INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
AXIS Healthcare Communications, LLC and Affiliates Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits of AXIS Healthcare Communications, LLC and Affiliates Retirement Plan (the "Plan") as of May 31, 2010 and December 31, 2009, and the related statement of changes in net assets available for benefits for the five months ended May 31, 2010. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Reliance Trust Company (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Trustee as of and for the five months ended May 31, 2010 and the year ended December 31, 2009, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Because of the significance of the information in the Plan's financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As described in Note 2 to the financial statements, during the five months ended May 31, 2010, the Plan changed its classification and measurement of loans to participants.

NOTE 1. DESCRIPTION OF PLAN

The following description of AXIS Healthcare Communications, LLC and Affiliates Retirement Plan (the "Plan") provides only general information. For a more complete description of the Plan's provisions, refer to the agreement governing the Plan (the "Plan Agreement").

In connection with the Plan's merger into Huntsworth Group, Inc. USA and Affiliates 401(k) Plan ("Huntsworth Plan"), the Plan transferred its assets totaling \$9,002,174 ("Merged Assets") into the Huntsworth Plan on May 28, 2010. The Merged Assets were under the control of Fidelity Management Trust Company, which serves as the trustee and recordkeeper for the Huntsworth Plan. Under the merger guidelines, participants of the Plan were subject to a blackout period from May 21, 2010 through May 31, 2010, during which time they were not able access their investments.

General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company who have three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may contribute up to 92 percent of their annual compensation on a pre-tax basis, as defined in the Plan Agreement, provided that in no event shall a participant elect to contribute more than the maximum allowed by law. Participants may elect to contribute some or all of their elective deferrals on a post-tax basis. Participant contributions are made by authorizing the Company to withhold from the participant's compensation an amount equal to the contributions to be made on their behalf. Participants may also contribute amounts (rollovers) representing distributions from other qualified defined benefit or contribution plans.

Employer contributions consist of employer matching contributions. The Company makes matching contributions to the Plan equal to 100% of each participant's contribution up to 5% of the participant's eligible compensation. All employer contributions are invested directly in the fund options selected by the participant.

Participant accounts

Each participant account is credited with the participant's contributions, employer contributions and an allocation of earnings thereon. Allocations are based on each participant's relative interest in the fair value of assets held in each fund on a daily basis. Additionally, participant accounts are charged with a pro-rata allocation of investment expenses.

Vesting and forfeitures

Participants are immediately vested in their contributions, rollovers, and actual earnings thereon. Vesting of employer matching contributions is 33% after one year of service, 66% after two years of service, and 100% after three years of service. Participants become fully vested in employer contributions upon death or total and permanent disability.

NOTE 1. DESCRIPTION OF PLAN (CONTINUED)

Vesting and forfeitures (continued)

Nonvested accounts are forfeited upon a participant's withdrawal or termination. Forfeited accounts are used to reduce employer contributions. As of May 31, 2010 and December 31, 2009, forfeited nonvested accounts totaled \$0 and \$26,963, respectively. For the period ended May 31, 2010, no employer contributions were reduced from forfeited nonvested accounts.

Distributions

Upon termination, death, disability, or retirement, a participant may receive either a lump-sum amount or alternate method of payment depending upon the participant's election as prescribed by the Plan. For termination of service due to other reasons, a participant will receive the value of the vested account balance in the form of a lump-sum amount. A participant may receive a hardship withdrawal to satisfy certain immediate and heavy financial needs. While a participant is still an employee and has achieved the age of 59½, they may request an in-service distribution from their vested account which will reduce the value of the benefits received at retirement. Participants may not receive hardship or in-service distributions of post-tax elective deferrals.

