WASHINGTON GOVERNMENT ENVIRONMENTAL SERVICES SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Washington Government Environmental Services Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan.

General: In November 2007, Washington Group International, Inc. (the "Company") was acquired by URS Corporation, and is now referred to as the Energy & Construction business of URS.

Washington TRU Solutions, LLC and West Valley Environmental Services LLC, majority-owned subsidiaries of the Company, comprise the "Employers" with respect to the Plan.

The Plan is a defined contribution plan generally covering all employees who (1) are in the regular service of the Employers, (2) are eligible to work in the United States, (3) are not covered by a collective bargaining agreement unless written agreement is made between representative and Employers and (4) are not currently covered by another government contract defined contribution plan of the Employers.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant accounts: A separate account is maintained for each Plan participant. Participant accounts include voluntary contributions, Employer-match contributions, and an allocation of investment earnings based on the number of shares held in a participant's account. The benefit to which a participant is entitled at any given time is 100 percent of their contribution, their vested portion of the Employer contributions, and any earnings (losses) attributable to these contributions.

Participant contributions: Participants may contribute from 1 to 35 percent of their annual eligible compensation in increments of one percent on an after-tax basis, pre-tax basis or a combination of both, subject to certain Internal Revenue Code ("IRC") limitations. Eligible compensation, as defined by the Plan, includes wages and other payments for which the Employers are required to furnish the participant a written statement on Form W-2, exclusive of incentive payments as defined in the Plan. Participants age 50 and over may make additional "catch-up" contributions, subject to certain IRC limitations. Participants may also contribute amounts representing distributions from other qualified IRC 401(a) defined contribution plans.

Employer contributions: The Employers contribute 50 percent of the first 6 percent of a participant's annual eligible compensation contributed to the Plan.

Investment options: Participants may direct contributions, including the Employer match, in 1 percent increments into a variety of diversified investment fund options allowed by the Plan. Participants may change their investment options at any time.

Vesting: Participants are immediately vested in their contributions, including earnings thereon. Participants vest in Employers contributions over a five-year period at 20 percent per year. For full-time employees and those regularly scheduled to work more than twenty-four (24) hours per week, vesting service is earned in fractional years based on a decimal ratio of actual calendar days of service to the number of days in that year. For employees regularly scheduled to work less than 24 hours a week, one year of vesting service is earned for each Plan year that a participant is credited with at least 1,000 hours of service and fractional years are earned

for calendar years in which less than 1,000 hours are worked. Upon retirement or death, participants are vested immediately.

Payment of benefits: When a participant separates from service prior to age 65 and the participant's vested account balance is $1,000 or less at the time of separation, such account will be distributed in a lump sum within ninety days following the participant's separation from service date (or as soon as practicable thereafter). If a participant's account balance is more than $1,000, the participant may retain the account balance in the Plan until age 65. If a participant has separated from service and is age 65 or older, the Plan shall begin distribution of the participant's account. Active participants may apply for a withdrawal from their account if they are over age 59½ or show financial hardship. Retired participants must commence receiving required minimum distributions after attainment of age 70½.

Forfeitures: Participants who terminate employment may receive a distribution of their vested account balance. The non-vested portion of their account, if any, is forfeited and used to reduce Employer contributions. However, no amounts will be forfeited due to transfer of employment to Westinghouse Electric Company LLC, British Nuclear Fuels plc, URS Corporation, or any subsidiaries of these entities. During the years ended December 31, 2010 and 2009, Employer contributions were reduced by $16,491 and $10,175, respectively, from non-vested accounts. The assets in the Plan related to forfeited non-vested accounts at December 31, 2010 and 2009 were $0 and $1,067, respectively.

Notes receivable from participants: Participants may borrow from $1,000 to $50,000, not to exceed 50 percent of their vested balance. Participant loans are secured by the balance in the participant's account. Interest rates are fixed for the term of the loan and are established based on the prime interest rate plus one percent, updated monthly. Principal and interest are repaid ratably through payroll deductions.

Plan termination: Although the Employers have expressed no intent to do so, the Plan gives the Employers the right to discontinue its contributions or to terminate the Plan at any time, subject to the provisions of ERISA. In the event of termination, participants become 100 percent vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Recently adopted accounting standards: In September 2010, the FASB issued ASU 2010-25, *Plan Accounting – Defined Contribution Pension Plans (Topic 962) – Reporting Loans to Participants by Defined Contribution Pension Plans.* ASU 2010-25 requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This ASU was adopted in these financial statements and the Plan has reclassified participant loans of $3,770,961 as of December 31, 2009 from investments to notes receivable from participants. The Plan has also reclassified $237,874 of interest income on notes receivable from participants out of investment income for the year ended December 31, 2009. Net assets available for benefits

of the Plan were not affected by this change.

Valuation of investments: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note 4 for a description of fair value measurements under the Accounting Standards Codification ("ASC") 820).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from these estimates.

Payment of benefits: Benefit payments to participants are recorded upon distribution. As of December 31, 2010 and 2009, there were no elected distributions that were paid in the following year.

Administrative expenses: For 2010, no administrative expenses related to the Plan were paid by the Plan. For 2009, certain administrative expenses related to the Plan were paid by the Plan as provided by the Plan document. The Company provides accounting and other administrative services to the Plan at no charge.

Subsequent events: The Plan has evaluated subsequent events through September 27, 2011, the date the financial statements were available to be issued.

3. INVESTMENTS

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the near term could materially affect the amounts reported in the financial statements.

Investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	Fair Value	
As of December 31,	**2010**	**2009**
Stable Value Fund	$59,569,674	$58,061,206
Growth Stock Fund	13,911,727	12,036,575
Equity Index Trust	11,197,964	9,768,273
Capital Appreciation Fund	8,142,276	7,690,540
International Equity Index	*	6,868,995

* Investment was less than 5% of the Plan's net assets available for benefits as of the end of the year.

During the years ended December 31, 2010, and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

For the Years Ended December 31,	2010	2009
Mutual funds	$8,236,208	$13,743,870
Common trust funds, excluding fully benefit-responsive contracts	1,457,987	2,027,553
Net appreciation	$9,694,195	$15,771,423

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs into three broad levels: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets; Level 2 inputs are quoted prices for similar assets in active markets or inputs that are observable for the asset, either directly or indirectly through market corroboration, for substantially the full term of the asset; and Level 3 inputs are unobservable and significant to the fair value measurement. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Following is a description of the hierarchy and valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used in December 31, 2010 and 2009.

Level 1: Shares of mutual funds are based on quoted prices of the fund in active markets.

Level 2: Common trust funds, including the fully benefit-responsive contracts, are based on quoted prices for identical or similar assets in active markets, quoted prices for identical or similar assets in inactive markets, inputs other than quoted prices that are observable for the asset, and/or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: The Plan did not have any Level 3 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value

6. TAX STATUS

The Internal Revenue Service has determined and informed the Plan by a letter dated October 27, 2008, that the Plan, as amended through August 2007, and related trust were designed in accordance with applicable regulations of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable provisions of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for federal income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset)

or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. INFORMATION CERTIFIED BY PLAN TRUSTEE

The Plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, no independent auditing procedures were performed with respect to the information certified by T. Rowe Price Trust Company, the trustee, as of December 31, 2010 and 2009.

The information certified by the trustee were the annual reports and accounting for the years ending December 31, 2010 and 2009, which include beginning and ending balances of assets, and a detailed listing of the transactions in the various funds, including investment earnings.

8. RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by T. Rowe Price. T. Rowe Price is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

9. SUBSEQUENT EVENT

On May 31, 2011, the Plan transferred $49,875,645 in assets to a newly created plan, the West Valley Savings Plan. The West Valley Savings Plan covers active employees, former employees, and retirees of the West Valley Demonstration Project site. The Plan was renamed and is now known as the Waste Isolation Pilot Plant ("WIPP") Savings Plan and covers active employees, former employees, and retirees of the WIPP site. On June 30, 2011, $31,513,449 in assets that belong to legacy retirees and former employees who are not covered under the Plan were transferred to the URS Corporation 401(k) Retirement Plan, the parent company's 401(k) plan. The trustee and record keeper for the Plan and the West Valley Savings Plan continues to be T. Rowe Price.
