INDEPENDENT AUDITOR'S REPORT

The Trustee Committee
TDIndustries, Inc. 401(k)/ESOP Retirement Plan
Dallas, Texas

We were engaged to audit the financial statements and supplemental schedule of the TDIndustries, Inc. 401(k)/ESOP Retirement Plan as of December 31, 2010 and 2009, and for the years then ended, as listed in the table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Charles Schwab Trust Company, the trustee of the Plan, except for comparing information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certification from the trustee as of and for the years ended December 31, 2010 and 2009 that the information provided to the Plan Administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of Plan

The following description of the TDIndustries, Inc. 401(k)/ESOP Retirement Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The TDIndustries, Inc. 401(k) Savings Plan and Trust (401(k) Plan) was established on September 1, 1989 and was a defined contribution profit sharing plan sponsored by TDIndustries, Inc. (Company). Effective January 1, 1998, the 401(k) Plan was amended and restated to allow for the merger of the TDIndustries, Inc. Employee Stock Ownership Plan and Trust (ESOP) into the 401(k) Plan. The plan was renamed the TDIndustries, Inc. 401(k)/ESOP Retirement Plan (the Plan). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Plan Administration

The Company, assisted by an appointed Plan Committee, is the plan administrator. The Plan's investments are held in an investment trust maintained by Charles Schwab Trust Company (the Trustee) under a trust agreement. The Trustee is responsible for the administration, management, and, subject to participant direction of investment, the investment of the trust funds. The Trustee maintains the records of the Plan on a calendar-year basis (the Plan Year).

(c) Eligibility

Full-time employees become eligible for participation in the Plan on any entrance date (January 1, April 1, July 1 or October 1) upon or after completing three months of service with the Company. Participating employees may contribute 1% through 10% of their annual before tax compensation to their individual ESOP savings accounts and 1% through 100% of their annual before tax compensation to their individual 401(k) savings accounts. Such contributions are made through payroll deductions.

Effective January 1, 1994, the Company's board of directors established certain nonqualified ESOP and 401(k) plans (the Excess Plans) for certain employees. These nonqualified plans are not subject to the provisions of ERISA and their financial activities are not covered by this report.

(d) Contributions

Company contributions (which may be in cash or other property) made to the Plan are totally discretionary and established by the Company's Board of Directors on an annual basis. For 2010 and 2009, the Board established the Company's contribution to the Plan to be 30% (one-half of the Company contributions are allocated to the 401(k) portions of the Plan and one-half of the Company contributions are allocated to the ESOP portions of the Plan) of the Company's income before federal income tax and before computation of the Company's Plan and Excess Plans contributions.

The 2010 Company contributions of $2,073,503 to the Plan were paid in 2011. The 2009 Company contributions of $1,557,089 to the Plan were paid in 2010.

The 2010 and 2009 maximum annual amount an employee could invest in the Plan was $16,500. Also, in 2010 and 2009, the total yearly allocation to an employee's accounts (the funds contributed by the employee and the Company in the Plan) could not exceed 100% of the employee's total compensation or $49,000, whichever is lower. These amounts are prescribed by law and are subject to change on an annual basis. The Company must further limit contributions based on the discrimination tests of Section 401(k) and 401(m) of the Internal Revenue Code of 1986. Contributions for 2010 and 2009 did not exceed the maximum amounts allowed by law for the Plan.

(e) Participants' Accounts

Each of the participant's accounts (401(k) and ESOP savings accounts) are credited with the participant's contributions and allocations of the Company's respective contributions and related Plan earnings. Company contributions are allocated among the participants in the proportion that each participant's contributions to the 401(k) and ESOP portions of the Plan for that year bear to the total contribution of all participants to the 401(k) and ESOP portions of the Plan for that same year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Participant 401(k) savings accounts are valued daily to reflect income earned. Plan participants are fully vested at all times in the Plan investments purchased with their own contributions and in investments allocated to their account from contributions by the Company after completion of three years of service (as defined in the Plan). Also, all Plan participants who leave the Company because of normal retirement (at or after 65), death, or disability will be fully vested in investments allocated to their account from Company contributions (even if they have not completed three years of service).

(f) Investment Options

With respect to the participant's 401(k) savings account contributions, Company 401(k) matching contributions and rollover contributions, the Plan makes available an assortment of investment funds to meet the various savings and investment goals of all participants. These investment options have a variety of risks and return characteristics. Participants determine how these contributions are invested by allocating such contributions to one investment fund or by dividing them (in whole percentages) among any combination of the available funds. The following funds were available to participants during 2010:

- **Gartmore Morley Stable Value Fund** – Seeks to provide a consistent rate of return while preserving capital and minimizing risk. The fund consists of assets whose principal value remains stable regardless of stock and bond market fluctuations.
- **Dodge & Cox Income Fund** – Seeks total return consistent with prudent investment management. The fund invests in fixed-income securities.
- **Dodge & Cox Balanced Fund** – Seeks income, conservation of principal, and long-term growth of principal and income. The fund may invest a large portion of its assets in common stocks and convertible securities.
- **Schwab S&P 500 Fund – Investor Shares** – Seeks income and capital appreciation. The fund normally invests at least 80% of assets in income-producing equity securities that have demonstrated a yield higher than the composite yield on the stocks in the S&P 500 index.
- **Selected American Shares, Inc.** – Seeks capital appreciation by investing primarily in equity securities of companies with earnings that are expected to grow at an above-average rate.

