage savings by employees, assist them in meeting their retirement needs and supplement retirement benefits, and induce them to remain in the employment of the Company. Employees are eligible to participate in the Plan at any age. The entry date for new hire contributions is on the date of hire.

The matching methodology was last amended on January 1, 2010 to effectuate a reduction in the Company's matching percentage.

Fidelity Management Trust Company is responsible for the administration, management, and investment of the Plan's assets.

Contributions

Participants may voluntarily elect to contribute up to 90 percent of their pre-tax annual compensation, excluding bonuses, subject to certain limitations as defined in the Plan. Participants may also roll over into their salary-deferred contributions accounts lump-sum cash distributions from other qualified plans.

Effective January 1, 2010, the participants' contributions are matched by the Company at 100 percent of employee contributions up to a maximum of 3 percent of each employee's eligible annual compensation and a 50 percent match of employee contributions over 3 percent up to a maximum of 12 percent of each employee's annual compensation. The Plan also provides for discretionary profit-sharing contributions. Such contributions, if any, are determined by the Board of Directors of the Company. There was no discretionary profit sharing contribution made for 2010.

Participant Accounts

Participants are entitled to benefits based on the vested balances of their accounts as defined in the Plan.

Each participant's, account is credited with the participant's and Company contributions and allocations of Plan earnings and charged with an allocation of Plan losses. Allocations are based on participant compensation or account balances, as defined.

NOTE A—DESCRIPTION OF PLAN—Continued

Vesting, Distributions, Withdrawals and Forfeitures

Participants are fully vested in their contributions plus actual earnings thereon. Vesting of employer contributions accounts is based on years of service as follows:

Years of Service	Vested Percentage
Less than 1	0%
1	34%
2	67%
3	100%

A year of service is based on a Plan year in which the participant is credited with 1,000 hours of service. Participants will automatically vest 100 percent in their employer contributions upon the earlier of their normal retirement age (65), disability, or death.

Participants and beneficiaries may receive distributions from the Plan upon attaining age 59½, at death, termination of employment with the Company, or hardship withdrawal, as defined by the Plan. The Company will pay the vested amounts due to participants in a lump sum, or under a systematic withdrawal plan. Participants who terminate from the Company immediately forfeit their non-vested benefits.

At December 31, 2010 and 2009, forfeiture nonvested accounts totaled $11,262 and $108,464, respectively. These accounts will be used to reduce future employer contributions. Also in 2010, employer contributions were reduced by $80,500 from forfeited nonvested accounts.

Notes Receivable from Participants

Participants are eligible to obtain loans from the Plan in an amount not to exceed the lesser of 50 percent of the vested plan benefit balance, or $50,000. The minimum amount for new loans is $1,000. The interest rate on loans is fixed at 1 percent greater than the prevailing prime commercial rate at the date the loan is made. The loans are secured by the balance in the participant's account. The term of the loan may not exceed five years, except loans granted for the purchase of a primary residence, which may not exceed 10 years, or such shorter term as defined by the Plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Plan Administrative Expenses

The Company pays substantially all of the administrative expenses related to the operation of the Plan.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting

The Plan uses the accrual basis of accounting for the presentation of the financial statements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in a stable value fund (common/collective trust) which holds fully benefit-responsive contracts. The Statements of Net Assets Available for Benefits present the fair value of the investment in the Stable Value Fund as well as the adjustment of the investment in the Stable Value Fund from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates in Preparing Financial Statements

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as revenue and expenses during the reporting period. Actual results could differ from those estimates.

Benefit Payments

Benefits are recorded when paid.

Adoption of New Accounting Standards

In January 2010, the Financial Accounting standards Board (FASB) issued ASU No. 2010-06, *Improving Disclosures about Fair Value Measurements*, which amended the *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures* to clarify existing disclosures and require new disclosures about fair value measurements. The clarifications and the requirement to disclose the amounts and reasons for significant transfers between Level 1 and Level 2 and significant transfers into and out of Level 3 of the fair value hierarchy are effective for periods beginning after December 15, 2009. The new requirement that purchases, sales, issuances, and settlements be presented gross in the Level 3 reconciliation is effective for fiscal years beginning after December 15, 2010 and for interim periods within those years, with early adoption permitted. The adoption of ASU 2010-06 did not impact the fair value determination of applicable investments; however, it did require additional disclosures.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued

In September 2010, FASB issued an amendment, Plan Accounting – Defined Contribution Pension Plan (Topic 962): Reporting Loans to Participants by *Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contributions plans. That guidance requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant's loans of $188,676 for the year ended December 31, 2009 from investments to notes receivable from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

Effect of Future Accounting Pronouncements

The plan is not aware of any future accounting pronouncements which would require recognition or disclosure in the accompanying financial statements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the plan document.

NOTE C—INFORMATION CERTIFIED BY THE PLAN TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2010 and 2009.
- Investment income and interest on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2010.
- Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2010.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE D—INVESTMENTS

The following investments represent 5 percent or more of net assets available for benefits as of December 31:

	2010	2009
Legg Mason Value Trust	$ 1,569,082	$ 1,518,567
Heartland Value	1,628,169	1,378,769
Fidelity Advisor Equity Income	1,639,255	1,582,191
Fidelity Advisor Strategic Income	1,730,243	1,574,418
Fidelity Advisor Dividend Growth	942,537	829,945
Fidelity Advisor Diversified International	1,113,537	1,122,193
Fidelity Advisors Energy	1,457,854	1,129,622
Fidelity Advisor Stable Value	1,132,913	1,469,593

During 2010, the plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year), appreciated in value by $1,657,767.

