Note 1 - Description of Plan

The following description of East Balt, Inc. 401(k) Plan (the plan) provides only general information. Participants should refer to the plan agreement for a complete description of the plan's provisions. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan is a 401(k) savings plan.

Eligibility

All employees who are at least 21 years of age are eligible to enter the plan. Eligible employees can enter the plan on January 1, April 1, July 1 or October 1, following the date that the eligibility requirements are met. Part-time and union employees are not eligible for participation in the plan.

Participant Contributions

An eligible employee may elect to contribute pretax earnings to the plan, subject to the limitations of the Internal Revenue Code. These contributions are not subject to federal income tax until withdrawn. Eligible employees may also contribute, with the consent of the plan administrator, amounts representing distributions from other qualified defined benefit or defined contribution plans. Contribution rates may be changed monthly.

Vesting

All participants are immediately 100% vested in their 401(k) plan accounts.

Notes Receivable from Participants

Participants may borrow, from their fund accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one half of their vested account balance. Loan transfers are treated as transfers to (from) the investment fund from (to) the participant loan fund. Loan terms range from one to five years. Loans for the purchase of a principal residence can be paid over a reasonable period of time, which may exceed five years. Participants may not have more than one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest based on prevailing rates as determined by the plan sponsor. Interest rates range from 4.25% to 9.25%. Principal and interest are paid ratably through periodic payroll deductions.

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump-sum amount or installments over a period not to exceed the participant's assumed life expectancy, equal to the value of his or her account.

Participant Accounts

Each participant's account is credited or charged, as applicable, with the participant's contribution and allocations of plan earnings.

Note 1 - Description of Plan (Continued)

Administration of the Plan

The plan sponsor and plan administrator is East Balt, Inc. Hartford Retirement Services, LLC is the third party administrator of the plan. All investments are self-directed by plan participants. Administration costs are paid by the plan to the extent not paid by the plan sponsor.

Investment Options

Upon enrollment in the plan, a participant may direct employee deferral contributions into a variety of money market fund, mutual fund and common collective trust investment options. Participants may change their investment options on a daily basis.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the plan are prepared under the accrual method of accounting.

Notes Receivable from Participants

Effective January 1, 2010, the plan retrospectively adopted updated accounting principles generally accepted in the United States of America (GAAPUSA) regarding the reporting of loans to participants by defined contribution plans. Such loans are now required to be presented as “notes receivable from plan participants” that are measured at their unpaid principal balance plus any accrued but unpaid interest. Prior to this change, loans to participants were presented as investments that were measured at fair value. This change resulted in a reclassification of \$214,400 from investments to notes receivable from participants in the 2009 statement of net assets available for benefits. In addition, fair value measurement disclosures regarding loans to participants are no longer required. Delinquent loans are reclassified as distributions based on the terms of the plan document.

Investments

Investments are reported at fair value in accordance with GAAPUSA. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Effective January 1, 2010, the plan adopted new guidance that requires the plan to report significant transfers between Level 1 and Level 2 and the reasons for those transfers, as well as disclosing the reasons for transfers in or out of Level 3. Additionally, the guidance requires the plan to clarify existing disclosure requirements about the level of disaggregation and inputs and valuation techniques. The adoption of this guidance did not have an impact on the plan’s financial statements.

Note 2 - Summary of Significant Accounting Policies

Investments (Continued)

The new guidance also requires the reconciliation of changes in Level 3 fair value measurements to present purchases, sales and settlements separately on a gross basis rather than as a net amount, effective for fiscal years beginning after December 15, 2010. The plan does not expect the adoption of the guidance for Level 3 activity to have a significant impact on its financial statements.

The plan's investments are exposed to risks such as interest rate, credit and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near term and could materially affect the amounts reported in the financial statements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fixed Fund

Under GAAPUSA, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in fully benefit-responsive investment contracts held in the Fixed Fund. The Fixed Fund is a common collective trust, which qualifies as a fully benefit-responsive investment contract. Since the fair value and contract value of the Fixed Fund are approximately equal for both 2010 and 2009, the plan's financial statements do not include a separate line item that reconciles the difference between the two values. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Management Estimates

The preparation of financial statements in conformity GAAPUSA requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The plan administrator has evaluated subsequent events through September 26, 2011, the date the 2010 financial statements were available to be issued and September 21, 2010 with respect to the comparative 2009 financial statements.

Note 3 - Fair Value Measurements

GAAPUSA defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, in the absence of a principal market, the most advantageous market accessible to the reporting entity as of the measurement date. Under GAAPUSA, the principal market is the market in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. The most advantageous market, which may be a hypothetical market, is the market in which the reporting entity would sell the asset or transfer the liability with the price that maximizes the amount that would be received for the asset or minimizes the amount that would be paid to transfer the liability, considering transaction costs in the respective market.

GAAPUSA describes three approaches to measuring fair value: the market approach, the income approach and the cost approach. Each approach includes multiple valuation techniques. GAAPUSA does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques based on the degree to which such inputs are observable to market participants. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk.

The plan's investments are classified in one of the following three categories based on the inputs used to determine their respective fair values.

