Medical Linen Services, Inc. 401(k) Profit Sharing Plan:

We were engaged to audit the financial statements and supplemental schedule of the Medical Linen Services, Inc. 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2010, and for the year ended December 31, 2010, as listed in the table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information referred to in Note 3, which was certified by Principal Life Insurance Company and by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (a member of the Principal Financial Group, collectively "Principal"), the custodians of the Plan's assets, except for comparing such information with the related information included in the financial statements and the supplemental schedule. We have been informed by the plan administrator that Principal holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from Principal as of December 31, 2010, and for the year ended December 31, 2010, that the information provided to the plan administrator by Principal is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by Principal, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits of the Medical Linen Services, Inc. 401(k) Profit Sharing Plan as of December 31, 2009 in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying 2009 statement of net assets available for benefits and, accordingly, do not express an opinion or any form of assurance on it.

1. Description of the Plan

The following description of the Medical Linen Services, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Eligibility and Coverage
The Plan is a defined contribution 401(k) profit sharing plan covering all of the employees of Medical Linen Services, Inc. (the "Plan Sponsor"). Employees are eligible to participate in the Plan once they have completed one year of service and reached age 18 years of age. Participants may begin making deferrals into the Plan on as soon as the preceding eligibility requirements have been met. Non-resident aliens, and employees covered by a collective bargaining agreement are not eligible to participate in the Plan. The Plan is subject to the provisions Section 401(a) of the Internal Revenue Code and the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Participants may contribute from their eligible annual compensation into the Plan subject to an annual limitation of $16,500 ($22,000 for those participants over age 49).

The Plan permits the plan sponsor to make discretionary matching contributions. For 2010, the plan sponsor elected to make matching contributions equal 25% of all deferrals made up to 4% percent of compensation for all employees who were active on the last day of the year and had at least 1,000 hours for the year.

The Plan permits the plan sponsor to make profit sharing contributions. For 2010, the plan sponsor elected to make profit sharing contributions of 4.033% and 1.379% of compensation depending on employee class for all eligible participants.

Participant Accounts
All of the Plan's assets are invested, as directed by the participant, as pooled funds. A participant's account balance in the Plan is derived through an allocation of these funds. Each participant's account is credited with the participant's contribution, plan sponsor contributions, and an allocation of investment earnings and losses pursuant to the participant's selection of investments and timing of purchase.

Vesting and Forfeitures
Participants are immediately vested in their contributions and related earnings at all times. Participants vest in plan sponsor matching contributions in ratable installments of 20% after the second year of service. Forfeitures are first used to pay plan expenses and the remaining used to offset matching contributions. At December 31, 2010, there was $1,329 of forfeitures available to offset expenses.

Payment of Benefits
The Plan provides for the payment of benefits to the participant (or, if applicable, the beneficiary) at retirement, death, disability, financial hardship, or termination of employment. In-service distributions of a participant's rollover funds are available at any time. In-service distributions of all vested holdings are also available, providing the participant is at least age 59½. Up to two such in-service distributions are permitted in any one-year. Benefits payable under the Plan shall be distributed solely from the assets of the trust. The benefit to which a participant is entitled is the benefit that can be provided directly from the participant's vested account balance. Retired participants must begin receiving distributions from the Plan no later than April 1 of the year following the year in which the participant attains age 70½.

Plan Amendments
The Plan was restated effective October 1, 2010 to comply with recent legislative and regulatory changes.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting and in accordance with ERISA. Contributions from participants are recorded when withheld from the participant. Plan sponsor contributions are recorded when approved by the plan sponsor. Benefit payments and expenses are recorded when paid. The Statements of Net Assets Available for Benefits present the fair value as well as the adjustment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value as determined by the plan custodian (see note 3). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. See Note 6 for discussion of guaranteed investment contracts at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Risk and Uncertainties
The Plan provides for various investment options in mutual funds, common collective trusts, and money market funds. These investments are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with these securities and the level of uncertainty related to changes in the value, it is at least reasonably possible that changes in the various risk factors will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements.

Subsequent Events
The Plan has evaluated subsequent events through September 19, 2011, the date the financial statements were available to be issued.

3. Certification of Assets

Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (a member of the Principal Financial Group, collectively "Principal") serve as the custodians of the Plan's assets. In that capacity, Principal holds the Plan's investment assets and executes investment transactions. The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). As permitted under such election, the plan administrator has obtained certifications from Principal as of December 31, 2010, and for the year ended December 31, 2010, that all investment information in the accompanying financial statements and supplemental is complete and accurate.

All information as to investment assets as of December 31, 2010, and changes in those investment assets for the year ended December 31, 2010, is presented based solely upon these certifications.

4. Fair Value Measurements- unaudited

Assets at Fair Value as of December 31, 2009:

	Level 1	Level 2	Total
Pooled separate accounts	$ 797,770	$ -	$ 797,770
Guaranteed Interest Contracts	-	228,404	228,404
Total	$ 797,770	$ 228,404	$ 1,026,174

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820 *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements.) The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets and or liabilities in active markets that the plan has the ability to access.

Level 2
Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Valued at the net assets value (NAV) of shares of the underlying investments held by the plan at year-end.
Guaranteed interest contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit–worthiness of the issuer (See Note 6).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments - unaudited

The following investments equaled or exceeded 5% of the net assets available for benefits of the Plan at December 31, 2010:

		2010
Principal Money Market	$	104,580
Russell LifePoints Balanced Strategy		222,322
Russell LifePoints Conservative Strategy		130,574
Russell LifePoints Growth Strategy		71,080
Russell LifePoints Moderate Strategy		80,868
Fidelity/Schroders International		128,574
Principal Fixed Inc Guar Option		320,620

6. Investment Contract with Insurance Company

The Plan entered into a benefit-responsive investment contract with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Since the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract because contract value is the amount participants would receive if they were to initiate permitted transaction under the terms of the plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 was $322,424. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

7. Tax Status

The plan sponsor has adopted The Principal Financial Group Prototype for Savings Plans document. The Prototype Document received a letter of determination from the Internal Revenue Service, dated March 31, 2008, that the Plan is a qualified plan. The plan sponsor and administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and have stated that they will take whatever action is required, if any, to maintain and continue the Plan as a qualified plan. Accordingly, the plan sponsor and administrator believe that the Plan is qualified and its related trust is exempt from tax.

8. Plan Termination

The plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all non-vested account balances would become 100% vested. See Note 7 regarding the termination of the plan.

9. Related Party Transactions

Since the inception of the Plan, the plan sponsor has absorbed some of the administrative expenses of operating the Plan.

Principal Life Insurance Company serves as one of the custodians of the Plan's assets. All transactions with Principal Life Insurance Company qualify as party-in-interest transactions.

11. Commitments and Contingencies

The Plan was not in full compliance with ERISA fidelity bonding requirements as of January 1, 2010. As of September 19, 2011, in the opinion of those in charge of the Plan's governance no incidents have occurred that would give rise to a claim.

12. Subsequent Events
