MANUFACTURING 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION:

The following description of the Henry H. Ottens Manufacturing 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General -

Henry H. Ottens Manufacturing Co., Inc. (the "Company") established the Henry H. Ottens Manufacturing 401(k) Plan (the "Plan") and related trust for the benefit of eligible employees. Substantially all of the Plan participants are employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions -

The Plan is a defined contribution plan to which participants may contribute up to 92% of their compensation, as defined in the Plan, subject to certain limitations. In addition, participants may contribute "rollover" contributions from other qualified plans. The participant, upon application, specifies the available funds into which his or her own contributions shall be invested. Participants may elect to change the manner in which contributions are allocated and may also transfer contributions from one fund to another.

The Company matches, on a per-pay basis, 100% of the first 3% of the amount contributed into the Plan by eligible participants and 50% of the next 2% contributed. Highly compensated participants are not eligible for this safe harbor match. The Company also made a 15% and 25% discretionary matching contribution, respectively, to each eligible highly compensated participant's elective deferral for the years ended December 31, 2010 and 2009. The Company may also make an additional profit sharing contribution to predetermined allocation groups as specified in the Plan agreement. There were no profit sharing contributions for the years ended December 31, 2010 and 2009.

Employees are allowed to make elective contributions and are eligible for any Company matching contributions or profit sharing contributions following completion of one year of eligible service or 1,000 hours.

HENRY H. OTTENS MANUFACTURING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Participant Accounts -

Each participant's account is credited with the participant's contribution and allocation of the Company's contributions and Plan earnings. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting -

Participant contributions, Company matching contributions and earnings thereon are fully vested at all times and are not subject to forfeiture.

Vesting in profit sharing contributions is as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
1	33%
2	66%
3	100%

Participants become fully (100%) vested in any profit sharing contributions upon the occurrence of death, total or permanent disability, or normal retirement.

Forfeited Accounts -

Forfeitures, which totaled \$146 and \$9,011 as of December 31, 2010 and 2009, respectively, will be used to offset future Company's matching contributions. For the year ended December 31, 2010, \$10,500 of forfeitures was used to offset Company contributions. No forfeitures were used to offset Company contributions for the year ended 2009.

Loans to Participants -

Participants may borrow from their fund accounts. Maximum terms of loans to participants are generally five years. Monthly interest payments by participants are based on rates determined by the plan administrator considering market interest rates in effect at the time of making the loan. Loans are secured by the participant's account balance and are limited to the lesser of \$50,000 or 50% of the amount vested in the participant's account.

HENRY H. OTTENS MANUFACTURING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Payment of Benefits -

Payment of participant benefits is made upon the participant attaining normal retirement age, disability, death, or termination of employment. Benefits are distributed to a participant or their designated beneficiary in a lump-sum payment.

Administrative Expenses -

Substantially all expenses of the Plan are paid by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting -

The accompanying financial statements have been prepared using the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America.

As described in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 962 *Defined Contribution Plans* ("Topic 962"), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by Topic 962, the Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Estimates -

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

HENRY H. OTTENS MANUFACTURING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Risks and Uncertainties -

The Plan invests in a combination of investment securities which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Notes Receivable from Participants -

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation and Income Recognition -

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits -

Benefits are recorded when paid.

Date of Management's Review -

Subsequent events were evaluated through August 24, 2011, which is the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

FASB ASC Topic 820 *Fair Value Measurements and Disclosures* (“Topic 820”) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

HENRY H. OTTENS MANUFACTURING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Shares of registered investment companies: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common collective trust: The common collective trust is an investment contract that is not actively traded and significant other observable inputs are not available. Thus, the fair value of the common collective trust is determined using an income approach by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 5).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

	Level 1	Level 3	Total

4. INVESTMENTS - CERTIFIED FINANCIAL INFORMATION:

All investment information disclosed in the accompanying financial statements and supplemental schedule including investments held at December 31, 2010 and 2009, and net appreciation or depreciation in fair value of investments and interest for the years ended December 31, 2010 and 2009, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the agent on behalf of the trustee.

Investments that represent 5% or more of fair value of the Plan's assets at December 31, 2010 are as follows:

American Funds Growth Fnd of Amer R2	\$ 676,443
Blackrock Large Cap Value Fund	717,000
PIMCO Total Return Fund R	585,026
Thornburg International Value Fund CL	606,763
BOA Retirement Presevation Trust	877,322

HENRY H. OTTENS MANUFACTURING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Investments that represent 5% or more of fair value of the Plan's assets at December 31, 2009 are as follows:

American Funds Growth Fnd of Amer R3	\$ 732,025
Goldman Sachs Mid Cap Value Fund A	325,809
Invesco Diversified Dividend Fund A	672,402
ML Retirement Preservation Trust	1,061,781
Nationwide Government Bond Fund Cl A	587,189
PIMCO Total Return Fund A	645,343
Thornburg International Value R4	761,367

5. INVESTMENT IN COMMON COLLECTIVE TRUST:

During 2010 and 2009, the Plan invested in the Retirement Preservation Trust managed by Bank of America ("BOA") (formerly Merrill Lynch) which is a Common Collective Trust ("CCT"). During 2010, the trustee of the CCT approved a resolution to terminate the CCT and commence liquidation of the assets throughout 2011. Effective, October 6, 2010 the CCT eliminated the wrap contracts and changed from a stable value fund to a short-term bond fund. Moreover, the CCT changed from contract value to fair value accounting. Concurrent with this change the liquidation of the long-term assets held by the CCT resulted in realized losses. Realized losses incurred from the restructuring of the CCT were funded by a Liquidity Commitment that was made available to the CCT by BOA. This Liquidity Commitment provides liquidity on an as-needed basis to fund the difference between the market value and the book value for current and anticipated Plan initiated withdrawals. The Plan intends to exchange the CCT to a money market fund in 2011.

Prior to October 6, 2010 the CCT consisted primarily of fully benefit-responsive guaranteed investment contracts and synthetic investment contracts. The underlying assets and wrap contracts purchased by the CCT were designed to pay all participant-initiated transactions at contract value.

HENRY H. OTTENS MANUFACTURING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

As described in Note 2, because the investment in the CCT was fully benefit-responsive, contract value was the relevant measurement attributable for that portion of the net assets available for benefits attributable to the CCTs. Contract value, as reported to the Plan by BOA, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate and average yield was 2.35% for 2009. The crediting interest rate was based on a formula agreed upon with the issuer, but could not be less than 0%. Such interest rates were reviewed on a periodic basis for resetting.

6. RELATED PARTY TRANSACTIONS:

Substantially all expenses of the Plan are paid by the Company.

7. FEDERAL TAX STATUS:

The Company adopted the Plan using the Volume Submitter Plan Document prepared by Ascensus, Inc. The Internal Revenue Service ("IRS") has determined and informed Ascensus, Inc. by a letter dated March 31, 2008 that the Volume Submitter Plan Document is qualified under Section 401(a) of the Internal Revenue Code ("IRC") and the related trust is exempt from taxation. The Volume Submitter Plan Document has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for taxes has been made in the accompanying financial statements.

8. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their account balances.