- **American Funds Capital World G/I R4** – Invests primarily in stocks and debt securities of companies and governments outside the United States.
- **Calamos Growth A Fund** – Seeks rapid capital growth primarily investing in small to medium-sized companies that are expected to demonstrate growth in earnings and revenue.
- **Janus Growth & Income Fund** – Seeks maximum capital growth. The fund invests primarily in common stocks and favors securities of companies expected to benefit from special factors and trends.
- **Federated Clover Small Cap Value Fund A** – Seeks capital growth by investing primarily in common stocks of small-sized, under-valued companies with steady earnings growth, solid market positions and reasonable financial strength.
- **ING International Value A Fund** – Seeks long-term capital growth. The fund invests primarily in stocks and debt securities of companies and governments outside the United States.

The Charles Schwab Trust Company is the trustee of the Plan.

The investment changes to the 401(k) plan are made through the internet or telephone hotline of the plan administrator. Participants may elect to change their investment mix on existing investments at any time; participants may also elect to change their investment mix on future contributions at any time. Any change to the investment mix of existing investments may take up to five business days to be initiated and several more business days to settle. Any investment mix changes regarding future contributions will be effective when contributions are next processed by the plan administrator. Participants may elect to change their contribution-deferred percentage at any time. In accordance with Dept. of Labor Reg. 2550.404(c)1(b)(2), the Plan is intended to qualify as an ERISA 401(c) plan which relieves plan fiduciaries of liability for any investment losses that result from investment decisions made by Plan participants.

Participants' ESOP savings account contributions and the Company ESOP matching contributions are invested in Company common stock at the value as determined as of the most recent valuation date (notes 2 and 4). The participants have full voting rights with respect to any stock allocated to their ESOP savings accounts. The Company has historically not paid any cash dividends.

(g) Notes Receivable from Participants

Participants may borrow from their Plan accounts, a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their individual savings account balances. Loan transactions are treated as a transfer to (from) investment funds from (to) participant notes receivable. Loan terms range from one to five years or up to fifteen years for the purchase of a primary residence. The loans are secured by the balance in the participant's accounts and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the 401(k)/ESOP Plan Committee. Interest rates are generally prime plus 1% and range from 4.25% to 10.5% as of December 31, 2010 and 2009. Principal and interest on participant loans are paid ratably through weekly payroll deductions. The range of current loan maturities extends through 2025.

(h) Payment of Benefits

A participant's 401(k) accounts shall be distributed in a lump sum in cash as soon as practicable following separation from service. If the participant separates from service after his normal retirement date under the Plan, or by reason of his death or disability, any distribution from his ESOP accounts will be deferred for no more than one year after the close of the year in which such event occurs. If the participant separates from service for any reason other than retirement, death or disability, any distribution from his ESOP accounts will be deferred for no more than one year after the close of the fifth year following the year in which the participant separated from service; provided that the participant is not reemployed by the Company at the time of distribution.

Upon distribution from the Plan, when the participant exercises the put option, if ESOP participants present (put) their ESOP stock to the Company within 60 days of receiving it, the Company is required to buy it immediately at the value of the stock as determined by the most recent valuation. Upon distribution from the Plan, when the participant exercises the put option, the Company may issue the participants an interest-bearing promissory note which is payable over a five-year period or buy the shares in cash. If ESOP participants do not put their ESOP stock to the Company within 60 days of receiving it, they are required to contact the ESOP administrator about the Company's obligation to purchase their ESOP stock at a later date.

Distributions from the Plan to participants are taxed as ordinary income to the participants in the year of distribution. Depending on when and why the distribution took place, the Plan participants may also be subject to an additional 10% income tax penalty (for early withdrawal of Plan funds). Under certain circumstances, participants who receive a Plan distribution may transfer all or part of this distribution to another tax-deferred type plan and defer the payment of income taxes.

(i) Forfeited Accounts

Forfeitures (totaling $114,595 and $115,003 in 2010 and 2009, respectively) of non-vested Plan participants who received a Company contribution are allocated among the accounts of the Plan participants who are eligible to receive Company contributions for such year in proportion to what they invest in the Plan during the year as compared to what all eligible people invested in the Plan during the same year.

