PLANETMERCURY 401(k) PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

1. DESCRIPTION OF THE PLAN

The following description of the PlanetMercury (the “Company”) 401(k) Plan & Trust (the “Plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. The Company was acquired effective December 21, 2010 by Ansira Partners, Inc who became the plan sponsor as of that date.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Amendments

Effective July 1, 2009, the Plan was renamed from Razor Competitive Edge 401(k) Plan and Trust to PlanetMercury 401(k) Plan and Trust. The amendment allows the employees of Razor Business Strategy Consultants, LLC (“Razor”), PlanetMercury, LLC (Razor’s parent company) and Valence Print Management, LLC (a subsidiary of PlanetMercury) to participate in the Plan.

Contributions

Participants can contribute up to 100 percent of pretax annual compensation not to exceed limitations set by the Internal Revenue Service (IRS). Participants who have attained the age of 50 before the end of the plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company matches 50 percent of a participant’s deferred salary contribution limited to three percent of a participant’s annual gross wages. The Company’s matching contribution is invested directly in the participants’ portfolio of investments. Additional discretionary profit sharing amounts may be contributed at the option of the Company. The Company made no discretionary profit sharing contributions for 2010. Company contributions are also subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their account plus actual earnings therein is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the plan sponsor. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or any other reasons, a participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution or as an automatic rollover to an IRA or other qualified plan designated by the participant.

Forfeited Accounts

The balance of the forfeited non-vested accounts at December 31, 2010 and 2009 totals \$1,826 and \$6,149, respectively. Amounts forfeited for the year ended December 31, 2010 total \$1,836. For the year ended December 31, 2010 forfeitures used to reduce employer contributions total \$6,143.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan sponsor to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. The fair value of the fixed account is calculated by discounting the related cash flows based on currency yields of similar instruments with comparable durations. Participant receivables are valued at their outstanding balances which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivables From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan documents

Payment of Benefits

Benefits are recorded in the period in which they are paid.

Operating Expenses

The Company absorbs a significant portion of the operating costs of the Plan. Fees paid by the plan sponsor amounted to \$17,080 for the year ended December 31, 2010.

Reclassifications

Certain reclassifications have been made to the 2009 financial statement presentation to correspond to the current year's format. Total net assets available for benefits are unchanged due to these reclassifications.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, management has evaluated subsequent events through September 28, 2011, the date the financial statements were available to be issued. See Note 10 for further discussion.

3. INVESTMENTS

Participants may direct the allocation of amounts deferred into multiple investment options. Investments representing 5 percent or more of the Plan's net assets have been separately stated.

4. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan's sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. The custodian has certified that the following data included in the accompanying

financial statements and supplemental information is complete and accurate at December 31, 2010, and 2009, and for the year ended December 31, 2010.

	2010	2009
Investments, at fair value	\$ 1,928,948	\$ 1,284,397
Notes receivable from participants	\$ 64,482	\$ 15,211
Net appreciation in fair value of investments	\$ 237,862	
Interest income on notes receivable from participants	\$ 1,271	

5. FAIR VALUE MEASUREMENT

Financial Accounting Standard Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010, and 2009.

Interest bearing cash: Valued daily based on face value and the stated rate disclosed in the contract.

Mutual funds: Valued at their daily unit value ("DUV"). Each fund is given a unit value when it is added to the system. The fund is valued daily by multiplying the previous day's DUV by the gross investment rate minus the daily asset management charge or asset fee percentage. The gross investment rate is determined based on the combination of the mutual funds' net asset value ("NAV") and any dividends and capital gains declared. NAV and these other changes are calculated each business day as of the close of regular trading on the New York Stock Exchange, generally 4 p.m. Eastern time.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Assets at Fair Value as of December 31, 2010				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,928,948	\$ -	\$ -	\$ 1,928,948
Total	<u>\$ 1,928,948</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,928,948</u>

Assets at Fair Value as of December 31, 2009				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,271,534	\$ -	\$ -	\$ 1,271,534
Cash, interest-bearing	12,863	-	-	12,863
Total	<u>\$ 1,284,397</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,284,397</u>

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their employer contributions.

7. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Plan's sponsor by letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan's sponsor and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified as tax-exempt as of the financial statement date.

The plan sponsor has concluded that as of December 31, 2010 there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan sponsor believes it is no longer subject to income tax examinations for years prior to 2007.

8. INACTIVE PARTICIPANTS WITH ACCOUNT BALANCES

At December 31, 2010 and 2009, the value of the accounts held by participants who have separated from employment with the plan sponsor and continue to maintain a balance with the Plan totals \$235,764 and \$130,672, respectively.

For the year ended December 31, 2010, the value of accounts held by participants who have separated from employment with the plan sponsor and have elected to withdraw from the Plan, but have not been paid totals \$0.

9. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. SUBSEQUENT EVENTS

The Plan was adopted by Ansira Partners, LLC, effective January 1, 2011. Effective April 1, 2011, the Plan merged into Ansira Partners, Inc's plan (the parent of Ansira Partners, LLC).