NOTE E—FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are deprived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE E—FAIR VALUE MEASUREMENTS—Continued

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year-end.

Common collective trust: The Fidelity Advisor Stable Value Fund Portfolio is stated at fair value and then adjusted to contract value. Fair value is measured as the net asset value (NAV) per unit based on the fair value of the underlying investments, and contract value is the principal plus accrued interest.

Money market funds: Valued at original cost plus interest.

The methods described above may produce a fair calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total

The Plan is applying the practical expedient as of December 31, 2010 to its investment in the Fidelity Advisor Stable Value Portfolio ("Portfolio"), a common/collective trust fund. The Portfolio's investment objective is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital. Participants' ownership of the Portfolio is represented as units. Units are issued and redeemed daily at the Portfolio's constant NAV of $1 per unit. The Portfolio allows for daily liquidity with no additional days notice required for redemption. It is the policy of the Portfolio to use its best efforts to maintain a stable NAV of $1 per unit, although there is no guarantee that the Portfolio will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment in the Portfolio at contract value. Contract value represents contributions made to the Portfolio, plus earnings, less participant withdrawals and administrative expenses. The Portfolio imposes certain restrictions on the Plan, and the Portfolio itself may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs.

The Portfolio invests in assets (typically fixed income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into "wrapper" contracts issued by third parties and invests in cash equivalents represented by shares in a money market fund. A wrap contract is an agreement by another party, such as a bank or insurance company, to make payments to the Portfolio in certain circumstances. Wrap contracts are designed to allow a Portfolio to maintain a constant NAV and protect a Portfolio in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay a Portfolio the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted.

NOTE E— FAIR VALUE MEASUREMENTS—Continued

Fidelity seeks to minimize the exposure of the Portfolio to wrap credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers. The Portfolio is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets that are not otherwise invested in money market funds. The Portfolio is presented in the Statements of Net Assets available for Benefits at fair value with an adjustment to contract value.

The contract value of the investment as of December 31, 2010 and 2009 was $1,111,727 and $1,471,516, respectively. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuers of the underlying wrap contracts, but it may not be less than zero percent. Crediting rates are reset monthly. For the years ended December 31, 2010 and 2009, the average yield based on actual earnings was 1.57% and 2.96%, respectively, and on the interest rate credited to participants was 2.44% and 2.21%, respectively.

The following Plan sponsor-initiated events may limit the ability of the Plan to transact at contract value:

- The Plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code.
- Any communication given to Plan participants designed to influence a participant not to invest in the Portfolio or to transfer assets out of the Portfolio.
- Any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the Portfolio's cash flow.
- Any transfer of assets from the Portfolio directly into a competing investment option.
- The establishment of a defined contribution plan that competes with the Plan for employee contributions.
- Any substantive modifications of the Portfolio or the administration of the Portfolio that is not consented to by the wrap issuer.

The Portfolio is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets that are not otherwise invested in money market funds. For example, this could result from the Portfolio's inability to promptly find a replacement wrap contract following termination of a wrap contract. The wrap issuer's ability to meet its contractual obligations under the wrap contracts may be affected by future economic and regulatory developments. In the event that wrap contracts fail to perform as intended, the Portfolio's NAV may decline if the market value of its assets declines.

The Portfolio is presented in the statement of net assets at fair value with an adjustment to contract value. Plan management believes the occurrence of events that would cause the Portfolio to transact at less than contract value is not probable.

NOTE F—RELATED PARTY TRANSACTIONS

Plan investments are managed by the Plan's trustee and, as such, these transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA. Fees paid during the year for legal, accounting, actuarial and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

NOTE G—PLAN TERMINATION

Although the Company has not expressed any intent to do so, it has the right to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

NOTE H—TAX STATUS

The Plan uses a non-standardized prototype plan document administered by Fidelity Management Trust Company, which has received an opinion letter from the Internal Revenue Service (the "IRS"), dated March 31, 2008, stating that the prototype document satisfies the applicable provisions of the Internal Revenue Code (the "IRC"). The Plan has not requested its own determination letter from the IRS and is relying on the opinion letter issued to Fidelity Management Trust Company pursuant to Revenue Procedure 2005-6. The Plan has been amended since receiving such determination letter. However, the Sponsor and Plan management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

December 31, 2010 and 2009

NOTE I—RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE J—RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

December 31,	2010	2009
Net assets per the financial statements	$ 17,826,795	$ 15,747,308
Adjustment from contract value to fair value for common/collective trust	21,186	(1,923)
Net assets per Form 5500	$ 17,847,981	$ 15,745,385

The following is a reconciliation of changes in net assets per the financial statements to the Form 5500:

Year ended December 31, 2010	
Increase in net assets, per the financial statements	$ 2,079,487
Change in adjustment from contract value to fair value for common/collective trust	23,109
Net income per Form 5500	$ 2,102,596

NOTE K—SUBSEQUENT EVENTS

The Plan evaluated subsequent events through September 22, 2011, the date the financial statements were available to be issued.

During 2011, the Company determined that a partial plan termination had occurred during the 2010 Plan year. Plan management will be making corrective contributions to replace forfeitures such that affected participants are 100% vested and will make additional distributions as necessary in order to maintain the qualified tax status of the Plan.