(j) Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. A participant becomes 33% vested after one year of service, 66% after two years of service, and 100% after three years of service. However, if an active participant dies prior to attaining the normal retirement age, the participant's account becomes 100% vested.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements are presented on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

(c) Valuation of Investments and Income Recognition

Investment transactions for the investments in shares of registered investment companies, short term cash equivalents, fixed income funds, and equity funds are recorded on a trade-date basis and stated at fair value based on quoted market prices. The collective investment trust is recorded at fair value based on the proportionate units of the underlying assets of the fund. There is no established public trading market for the common stock of the Company. The Company common stock is recorded at fair value as determined by annual independent appraisals (the most recent appraisal was done as of December 31, 2010). Participant notes receivable are stated at unpaid principal balance which approximates fair value, plus any accrued interest.

(d) Plan Termination

While it has no present intention to do so, the Company has the right under the Plan to discontinue contributions and terminate the Plan at any time. Upon termination of the Plan, all participants would become fully vested.

(e) Other Additions and Deductions

All administration expenses incurred by the Plan are paid for by the Company and are not charged to the Plan.

(f) Concentrations

The Plan has on deposit with various banking institutions amounts which may exceed federally insured limits. The Plan has not experienced any losses in such amounts and believes it is not exposed to any significant credit risk on cash.

(g) Reclassifications

Certain reclassifications have been made to the 2009 financial statements in order for them to be in conformity with current year presentation.

(h) Subsequent Events

In May 2009, the FASB issued new guidance for accounting for subsequent events. The new guidance establishes general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are available to be issued. The implementation of this guidance did not impact the Plan's financial position or results of operations. The Plan evaluated all events and transactions that occurred after December 31, 2010 through August 30, 2011 the date these financial statements were available to be issued, noting no material recognizable subsequent events.

(3) Assets Certified by Trustee

Except for its investment in TDIndustries, Inc. common stock, the Plan's assets as of December 31, 2010 and 2009 are held by the Trustee, the Charles Schwab Trust Company (Schwab). Assets that represent 5% or more of the Plan's assets are presented separately below.

	December 31, 2010		December 31, 2009	
	Units or shares	Fair value	Units or shares	Fair value
Selected American Shares, Inc.	144,590	$ 5,991,795	147,968	$ 5,516,261
Dodge & Cox Income Fund	463,692	6,134,645	411,489	5,332,902
Participant Loans	N/A	6,623,804	N/A	6,112,092
Other investments in registered investment companies		25,306,279		24,382,976
Total		$ 44,056,523		$ 41,344,231

In addition, non-interest bearing deposits of $330,630 and $315,423 at December 31, 2010 and 2009, respectively, were certified by Schwab.

Net appreciation in fair value of investments in registered investment companies for the year ended December 31, 2010 and 2009 was $2,818,624 and $7,055,020, respectively.

The Plan offers a number of investment options to participants that are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participant account balances.

(4) TDIndustries, Inc. Common Stock

At December 31, 2010 and 2009, the Plan held 399,887 and 413,304 shares of common stock in TDIndustries, Inc., respectively. The appraised value of the TDIndustries, Inc. common stock at December 31, 2010 and 2009 was $123.65 and $112.44 per share, respectively.

Net appreciation in fair value of investments in TDIndustries, Inc. common stock is $4,446,338 and $5,156,330 for the years ended December 31, 2010 and 2009, respectively.

The fair value of the Plan's investment in TDIndustries, Inc. common stock was $49,446,028 and $46,471,902 at December 31, 2010 and 2009, respectively and represented more than 5% of net assets available for benefits.

(5) Income Tax Status

The Plan received a favorable determination letter from the Internal Revenue Service (IRS) dated January 24, 2003. The Plan management believes that the Plan and related trust is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC). Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan was amended to incorporate GUST legislative changes, which was effective for the plan year ended December 31, 2002. GUST refers to the following legislation: GATT (General Agreement on Tariffs and Trade); USERRA (Uniformed Services Employment & Reemployment Rights Act of 1994); SBJPA (Small Business Job Protection Act of 1996); and TRA '97 (Taxpayer Relief Act of 1997).

(6) Related-Party Transactions

Plan assets include investments in funds managed by Schwab in 2010 and 2009, respectively. Schwab is the Plan's trustee and as such, transactions with the trustee qualify as party-in-interest transactions. Personnel and facilities of the Company have been used to perform administrative functions for the Plan at no charge to the Plan.

(7) Fair Value Measurements

Codification topic 820, Fair Value Measurements, establishes a consistent framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 – Valuations are based upon unadjusted quoted prices in active exchange markets involving identical assets and liabilities.

- Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar instruments in active markets; quoted prices and valuations for identical or similar instruments in markets that are not active; and model-based valuation techniques with significant assumptions and inputs that are observable in the market or can be derived principally from or corroborated by observable market data.

- Level 3 – Valuations are derived from model-based techniques that use inputs and significant assumptions that are supported by little or no observable market data. Valuation techniques include the use of pricing models, discounted cash flow models and similar methodologies.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.
Collective investment trust: Valued at the cumulative net asset value of the trust as of the reporting date.
TDIndustries, Inc. common stock: Valued at third party appraised value which approximates book value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