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data. These inputs may include quoted prices for similar assets or liabilities in active markets as well as quoted prices for identical or similar assets or liabilities in inactive markets.
- Level 3 - Unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

When the inputs used to value an investment fall into more than one level, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and is dependent on factors specific to the investment. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 3 - Fair Value Measurements (Continued)

As of December 31, 2010 and 2009, the following valuation methods have been used to value the plan's investments:

- Mutual funds - Valued at the reported net asset value (NAV) of the shares held by the plan at year-end.
- Money market fund - Valued at an NAV of \$1 as reported by the fund manager.
- Common collective trusts - Valued at the NAV per unit as determined by the manager of the trust. Such NAV is based on the value of the underlying assets and liabilities of the trust. Participants may transfer in and out of such trusts on a daily basis without any prohibitive restrictions.

The methods described above might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the different methodologies or assumptions used to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following tables summarize the plan's financial assets that are measured at fair value on a recurring basis as of December 31, 2010 and 2009:

For the year ended December 31, 2010, the plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by \$620,175.

Note 4 - Investments (Continued)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for the year ended December 31, 2010. Accordingly, Reliance Trust Company, the plan's custodian, has certified to the completeness and accuracy of the plan's investments reflected in the statement of net assets available for benefits as of December 31, 2010 and 2009, the schedule of assets held at end of year as of December 31, 2010, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2010, as indicated above and in total.

Note 5 - Plan Termination

While the plan is intended to be permanent, it may be terminated at the discretion of the company subject to the provisions of ERISA. Upon termination of the plan the trustee may commence distribution to each participant.

Note 6 - Party-in-Interest Transactions

Certain plan investments are common collective trust and mutual fund shares managed by MFS Retirement Services, Inc. MFS Retirement Services, Inc., a subsidiary of Sun Life, provided business services to Hartford Retirement Services, LLC in 2010. As a result, transactions relating to MFS Retirement Services, Inc. investments qualify as party-in-interest transactions.

Note 7 - Income Tax Status

The plan obtained its latest determination letter on March 5, 2004, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements.

GAAPUSA requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

2010 Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator (“you”) in understanding the fees and compensation associated with your plan. If your plan is required to complete a *Form 5500 Schedule C*, this report identifies the different types of reportable compensation paid with respect to the Hartford product utilized by the retirement plan.

As permitted under the Schedule C reporting rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate, or a formula or rate.

- Where it is an actual dollar amount, no further notation is provided.
- Where it is an estimate, we have used a reasonable method to arrive at the estimate and described the method used to arrive at the estimated amount.
- Where a formula or rate is provided, the formula may be disclosed under the Schedule C reporting rules. Alternatively, for purposes of Schedule C or for your fiduciary review of the compensation paid with respect to the plan’s product, you may calculate an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies. Thus, much of the compensation information being provided can be expressed in the form of a formula.

Please note that all compensation is being reported for the 2010 calendar year. This report includes compensation actually paid to or by The Hartford within the 2010 calendar year as part of your Hartford product. This report does not include amounts deducted from plan assets and paid to third parties (other than The Hartford). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here directly from other service providers.

Please note that we have provided suggested service codes with respect to services provided through our Hartford product. These service codes are listed in the 2010 Instructions for Schedule C (Form 5500). Please review with your experienced benefits counsel and other professionals to determine the most appropriate service codes for your plan.

Please contact your Hartford Client Service Team should you require additional information regarding the compensation paid to or by The Hartford with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice or accounting or other professional services. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

1. Direct Compensation **\$1,637.50**

The total amount identified above reflects all fees deducted from plan assets at the plan administrator's direction for the 2010 calendar year. Of this amount, our records indicate that Hartford Retirement Services, LLC received **\$1,637.50**. Please review your records to determine what other service providers (e.g., a reimbursement paid to any plan fiduciary, your employee benefits counsel, plan auditor) received all or any portion of the remaining amount.

Note: Due to system accounting protocols (including 'cash basis' accounting), amounts reported as Direct Compensation and amounts reported as paid to Hartford Retirement Services, LLC are the net result of aggregating direct compensation after the effects of adjustments processed in 2010, some of which may have pertained to prior years.

2. Indirect Compensation

Float compensation Payor: Reliance Trust Company EIN: 58-1428634 **\$2.56**

This is an estimate based on the average annual rate of float compensation (0.01% for 2010) earned on certain processing bank accounts for the 2010 calendar year multiplied by an estimate of the assets related to uncashed checks. This estimate does not include float earned for any other reason (e.g., if amounts remitted to Hartford cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

The list includes any investment option held by the plan during the 2010 calendar year. To arrive at an estimate of the dollar amount that Hartford received from each fund, multiply the rate of fees received from each fund by your plan's year-end balance (or if the fund was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the fund at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

² Please note that Hartford Retirement Services, LLC's affiliate, Hartford Securities Distribution Company, Inc., receives the sales compensation (12b-1 fees) portion of this amount. After compensating the plan's broker-dealer firm, if applicable, any residual amount is paid to Hartford Retirement Services, LLC.

³ This amount is the sum of the fund's distribution, management and other fees, which are also identified in the fund's prospectus. Please note that affiliates of Hartford Retirement Services, LLC act as advisor to the Hartford funds. Such affiliates are identified in the fund's prospectus' and receive management fees in the following amounts:
