FRED HAAS INTERESTS 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Fred Haas Interests 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Fred Haas Interests 401(k) Plan is established for the benefit of the employees of Fred Haas Motors, Ltd., Fred Haas Interests, Fisher Haas Infiniti, Inc., Fred Haas Country, L.P., and Clear Lake Infiniti, L.P. (the "Companies"). The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended and restated November 1, 2010 with Delaware Charter Guarantee and Trust Company dba Principal Trust Company becoming trustee of the Plan. As a result of the change in the Plan to a new service provider, the Plan had a blackout period from October 22, 2010 to November 7, 2010.

The Plan covers all employees who have completed 90 days of service and have attained the age of 21. Entry dates into the Plan are the first day of each month following the satisfaction of eligibility requirements. The Plan is participant directed and participants may change their investment options at any time.

Contributions

Participants may elect to make salary deferral contributions to the Plan up to 75% of their annual eligible compensation, but not more than the limit established by the Internal Revenue Service. A participant may designate all or a portion of their salary deferral contributions as Roth elective contributions. Roth elective contributions are made after-tax. Participants age 50 or over in the Plan year may also make catch-up contributions into the Plan. Participants may change their contribution rates on the first day of each month or elect to stop contributing at any time.

The Plan allows for participants in a former employer's qualified plan to contribute direct rollovers to this Plan prior to meeting the Plan's eligibility requirements.

The Companies may, at their discretion, contribute for each participant a matching contribution equal to a percentage of each participant's elective contribution. The Companies made matching contributions equal to 10% of each participant's contribution up to 4% of each participant's eligible compensation.

The Companies may also make an additional discretionary contribution, which shall be allocated to each eligible employee in proportion to his or her eligible compensation as a percentage of the eligible compensation of all eligible employees. No such contributions were made during 2010.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (1) the Company's contributions and (b) Plan earnings and charged with any applicable administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

For vesting purposes, a participant must be credited with at least 1,000 hours during the plan year to qualify as one year of service and count toward vesting. Participants are at all times fully vested in their participant and rollover contribution accounts and the appreciation or depreciation thereon. Vesting in the Companies' contributions portion of their accounts plus earnings thereon is based on years of continuous service. Participants vest 20% per year after two years of service and are 100% vested after six years of service. A participant shall be immediately vested upon death, retirement, or termination of employment due to permanent disability. Normal retirement age under the Plan is 65.

Forfeited Accounts

Forfeitures of nonvested contributions shall be used to reduce the Companies' contributions. The forfeitures balances were $3,729 and $3,108 at December 31, 2010 and 2009, respectively. Forfeitures in the amount of $736 were used to reduce the Companies' contributions during 2010.

Payment of Benefits

Participants may elect to withdraw any part of their vested account balance upon retirement, termination of employment, death or disability, or attainment of age 59½. Hardship withdrawals of vested balances due to immediate and heavy financial need are also permitted, subject to the terms of the Plan document.

Distributions from the Plan are made in lump-sum payments or in alternative structures as allowed by the Plan. All vested benefits in the Plan that are less than $5,000 may be distributed in a single lump-sum payment without consent from the terminated participant.

Plan Termination

Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100% vested in their accounts.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan and the financial statements have been prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a fixed interest investment option through the custodian's general account through October 31, 2010 and in a general-account backed group annuity contract beginning November 1, 2010. The trustee and custodian have determined that contract value is an appropriate determination of fair value at December 31, 2010 and 2009. Liquidation of the entire contract may cause a one-time adjustment to the aggregate contract value, resulting in a fair value different from the contract value. This total liquidation is a contingent event, which cannot be initiated by Plan participants, and can only be initiated by the trustee upon termination of the Plan or complete termination of the contract.

Administrative Expenses

All expenses incident to the administration, termination, or protection of the Plan including, but not limited to, legal, accounting, and trustee fees, shall be paid by the Companies or, if not paid by the Companies, shall be paid by the Plan.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE 4 - FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* Topic (ASC 820) clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Mutual Funds: Valued at net asset value (NAV) of shares held by the Plan at year-end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Pooled Separate Accounts: Valued at account unit value (AUV) by the custodian based on the units held at year-end reflecting the closing price reported on the applicable active market on which the underlying investments are traded. Underlying investments are primarily composed of mutual funds that are priced in an active market. The pooled separate accounts held by the Plan provide for daily redemptions by the Plan at reported AUV with no advance notice requirement. The Plan has no unfunded commitments and no contractual obligations to further invest in the accounts.

