REPORT OF INDEPENDENT AUDITORS

To the Retirement Plan Committee of
Applied Signal Technology, Inc.
401(k) Retirement Plan
Sunnyvale, California

We were engaged to audit the financial statements and supplemental schedule of Applied Signal Technology, Inc. 401(k) Retirement Plan as of December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the accompanying contents page. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by TransAmerica Financial Life Insurance Company, Inc., the custodian of the Plan, and State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian and trustee hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodian and trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010 that the information provided to the plan administrator by the custodian and trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian and trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

APPLIED SIGNAL TECHNOLOGY, INC. 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Applied Signal Technology, Inc. 401(k) Retirement Plan ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that was adopted January 1, 1987 and covers substantially all employees of Applied Signal Technology, Inc. ("the Company") as defined in the plan document who are not covered by a collective bargaining agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective July 1, 2009, a new prototype plan document was adopted to incorporate recent amendments and legislative changes.

Asset Transfer: Effective November 1, 2010, the AST Services 401(k) Plan was created, pursuant to the Company's establishment of the Government Services employment group. Assets associated with the Government Services employees in the amount of \$2,523,941 was transferred out of the Plan into the AST Services 401(k) Plan on November 3, 2010.

Administration: The Company has appointed an Administrative Committee ("the Committee") to control the operation and administration of the Plan. The Company has contracted with TransAmerica Financial Life Insurance Company, Inc. ("TFLIC") to act as the custodian and State Street Bank and Trust Company ("SSBT"), to act as the trustee and its affiliate, Diversified Investors Advisors Inc., to process and maintain the records of participant data. Certain professional fees related to plan administration are paid by the Company.

Contributions: Each year, participants may contribute, on a pretax basis, a portion of their eligible compensation to the Plan, as defined in the plan document. Participants may also elect to make voluntary after-tax contributions from 1 to 6 percent of compensation. In addition, the Plan accepts transfers and rollovers from other tax-qualified employer-sponsored retirement plans.

The Company may contribute a discretionary non-elective contribution up to 4% of eligible compensation, as defined in the plan document and approved by the Board of Directors. The Plan sponsor elected not to make a discretionary non-elective contribution for the Plan year ended December 31, 2010. The Plan also permits the Company to make a discretionary match contribution each plan year. For the Plan year ended December 31, 2010, the Company elected to make a matching contribution of 75% of elective deferrals on the first 8% of elective deferrals up to 6% of eligible compensation, as defined in the Plan document and approved by the Board of Directors.

Investments: Participants may direct the investment of their accounts into various investment options offered by the Plan on a daily basis. Currently, the Plan offers a guaranteed pooled separate account, a guaranteed investment contract, mutual funds, as well as a personal choice account that allows participants to invest in various other mutual funds, bonds, common stocks, and other investments. The Plan's guaranteed pooled separate account and guaranteed investment contract are held and managed by TFLIC, and the mutual funds and the personal choice account are held by SSBT.

Participant Accounts: Each participant's account is credited with the participant's own contributions, an allocation of earnings, and the Company's contribution, if any. Allocations are based on participants' earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Retirement: A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting: Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in employer contributions plus earnings thereon is based on years of continuous service. A participant is 100% vested after four years of credited service.

Payment of Benefits: Upon separation of service due to termination, death, disability, or retirement, a participant or beneficiary, if applicable, may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments, or various forms of annuities. The Plan may make automatic rollovers of vested account balances that are greater than \$1,000 but not more than \$5,000. Upon attainment of age 59½, participants may also elect to receive pre-retirement distributions from all vested accounts or from employee funds for reasons of hardship. In addition, after-tax contributions may be withdrawn once per plan year.

Notes Receivable from Participants: Participants may borrow from \$1,000 to a maximum of the lesser of \$50,000 or 50 percent of their vested account balance from employee source accounts. The loans are secured by the balance in the participant's account and bear an interest rate that is commensurate with prevailing rates. Principal and interest are repaid ratably through payroll deductions. The maximum loan term is five years, unless the loan is used for the purchase of a principal residence, in which case, the maximum repayment period is ten years. Outstanding loans at December 31, 2010 and 2009 carry interest rates ranging from 3.25% to 9.64%.

Forfeitures: As of December 31, 2010 and 2009, the Plan had \$17,812 and \$35,269, respectively, of forfeited nonvested funds available to reduce future employer contributions to the Plan. During 2010, \$89,821 of forfeitures were used to reduce the Company contribution and \$1,700 were used to offset Plan administrative expenses.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Adoption of New Accounting Standard: In September 2010, the FASB amended existing guidance with respect to the reporting of participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and be measured at their unpaid principal balances plus accrued but unpaid interest. This guidance is effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. Early application is permitted. The adoption of this guidance by the Plan resulted in a reclassification from investments to notes receivable from participants of \$949,871 on the statement of net assets available for benefits as of December 31, 2009. Adoption had no effect on the Plan's net assets available for benefits.

Investment Valuation: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

(Continued)

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in a fully benefit-responsive contract as well as an indirect interest in such contracts through its investment in a guaranteed pooled separate account. No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results may differ from those estimates.

Risks and Uncertainties: The Plan provides for various investments. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Payment of Benefits: Benefits are recorded when paid.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100% vested in their accounts.

**NOTE 4 - CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS –
UNAUDITED INFORMATION**

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by TFLIC, the custodian of the Plan and SSBT, the trustee of the Plan. This information has not been audited by independent accountants.

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by \$11,353,200 as follows:

Mutual funds	\$ 10,920,769
Common stock	444,208
Other	<u>(11,777)</u>
Net appreciation	<u>\$ 11,353,200</u>

During 2010, the Plan's investments earned dividend and interest income of \$2,247,315.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

(Continued)

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds and common stocks: The fair values of mutual fund and common stock investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs).

Guaranteed pooled separate account: The fair values of participation units held in the guaranteed pooled separate account are based on the net asset values reported by the fund managers after an adjustment for a determination penalty under contract termination provisions for the single sum transfer option (level 3 inputs). There are no audited financial statements available. The guaranteed pooled separate account is provided under a group annuity contract issued by TFLIC which provides a guarantee of contract value for participant transactions. The guaranteed pooled separate accounts invests solely in cash, U.S. treasury bills, notes and bonds, Government National Mortgage Association (GNMA) Certificates, Federal Home Loan Mortgage Corporation (FHLMC) Certificates, and Federal National Mortgage Association (FNA) Certificates, and strip payments derived from GNMA, FHLMC, and FNMA Certificates. Participants are generally permitted to make benefit distributions and transfers from the guaranteed pooled separate account to non-competing funds at contract value with transfers not permitted from the guaranteed pooled separate account to the investment contract or fixed income funds. Generally, amounts transferred to a non-fixed income fund may not thereafter be transferred to a fixed income fund for at least three months.

Investment contracts: The fair value of the investment contract has been determined to approximate contract value, based upon their lack of contractual maturities, the frequency of the re-setting of contractual interest rates to market rates, the credit quality of the issuer(s), and the liquidity of the contract (level 3 inputs).

Fixed Income: Fixed income investments include U.S. treasuries and corporate bonds. Fair values of the U.S. treasuries and corporate bonds reflect the closing price reported in the active market in which the securities are traded (level 1 inputs).

Money market deposit accounts: Fair values are estimated to approximate deposit account balances, payable on demand, as no discounts for credit quality or liquidity were determined to be applicable (level 2 inputs). The Plan's investments in money market deposit accounts occasionally exceed federally insured balances.

Certificates of deposit: Certificates of deposit are highly liquid securities with a maturity of less than 3 months. These securities are priced using models that incorporate market-based inputs (level 2 inputs).

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below.

NOTE 6 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan holds two fully benefit-responsive investment contracts with TFLIC, of which one of the holdings is through units of participation in a guaranteed pooled separate account. The guaranteed pooled separate account is not audited by an independent auditor. TFLIC maintains the contributions in its general account for the investment contract for the investment contract and in a separate account for the guaranteed separate account. TFLIC's general account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the Issuer or otherwise.

The Plan's investment contracts specifies certain conditions under which distributions from the contracts would be payable at amounts below contract values. Such circumstances include Plan termination, Plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contracts limit the circumstances under which the Issuer may terminate the contracts. Examples of circumstances which would allow the Issuer to terminate the contracts include the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuer could terminate the contracts at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

The crediting interest rate of the contracts is based on an agreed-upon formula with the Issuer, as defined in the contract agreement, but cannot be less than 2%. Such interest rates are reviewed on a semi-annual basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contracts. The resulting gain or loss in the fair value of the investment contracts relative to its contract value, if any, is reflected in the Statement of Net Assets Available for Benefits as *Adjustment from fair value to contract value for fully benefit-responsive investment contracts*.

	<u>2010</u>	<u>2009</u>
Average yields:		
Based on annualized earnings ⁽¹⁾	2.68%	2.35%
Based on interest rate credited to participants ⁽²⁾	2.68%	2.35%

⁽¹⁾ Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the contract investments on the same date.

⁽²⁾ Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the contract investments on the same date.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any party providing fiduciary services for the Plan, any party rendering services to the Plan, the employer and certain others.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS (Continued)

Certain plan investments in mutual funds, guaranteed pooled separate account, and a guaranteed investment contract are managed by TFLIC or an affiliate of TFLIC. TFLIC is the custodian of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Certain investments of the Plan are in funds managed by Transamerica Asset Management, Inc., an affiliate of Diversified Investment Advisors ("DIA"), which shares common ownership with SSBT, the trustee, and therefore those are considered party in interest investments. In addition, notes receivable from participants also qualify as party-in-interest transactions. Party-in-interest transactions are listed below:

	December 31,	
	<u>2010</u>	<u>2009</u>
TFLIC guaranteed pooled separate account	\$ 1,438,262	\$ 1,509,929
TFLIC guaranteed investment contract	22,733	40,058
Notes receivable from participants	924,097	949,871
Mutual funds	29,111,295	73,756,403

Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Certain professional fees were paid by the Company on behalf of the Plan. The following fees were paid by participants for loan and brokerage account administration from the Plan during 2010:

<u>Identity of Party</u>	<u>Relationship</u>	<u>Amount</u>
Diversified Investment Advisors	Recordkeeper	\$ 9,767

NOTE 8 - TAX STATUS

The Internal Revenue Service issued an opinion letter dated July 16, 2010 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been subsequently amended, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

NOTE 10 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through August 24, 2011, which is the date the financial statements were available to be issued. Effective February 2, 2011, the Plan, through a Plan amendment, changed its name from the Applied Signal Technology, Inc. 401(k) Retirement Plan to the Raytheon Applied Signal Technology, Inc. 401(k) Retirement Plan. Excluding the subsequent event noted above, Plan management has determined that there are no subsequent events to disclose.