Notes receivable from participants

Participants may borrow from their fund accounts amounts from \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balances. Loan transactions are treated as a transfer to (from) the investment funds from (to) the participant loan receivable. Generally, the term of the loan may not exceed five years. The loans are secured by the balance in the participant's account and bear interest at the prime rate as of the issuance of the loan plus 2%. Interest rates vary from 5.25% to 10.25%. Principal and interest are paid ratably through payroll deductions. A participant may only have two loans outstanding at any time.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of estimates

The preparation of financial statements in conformity with accounting procedures generally accepted in the United States ("GAAP") requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recently adopted accounting pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-06, *Improving Disclosures about Fair Value Measurements*. This update amends FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, to require new disclosures for significant transfers in and out of Level 1 and Level 2 fair value measurements, disaggregation regarding classes of assets and liabilities, valuation techniques, and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for Level 2 or Level 3. These disclosures are effective for reporting periods beginning after December 15, 2009. Additional new disclosures regarding the purchases, sales, issuances, and settlements in the rollforward of activity in Level

3 fair value measurements are effective for fiscal years beginning after December 15, 2010. The Plan adopted certain of the relevant disclosure provisions of ASU 2010-06 on January 1, 2010.

In September 2010, the FASB issued ASU No. 2010-25, *Plan Accounting - Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Benefit Plans*. ASU 2010-25 was codified into FASB ASC 962 and amends FASB ASC 962 to require participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest. Participant loans had historically been classified as investments and measured at fair value in a plan's statement of net assets available for benefits. The accounting guidance in ASU 2010-25 is effective for years ending after December 15, 2010 and requires reclassification for all periods presented. Accordingly, participant loans are reported as notes receivable in the Plan's statements of net assets available for benefits, and the prior year balance has been reclassified to conform to the current year presentation.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the exdividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative expenses

Administrative expenses and investment related expenses are generally paid by the sponsor, Huntsworth Group, Inc.

Payment of benefits

Benefits are recorded when paid.

Fair value measurements

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under the new standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Fully benefit-responsive investment contract

FASB ASC 946, Financial Services - Investment Companies, states that investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were able to initiate permitted transactions under the terms of the Plan. As required by FASB ASC 946, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. At December 31, 2009, contract value approximated fair value.

Fully benefit-responsive investment contract (continued)

The interest credited to the participants is reset at least quarterly, and in some cases may be reset more frequently. Inputs used to determine the crediting interest rate include each contract's portfolio market value, current yield to maturity, duration, and market value relative to contract value. At December 31, 2010 (closest available date to the five months ended May 31, 2010) and 2009, the average yield earned by the trust was 5.42% and 12.31%, respectively. The average yield earned with an adjustment to reflect the actual interest rate credited to participants was 3.13% and 3.25% at December 31, 2010 and 2009, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Subsequent events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan evaluated subsequent events through August 5, 2011, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 3. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in combinations of mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets in liquidation and the statement of changes in net assets in liquidation.

NOTE 4. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan's administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information certified by the Trustee to information included in the Plan's financial statements.

NOTE 5. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

- (a) Market approach. Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;
- (b) Cost approach. Amount that would be required to replace the service capacity of an asset (replacement cost); and
- (c) Income approach. Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

The following tables summarize the Plan's assets measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2009:

NOTE 5. FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a description of the valuation methodologies used for instruments measured at fair value, including general classification of such instruments pursuant to the fair value hierarchy. There have been no changes in the methodologies used at May 31, 2010 and 2009.

Investments in registered investment companies are stated at fair value as determined by quoted market prices, which represents the net asset value ("NAV") of the shares held by the Plan at year-end.

Stable value funds are public investment vehicles using the NAV provided by the trustee. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6. TAX STATUS

The Plan uses a prototype plan document sponsored by Citistreet Associates, LLC. The IRS has determined and informed Citistreet Associates, LLC ("CSA"), in a letter from the IRS, dated March 31, 2008, that the prototype document satisfied the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. In addition, the Plan has been amended since CSA's receipt of the letter discussed above. Nevertheless, the plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC, and therefore believe that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of May 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 7. NET ASSET VALUE PER SHARE

The following tables set forth a summary of the Plan's investments with a reported net asset value ("NAV") per share at December 31, 2009:

<u>Fair Value Estimated Using Net Asset Value per Share</u>					
<u>Investment</u>	<u>Fair Value*</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Other Redemption Restrictions</u>	<u>Redemption Notice Period</u>
Stable Value Fund	\$ <u>85,743</u>	<u>-</u>	Daily	None	None

The fair values of the investments have been estimated using the NAV of the investments:

- (b) The stable value fund seeks to achieve a stable unit value, a competitive current return, a high-quality diversified portfolio, and liquidity by investing in high-quality insurance company and bank investment contracts, private placements, money markets, and other investments.