Contract Account: Valued at fair value as determined by the custodian based on amounts contributed to the account less any withdrawals or transfers out, plus all accrued interest. Interest rates are determined based on the expected performance of the underlying investments through the custodian's general account, which are primarily composed of bonds, treasuries, mortgages, and short-term cash equivalents that are priced in an active market.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Guaranteed Contract: Valued at fair value as determined by the trustee based on amounts contributed to the account less any withdrawals or transfers out, plus all accrued interest. The Guaranteed Contract is a single group annuity contract with a fixed rate of interest.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used at December 31, 2010 and 2009.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009:

Interest credited	3,873
Issuances and settlements, net	5,863

NOTE 5 - INFORMATION CERTIFIED BY THE CUSTODIAN AND TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, American United Life Insurance Company (AUL), the custodian of the Plan from December 31, 2009 to October 31, 2010, and Delaware Charter Guarantee and Trust Company dba Principal Trust Company, the trustee of the Plan from November 1, 2010 to December 31, 2010, have certified to the completeness and accuracy of all investments reflected in the accompanying statement of net assets available for benefits as of December 31, 2010 and 2009, and the schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2010, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2010.

NOTE 6 - CONTRACTS WITH INSURANCE COMPANY

The Plan held a contract with AUL. Contributions under this contract were recorded into the AUL Fixed Fund, which is part of AUL's general account. The AUL Fixed Fund is unallocated and maintains a variable quarterly rate, which was 4.00% at December 31, 2009. This contract was liquidated effective October 31, 2010.

The Plan provides for the Principal Fixed Income Guaranteed Option (PFIGO), a benefit-responsive group annuity contract issued by Principal Life Insurance Company (PLIC), as an investment option for participants. The objective of this investment option is to guarantee principal and provide a stated interest-crediting rate backed by PLIC. Characteristics of this investment option allow for the principal value to remain stable regardless of the volatility of the bond markets. The PFIGO is a group annuity contract with a fixed rate of interest. Under the existing contract, the interest-crediting rate is adjusted on a semi-annual basis and will not be less than the guaranteed minimum interest rate, which was 2.20% in 2010. The average yield earned (interest credited) by the Plan and credited to participants was 2.85% in 2010. Changes in future interest crediting rates will not be reported as an adjustment from fair value to contract value since fair value is considered book value less an early withdrawal charge for benefit-responsive investment contracts.

NOTE 7 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2010 and 2009:

	2010	2009

Add: Nondiscriminatory refunds payable	34,977	60,280
Net assets available for benefits per the Form 5500	$5,453,228	$4,874,386

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2010:

Change in net assets available for benefits per the financial statements	$604,145
Add: Nondiscriminatory refunds at December 31, 2010	34,977
Less: Nondiscriminatory refunds at December 31, 2009	(60,280)
Change in net assets available for benefits per the Form 5500	$578,842

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Investments are in mutual funds and a contract account managed by entities affiliated with Delaware Charter Guarantee and Trust Company dba Principal Trust Company (Principal). Principal is the trustee of the Plan and, therefore, qualifies as a party-in-interest. Prior to November 1, 2010, investments were in accounts managed by AUL. AUL was the custodian of the Plan and, therefore, qualifies as a party-in-interest. These transactions are covered by an exemption from the prohibited transaction provisions.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan provides for various investments. In general, such investments are exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 10 - NONDISCRIMINATORY REFUNDS

At December 31, 2010 and 2009, liabilities of $34,977 and $60,280, respectively, are recorded for amounts refundable by the Plan to highly compensated participants for contributions made in excess of amounts allowed by the Internal Revenue Service.

NOTE 11 - INCOME TAX STATUS

The Plan has adopted a non-standardized prototype plan, which obtained its latest opinion letter dated March 31, 2008, in which the Internal Revenue Service (IRS) stated that the prototype document satisfies the applicable provisions of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, contributions to the Plan and earnings from its assets are not currently taxable to the Plan or its participants.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 12 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 29, 2011, the date the financial statements were available to be issued.
